Bill Header: RETIREMENT/SCHOOL EMPS: Provides relative to the retirement contributions of members of the Louisiana School Employees' Retirement System who withdraw from service

Cost Summary:

The estimated net actuarial and fiscal impact of this proposed legislation on the retirement systems and their plan sponsors is summarized below. Net actuarial costs pertain to estimated changes in the *net actuarial present value of future benefit payments and administrative expenses incurred by the retirement system*. Net fiscal costs or savings pertain to changes to all cash flows over the next five year period including retirement system cash flows, OPEB cash flows, or cash flows related to other government entities.

An increase in actuarial costs is denoted throughout the actuarial note by "Increase" or a positive number. Actuarial savings are denoted by "Decrease" or a negative number. An increase in expenditures or revenues (fiscal impact) is denoted by "Increase" or a positive number. A decrease in expenditures or revenues is denoted by "Decrease" or a negative number.

Estimated Actuarial Impact:

The top part of the following chart shows the estimated change in the *net actuarial present value of future benefit payments and expenses*, if any, attributable to the proposed legislation. The bottom part shows the effect on cash flows (i.e., contributions, benefit payments, and administrative expenses).

Net Actuarial Costs (Liabilities) Pertaining to:		Net Actuarial Cost
The Retirement Systems		\$0
Other Post-employment Benefits (OPEB)		0
Total		\$0
Five Year Net Fiscal Cost Pertaining to:	Expenditures	Revenues
The Retirement Systems	\$0	\$0
Other Post-employment Benefits	0	0
Other Government Entities	0	0

Bill Information

Current Law

There is a conflict in current law with regard to members of the Louisiana School Employees' Retirement System (LSERS) whose first employment making them eligible for membership in one of the state systems occurs on or after July 1, 2015.

- Section 1141(A) provides for retirement benefits for any such member upon reaching age of 62 and has five or more years of credited service.
- Section 1142(C) says such a member must have 10 or more years of service to be able to leave his accumulated contributions in the system and collect a benefit upon reaching age 62.

Proposed Law

HB 20 corrects the issue by changing Section 1142(C) to specify that members who have five or more years of service may leave their accumulated contributions in the system and collect benefits upon reaching age 62.

Implications of the Proposed Changes

HB 20 will eliminate any possible confusion about the vesting period for members of LSERS whose first employment making them eligible for membership in one of the state systems occurs on or after July 1, 2015. Following the enactment of HB 20, it will be clear that the vesting period for these members is five years of service.

**2019 REGULAR SESSION
ACTUARIAL NOTE HB 20**

I. ACTUARIAL ANALYSIS SECTION

**A. Analysis of Net Actuarial Costs
(Prepared by LLA)**

This section of the actuarial note pertains to net actuarial costs or savings associated with the retirement systems and with OPEB.

1. Retirement Systems

The net actuarial cost or savings of the proposed legislation associated with the retirement systems is estimated to be \$0. The actuary's analysis is summarized below.

HB 20 codifies into law a vesting period provision the way it is already administered by LSERS and valued by the actuary for the system, and therefore does not have any effect on the actuarial cost for the retirement system.

2. Other Post-employment Benefits (OPEB)

The net actuarial cost or savings of the proposed legislation associated with OPEB, including retiree health insurance premiums, is estimated to be \$0. The actuary's analysis is summarized below.

The liability for post-retirement medical insurance protection provided to retirees is not affected by codifying into law a vesting period provision the way it is already administered by LSERS.

**B. Actuarial Data, Methods and Assumptions
(Prepared by LLA)**

Unless indicated otherwise, the actuarial note for the proposed legislation was prepared using actuarial data, methods, and assumptions as disclosed in the most recent actuarial valuation report adopted by the Public Retirement Systems' Actuarial Committee (PRSAC). The data, methods and assumptions are being used to provide consistency with the actuary for the retirement system who may also be providing testimony to the Senate and House retirement committees. With certain exceptions, the actuary for the LLA finds the assumptions used by the retirement systems and PRSAC to be reasonable.

**C. Actuarial Caveat
(Prepared by LLA)**

There is nothing in the proposed legislation that will compromise the signing actuary's ability to present an unbiased statement of actuarial opinion.

II. FISCAL ANALYSIS SECTION

This section of the actuarial note pertains to fiscal (annual) costs or savings associated with the retirement systems (Table A), with OPEB (Table B), and with other fiscal costs or savings incurred by other government entities (Table C). Fiscal costs or savings in Table A include benefit-related actuarial costs and administrative costs incurred by the retirement systems. The total effect of HB 20 on fiscal costs, fiscal savings, or cash flows is presented in Table D.

**A. Estimated Fiscal Impact – Retirement Systems
(Prepared by LLA)**

1. Narrative

Table A shows the estimated fiscal impact of the proposed legislation on the retirement systems and the government entities that sponsor them. A fiscal cost is denoted by "Increase" or a positive number. Fiscal savings are denoted by "Decrease" or a negative number. A revenue increase is denoted by "Increase" or a positive number. A revenue decrease is denoted by "Decrease" or a negative number.

ACTUARIAL NOTE HB 20**

**C. Estimated Fiscal Impact: Other Government Entities (other than the retirement systems or OPEB)
(Prepared by Tanesha Morgan, Legislative Fiscal Office, and Bradley Cryer, Director of Local Government Services, LLA)**

1. Narrative

Present law provides that any member of the Louisiana School Employees' Retirement System (LSERS) whose first employment making him eligible for membership in one of the state systems occurred on or after July 1, 2015, who has credit for ten or more years of regular, full-time service may withdraw from service and elect to leave his accumulated contributions in the system, and upon reaching age sixty-two, he shall be eligible to receive a retirement allowance based on the credits he had at the time of his withdrawal from service. Proposed law updates present law to five or more years of regular, full-time service.

Actuarial Disclosure: Risks Associated with Measuring Costs

This Actuarial Note is an actuarial communication, and is required to include certain disclosures in compliance with Actuarial Standards of Practice (ASOP) No. 51. Risk disclosures otherwise required by ASOP No. 51 do not apply to this Actuarial Note because the proposed bill does not significantly change the types or levels of risks of the retirement system.

Information Pertaining to Article (10)(29)(F) of the Louisiana Constitution

HB 20 contains a retirement system benefit provision having an actuarial cost.

No member of LSERS will receive a larger benefit with the enactment of HB 20 than what he would have received without HB 20.
