7 WHEREAS, thousands of individuals are able to more fully participate in their
8 communities and homes as a result of the SCL waiver services and other identical
9 services provided by SCL providers under similar waivers; and

10 WHEREAS, Supports for Community Living waiver services, and other identical
11 waiver services, have played an important role in preventing or curtailing Medicaid cost
12 growth while providing these essential services; and

13 WHEREAS, private providers that provide SCL waiver services or services

19 including more than 2,400 in the Supports for Community Living Waiver Program alone;
20 and

22 increases and current wage and benefit levels in the Supports for Community Living
23 waiver when setting reimbursement rates has not been followed; and

24 WHEREAS, a 5.5 percent tax has been assessed on providers of SCL services or
25 services identical to SCL services provided under similar waivers since 2004; and

6 WHEREAS, funds received from the 2004 statute establishing the 5.5 percent tax
7 have apparently only been used within the Medicaid general fund and have not been
