HB No. 244

Abstract: Increases the age for dependent coverage of unmarried dependent children or grandchildren under their parent's or grandparents' health insurance policy or contract, deletes the requirement that they be full-time students, and sets certain requirements and restrictions for health insurance issuers and health maintenance organizations in providing such coverage

Proposed law provides as follows:

(1) Present law, with respect to group, family group, blanket, and association health and accident insurance, allows dependent coverage of unmarried children under 21 years of age and unmarried grandchildren who are in the legal custody of and residing with the grandparent under 21 years of age.

Proposed law increases the age for such dependent coverage to 26 years of age; otherwise retains present law.

(2) Present law, relative to family group health and accident insurance or similar coverage issued by a health maintenance organization (HMO) as an individual policy, allows dependent coverage of unmarried children under 21 years of age or, in the case of full-time students, unmarried children under the age of 24, and unmarried grandchildren under 21 years of age in the legal custody of and residing with the grandparent or, in the case of full-time students, unmarried grandchildren under the age of 24 who are in the legal custody of and residing with the grandparent, except that the policy may provide for continuing coverage for any unmarried child or grandchild in the legal custody of and residing with the grandparent who is incapable of self-sustaining employment by reason of mental retardation or physical handicap, who became so incapable prior to attainment of age 26 and any other person dependent upon the policyholder.

Proposed law increases the age for dependent coverage to 26 years of age and deletes the requirement that unmarried grandchildren under 21 years of age be in the legal custody of and residing with the grandparent. Otherwise retains present law.

- (3) Present law provides for dependent coverage if any dependent described in (2) above develops a mental or nervous condition, problem, or disorder which, in the opinion of a qualified psychiatrist, subject, if deemed necessary by the insurer or HMO, to a second opinion, prevents the unmarried child or grandchild from attending school as a full-time student and from holding self-sustaining employment if the child or grandchild is under the age of 24.

Proposed law deletes present law as unnecessary since proposed law raises the eligible age for dependent coverage to 26 years of age and deletes the requirement for full-time student status.

- (4) Present law provides that any hospital or medical expense insurance policy issued in this state which provides that coverage of a dependent child of a policyholder shall terminate upon attainment of the limiting age for dependent children specified in the policy shall also provide in substance that attainment of such limiting age shall not operate to terminate the coverage of such child while the child is and continues to be both: (a) incapable of self-sustaining employment; and (b) chiefly dependent upon the policyholder for support; and maintenance if proof of such incapacity and dependency is furnished to the insurer within 31 days of the child's attainment of the limiting age and subsequently as may be required by the insurer but not more frequently than annually after the two-year period following the child's attainment of the limiting age.

Proposed law retains present law.

- (5) Present law, relative to group and individual health and accident insurance and similar coverage issued by a HMO, allows dependent coverage of students who are unmarried children who have not yet attained the age of 24 and who are enrolled as full-time students at an accredited college or university, or at a vocational, technical, vocational-technical or trade school or institute, or secondary school, and who are dependent upon the primary insured under any such policy or subscriber agreement.

Proposed law specifies that such an unmarried child shall include an unmarried grandchild in the legal custody of and residing with a grandparent, deletes the requirement for full-time student status, and increases the age for dependent coverage to the age of 26.

- (6) Present law provides for dependent coverage if any dependent described in (4) above develops a mental or nervous condition, problem, or disorder which renders the unmarried child, in the opinion of a qualified psychiatrist, subject, if deemed necessary by the insurer or HMO, to a second opinion, unable to attend school as a full-time student and from holding self-sustaining employment until the student reaches the age of 24.

Proposed law deletes present law as unnecessary since proposed law raises the eligible age for dependent coverage to 26 years of age and deletes the requirement for full-time student status.

- (7) Proposed law further provides that the premium for coverage under any family group health and accident insurance policy, group health and accident insurance policy, or similar coverage issued by a HMO shall not increase on the basis of the addition of an unmarried child or unmarried grandchild under the age of 26 unless there are no dependents covered under the policy prior to the addition of such child. Requires the health insurance issuer or HMO to apply portability rights in reference

- to pre-existing conditions to the newly added unmarried child or unmarried grandchild as described in present law relative to such conditions. Specifies that the preexisting condition waiting period applicable to such child shall be applied to the that child in the same manner as any other dependent.
- (8) Proposed law also requires that the health insurance issuer or HMO offer to all insureds or enrollees a special enrollment period of not less than 30 days upon request of the insured or enrollee to include an unmarried child or unmarried grandchild under the age of 26 as a new entrant covered under the policy or subscriber agreement. Makes it solely the insured's or enrollee's decision whether to add such child to the policy or subscriber agreement.
- (9) Proposed law additionally prohibits the health insurance issuer or HMO from limiting or otherwise restricting the offer of coverage to an unmarried child or unmarried grandchild under the age of 26 by requiring any of the following:
- (a) That such child had to have been previously covered as a dependent.
 - (b) That such child resides in this state.
 - (c) That such child demonstrate that he had previous creditable coverage.
 - (d) That the enrollee or insured requested coverage for such child the first time he was eligible for coverage.
- (10) Proposed law further prohibits the health insurance issuer or HMO from denying coverage to an unmarried child or unmarried grandchild under the age of 26 when the enrollee or insured requests coverage.
- (11) Proposed law further requires that the health insurance issuer or HMO offer coverage for an enrollee's or insured's unmarried children or unmarried grandchildren under the age of 26 as new entrants through special enrollment and annually provide at least a 30-day enrollment period. Allows the health insurance issuer or HMO to request documentation of such child's creditable coverage to determine portability.
- (12) Proposed law provides that it shall apply to all policies issued or renewed in this state after Sept. 1, 2010. Also gives any insurer who on that date has health and accident insurance policies or HMO subscriber agreements in force in this state until Sept. 1, 2011, to convert such existing policies or agreements to conform to proposed law.

(Amends R.S. 22:1000(A)(1)(a)(vi) and (2) and 1003; Adds R.S. 22:1003.1; Repeals R.S. 22:1002)
