

Regular Session, 2010

HOUSE BILL NO. 2

BY REPRESENTATIVES GREENE AND FANNIN

CAPITAL OUTLAY: Provides for the comprehensive Capital Outlay budget

1 AN ACT

2 To provide with respect to the capital outlay budget and the capital outlay program for state  
3 government, state institutions, and other public entities; to provide for the  
4 designation of projects and improvements; to provide for the financing thereof  
5 making appropriations from certain sources; and to provide for related matters.

6 Be it enacted by the Legislature of Louisiana:

7 Section 1. The following sums or so much thereof as may be necessary are hereby  
8 appropriated out of any monies in the state treasury from the sources specified, from federal  
9 funds and self-generated revenues belonging to the state of Louisiana and/or collected by  
10 boards, commissions, departments, and agencies thereof, all for making capital outlay and  
11 for the purposes and in the amounts specified herein for the Fiscal Year commencing July  
12 1, 2010, and ending June 30, 2011, subject to the conditions thereafter provided:

13 A project with funding payable from General Obligation Bonds Priority 1 indicates  
14 that the funding for the project includes the reauthorization of funding which was previously  
15 on a line of credit granted by the State Bond Commission in Fiscal Year 2009-2010. As  
16 used in this Section, the term "general obligation bonds" means state general obligation  
17 bonds or other evidences of indebtedness payable from the Bond Security and Redemption  
18 Fund. The amount set forth in this Section opposite each project, or so much thereof as may  
19 be necessary, is hereby appropriated and payable from the proceeds available from the sale  
20 of general obligation bonds, unless a different source of funding is indicated. Where such  
21 a different source of funding is indicated, the corresponding amount set forth, or so much

1 thereof as may be necessary, is hereby appropriated and payable from the source of funding  
2 indicated; provided, however, amounts appropriated and payable from federal funds may be  
3 encumbered or expended only to the extent such amounts shall have been committed or  
4 received. Pursuant to the provisions of R.S. 39:82, funds for planning, acquisition,  
5 construction, and major repair projects appropriated by this act may be retained until  
6 completion of the project, even if no bona fide liability exists on the last day of the fiscal  
7 year.

8       This Act shall constitute the comprehensive state capital outlay budget for the 2010-  
9 2011 Fiscal Year. Projects set forth which are payable from the proceeds available from the  
10 sale of general obligation bonds shall have the priorities as indicated. The Request for Line  
11 of Credit form used by the Attorney General and Bond Counsel in evaluating Louisiana  
12 Constitutional, Internal Revenue Code, and applicable income tax regulations shall be filed  
13 with the Commissioner of Administration, State Bond Commission, and State Attorney  
14 General. No general obligation bonds shall be sold, nor cash lines of credit granted to fund  
15 any lower priority project prior to the sale of general obligation bonds or the granting of cash  
16 lines of credit to fund all higher priority projects (the "general rule"), except as hereinafter  
17 provided. This prohibition against funding a lower priority project shall not apply upon a  
18 showing of an impossibility or impracticality either to proceed with all unfunded higher  
19 priority projects or to proceed with the funding of such projects or any part thereof through  
20 the issuance of general obligation bonds for any reason. Such showing shall be stated in  
21 reasonable detail in a certificate or certificates signed by the state agency responsible for  
22 administering the funding, and filed with the Commissioner of Administration and the State  
23 Bond Commission (hereinafter referred to as "the Commission"). Upon a determination by  
24 the Commission that proceeding with such a project or the funding thereof through the  
25 issuance of general obligation bonds is impractical or impossible, the Commission may then  
26 proceed with the sale of general obligation bonds or the granting of cash lines of credit  
27 without regard to the priority of the unfunded projects determined to be impossible or  
28 impractical.

29       Upon recommendation by the state agency responsible for administering the funding,  
30 if it is determined at any time that proceeding with the project or with the funding thereof

1 is no longer impossible or impractical, the State Bond Commission may rescind the  
2 certificate of impossibility or impracticality and may proceed with the project or with the  
3 issuance of general obligation bonds or the granting of cash lines of credit to fund the  
4 project. Alternatively, the Interim Emergency Board (hereinafter referred to as "the Board"),  
5 upon reviewing certificates as described above and determining that proceeding with such  
6 project or the funding thereof through the issuance of general obligation bonds is impossible  
7 or impractical, may designate a lower priority for such project. The Board's determination  
8 and lower priority designation shall be submitted to the members of the Legislature for their  
9 approval in accordance with the provisions of Chapter 3-B of Subtitle I of Title 39 of the  
10 Louisiana Revised Statutes of 1950. In accordance with the provisions of Chapter 3-B of  
11 Subtitle I of Title 39 of the Louisiana Revised Statutes of 1950, whenever at the written  
12 request of the appropriate legislators and agency, the Board determines that an adjustment  
13 to a project description originally set forth in such capital budget adopted by the Legislature  
14 for a current fiscal year is necessary to correct a mistake in a project description, clarify a  
15 description, change the scope of a description, or make any other adjustment the Board  
16 deems necessary to implement the purpose of the project, such adjustment shall only become  
17 effective upon the approval by majority vote of the elected members of each house of the  
18 Legislature in the manner provided for in Chapter 3-B of Subtitle I of Title 39 of the  
19 Louisiana Revised Statutes of 1950.

20 If such approval is granted, notification by the chair or secretary of the Board of the  
21 results of the balloting shall be transmitted to the State Bond Commission, which may then  
22 proceed with the sale of general obligation bonds or the granting of cash lines of credit for  
23 each change approved upon request of the Commissioner of Administration in accordance  
24 with the general rule.

25 With respect to Priorities 1 through 5, a lower priority project may be moved to a  
26 higher priority only upon a showing of an emergency or other cause not reasonably  
27 anticipated by the Legislature, which shall be stated in reasonable detail in a certificate  
28 signed by the head of the appropriate department, political subdivision, or agency and filed  
29 with the Commissioner of Administration and the Board. Upon a determination by the  
30 Board that such project should be moved to a higher priority because of an emergency or

1 other cause not reasonably anticipated by the Legislature, the Board shall designate a higher  
2 priority to the project. The matter then shall be submitted to and be subject to the same  
3 approval by the members of the Legislature in the manner previously indicated in this  
4 Section. If such approval is granted, notification by the chair or secretary of the board of the  
5 change of priority shall be transmitted to the State Bond Commission, which then upon  
6 request of the Commissioner of Administration, may proceed with the sale of general  
7 obligation bonds or the granting of cash lines of credit in accordance with the general rule.  
8 As to projects within a priority, the State Bond Commission acting on requests submitted by  
9 the Commissioner of Administration shall determine when such project, or phases thereof,  
10 shall be funded. In making such determination, the State Bond Commission shall consider  
11 the amount of proceeds of general obligation bonds to be made available in light of money  
12 and capital market conditions; the expenditure requirements of the project; the time required  
13 for architectural plans and drawings, public bidding, and site acquisition and preparation;  
14 availability of receipt of federal monies; litigation affecting the undertaking or completion  
15 of a project, federal tax laws and regulations regarding the sale of municipal bonds; and  
16 other items of a similar nature bearing upon the possibility or the necessity to commence a  
17 project or any particular phase thereof.

18 Any other provision of this Act to the contrary notwithstanding, projects described  
19 in Priority 5 of this Act shall not be moved to a higher priority except upon one of the  
20 following conditions: (1) Funding is necessary to complete or additionally fund a project  
21 located elsewhere in the capital outlay act. Determination of such condition shall be made  
22 by the head of the appropriate department or agency by means of a certificate to that effect  
23 filed with the Interim Emergency Board, who shall, by mail ballot, request approval of such  
24 change and if approved by a majority of each house of the Legislature it shall be funded, or  
25 (2) unless required by an emergency or other cause not reasonably anticipated by the  
26 Legislature, to be in accordance with procedures set forth in this Section. However, the State  
27 Bond Commission may authorize a non-cash line of credit for any project in Priority 5 which  
28 represents that portion of construction contracts which were let during a previous fiscal year,  
29 or construction contracts which will be let during the current fiscal year, but which will not  
30 require cash expenditures during the year. Such non-cash lines of credit, when combined

1 with previously sold bonds or with higher priority bonds or lines of credit, or with funds  
2 appropriated from other sources, will provide sufficient appropriated funds to award  
3 equipment or construction contracts. Contracts shall not be awarded without approval of the  
4 Division of Administration.

5       Upon approval by the State Bond Commission, and subject to compliance with its  
6 policies and procedures and the procedures set forth herein, a line of credit providing for the  
7 use of funds in anticipation of the sale of general obligation bonds may be granted to the  
8 appropriate administering agency or department from the Comprehensive Capital Outlay  
9 Escrow Account, or if there is not a sufficient amount available in such account, from other  
10 available state cash in the state treasury, for capital improvement projects for which bond  
11 proceeds are appropriated by a current capital budget, prior to the actual issuance of bonds  
12 for such projects, unless the attorney general advises that an impediment exists to the valid  
13 issuance of the bonds on the date such line of credit is granted.

14       All bonds that are to be repaid, in whole or in part, by revenues generated by the  
15 project shall be designated as "Reimbursement Bonds". The State Bond Commission shall  
16 enter into such agreements as are necessary to provide that the agency or subdivision, whose  
17 project is reimbursable, shall pay the bond debt costs into the Bond Security and Redemption  
18 Fund. Such costs may be paid annually or at the end of the term of the bonds issued as  
19 determined by the State Bond Commission.

20       Priority 1 general obligation bond funding shall be limited to:

21       (1) Projects and amounts which were previously authorized by Act 20 of the 2009  
22 Regular Session of the Legislature; and which were granted cash lines of credit by the State  
23 Bond Commission. The bonds to fund these projects were not sold in Fiscal Year 2009-  
24 2010.

25       (2) The reauthorization of the portion of the outstanding Fiscal Year 2009-2010  
26 Priority 5 Non-Cash Lines of Credit for projects which will require cash expenditures in  
27 Fiscal Year 2010-2011 and therefore must be converted to Cash Lines of Credit in Fiscal  
28 Year 2010-2011.

29       (3) Commitments made in the Higher Education Desegregation Settlement  
30 Agreement.

1 Priority 2 general obligation bond projects are for the completion of plans and  
2 specifications, land acquisition, site preparation, or for construction which will begin during  
3 the fiscal year. It is presently anticipated that the listed projects will require the sale of  
4 bonds or extension of lines of credit during the fiscal year after adoption of this Act.

5 Priority 3 general obligation bond projects are for the preparation of plans and  
6 specifications, land acquisition, site preparation, or for construction and shall be limited to  
7 funding for the portion of construction contracts which will not require cash expenditures  
8 during the fiscal year. The projects in this category shall be considered future year projects  
9 in the State's five year capital outlay plan. It is presently anticipated that the listed projects  
10 will not require the sale of bonds or extension of lines of credit during the fiscal year.

11 Priority 4 general obligation bond projects are for the preparation of plans and  
12 specifications, land acquisition, site preparation, or for construction and shall be limited to  
13 funding for the portion of construction contracts which will not require cash expenditures  
14 during the fiscal year. The projects in this category shall be considered future year projects  
15 in the State's five year capital outlay plan. It is presently anticipated that the listed projects  
16 will not require the sale of bonds or extension of lines of credit during the fiscal year.

17 Priority 5 general obligation bond funding shall be limited to funding for the portion  
18 of construction contracts which will not require cash expenditures during the fiscal year.  
19 These funds, when combined with previously sold bonds or with higher priority bonds on  
20 lines of credit, or with funds appropriated from other sources, will provide sufficient  
21 appropriated funds to award contracts. Non-cash lines of credit shall be required prior to the  
22 award of these contracts.

23 In accordance with the cash management plan adopted pursuant to R.S. 48:251(D)  
24 and the provisions of Act 161 of the 1998 First Extraordinary Session, the Department of  
25 Transportation and Development is authorized to enter into contracts or agreements for  
26 projects approved pursuant to the Highway Priority Program, Airport Construction and  
27 Development Priority Program, Port Construction and Development Priority Program, and  
28 Statewide Flood Control Program for projects bid and awarded, authorized, or commenced  
29 during the fiscal year which do not require cash expenditures for the full contract or  
30 agreement amount.

14 Section 2. The expenditure of funds appropriated in this Act, except appropriations  
15 made to non-profit economic development corporations, shall be in conformity to all existing  
16 statutes relative to public bidding, contractual review, and R.S. 39:101 through 128 and any  
17 other statutes affecting the capital outlay program for state government, state institutions,  
18 and political entities. No contract shall be awarded for any project prior to the granting of  
19 a line of credit or the sale of bonds by the State Bond Commission, determination by the  
20 State Treasurer that cash funding is available in the Comprehensive Capital Outlay Escrow  
21 Account for the project, or delivery of revenue bonds whose issuance is authorized in  
22 Section 1 of this Act.

23 Section 3. Payment for projects specified in this Act must be made by warrant  
24 submitted to the Division of Administration, Department of Transportation and  
25 Development, the State Treasurer or other administering agency as provided in Section 8,  
26 whichever is appropriate, only to the extent of funds required for immediate payment.  
27 Copies of invoices or other supporting documentation shall be submitted with warrants. In  
28 the event that any equipment included in this Act, is procured pursuant to the provisions of  
29 the State Lease Purchase Act, R.S. 39:1761 et seq., the amounts included in this Act for each  
30 such piece of equipment shall not be appropriated. The provisions of R.S. 39:1771 which  
31 require equipment to be leased under the State Lease Purchase Act to be included in the  
32 executive budget and approved by the Legislature through inclusion in the General  
33 Appropriation Act shall be considered waived upon the inclusion of such equipment in this  
34 Act. Projects contained in this Act may, at the direction of the Division of Administration  
35 and with the approval of the State Bond Commission, alternatively be funded through

1 financing programs heretofore or hereafter provided by a public trust and public corporation  
2 duly organized pursuant to R.S. 9:2341 et seq., having for its beneficiary the State and the  
3 Louisiana Local Government Environmental Facilities and Community Development  
4 Authority, pursuant to R.S. 33:4548.1 et seq.

5       Section 4. If at any time during the Fiscal Year 2010-2011, the Governor should  
6 find, or the Joint Legislative Committee on the Budget or the Commissioner of  
7 Administration should report to the Governor, that the receipts of the treasury are falling  
8 short or appear likely to fall short of the revenue estimates for the fiscal year and that a cash  
9 deficit is likely to be incurred, the Governor shall take such steps as deemed necessary to  
10 prevent the occurrence of a cash deficit. In the event that a capital outlay project funded in  
11 this Act falls under an agency which is abolished or for which funds are not appropriated in  
12 the 2010-2011 General Appropriation Act, then the funds appropriated in this Act for such  
13 capital outlay projects shall not be expended unless deemed necessary by the Governor to  
14 protect life or property. In the event that legislation is enacted which transfers facilities or  
15 programs for which projects are funded in this Act, on behalf of one agency, institution,  
16 department, or management board to another agency, institution, department, or management  
17 board, then the projects in this Act shall be deemed transferred also.

18       Section 5. All monies appropriated by this Act and any applicable funds of a prior  
19 capital outlay budget act adopted by the Legislature shall be deposited by the State Treasurer  
20 in the Comprehensive Capital Outlay Escrow Account, established by this Section, in the  
21 state treasury. In accordance with R.S. 36:768, no later than 60 days following the end of  
22 each quarter, the state treasurer shall report to the Joint Legislative Committee on the Budget  
23 and the commissioner of administration, all funds contained in the Miscellaneous Fund of  
24 the Comprehensive Capital Outlay Account. Notwithstanding any provisions contained  
25 herein or other law to the contrary, any original issue premium or accrued interest proceeds  
26 received pursuant to the sale of general obligation bonds shall remain on deposit to the credit  
27 of the Bond Security and Redemption Fund until such time as they may be utilized in  
28 accordance with U.S. Department of Treasury Regulations promulgated pursuant to the  
29 Internal Revenue Code of 1986. All such monies shall be administered according to the  
30 particular act pertaining to the fiscal year in which such monies were appropriated. If it is

1 determined by the Director of the Office of Facility Planning and Control, Division of  
2 Administration, that the funds appropriated by this Act or any prior capital outlay budget act  
3 are not sufficient to complete the projects contained in any capital outlay budget act, through  
4 unavoidable deficiencies in appropriation, including administrative and legal requirements,  
5 the Commissioner of Administration, subject to approval of the Joint Legislative Committee  
6 on the Budget, may direct the use of interest earned from the investment of general  
7 obligation bond or note proceeds in the Comprehensive Capital Outlay Escrow Account, not
