(c) An applicant who holds a valid current license, registration or certification in another state, district or territory of the United States shall receive a license, registration or certification:

(1) If the applicant qualifies under the applicable Kansas licensure, registration or certification by endorsement, reinstatement or reciprocity statutes, then pursuant to applicable licensure, registration or certification by endorsement, reinstatement or reciprocity statutes of the licensing body of this state for the license, registration or certification within 15 days from the date a complete application was submitted if the applicant is a military servicemember or military spouse or within 45 days from the date a complete application was submitted for all other applicants; or

(D) has not been disciplined by a licensing, registering, certifying or other credentialing entity in another jurisdiction and is not the subject of an unresolved complaint, review procedure or disciplinary proceeding conducted by a licensing, registering, certifying or other credentialing entity in another jurisdiction nor has surrendered their membership on any professional staff in any professional association or society or faculty for another state or jurisdiction while under investigation or to avoid adverse action for acts or conduct similar to acts or conduct that would constitute grounds for disciplinary action in a Kansas practice act;

No hearing shall be granted to an applicant where such applicant's license, registration or certificate is subject to such automatic revocation or suspension, except for the purpose of establishing the fact of revocation or suspension of the applicant's license, registration or certificate by the applicant's state of residence or jurisdiction in which the applicant held a license, registration or certificate.

(h) In the event the licensing body determines that the license, registration or certificate currently held by an applicant under subsection (c)(2) or the work experience or private credential held by an applicant under subsections (e) or (f), who is a military spouse or military servicemember does not authorize a similar scope of practice as the license, registration or certification issued by the licensing body of this state, the licensing body shall issue a temporary permit for a limited period of time to allow the applicant to lawfully practice the applicant's occupation while completing any specific requirements that are required in this state for licensure, registration or certification that were not required in the state, district or territory of the United States in which the applicant was licensed, registered, certified or otherwise credentialed, unless the licensing body finds, based on specific grounds, that issuing a temporary permit would jeopardize the health and safety of the public.

(i) In the event the licensing body determines that the license, registration or certification currently held by an applicant under subsection (c)(2) or the work experience or private credential held by an applicant under subsections (e) or (f), who is not a military spouse or military servicemember, does not authorize a similar scope of practice as the license, registration or certification issued by the licensing body of this state, the licensing body may issue a temporary permit for a limited period of time to allow the applicant to lawfully practice the applicant's occupation while completing any specific requirements that are required in this state for licensure, registration or certification that was not required in the state, district or territory of the United States in which the applicant was licensed, registered, certified or otherwise credentialed, unless the licensing body finds, based on specific grounds, that issuing a temporary permit would jeopardize the health and safety of the public.

(l) Nothing in this section shall be construed to apply in conflict with or in a manner inconsistent with federal law or a multistate

compact, or a rule or regulation or a reciprocal or other applicable statutory provision that would allow an applicant to receive a license. Nothing in this section shall be construed as prohibiting a licensing body from denying any application for licensure, registration or certification, or declining to grant a temporary or probationary license, if the licensing body determines that granting the application may jeopardize the health and safety of the public.

(m) Nothing in this section shall be construed to be in conflict with any applicable Kansas statute defining the scope of practice of an occupation. The scope of practice as provided by Kansas law shall apply to applicants under this section.

(n) Notwithstanding any other provision of law, during a state of emergency declared by the legislature, a licensing body may grant a temporary emergency license to practice any profession licensed, certified, registered or regulated by the licensing body to an applicant whose qualifications the licensing body determines to be sufficient to protect health and safety of the public and may prohibit any unlicensed person from practicing any profession licensed, certified, registered or regulated by the licensing body.
