SECTION 2. IC 4-4-11-2, AS AMENDED BY P.L.233-2013,
SECTION 2, IS AMENDED TO READ AS FOLLOWS [EFFECTIVE
JULY 1, 2017]: Sec. 2. (a) The legislature makes the following findings
of fact:
(1) That there currently exists in certain areas of the state critical
conditions of unemployment, inadequate drinking water,
inadequate wastewater and storm water management, or
environmental pollution, including water pollution, air pollution,

1 2	radiation contamination, and noise pollution, and that these
3	conditions may well exist, from time to time, in other areas of the state.
4	(2) That in some areas of the state such conditions are chronic and
5	of long standing and that without remedial measures they may
6	become so in other areas of the state.
7	(3) That economic insecurity due to unemployment, inadequate
8	drinking water, inadequate wastewater and storm water
9	management, or environmental pollution is a menace to the
10	health, safety, morals, and general welfare of not only the people
11	of the affected areas but of the people of the entire state.
12	(4) That involuntary unemployment and its resulting burden of
13	indigency falls with crushing force upon the unemployed worker
14	and ultimately upon the state in the form of public assistance and
15	unemployment compensation.
16	(5) That security against unemployment and the resulting spread
17	of indigency and economic stagnation in the areas affected can
18	best be provided by:
19	(A) the promotion, attraction, stimulation, rehabilitation, and
20	revitalization of industrial development projects, rural
21	development projects, mining operations, and agricultural
22	operations that involve the processing of agricultural products;
23	(B) the promotion and stimulation of international exports; and
24	(C) the education, both formal and informal, of people of all
25	ages throughout the state by the promotion, attraction,
26	construction, renovation, rehabilitation, and revitalization of
27	and assistance to educational facility projects.
28	(6) That the present and prospective health, safety, morals, right
29	to gainful employment, and general welfare of the people of the
30	state require as a public purpose the provision of safe drinking
31	water, the provision of wastewater and storm water management,
32	the abatement or control of pollution, the promotion of increased
33	educational enrichment (including cultural, intellectual, scientific,
34	or artistic opportunities) for people of all ages through new,
35	expanded, or revitalized educational facility projects or through
36	assisting educational facility projects, and the promotion of
37	employment creation or retention through development of new
38	and expanded industrial development projects, rural development

projects, mining operations, and agricultural operations that

(7) That there is a need to stimulate a larger flow of private

investment funds from commercial banks, investment bankers,

involve the processing of agricultural products.

2	into such industrial development projects, rural development
3	projects, mining operations, international exports, and agricultural
4	operations that involve the processing of agricultural products in

6	(8) That the authority can encourage the making of loans or leases
7	for creation or expansion of industrial development projects, rural
8	development projects, mining operations, international exports,
9	and agricultural operations that involve the processing of
10	agricultural products, thus putting a larger portion of the private
11	capital available in Indiana for investment to use in the general
12	economic development of the state.
13	(9) That the issuance of bonds of the authority to create a
14	financing pool for industrial development projects and carrying
15	out the purposes of IC 13-18-13 and IC 13-18-21 promoting a
16	substantial likelihood of opportunities for:
17	(A) gainful employment;
18	(B) business opportunities;
19	(C) educational enrichment (including cultural, intellectual,

21	(D) the abatement, reduction, or prevention of pollution;

23	(F) the provision of wastewater and storm water management;
24	(G) the removal or treatment of any substances in materials
25	being processed that otherwise would cause pollution when
26	used; or
27	(H) increased options for and availability of child care;
28	will improve the health, safety, morals, and general welfare of the
29	people of the state and constitutes a public purpose for which the

8	of the state by the promotion, development, and assistance of

14	including water pollution, air pollution, sewage and solid waste
15	disposal, radioactive waste, thermal pollution, radiation
