

1 AN ACT relating to resource recovery.

2 ***Be it enacted by the General Assembly of the Commonwealth of Kentucky:***

3 ➔Section 1. KRS 224.1-010 is amended to read as follows:

4 As used in this chapter unless the context clearly indicates otherwise:

- 5 (1) "Air contaminant" includes smoke, dust, soot, grime, carbon, or any other
6 particulate matter, radioactive matter, noxious acids, fumes, gases, odor, vapor, or
7 any combination thereof;
- 8 (2) "Air contaminant source" means any and all sources of emission of air
9 contaminants, whether privately or publicly owned or operated. Without limiting
10 the generality of the foregoing, this term includes all types of business, commercial
11 and industrial plants, works, shops, and stores, and heating and power plants and
12 stations, buildings and other structures of all types, including single and multiple
13 family residences, apartments, houses, office buildings, public buildings, hotels,
14 restaurants, schools, hospitals, churches, and other institutional buildings,
15 automobiles, trucks, tractors, buses and other motor vehicles, garages and vending
16 and service locations and stations, railroad locomotives, ships, boats and other
17 waterborne craft, portable fuel-burning equipment, incinerators of all types (indoor
18 and outdoor), refuse dumps and piles, and all stack and other chimney outlets from
19 any of the foregoing;
- 20 (3) "Air pollution" means the presence in the outdoor atmosphere of one (1) or more air
21 contaminants in sufficient quantities and of such characteristics and duration as is or
22 threatens to be injurious to human, plant, or animal life, or to property, or which
23 unreasonably interferes with the comfortable enjoyment of life or property;
- 24 (4) "Closure" means the time at which a waste treatment, storage, or disposal facility
25 permanently ceases to accept wastes, and includes those actions taken by the owner
26 or operator of the facility to prepare the site for post-closure monitoring and
27 maintenance or to make it suitable for other uses;

- 1 (5) "Compost" means solid waste which has undergone biological decomposition of
2 organic matter, been disinfected using composting or similar technologies, been
3 stabilized to a degree which is potentially beneficial to plant growth and which is
4 approved for use or sale as a soil amendment, artificial topsoil, growing medium
5 amendment, or other similar uses;
- 6 (6) "Composting" means the process by which biological decomposition of organic
7 solid waste is carried out under controlled aerobic conditions, and which stabilizes
8 the organic fraction into a material which can easily and safely be stored, handled,
9 and used in an environmentally acceptable manner:
- 10 (a) "Composting" may include a process which creates an anaerobic zone within
11 the composting material;
- 12 (b) "Composting" does not include simple exposure of solid waste under
13 uncontrolled conditions resulting in natural decay;
- 14 (7) "Demonstration" means the initial exhibition of a new technology, process or
15 practice or a significantly new combination or use of technologies, processes or
16 practices, subsequent to the development stage, for the purpose of proving
17 technological feasibility and cost effectiveness;
- 18 (8) "Cabinet" means the Energy and Environment Cabinet;
- 19 (9) "Disposal" means the discharge, deposit, injection, dumping, spilling, leaking, or
20 placing of any waste into or on any land or water so that such waste or any
21 constituent thereof may enter the environment or be emitted into the air or
22 discharged into any waters, including ground waters;
- 23 (10) "District" means an air pollution control district as provided for in KRS Chapter 77;
- 24 (11) "Effluent limitations" means any restrictions or prohibitions established under state
25 law which include, but are not limited to, effluent limitations, standards of
26 performance for new sources, and toxic effluent standards on quantities, rates, and
27 concentrations of chemical, physical, biological, and other constituents which are

- 1 discharged into waters;
- 2 (12) "Generator" means any person, by site, whose act or process produces waste;
- 3 (13) "Materials recovery facility" means a solid waste management facility that provides
4 for the extraction from solid waste of recyclable materials, materials suitable for use
5 as a fuel or soil amendment, or any combination of those materials;
- 6 (14) "Municipal solid waste disposal facility" means any type of waste site or facility
7 where the final deposition of any amount of municipal solid waste occurs, whether
8 or not mixed with or including other waste allowed under Subtitle D of the Federal
9 Resource Conservation and Recovery Act of 1976, as amended, and includes, but is
10 not limited to, incinerators and waste-to-energy facilities that burn municipal solid
11 waste, and contained and residential landfills, but does not include *an advanced*
12 *recycling facility or* a waste site or facility which is operated exclusively by a solid
13 waste generator on property owned by the solid waste generator which accepts only
14 industrial solid waste from the solid waste generator or industrial solid waste
15 generated at another facility owned and operated by the generator or wholly-owned
16 subsidiary, or a medical waste incinerator which is owned, operated, and located on
17 the property of a hospital or university which is regulated by the cabinet and used
18 for the purpose of treatment, prior to landfill, of medical waste received from the
19 generator exclusively or in combination with medical waste generated by
20 professionals or facilities licensed or regulated or operated by the Commonwealth;
- 21 (15) "Municipal solid waste reduction" means source reduction, waste minimization,
22 reuse, recycling, composting, and materials recovery;
- 23 (16) "Person" means an individual, trust, firm, joint stock company, corporation
24 (including a government corporation), partnership, association, federal agency, state
25 agency, city, commission, political subdivision of the Commonwealth, or any
26 interstate body;
- 27 (17) "Post-closure monitoring and maintenance" means the routine care, maintenance,

1 and monitoring of a solid waste or hazardous waste treatment, storage, or disposal
2 facility following closure of the facility;

3 (18) "Publicly owned treatment works" means any device or system used in the treatment
4 (including recycling and recovery) of municipal sewage or industrial wastes of a
5 liquid nature which is owned by the Commonwealth or a political subdivision of the
6 Commonwealth;

7 (19) "Recovered material" means those materials, including but not limited to compost,
8 which have known current use, reuse, or recycling potential, which can be feasibly
9 used, reused, or recycled, and which have been diverted or removed from the solid
10 waste stream for sale, use, reuse, or recycling, whether or not requiring subsequent
11 separation and processing, but does not include materials diverted or removed for
12 purposes of energy recovery or combustion except refuse-derived fuel (RDF), which
13 shall be credited as a recovered material in an amount equal to that percentage of
14 the municipal solid waste received on a daily basis at the processing facility and
15 processed into RDF; but not to exceed fifteen percent (15%) of the total amount of
16 the municipal solid waste received at the processing facility on a daily basis.
17 Notwithstanding any provision of law to the contrary, tire-derived fuel, as defined in
18 subsection (53) of this section, shall be considered a recovered material;

19 (20) "Recovered material processing facility" means a facility engaged solely in the
20 storage, processing, and resale or reuse of recovered material, but does not mean a
21 solid waste management facility if solid waste generated by a recovered material
22 processing facility is managed pursuant to this chapter and administrative
23 regulations adopted by the cabinet;

24 (21) "Recycling" means any process by which materials which would otherwise become
25 solid waste are collected, separated, or processed and reused or returned to use in
26 the form of raw materials or products, including refuse-derived fuel when processed
27 in accordance with administrative regulations established by the cabinet, but does

- 1 not include the incineration or combustion of materials for the recovery of energy;
- 2 (22) "Refuse-derived fuel" means a sized, processed fuel product derived from the
3 extensive separation of municipal solid waste, which includes the extraction of
4 recoverable materials for recycling and the removal of nonprocessables such as dirt
5 and gravel prior to processing the balance of the municipal solid waste into the
6 refuse-derived fuel product;
- 7 (23) "Secretary" means the secretary of the Energy and Environment Cabinet;
- 8 (24) "Sewage system" means individually or collectively those constructions or devices
9 used for collecting, pumping, treating, and disposing of liquid or waterborne
10 sewage, industrial wastes, or other wastes;
- 11 (25) "Termination" means the final actions taken by the cabinet as to a solid waste or
12 hazardous waste treatment, storage, or disposal facility when formal responsibilities
13 for post-closure monitoring and maintenance cease;
- 14 (26) "Waste site or facility" means any place where waste is managed, processed, or
15 disposed of by incineration, landfilling, or any other method, but does not include a
16 container located on property where solid waste is generated and which is used
17 solely for the purpose of collection and temporary storage of that solid waste prior
18 to off-site disposal, or a recovered material processing facility, *or an advanced*
19 *recycling facility*, or the combustion of processed waste in a utility boiler;
- 20 (27) "Storage" means the containment of wastes, either on a temporary basis or for a
21 period of years, in such a manner as not to constitute disposal of such wastes;
- 22 (28) "Transportation" means any off-site movement of waste by any mode, and any
23 loading, unloading, or storage incidental thereto;
- 24 (29) "Treatment" means any method, technique, or process, including neutralization,
25 designed to change the physical, chemical, or biological character or composition of
26 any waste so as to neutralize such waste or so as to render such waste
27 nonhazardous, safer for transport, amenable for recovery, amenable for storage, or

1 reduced in volume. Such term includes any activity or processing designed to
2 change the physical form or chemical composition of hazardous waste so as to
3 render it nonhazardous;

4 (30) "Waste" means:

5 (a) "Solid waste" means any garbage, refuse, sludge, and other discarded material,
6 including solid, liquid, semi-solid, or contained gaseous material resulting
7 from industrial, commercial, mining (excluding coal mining wastes, coal
8 mining by-products, refuse, and overburden), agricultural operations, and from
9 community activities, but does not include those materials including, but not
10 limited to, sand, soil, rock, gravel, or bridge debris extracted as part of a
11 public road construction project funded wholly or in part with state funds,
12 recovered material, post-use polymers or recovered feedstocks, tire-derived
13 fuel, special wastes as designated by KRS 224.50-760, solid or dissolved
14 material in domestic sewage, manure, crops, crop residue, or a combination
15 thereof which are placed on the soil for return to the soil as fertilizers or soil
16 conditioners, or solid or dissolved material in irrigation return flows or
17 industrial discharges which are point sources subject to permits under Section
18 402 of the Federal Water Pollution Control Act, as amended (86 Stat. 880), or
19 source, special nuclear, or by-product material as defined by the Atomic
20 Energy Act of 1954, as amended (68 Stat. 923):

21 1. "Household solid waste" means solid waste, including garbage and trash
22 generated by single and multiple family residences, hotels, motels,
23 bunkhouses, ranger stations, crew quarters, and recreational areas such
24 as picnic areas, parks, and campgrounds, but it does not include tire-
25 derived fuel;

26 2. "Commercial solid waste" means all types of solid waste generated by
27 stores, offices, restaurants, warehouses, and other service and

- 1 nonmanufacturing activities, excluding tire-derived fuel and household
2 and industrial solid waste;
- 3 3. "Industrial solid waste" means solid waste generated by manufacturing
4 or industrial processes that is not a hazardous waste or a special waste as
5 designated by KRS 224.50-760, including, but not limited to, waste
6 resulting from the following manufacturing processes: electric power
7 generation; fertilizer or agricultural chemicals; food and related products
8 or by-products; inorganic chemicals; iron and steel manufacturing;
9 leather and leather products; nonferrous metals manufacturing/foundries;
10 organic chemicals; plastics and resins manufacturing; pulp and paper
11 industry; rubber and miscellaneous plastic products, except tire-derived
12 fuel; stone, glass, clay, and concrete products; textile manufacturing;
13 transportation equipment; and water treatment; and
- 14 4. "Municipal solid waste" means household solid waste and commercial
15 solid waste; and
- 16 (b) "Hazardous waste" means any discarded material or material intended to be
17 discarded or substance or combination of such substances intended to be
18 discarded, in any form which because of its quantity, concentration or
19 physical, chemical or infectious characteristics may cause, or significantly
20 contribute to an increase in mortality or an increase in serious irreversible, or
21 incapacitating reversible, illness or pose a substantial present or potential
22 hazard to human health or the environment when improperly treated, stored,
23 transported, or disposed of, or otherwise managed;
- 24 (31) "Waste management district" means any county or group of counties electing to
25 form under the provisions of KRS Chapter 109 and operate in conformance with the
26 provisions of KRS Chapter 109 and with Section 4006, Resource Conservation and
27 Recovery Act of 1976, as amended (Public Law 94-580);

- 1 (32) "Water" or "waters of the Commonwealth" means and includes any and all rivers,
2 streams, creeks, lakes, ponds, impounding reservoirs, springs, wells, marshes, and
3 all other bodies of surface or underground water, natural or artificial, situated
4 wholly or partly within or bordering upon the Commonwealth or within its
5 jurisdiction;
- 6 (33) "Water pollution" means the alteration of the physical, thermal, chemical,
7 biological, or radioactive properties of the waters of the Commonwealth in such a
8 manner, condition, or quantity that will be detrimental to the public health or
9 welfare, to animal or aquatic life or marine life, to the use of such waters as present
10 or future sources of public water supply or to the use of such waters for recreational,
11 commercial, industrial, agricultural, or other legitimate purposes;
- 12 (34) "Pollutant" means and includes dredged spoil, solid waste, incinerator residue,
13 sewage, sewage sludge, garbage, chemical, biological or radioactive materials, heat,
14 wrecked or discarded equipment, rock, sand, soil, industrial, municipal or
15 agricultural waste, and any substance resulting from the development, processing,
16 or recovery of any natural resource which may be discharged into water;
- 17 (35) "NPDES" means National Pollutant Discharge Elimination System;
- 18 (36) "Manifest" means the form used for identifying the quantity, composition, and the
19 origin, routing, and destination of waste during its transportation from the point of
20 generation to the point of disposal, treatment, or storage;
- 21 (37) "Open dump" means any facility or site for the disposal of solid waste which does
22 not have a valid permit issued by the cabinet or does not meet the environmental
23 performance standards established under regulations promulgated by the cabinet;
- 24 (38) "Solid waste management" means the administration of solid waste activities:
25 collection, storage, transportation, transfer, processing, treatment, and disposal,
26 which shall be in accordance with a cabinet-approved county or multicounty solid
27 waste management plan;

- 1 (39) "Solid waste management area" or "area" means any geographical area established
2 or designated by the cabinet in accordance with the provisions of this chapter;
- 3 (40) "Solid waste management facility" means any facility for collection, storage,
4 transportation, transfer, processing, treatment, or disposal of solid waste, whether
5 such facility is associated with facilities generating such wastes or otherwise, but
6 does not include a container located on property where solid waste is generated and
7 which is used solely for the purpose of collection and temporary storage of that
8 solid waste prior to off-site disposal, or a recovered material processing facility or
9 advanced recycling facility, both of which are otherwise ~~is~~ subject to regulation
10 pursuant to ~~this~~the chapter for control of environmental impacts and to prevent
11 any public nuisance;
- 12 (41) "Hazardous constituent" shall conform to the requirements of the Resource
13 Conservation and Recovery Act (RCRA), as amended;
- 14 (42) "Land disposal" includes but is not limited to any placement of hazardous waste in a
15 landfill, surface impoundment, waste pile, injection well, land treatment facility,
16 salt dome formation, salt bed formation, or underground mine or cave;
- 17 (43) "Key personnel" means an officer, partner, director, manager, or shareholder of five
18 percent (5%) or more of stock or financial interest in a corporation, partnership, or
19 association or parent, subsidiary, or affiliate corporation and its officers, directors,
20 or shareholders of five percent (5%) or more of stock or financial interest;
- 21 (44) "Universal collection" means a municipal solid waste collection system which is
22 established by ordinance and approved by the cabinet and requires access for each
23 household or solid waste generator in a county. A commercial or industrial entity
24 which transports or contracts for the transport of the municipal solid waste it
25 generates or which operates a solid waste management facility for its exclusive use
26 may be excluded from participation;
- 27 (45) "Governing body" means a county, a waste management district, an entity created

1 pursuant to the Interlocal Cooperation Act, a taxing district created pursuant to the
2 provisions of KRS 65.180 to 65.192, a special district created pursuant to the
3 provisions of KRS 65.160 to 65.176, or counties acting under contract pursuant to
4 KRS 109.082;

5 (46) "Convenience center" means a facility that is manned during operating hours for the
6 collection and subsequent transportation of municipal solid wastes;

7 (47) "Transfer facility" means any transportation related facility including loading docks,
8 parking areas, and other similar areas where shipments of solid waste are held or
9 transferred during the normal course of transportation;

10 (48) "Collection box" means an unmanned receptacle utilized to collect municipal solid
11 waste;

12 (49) "Newsprint" means that class or kind of paper chiefly used for printing newspapers
13 and weighing more than twenty-four and one-half (24 1/2) pounds, but less than
14 thirty-five (35) pounds for five hundred (500) sheets of paper two (2) feet by three
15 (3) feet in size, on rolls that are not less than thirteen (13) inches wide and twenty-
16 eight (28) inches in diameter and having a brightness of less than sixty (60);

17 (50) "Postconsumer waste paper" means discarded paper after it has served its intended
18 use by a publisher;

19 (51) "Publisher" means a person engaged in the business of publishing newspapers,
20 advertisement flyers, telephone books, and other printed material;

21 (52) "Recycled content" means the proportion of fiber in newsprint that is derived from
22 postconsumer waste paper;

23 (53) "Tire-derived fuel" or "TDF" means a product made from waste tires to the exact
24 specifications of a system designed to accept tire-derived fuel as a primary or
25 supplemental fuel source, that have been reduced to particle sizes not greater than
26 two (2) inches by two (2) inches and that is destined for transportation from the
27 waste tire processor for use as a fuel. "Tire-derived fuel" shall not mean refuse-

1 derived fuel;~~and~~

2 (54) "Industrial energy facility" means a facility that produces transportation fuels,
3 synthetic natural gas, chemicals, or electricity through a gasification process using
4 coal, coal waste, or biomass resources, and costing in excess of seven hundred fifty
5 million dollars (\$750,000,000) at the time of construction;

6 (55) "Advanced recycling" means a manufacturing process for the conversion of
7 post-use polymers and recovered feedstocks into basic hydrocarbon raw
8 materials, feedstocks, chemicals, and other products through processes that
9 include pyrolysis, gasification, depolymerization, catalytic cracking, reforming,
10 hydrogenation, solvolysis, and other similar technologies. "Advanced recycling"
11 does not include energy recovery or the conversion of post-use polymers into fuel
12 substitutes for use in energy production;

13 (56) "Advanced recycling facility" means a manufacturing facility, which is subject to
14 inspections by the cabinet, that receives, stores, and converts post-use polymers
15 and recovered feedstocks it receives using advanced recycling;

16 (57) "Depolymerization" means a manufacturing process where post-use polymers
17 are broken into smaller molecules such as monomers and oligomers or raw,
18 intermediate, or final products, plastics and chemical feedstocks, basic and
19 unfinished chemicals, waxes, lubricants, coatings, and other basic hydrocarbons;

20 (58) "Gasification" means a process through which post-use polymers and recovered
21 feedstocks are heated and converted into a fuel and gas mixture in an oxygen-
22 deficient atmosphere, and then converted into raw, intermediate, and final
23 products;

24 (59) "Post-use polymer" means a plastic polymer that:

25 (a) Is derived from any industrial, commercial, agricultural, or domestic
26 activities;

27 (b) Is not mixed with solid waste or hazardous waste onsite or during

1 processing at the advanced recycling facility;

2 (c) Has a use or intended use as a feedstock for the manufacturing of other
3 feedstocks, raw materials, intermediate products, or final products using
4 advanced recycling;

5 (d) Has been sorted from solid waste and other regulated waste, but may
6 contain residual amounts of solid waste and incidental contaminants or
7 impurities; and

8 (e) Is processed at an advanced recycling facility or held at such facility prior to
9 processing;

10 (60) "Pyrolysis" means a manufacturing process through which post-use polymers
11 are heated in the absence of oxygen until melted and thermally decomposed, and
12 are then cooled, condensed, and converted into raw materials, intermediate
13 products, or final products;

14 (61) (a) "Recovered feedstock" means one (1) or more of the following materials
15 that has been processed so that it may be used as feedstock in an advanced
16 recycling facility:

17 1. Post-use polymers; and

18 2. Materials for which the United States Environmental Protection
19 Agency has made a nonwaste determination pursuant to applicable
20 federal requirements or has otherwise determined are feedstocks and
21 not solid waste;

22 (b) "Recovered feedstock" does not include:

23 1. Unprocessed municipal solid waste; or

24 2. Material that is mixed with solid waste or hazardous waste onsite or
25 during processing at an advanced recycling facility; and

26 (62) "Solvolysis" means a manufacturing process through which post-use polymers
27 are purified with the aid of solvents while heated at low temperatures or

1 *pressurized to make raw materials, intermediate products, or final products, while*
2 *allowing additives and contaminants to be removed. "Solvolysis" includes but is*
3 *not limited to hydrolysis, aminolysis, ammonolysis, methanolysis, and glycolysis.*

4 ➔Section 2. KRS 109.012 is amended to read as follows:

5 As used in this chapter, unless the context requires otherwise:

- 6 (1) "Board of directors" or "board" means the governing body of a solid waste
7 management district;
- 8 (2) "City" means an existing city of any class;
- 9 (3) "County" means the governing body of a county, including urban-county
10 governments;
- 11 (4) "Cabinet" means the Energy and Environment Cabinet;
- 12 (5) "Franchise" means a franchise, contract, right, authorization, or privilege granted by
13 a local government for provision of solid waste management services;
- 14 (6) "Local government" means a city, county, urban-county government, charter county
15 government, consolidated local government, or unified local government or a solid
16 waste management district created pursuant to KRS Chapter 109;
- 17 (7) "Long-term contract" means a contract of sufficient duration to assure the viability
18 of a resource recovery facility to the extent that such viability depends upon solid
19 waste supply;
- 20 (8) "Recovered material" means those materials which have known current use, reuse,
21 or recycling potential, which can be feasibly used, reused, or recycled, and which
22 have been diverted or removed from the solid waste stream for sale, use, reuse, or
23 recycling, whether or not requiring subsequent separation and processing, but does
24 not include materials diverted or removed for purposes of energy recovery or
25 combustion except refuse-derived fuel (RDF), which shall be credited as a
26 recovered material in an amount equal to that percentage of the municipal solid
27 waste received on a daily basis at the processing facility and processed into RDF;

- 1 but not to exceed fifteen percent (15%) of the total amount of the municipal solid
2 waste received at the processing facility on a daily basis;
- 3 (9) "Recovered material processing facility" means a facility engaged solely in the
4 storage, processing, and resale or reuse of recovered material but does not mean a
5 solid waste management facility if solid waste generated by a recovered material
6 processing facility is managed pursuant to KRS Chapter 224 and administrative
7 regulations adopted by the cabinet;
- 8 (10) "Person" means an individual, trust, firm, joint stock company, corporation
9 (including a government corporation), partnership, association, federal agency, state
10 agency, city, commission, political subdivision of the Commonwealth, or any
11 interstate body;
- 12 (11) "Service company" means any person or entity duly authorized by an agency of the
13 Commonwealth of Kentucky pursuant to the Kentucky Revised Statutes, or
14 administrative regulations promulgated thereunder, for the provision of solid waste
15 management services;
- 16 (12) "Solid waste" means any garbage, refuse, sludge, and other discarded material,
17 including solid, liquid, semisolid, or contained gaseous material resulting from
18 industrial, commercial, mining (excluding coal mining waste, coal mining by-
19 products, refuse and overburden), agricultural operations, and from community
20 activities, but does not include those materials including but not limited to sand,
21 soil, rock, gravel, or bridge debris extracted as part of a public road construction
22 project funded wholly or in part with state funds, recovered material, post-use
23 polymers or recovered feedstocks as those terms are defined in Section 1 of this
24 Act, special wastes as designated by KRS 224.50-760, solid or dissolved material in
25 domestic sewage, manure, crops, crop residue, or a combination thereof which are
26 placed on the soil for return to the soil as fertilizers or soil conditions, or solid or
27 dissolved materials in irrigation return flows or industrial discharges which are

1 point sources subject to permits under Section 402 of the Federal Water Pollution
2 Control Act, as amended (86 Stat. 880), or source, special nuclear, or by-product
3 material as defined by the Atomic Energy Act of 1954, as amended (68 Stat. 923).

4 (a) "Household solid waste" means solid waste, including garbage and trash
5 generated by single and multiple family residences, hotels, motels, bunk
6 houses, ranger stations, crew quarters, and recreational areas such as picnic
7 areas, parks, and camp grounds;

8 (b) "Commercial solid waste" means all types of solid waste generated by stores,
9 offices, restaurants, warehouses, and other service and nonmanufacturing
10 activities, excluding household and industrial solid waste;

11 (c) "Industrial solid waste" means solid waste generated by manufacturing or
12 industrial processes that is not a hazardous waste or a special waste as
13 designated by KRS 224.50-760, including but not limited to waste resulting
14 from the following manufacturing processes: electric power generation;
15 fertilizer or agricultural chemicals; food and related products or by-products;
16 inorganic chemicals; iron and steel manufacturing; leather and leather
17 products; nonferrous metals manufacturing/foundries; organic chemicals;
18 plastics and resins manufacturing; pulp and paper industry; rubber and
19 miscellaneous plastic products; stone, glass, clay, and concrete products;
20 textile manufacturing; transportation equipment; and water treatment; and

21 (d) "Municipal solid waste" means household solid waste and commercial solid
22 waste;

23 (13) "Solid waste management" or "solid waste management services" means the
24 administration of solid waste activities: collection, storage, transportation, transfer,
25 processing, treatment, and disposal, which shall be in accordance with a cabinet
26 approved county or multicounty solid waste management plan of the cabinet. For
27 the purposes of subsection (5) of this section and KRS 109.0417, "solid waste

1 management services" additionally includes collection, storage, transportation,
2 transfer, processing, treatment, and disposal of special wastes, as designated by
3 KRS 224.50-760, and recovered material, **but does not include advanced recycling**
4 **as defined in Section 1 of this Act;**

5 (14) "Solid waste management area" or "area" means any geographical area established
6 or, designated by the cabinet in accordance with the provisions of KRS Chapter
7 224;

8 (15) "Solid waste management facility" means any facility for collection, storage,
9 transportation, transfer, processing, treatment, or disposal of solid waste, whether
10 such facility is associated with facilities generating such wastes or otherwise, but
11 does not include a container located on property where solid waste is generated and
12 which is used solely for the purpose of collection and temporary storage of that
13 solid waste prior to off-site disposal, or a recovered material processing facility
14 which is subject to regulation pursuant to the chapter for control of environmental
15 impacts and to prevent any public nuisance, **or an advanced recycling facility as**
16 **defined in Section 1 of this Act;** and

17 (16) "Waste management district" means any county or group of counties electing to
18 form under the provisions of KRS 109.115 and operate in conformance with the
19 provisions of this chapter and with Section 4006 of the Resource Conservation and
20 Recovery Act of 1976, as amended (P.L. 94-580).

21 ➔Section 3. Nothing in this Act shall be construed as creating additional entities,
22 equipment, or processes eligible to receive tax credits pursuant to KRS 141.390.
