EXPENDITURE EXPLANATION

Local fund expenditures may increase by approximately \$3,500 annually.

According to officials with Waterworks District No. 3 of Rapides Parish (the District), operating the newly acquired water system will increase expenditures by an estimated \$3,500 annually (labor costs and maintenance).

REVENUE EXPLANATION

Local fund revenue may increase by approximately \$18,000 annually.

According to officials with the District, acquiring the privately owned water system is anticipated to increase revenue by approximately \$18,000 annually. The calculation is based on 162 currently active meters at the average monthly charge per meter of \$34 (162 x \$34 = approximately \$5,500). The District currently sells water to the privately owned system at an average of \$4,000 per month. Therefore the net increase in annual revenue to the District would be \$18,000. (\$5,500 - \$4,000 = \$1,500 x 12 months = \$18,000 annually).
