2016 Second Extraordinary Session

HOUSE BILL NO. 2

BY REPRESENTATIVE ABRAMSON

CAPITAL OUTLAY: Provides for the comprehensive Capital Outlay budget (Item #3)

1 AN ACT

2 To provide with respect to the capital outlay budget and the capital outlay program for state  
3 government, state institutions, and other public entities; to provide for the designation  
4 of projects and improvements; to provide for the financing thereof making  
5 appropriations from certain sources; and to provide for related matters.

6 Be it enacted by the Legislature of Louisiana:

7 Section 1. The following sums or so much thereof as may be necessary are hereby  
8 appropriated out of any monies in the state treasury from the sources specified, from federal  
9 funds and self-generated revenues belonging to the state of Louisiana and/or collected by  
10 boards, commissions, departments, and agencies thereof, all for making capital outlay and  
11 for the purposes and in the amounts specified herein for the Fiscal Year commencing July  
12 1, 2016, and ending June 30, 2017, subject to the conditions thereafter provided:

13 A project with funding payable from General Obligation Bonds Priority 1 indicates that  
14 the funding for the project includes the reauthorization of funding which was previously on  
15 a line of credit granted by the State Bond Commission in Fiscal Year 2015-2016. As used  
16 in this Section, the term "general obligation bonds" means state general obligation bonds or  
17 other evidences of indebtedness payable from the Bond Security and Redemption Fund. The  
18 amount set forth in this Section opposite each project, or so much thereof as may be  
19 necessary, is hereby appropriated and payable from the proceeds available from the sale of  
20 general obligation bonds, unless a different source of funding is indicated. Where such a  
21 different source of funding is indicated, the corresponding amount set forth, or so much

1 thereof as may be necessary, is hereby appropriated and payable from the source of funding  
2 indicated; provided, however, amounts appropriated and payable from federal funds may be  
3 encumbered or expended only to the extent such amounts shall have been committed or  
4 received. Pursuant to the provisions of R.S. 39:82, funds for planning, acquisition,  
5 construction, and major repair projects appropriated by this act may be retained until  
6 completion of the project, even if no bona fide liability exists on the last day of the fiscal  
7 year.

8 This Act shall constitute the comprehensive state capital outlay budget for the 2016-  
9 2017 Fiscal Year. Projects set forth which are payable from the proceeds available from the  
10 sale of general obligation bonds shall have the priorities as indicated. The Request for Line  
11 of Credit form used by the Attorney General and Bond Counsel in evaluating Louisiana  
12 Constitutional, Internal Revenue Code, and applicable income tax regulations shall be filed  
13 with the Commissioner of Administration, State Bond Commission, and State Attorney  
14 General. No general obligation bonds shall be sold, nor cash lines of credit granted to fund  
15 any lower priority project prior to the sale of general obligation bonds or the granting of cash  
16 lines of credit to fund all higher priority projects (the "general rule"), except as hereinafter  
17 provided. This prohibition against funding a lower priority project shall not apply upon a  
18 showing of an impossibility or impracticality either to proceed with all unfunded higher  
19 priority projects or to proceed with the funding of such projects or any part thereof through  
20 the issuance of general obligation bonds for any reason. Such showing shall be stated in  
21 reasonable detail in a certificate or certificates signed by the state agency responsible for  
22 administering the funding, and filed with the Commissioner of Administration and the State  
23 Bond Commission (hereinafter referred to as "the Commission"). Upon a determination by  
24 the Commission that proceeding with such a project or the funding thereof through the  
25 issuance of general obligation bonds is impractical or impossible, the Commission may then  
26 proceed with the sale of general obligation bonds or the granting of cash lines of credit  
27 without regard to the priority of the unfunded projects determined to be impossible or  
28 impractical.

29 Upon recommendation by the state agency responsible for administering the funding,  
30 if it is determined at any time that proceeding with the project or with the funding thereof

1 is no longer impossible or impractical, the State Bond Commission may rescind the  
2 certificate of impossibility or impracticality and may proceed with the project or with the  
3 issuance of general obligation bonds or the granting of cash lines of credit to fund the  
4 project. Alternatively, the Interim Emergency Board (hereinafter referred to as "the Board"),  
5 upon reviewing certificates as described above and determining that proceeding with such  
6 project or the funding thereof through the issuance of general obligation bonds is impossible  
7 or impractical, may designate a lower priority for such project. The Board's determination  
8 and lower priority designation shall be submitted to the members of the Legislature for their  
9 approval in accordance with the provisions of Chapter 3-B of Subtitle I of Title 39 of the  
10 Louisiana Revised Statutes of 1950. In accordance with the provisions of Chapter 3-B of  
11 Subtitle I of Title 39 of the Louisiana Revised Statutes of 1950, whenever at the written  
12 request of the appropriate legislators and agency, the Board determines that an adjustment  
13 to a project description originally set forth in such capital budget adopted by the Legislature  
14 for a current fiscal year is necessary to correct a mistake in a project description, clarify a  
15 description, change the scope of a description, or make any other adjustment the Board  
16 deems necessary to implement the purpose of the project, such adjustment shall become  
17 effective only upon the approval by majority vote of the elected members of each house of  
18 the Legislature in the manner provided for in Chapter 3-B of Subtitle I of Title 39 of the  
19 Louisiana Revised Statutes of 1950.

20 If such approval is granted, notification by the chair or secretary of the Board of the  
21 results of the balloting shall be transmitted to the State Bond Commission, which may then  
22 proceed with the sale of general obligation bonds or the granting of cash lines of credit for  
23 each change approved upon request of the Commissioner of Administration in accordance  
24 with the general rule.

25 With respect to Priorities 1 through 5, a lower priority project may be moved to a  
26 higher priority only upon a showing of an emergency or other cause not reasonably  
27 anticipated by the Legislature, which shall be stated in reasonable detail in a certificate  
28 signed by the head of the appropriate department, political subdivision, or agency and filed  
29 with the Commissioner of Administration and the Board. Upon a determination by the  
30 Board that such project should be moved to a higher priority because of an emergency or

1 other cause not reasonably anticipated by the Legislature, the Board shall designate a higher  
2 priority to the project. The matter then shall be submitted to and be subject to the same  
3 approval by the members of the Legislature in the manner previously indicated in this  
4 Section. If such approval is granted, notification by the chair or secretary of the board of the  
5 change of priority shall be transmitted to the State Bond Commission, which then upon  
6 request of the Commissioner of Administration, may proceed with the sale of general  
7 obligation bonds or the granting of cash lines of credit in accordance with the general rule.  
8 As to projects within a priority, the State Bond Commission acting on requests submitted by  
9 the Commissioner of Administration shall determine when such project, or phases thereof,  
10 shall be funded. In making such determination, the State Bond Commission shall consider  
11 the amount of proceeds of general obligation bonds to be made available in light of money  
12 and capital market conditions; the expenditure requirements of the project; the time required  
13 for architectural plans and drawings, public bidding, and site acquisition and preparation;  
14 availability of receipt of federal monies; litigation affecting the undertaking or completion  
15 of a project; federal tax laws and regulations regarding the sale of municipal bonds; and  
16 other items of a similar nature bearing upon the possibility or the necessity to commence a  
17 project or any particular phase thereof.

18 Any other provision of this Act to the contrary notwithstanding, projects described in  
19 Priority 5 of this Act shall not be moved to a higher priority except upon one of the  
20 following conditions: (1) Funding is necessary to complete or additionally fund a project  
21 located elsewhere in the capital outlay act. Determination of such condition shall be made  
22 by the head of the appropriate department or agency by means of a certificate to that effect  
23 filed with the Interim Emergency Board, who shall, by mail ballot, request approval of such  
24 change and if approved by a majority of each house of the Legislature it shall be funded, or  
25 (2) unless required by an emergency or other cause not reasonably anticipated by the  
26 Legislature, to be in accordance with procedures set forth in this Section. However, the State  
27 Bond Commission may authorize a non-cash line of credit for any project in Priority 5 which  
28 represents that portion of construction contracts which were let during a previous fiscal year,  
29 or construction contracts which will be let during the current fiscal year, but which will not  
30 require cash expenditures during the year. Such non-cash lines of credit, when combined

1 with previously sold bonds or with higher priority bonds or lines of credit, or with funds  
2 appropriated from other sources, will provide sufficient appropriated funds to award  
3 equipment or construction contracts. Contracts shall not be awarded without approval of the  
4 Division of Administration.

5       Upon approval by the State Bond Commission, and subject to compliance with its  
6 policies and procedures and the procedures set forth herein, a line of credit providing for the  
7 use of funds in anticipation of the sale of general obligation bonds may be granted to the  
8 appropriate administering agency or department from the Comprehensive Capital Outlay  
9 Escrow Account, or if there is not a sufficient amount available in such account, from other  
10 available state cash in the state treasury, for capital improvement projects for which bond  
11 proceeds are appropriated by a current capital budget, prior to the actual issuance of bonds  
12 for such projects, unless the attorney general advises that an impediment exists to the valid  
13 issuance of the bonds on the date such line of credit is granted.

14       All bonds that are to be repaid, in whole or in part, by revenues generated by the project  
15 shall be designated as "Reimbursement Bonds". The State Bond Commission shall enter  
16 into such agreements as are necessary to provide that the agency or subdivision, whose  
17 project is reimbursable, shall pay the bond debt costs into the Bond Security and Redemption  
18 Fund. Such costs may be paid annually or at the end of the term of the bonds issued as  
19 determined by the State Bond Commission.

20       Priority 1 general obligation bond funding shall be limited to:

21       (1) Projects and amounts which were previously authorized by Act 26 of the 2015  
22 Regular Session of the Legislature; and which were granted cash lines of credit by the State  
23 Bond Commission. The bonds to fund these projects were not sold in Fiscal Year 2015-  
24 2016.

25       (2) The reauthorization of the portion of the outstanding Fiscal Year 2015-2016  
26 Priority 5 Non-Cash Lines of Credit for projects which will require cash expenditures in  
27 Fiscal Year 2016-2017 and therefore must be converted to Cash Lines of Credit in Fiscal  
28 Year 2016-2017.

29       (3) Commitments made in the Higher Education Desegregation Settlement Agreement.

1 Priority 2 general obligation bond projects are for the completion of plans and  
2 specifications, land acquisition, site preparation, or for construction which will begin during  
3 the fiscal year. It is presently anticipated that the listed projects will require the sale of  
4 bonds or extension of lines of credit during the fiscal year after adoption of this Act.

5 Priority 3 general obligation bond projects are for the preparation of plans and  
6 specifications, land acquisition, site preparation, or for construction and shall be limited to  
7 funding for the portion of construction contracts which will not require cash expenditures  
8 during the fiscal year. The projects in this category shall be considered future year projects  
9 in the State's five year capital outlay plan. It is presently anticipated that the listed projects  
10 will not require the sale of bonds or extension of lines of credit during the fiscal year.

11 Priority 4 general obligation bond projects are for the preparation of plans and  
12 specifications, land acquisition, site preparation, or for construction and shall be limited to  
13 funding for the portion of construction contracts which will not require cash expenditures  
14 during the fiscal year. The projects in this category shall be considered future year projects  
15 in the State's five year capital outlay plan. It is presently anticipated that the listed projects  
16 will not require the sale of bonds or extension of lines of credit during the fiscal year.

17 Priority 5 general obligation bond funding shall be limited to funding for the portion  
18 of construction contracts which will not require cash expenditures during the fiscal year.  
19 These funds, when combined with previously sold bonds or with higher priority bonds on  
20 lines of credit, or with funds appropriated from other sources, will provide sufficient  
21 appropriated funds to award contracts. Non-cash lines of credit shall be required prior to the  
22 award of these contracts.

23 In accordance with the cash management plan adopted pursuant to R.S. 48:251(D) and  
24 the provisions of Act 161 of the 1998 First Extraordinary Session, the Department of  
25 Transportation and Development is authorized to enter into contracts or agreements for  
26 projects approved pursuant to the Highway Priority Program, Airport Construction and  
27 Development Priority Program, Port Construction and Development Priority Program, and  
28 Statewide Flood Control Program for projects bid and awarded, authorized, or commenced  
29 during the fiscal year which do not require cash expenditures for the full contract or  
30 agreement amount.

1           Section 2. The expenditure of funds appropriated in this Act, except appropriations  
2 made to non-profit economic development corporations, shall be in conformity to all existing  
3 statutes relative to public bidding, contractual review, and R.S. 39:101 through 128 and any  
4 other statutes affecting the capital outlay program for state government, state institutions,  
5 and political entities. No contract shall be awarded for any project prior to the granting of  
6 a line of credit or the sale of bonds by the State Bond Commission, determination by the  
7 State Treasurer that cash funding is available in the Comprehensive Capital Outlay Escrow  
8 Account for the project, or delivery of revenue bonds whose issuance is authorized in  
9 Section 1 of this Act.

10           Section 3. Payment for projects specified in this Act must be made by warrant  
11 submitted to the Division of Administration, Department of Transportation and  
12 Development, the State Treasurer or other administering agency as provided in Section 8,  
13 whichever is appropriate, only to the extent of funds required for immediate payment.  
14 Copies of invoices or other supporting documentation shall be submitted with warrants. In  
15 the event that any equipment included in this Act, is procured pursuant to the provisions of  
16 the State Lease-Purchase Act, R.S. 39:1761 et seq., the amounts included in this Act for each  
17 such piece of equipment shall not be appropriated. The provisions of R.S. 39:1771 which  
18 require equipment to be leased under the State Lease-Purchase Act to be included in the  
19 executive budget and approved by the Legislature through inclusion in the General  
20 Appropriation Act shall be considered waived upon the inclusion of such equipment in this  
21 Act. Projects contained in this Act may, at the direction of the Division of Administration  
22 and with the approval of the State Bond Commission, alternatively be funded through  
23 financing programs heretofore or hereafter provided by a public trust and public corporation  
24 duly organized pursuant to R.S. 9:2341 et seq., having for its beneficiary the State and the  
25 Louisiana Local Government Environmental Facilities and Community Development  
26 Authority, pursuant to R.S. 33:4548.1 et seq.

27           Section 4. If at any time during the Fiscal Year 2016-2017, the Governor should  
28 find, or the Joint Legislative Committee on the Budget or the Commissioner of  
29 Administration should report to the Governor, that the receipts of the treasury are falling  
30 short or appear likely to fall short of the revenue estimates for the fiscal year and that a cash

1 deficit is likely to be incurred, the Governor shall take such steps as deemed necessary to  
2 prevent the occurrence of a cash deficit. In the event that a capital outlay project funded in  
3 this Act falls under an agency which is abolished or for which funds are not appropriated in  
4 the 2016-2017 General Appropriation Act, then the funds appropriated in this Act for such  
5 capital outlay projects shall not be expended unless deemed necessary by the Governor to  
6 protect life or property. In the event that legislation is enacted which transfers facilities or  
7 programs for which projects are funded in this Act, on behalf of one agency, institution,  
8 department, or management board to another agency, institution, department, or management  
9 board, then the projects in this Act shall be deemed transferred also.

10 Section 5. All monies appropriated by this Act and any applicable funds of a prior  
11 capital outlay budget act adopted by the Legislature shall be deposited by the State Treasurer  
12 in the Comprehensive Capital Outlay Escrow Account, established by this Section, in the  
13 state treasury. In accordance with R.S. 36:764, no later than 60 days following the end of  
14 each quarter, the state treasurer shall report to the Joint Legislative Committee on the Budget  
15 and the Commissioner of Administration, all funds contained in the Miscellaneous Fund of  
16 the Comprehensive Capital Outlay Escrow Account. Notwithstanding any provisions  
17 contained herein or other law to the contrary, any original issue premium or accrued interest  
18 proceeds received pursuant to the sale of general obligation bonds shall remain on deposit  
19 to the credit of the Bond Security and Redemption Fund until such time as they may be  
20 utilized in accordance with U.S. Department of Treasury Regulations promulgated pursuant  
21 to the Internal Revenue Code of 1986. All such monies shall be administered according to  
22 the particular act pertaining to the fiscal year in which such monies were appropriated. If  
23 it is determined by the Director of the Office of Facility Planning and Control, Division of  
24 Administration, that the funds appropriated by this Act or any prior capital outlay budget act  
25 are not sufficient to complete the projects contained in any capital outlay budget act, through  
26 unavoidable deficiencies in appropriation, including administrative and legal requirements,  
27 the Commissioner of Administration, subject to approval of the Joint Legislative Committee  
28 on the Budget, may direct the use of interest earned from the investment of general  
29 obligation bond or note proceeds in the Comprehensive Capital Outlay Escrow Account, not  
30 to exceed an aggregate of five million dollars in any one fiscal year, for the purpose of

1 completing the projects contained in any capital outlay budget act and such money shall be  
2 deemed appropriated in specific amounts necessary for such purpose. All appropriations in  
3 this Act which are made as additions to funds for previously authorized projects shall be  
4 included, for accounting purposes, in the account of said previously authorized projects. If  
5 it is determined by the Director of the Office of Facility Planning and Control, Division of  
6 Administration, that it is cost effective and practical to combine individual appropriations,  
7 the Commissioner of Administration, subject to the approval of the Joint Legislative  
8 Committee on the Budget, may direct that two or more appropriations or parts thereof may  
9 be combined into a single project for accounting and audit purposes. The Commissioner of  
10 Administration may direct that funding in the various statewide and/or multiple parish  
11 projects for improvements for state facilities may be transferred to any project, in this Act  
12 or any previous Capital Outlay Act, which require supplemental funding for improvements  
13 for state facilities which qualify for funding through the various statewide and/or multiple  
14 parish projects for improvements for state facilities. The Office of Facility Planning and  
15 Control, Division of Administration is authorized to receive settlements and vendor rebates  
16 not in excess of \$50,000 unless approved by the Joint Legislative Committee on the Budget,  
17 and to add those receipts to the funding for projects in this Act or any previous Capital  
18 Outlay Act for which project funds are received. The Office of Facility Planning and  
19 Control, Division of Administration is authorized to receive insurance payments and are  
20 hereby authorized to immediately repair facilities that suffer insurance losses without those  
21 projects being included in the Act and shall report to the Joint Legislative Committee on the  
22 Budget any expenditures from insurance funds received pursuant to this section. A portion,  
23 as determined by the Commissioner of Administration and not to exceed one percent (1%),  
24 of the funding for projects which qualify for the Percent for Art Program, may be transferred  
25 from the qualifying project budgets, to the Department of Culture, Recreation and Tourism  
26 for costs of acquiring art and administering the program. For all Percent for Art Program  
27 projects in this or any previous capital outlay, up to ten percent (10%) of the aforementioned  
28 one percent (1%) may be used for the costs of administering the projects.

1           Section 6. Prior to March 1, 2017, the Commissioner of Administration shall submit  
2 to the Legislature a list of projects that are completed and the cash balances remaining in  
3 each project.

4           Section 7. The Commissioner of Administration, with the approval of the Joint  
5 Legislative Committee on the Budget, is authorized to supplement or substitute the  
6 appropriations specified in this or previous capital outlay acts with any federal or other funds  
7 which are or may become available and such funds shall be deemed appropriated in specific  
8 amounts necessary for the purposes of this Act. Any funds received by the State Bond  
9 Commission as a result of a prepayment of reimbursement contracts as authorized by law  
10 and the Policy and Procedure for Reimbursement Contracts of the Department of Treasury,  
11 Office of State Bond Commission, shall be deposited as set forth in such Policy and  
12 Procedure and shall be deemed available and appropriated in specific amounts necessary for  
13 the purposes of this Act pursuant to the procedure set forth in this section.

14           Section 8. Notwithstanding any provisions contained herein or any other law to the  
15 contrary, the provisions of Chapter 16 of Subtitle III of Title 39 of the Louisiana Revised  
16 Statutes of 1950 as amended, shall not apply to architectural and engineering contracts,  
17 administered by the Office of Facility Planning and Control, Division of Administration  
18 pursuant to this or any other capital outlay act.

19           Section 9. All funds appropriated herein to the Office of Facility Planning and  
20 Control, Division of Administration, on behalf of non-state entities, and administered by  
21 cooperative endeavor agreements pursuant to this Act shall be expended within two (2) years  
22 from the date of the issuance of the bonds. The Office of Facility Planning and Control,  
23 Division of Administration, agrees that it will notify the non-state entity of the date the  
24 bonds are issued within three (3) months from the issuance thereof. The non-state entity  
25 understands and agrees that if the funds appropriated herein and administered under  
26 cooperative endeavor agreements pursuant to this Act are not totally expended within two  
27 (2) years from the issuance of the bonds, the Office of Facility Planning and Control,  
28 Division of Administration, can close the project and recommend that the Legislature  
29 reallocate any unexpended proceeds to other projects.

1           Section 10. Notwithstanding any provisions contained herein or law to the contrary,  
2 the proceeds of revenue bonds to be utilized to fund certain projects authorized in Section  
3 1 hereof may, in accordance with Article VII, Section 9 of the Louisiana Constitution of  
4 1974, be deposited in special accounts held outside the state treasury in accordance with the  
5 provisions of any bond resolution, indenture, reimbursement contract, or other bond or  
6 financing covenant which provides for the pledge of such funds in connection with the  
7 issuance of revenue bonds. For all projects administered by the Office of Facility Planning  
8 and Control, Division of Administration, authorized in Section 1 hereof which are payable  
9 from the proceeds of revenue bonds, only the Office of Facility Planning and Control,  
10 Division of Administration, will be authorized to requisition funds from the special accounts  
11 described immediately above, at such time or times as may be deemed necessary by the  
12 Office of Facility Planning and Control, Division of Administration, in order to cover  
13 contract amounts or other project expenses.

14           Section 11. The Governor shall have the power to veto any line-item in this Act.

15           Section 12. Except as otherwise provided herein, no funds shall be expended on any  
16 highway projects on highways within the state highway system as established in R.S. 48:191  
17 under the jurisdiction of the Department of Transportation and Development unless and until  
18 such project is in the Highway Program, R.S. 48:228 through 232, approved by the Joint  
19 Legislative Committee on Transportation, Highways and Public Works. Pursuant to R.S.  
20 49:214.6.2(B), no integrated coastal protection construction project shall be undertaken with  
21 funds included in this bill except those included in an annual plan finally approved by the  
22 legislature in accordance with the provisions of R.S. 49:214.5.3. No funds appropriated to  
23 the Coastal Protection and Restoration Authority in this Act as a contribution for a project  
24 cost-share or otherwise, for the national economic development and national ecosystem  
25 restoration components of the Southwest Coastal Louisiana Study shall be used or provided  
26 for the expropriation of property or use of eminent domain, except where such funds are to  
27 be used to obtain property voluntarily offered for project purposes, where at least seventy-  
28 five percent of the owners have voluntarily offered the property, or where the record or  
29 apparent owners have voluntarily offered the property but do not have clear title.

1           Section 13. The word "statewide" used in place of the specific parish designation for  
2 projects contained in this Act indicates that the project or program is applicable to all sixty  
3 four parishes in the state. The description of any project in this Act shall be deemed to  
4 include planning, design, master planning, studies, permits, surveys, testing, construction,  
5 land and/or building/improvement acquisition, reconstruction, renovation, repair, right of  
6 way and utilities, site and other improvements, miscellaneous/contingencies, lease hold  
7 improvements ultimately owned by the State or a political subdivision of the State,  
8 equipment and other acquisitions, and any other component of the project if such are  
9 included or indicated in the capital outlay request for such projects required by R. S. 39:101  
10 subject to the provisions of Title 39 of the Louisiana Revised Statutes. For new construction  
11 or renovation projects, equipment or other acquisitions, which can reasonably be considered  
12 necessary for the facility to be functional, may be deemed to be included in the project, even  
13 if such equipment or other acquisitions are not included or indicated in the project name or  
14 the capital outlay request. When local or federal match is referenced in a project title, but  
15 only a portion of the state appropriation is granted a line of credit or otherwise funded, then  
16 the amount of local or federal match, required to be made available, may be prorated relative  
17 to the amount of state appropriation made available through lines of credit.

18           Section 14. The provisions, items, and projects contained in this Act are severable  
19 and if any provision, item, or project contained herein, or the application of any such  
20 provision, item, or project, is held invalid, such invalidity shall not affect other provisions,  
21 items, projects, or applications of the Act which can be given effect without the invalid  
22 provision, project, item, or application.

23           Section 15. Notwithstanding any other provisions of law to the contrary, the State  
24 shall not grant cash lines of credit, or authorize or issue general obligation bonds in a  
25 principal amount in excess of \$1,555,430,000 for Fiscal Year 2016-2017.

26           Section 16. Notwithstanding any contrary provision of this Act or any contrary  
27 provision of law, no funds appropriated by this Act shall be released or provided to any  
28 recipient of an appropriation made in this Act if, when, and for as long as, the recipient fails  
29 or refuses to comply with the provisions of R.S. 24:513. No recipient shall be considered  
30 to fail or refuse to comply with the provisions of R.S. 24:513 pursuant to this Section during

Summary of Amendments Adopted by House

The Committee Amendments Proposed by House Committee on Ways and Means to the original bill:
