LaCombe

Abstract: Authorizes the recommendation of medical marijuana by a physician for any condition for which a patient is receiving hospice care or palliative care.

<u>Present law</u> authorizes physicians who are licensed by and in good standing with the La. State Board of Medical Examiners to recommend medical marijuana for therapeutic use by patients clinically diagnosed as suffering from a debilitating medical condition. Defines "debilitating medical condition" to mean cancer, glaucoma, Parkinson's disease, positive status for human immunodeficiency virus, acquired immune deficiency syndrome, cachexia or wasting syndrome, seizure disorders, epilepsy, spasticity, severe muscle spasms, intractable pain, Crohn's disease, muscular dystrophy, multiple sclerosis, post traumatic stress disorder, and certain conditions associated with autism spectrum disorder.

<u>Proposed law</u> retains <u>present law</u> and adds to the list of debilitating medical conditions provided in <u>present law</u> any condition for which a patient is receiving hospice care or palliative care.
