

1 A JOINT RESOLUTION directing the Council on Postsecondary Education to  
2 conduct a feasibility study on transforming the Hazard Community and Technical  
3 College into a four-year, residential university.

4 WHEREAS, during the 2023 Regular Session, Senate Joint Resolution 98 was  
5 passed by the General Assembly to direct the Council on Postsecondary Education to  
6 study the impact and feasibility of establishing a regional, residential, four-year public  
7 university in southeastern Kentucky; and

8 WHEREAS, the Council on Postsecondary Education conducted a study and  
9 reported its findings to the Legislative Research Commission; and

10 WHEREAS, in that report, the Council reported an option for consideration that  
11 would expand the Hazard Community and Technical College into a stand-alone, four-  
12 year, residential university offering limited technical and baccalaureate programs; and

13 WHEREAS, the General Assembly requires detailed information for a potential  
14 transformation of the Hazard Community and Technical College into a four-year,  
15 residential university;

16 NOW, THEREFORE,

17 ***Be it resolved by the General Assembly of the Commonwealth of Kentucky:***

18 ➔Section 1. The Council on Postsecondary Education shall conduct a feasibility  
19 study on transforming the Hazard Community and Technical College into a four-year,  
20 residential university that offers specific technical and baccalaureate programs. The  
21 Council shall consult with the college and the Kentucky Community and Technical  
22 College System as necessary to gather information and conduct analysis in support of the  
23 study. The Council shall study the following, and develop specific recommendations for  
24 the General Assembly to consider for action during the 2025 Regular Session:

25 (1) A potential annual budget for the transition and initial establishment of the  
26 university's operation that identifies:

27 (a) One-time costs associated with the transformation including construction of

1 new facilities required for the institution to function, including but not limited to facilities  
2 for student housing and food service;

3 (b) The various revenues that the institution could expect to generate based on  
4 both conservative and moderate growth scenarios;

5 (c) The projected recurring costs, including retirement and health care for  
6 employees;

7 (d) Anticipated tuition and fee charges, and projected gross and net tuition and  
8 fee revenue;

9 (e) Federal funds that the institution would access or seek; and

10 (f) Private funds that the institution would solicit or seek;

11 (2) A governance plan for the institution based on the statutes and administrative  
12 regulations that currently govern other comprehensive universities as defined in KRS  
13 164.001;

14 (3) How the college's current satellite campuses can be best utilized, including  
15 but not limited to incorporating them into the new institution or maintaining them in the  
16 Kentucky Community and Technical College system;

17 (4) Demand for the institution's academic programs and services within the  
18 projected service area by soliciting input from potential students and area employers;

19 (5) The curricular offerings of the institution that addresses:

20 (a) Whether any of the current college's programs would be discontinued and  
21 which programs the new institution would offer, including specific baccalaureate  
22 programs to be offered; and

23 (b) How the institution could continue to utilize the University Center of the  
24 Mountains and other joint consortiums with other postsecondary institutions to  
25 supplement the institution's in-person, remote, and online programs;

26 (6) How student financial aid would be offered, and the tuition and fee rates that  
27 may be charged to best ensure accessibility for the residents of the region;

1           (7) How the state postsecondary education budget would need to be adjusted to  
2 account for the transformation;

3           (8) What extracurricular and interscholastic programs should initially be offered  
4 to students, including athletics programs, and the potential costs and revenues the  
5 institution may incur from those offerings; and

6           (9) A proposed implementation timeline for the transition and establishment of  
7 the institution that incorporates the study items in subsections (1) to (8) of this section.

8           ➔Section 2. The results of the study and recommendations required by Section 1  
9 of this Joint Resolution shall be submitted to the Legislative Research Commission by  
10 December 1, 2024, for referral to the Interim Joint Committee on Education and the  
11 Interim Joint Committee on Appropriations and Revenue.
