HB 315 Original

2019 Regular Session

Gisclair

Abstract: Requires that agreements between an acquiring agency and a landowner for integrated coastal protection projects ensure public recreational boating and recreational fishing access to waterways in the acquired land.

Present law authorizes "acquiring authorities" to enter into agreements with respect to the ownership of minerals and surface rights for purposes of integrated coastal restoration projects.

Proposed law requires that the agreement contain a provision that ensures the public has access to the waterways in the acquired land for navigation, boating, and recreational fishing.
