DIGEST

SB 294 Original

2016 Regular Session

White

Present law provides that all personally identifiable information is protected as a right to privacy under the state and federal constitutions. Provides that "personally identifiable information" is information about an individual that can be used on its own or with other information to identify, contact, or locate a single individual. Provides that "personally identifiable information" includes, among other things, information that can be used to distinguish or trace an individual's identity such as full name, social security number, date and place of birth, mother's maiden name, or biometric records and information that is linked or linkable to an individual such as medical, educational, financial, and employment information.

Proposed law retains present law.

Present law, beginning August 1, 2015, prohibits any official or employee of a local public school system from providing personally identifiable student information to any other person or public or private entity.

Present law provides for exceptions, including that, in accordance with applicable present law, certain information may be provided to the local school board, the state Dept. of Education, or the Board of Elementary and Secondary Education for limited purposes including reporting, monitoring, auditing, and accountability.

Present law specifies that nothing in present law shall prohibit a person employed in a public school or other person authorized by the superintendent of the public school or school system from being provided or having access to a student's records in accordance with a policy adopted by the local public school board for such purpose.

Proposed law retains present law and requires each local public school board to adopt a policy for the release of student information in case of a health or safety emergency. Requires the policy to contain at a minimum specifications of circumstances that constitute such emergencies and a list of persons to whom the information may be disclosed in those circumstances. Further requires the policy to limit the information to be disclosed to the minimum necessary to address the emergency.

Proposed law authorizes the release of student information pursuant to the policy adopted in accordance with proposed law.

Effective upon signature of the governor or lapse of time for gubernatorial action.

(Amends R.S. 17:3914(H); adds R.S. 17:3914(C)(2)(f))
