

Regular Session, 2013

HOUSE BILL NO. 548

BY REPRESENTATIVES WILLMOTT AND ST. GERMAIN

Prefiled pursuant to Article III, Section 2(A)(4)(b)(i) of the Constitution of Louisiana.

COMMERCIAL REGULATIONS: Provides for the regulation and inspection of elevators and other mechanisms

1 AN ACT

2 To enact Part E of Chapter 7 of Title 40 of the Louisiana Revised Statutes of 1950, to be  
3 comprised of R.S. 40:1665.1 through 1665.28, relative to lifting devices; to provide  
4 for the scope of regulation of the law; to provide for definitions; to provide for the  
5 creation of the Elevator Safety Review Board and its powers and duties; to provide  
6 for the issuance of licenses to elevator contractors, inspectors, and mechanics; to  
7 provide for qualifications for licenses; to provide for issuance and renewals of  
8 licenses; to provide for continuing education requirements; to provide for violations,  
9 fines, and administrative actions; to require compliance with certain codes; to require  
10 permits for new conveyances; to provide for the issuance of permits; to provide for  
11 inspections and testing; to provide for enforcement; to provide relative to liability;  
12 to provide relative to certain temporarily dormant conveyances; to provide relative  
13 to the applicability of the law; and to provide for related matters.

14 Be it enacted by the Legislature of Louisiana:

15 Section 1. Part E of Chapter 7 of Title 40 of the Louisiana Revised Statutes of 1950,  
16 comprised of R.S. 40:1665.1 through 1665.28, is hereby enacted to read as follows:

17 PART E. CONVEYANCE DEVICES

18 §1665.1. Short title

19 This Part shall be known as and may be cited as the "Conveyance Devices  
20 Safety Act".

1        §1665.2. Purpose

2            A. The purpose of this Part is to provide for the safety of conveyance  
3        equipment and personnel and to promote public safety awareness. The use of unsafe  
4        and defective lifting devices imposes a substantial probability of serious and  
5        preventable injury to employees and the public exposed to unsafe conditions. The  
6        prevention of these injuries and protection of employees and the public from unsafe  
7        conditions is in the best interest of the people of this state. Conveyance personnel  
8        performing work covered by this Part shall, by documented training or experience,  
9        or both, be familiar with the operation and safety functions of the components and  
10       equipment. Training and experience shall include but not be limited to recognizing  
11       the safety hazards and performing the procedures to which they are assigned in  
12       conformance with the requirements of this Part. This Part shall establish the  
13       minimum standards for conveyance personnel and services.

14           B. The provisions of this Part are not intended to prevent the use of systems,  
15        methods, or devices of equivalent or superior quality, strength, fire resistance, code  
16        effectiveness, durability, and safety to those required by the applicable code,  
17        provided that there is technical documentation to demonstrate the equivalency or  
18        superiority of the system, method, or device, as prescribed in ASME A17.1/CSA  
19        B44, ASME 17.3, ASME A17.7/CSA B44.7, ASME A18.1, or ASCE 21.

20       §1665.3. Applicability to certain equipment

21           A. The provisions of this Part shall apply to the design, construction,  
22        operation, inspection, testing, maintenance, alteration, and repair of all of the  
23        following equipment, its associated parts, and its hoistways, except as provided by  
24        R.S. 40:1665.4:

25           (1) Hoisting and lowering mechanisms equipped with a car or platform,  
26        which move between two or more landings. This equipment shall include but is not  
27        limited to the following:

28           (a) Elevators.

29           (b) Platform lifts.

1                    (c) Stairway chair lifts.  
2                    (2) Power-driven stairways and walkways for carrying persons between  
3 landings. This equipment shall include but is not limited to the following:

4                    (a) Escalators.

5                    (b) Moving walks.

6                    (3) Hoisting and lowering mechanisms equipped with a car, which serve two  
7 or more landings and are restricted to the carrying of material by their limited size  
8 or limited access to the car. This equipment shall include but is not limited to the  
9 following:

10                   (a) Dumbwaiters.

11                   (b) Material lifts and dumbwaiters with automatic transfer devices.

12                   B. The provisions of this Part shall also apply to the design, construction,  
13 operation, inspection, maintenance, alteration, and repair of automatic guided transit  
14 vehicles on guideways with an exclusive right-of way. This equipment shall include  
15 but is not limited to automated people movers.

16                   §1665.4. Exempt equipment

17                   The provisions of this Part shall not apply to the following equipment:

18                   (1) Material hoists within the scope of ANSI A10.5.

19                   (2) Man lifts within the scope of ASME A90.1.

20                   (3) Mobile scaffolds, towers, and platforms within the scope of ANSI A92.

21                   (4) Powered platforms and equipment for exterior and interior maintenance  
22 within the scope of ANSI 120.1.

23                   (5) Conveyors and related equipment within the scope of ASME B20.1.

24                   (6) Cranes, derricks, hoists, hooks, jacks, and slings within the scope of  
25 ASME B30.

26                   (7) Industrial trucks within the scope of ASME B56.

27                   (8) Portable equipment, except for portable escalators which are covered by  
28 ASME A17.1/CSA B44 and ASME A17.7/CSA B44.7.

1           (9) Tiering or piling machines used to move materials to and from storage  
2           located and operating entirely within one story.

3           (10) Equipment for feeding or positioning materials at machine tools,  
4           printing presses, and other similar machines.

5           (11) Skip or furnace hoists.

6           (12) Wharf ramps.

7           (13) Railroad car lifts or dumpers.

8           (14) Line jacks, false cars, shafters, moving platforms, and similar  
9           equipment used for installing an elevator by a contractor licensed in this state.

10           §1665.5. Definitions

11           As used in this Part, the terms defined in this Section have the meanings  
12           herein given to them, except where the context expressly indicates otherwise:

13           (1) "ASCE 21" means the American Society of Civil Engineers Automated  
14           People Mover Standards.

15           (2) "ASME A17.1/CSA B44" means the Safety Code for Elevators and  
16           Escalators, an American National Standard.

17           (3) "ASME A17.3" means the Safety Code for Existing Elevators and  
18           Escalators, an American National Standard.

19           (4) "ASME A17.7/CSA B44.7" means the Performance-Based Safety Code  
20           for Elevators and Escalators, an American National Standard.

21           (5) "ASME A18.1" means the Safety Standard for Platform Lifts and  
22           Stairway Chairlifts, an American National Standard.

23           (6) "Automated people mover" means an installation as defined as an  
24           "automated people mover" in ASCE 21.

25           (7) "Board" means the Elevator Safety Review Board as described in this  
26           Part.

27           (8) "Certificate of operation" means a document issued by the state fire  
28           marshal that indicates that the conveyance has had the required safety inspection and  
29           tests and fees have been paid as set forth in this Part.

1           (9) "Conveyance" means any elevator, dumbwaiter, escalator, moving  
2           sidewalk, platform lift, stairway chairlift, and automated people mover.

3           (10) "Elevator" means an installation as defined as an "elevator" in ASME  
4           A17.1/CSA B44.

5           (11) "Elevator contractor" means any person, firm, or corporation who  
6           possesses an elevator contractor's license in accordance with the provisions of this  
7           Part and who is engaged in the business of erecting, constructing, installing, altering,  
8           servicing, repairing, or maintaining elevators or related conveyances regulated by  
9           this Part.

10           (12) "Elevator helper or apprentice" means a person who works under the  
11           general supervision of a licensed elevator mechanic.

12           (13) "Elevator inspector" means any person, as defined in ASME QEI as an  
13           inspector, who possesses an elevator inspector's license in accordance with the  
14           provisions of this Part and who engages in the business of inspecting elevators and  
15           other related conveyances regulated by this Part.

16           (14) "Elevator mechanic" means any person who possesses an elevator  
17           mechanic license in accordance with the provisions of this Part and who is engaged  
18           in erecting, constructing, installing, altering, servicing, repairing, testing,  
19           maintaining, or performing electrical work on elevators or related conveyances  
20           regulated by this Part.

21           (15) "Escalator" means an installation as defined as an "escalator" in ASME  
22           A17.1/CSA B44.

23           (16) "Existing installation" means an installation as defined as an  
24           "installation, existing" in ASME A17.1/CSA B44.

25           (17) "License" means a written, current, and valid document, duly issued by  
26           the state fire marshal, authorizing a person, firm, or corporation to carry on the  
27           business of erecting, constructing, installing, altering, servicing, repairing,  
28           maintaining, or assisting in any of the aforementioned activities, or performing  
29           inspections of elevators or related conveyances regulated by this Part.

1           (18) "Licensee" means the elevator mechanic, elevator contractor,  
2           emergency elevator mechanic, or elevator inspector who possesses a license issued  
3           pursuant to this Part.

4           (19) "Material alteration" means an "alteration" as defined in the referenced  
5           standards.

6           (20) "Moving walk or sidewalk" means an installation as defined as a  
7           "moving walk" in ASME A17.1/CSA B44.

8           (21) "One- or two-family dwelling" means a separate dwelling, a duplex, or  
9           a separate apartment in a multiple dwelling, which is occupied by members of a  
10          single-family unit.

11          (22) "Operating location" means a physical address that houses a person,  
12          firm, or corporation that engages in the business of erecting, constructing, installing,  
13          altering, servicing, testing, repairing, inspecting, or maintaining elevators or related  
14          conveyances regulated by this Part.

15          (23) "Person" means a natural person.

16          (24) "Repair" means a "repair" as defined in the referenced standards.

17          (24) "Temporarily dormant elevator, dumbwaiter, or escalator" means an  
18          installation placed out of service as specified in ASME A17.1/CSA B44 and ASME  
19          A18.1 for a specified period of time.

20          §1665.6. Other definitions

21          All other building transportation terms are defined in the latest edition of  
22          ASME A17.1/CSA B44 and ASME A18.1.

23          §1665.7. Elevator Safety Review Board

24          A. There is hereby created the Elevator Safety Review Board, consisting of  
25          nine members, one of whom shall be the state fire marshal, or his designee, and one  
26          of whom shall be the chairman of the State Licensing Board for Contractors, or his  
27          designee. The governor shall appoint the remaining seven members of the board as  
28          follows:

1           (1) One representative from a major elevator manufacturing company or its  
2 authorized representative.

3           (2) One representative from an elevator servicing company.

4           (3) One representative of the architectural design profession.

5           (4) One representative of the general public who is physically disabled.

6           (5) One representative of a municipality in this state.

7           (6) One representative of a building owner or manager.

8           (7) One representative of labor involved in the installation, maintenance, and  
9 repair of elevators.

10           B. The members of the board shall serve for terms of three years, excluding  
11 the state fire marshal and the chairman of the State Licensing Board for Contractors,  
12 or their designees, who shall serve continuously.

13           C. The members shall serve without salary. The board members shall  
14 receive from the state expenses necessarily incurred in the performance of their  
15 duties.

16           D. The governor shall appoint one of the members to serve as chairman. The  
17 chairman shall only vote in the event of a tie vote.

18           §1665.8. Meetings of the board

19           A. The board shall meet and organize within ninety days after the  
20 appointment of all of its members and at the first meeting shall elect one secretary  
21 of the board to serve during the term to be fixed by the rules and regulations to be  
22 adopted by the board.

23           B. The board shall meet at such times as it is deemed necessary for the  
24 consideration of code regulations, appeals, variances, and for the transaction of such  
25 other business as properly may come before it. Special meetings shall be called as  
26 provided in the rules and regulations. A quorum shall consist of five members.

27           C. Any appointed board member absent from three consecutive meetings  
28 without cause shall be dismissed.

1           D. Vacancies on the board shall be filled by the governor in the same manner  
2           in which the person vacating his office was appointed.

3           §1665.9. Powers of board and the state fire marshal

4           A. The board shall be authorized to consult with engineering authorities and  
5           organizations concerned with standard safety codes, rules and regulations governing  
6           the operation, maintenance, servicing, construction, alteration, installation, and  
7           inspection of elevators, dumbwaiters, escalators, and other similar equipment, and  
8           the qualifications which are adequate, reasonable, and necessary for the elevator  
9           mechanic, contractor, and inspector. Therefore, the board shall be authorized to  
10           recommend any changes in the law in order to better provide for the provisions of  
11           this Part.

12           B. The board shall advise the state fire marshal in his authority to establish  
13           the state regulations for the equipment regulated by this Part. The regulations shall  
14           include the Safety Code for Elevators and Escalators, ASME A17.1/CSA B44, the  
15           Safety Code for Existing Elevators and Escalators, ASME A17.3, the Performance-  
16           Based Safety Code for Elevators and Escalators, ASME A17.7/CSA B44.7, the  
17           Safety Standards for Platform Lifts and Stairway Chairlifts, ASME A18.1, Standard  
18           for the Qualification of Elevator Inspectors, ASME QEI-1, and Automated People  
19           Mover Standards, ASCE 21. The state fire marshal shall adopt the latest editions of  
20           the standards within six months of their effective date. Any modifications to the  
21           standards that the board deems necessary shall be justified in writing to the state fire  
22           marshal.

23           C. The board may hear appeals of a technical nature, and shall hold hearings  
24           and issue decisions within thirty days of the appeal. The state fire marshal shall  
25           determine which appeals are technical in nature.

26           D. Pursuant to the authority to hear technical appeals, the board shall also  
27           have the authority to grant exceptions and variances from the literal requirements of  
28           applicable codes and standards, regulations, and local ordinances in cases where the  
29           variances are demonstratively equivalent to or superior to literal requirements.

1           E. The state fire marshal shall promulgate rules, in accordance with the  
2           Administrative Procedure Act, to establish fee schedules for licenses, permits,  
3           certificates, and inspections. The fees shall reflect the actual costs and expenses to  
4           administer the provisions of this Part and to operate the board.

5           §1665.10. License required; exceptions

6           A. Beginning January 1, 2014, no person, firm, or corporation shall engage  
7           in the business of erecting, constructing, installing, altering, servicing, testing,  
8           repairing, or maintaining elevators or related conveyances regulated by this Part  
9           unless the person, firm, or corporation possesses an elevator contractor license.

10           B. Beginning January 1, 2014, no person shall erect, construct, alter, replace,  
11           repair, maintain, remove, dismantle, or perform electrical work on any conveyance  
12           regulated by this Part contained within buildings or structures in the jurisdiction of  
13           this state, including but not limited to one- or two-family dwellings, unless the  
14           person possesses an elevator mechanic license and is working under the direct  
15           supervision of a person, firm, or corporation who is a licensed elevator contractor  
16           pursuant to this Part.

17           C. Beginning January 1, 2014, no person shall inspect any conveyance  
18           regulated by this Part contained within buildings or structures in the jurisdiction of  
19           this state, including but not limited to one- or two-family dwellings, unless the  
20           person possesses an inspector's license.

21           D. A licensed elevator contractor shall not be required for removing or  
22           dismantling conveyances which are destroyed as a result of a complete demolition  
23           of a secured building or structure or where the hoistway or wellway is demolished  
24           back to the basic support structure whereby no access is permitted therein to  
25           endanger the safety and welfare of a person.

26           E. No license shall be required for any person who works as an elevator  
27           helper under the general supervision of a licensed elevator mechanic.

1        §1665.11. Application for elevator contractor, mechanic, or inspector license

2            A. Each operating location of any person, firm, or corporation wishing to  
3        engage in the business of elevator, dumbwaiter, escalator, or moving sidewalks  
4        installation, alteration, service, replacement, repair, or maintenance within the state  
5        shall make application for an elevator contractor license with the state fire marshal  
6        on a form provided by the state fire marshal.

7            B. Any person wishing to engage in elevator, dumbwaiter, escalator, or  
8        moving sidewalks erection, installation, alteration, service, replacement, repair, or  
9        maintenance, or who performs electrical work on such conveyances within the state,  
10       shall make application for an elevator mechanic license with the state fire marshal  
11       on a form provided by the state fire marshal.

12           C. Each operating location of any person, firm, or corporation wishing to  
13       engage in the business of elevator, dumbwaiter, escalator, moving walks, platform,  
14       or stairway chairlift inspections within the state, upon proof of ASME QEI  
15       certification, shall make application for an elevator inspector license with the state  
16       fire marshal on a form to be provided by the state fire marshal.

17           D. The applications shall contain the following information:

18           (1) If a person, the name, residence, and business address of the applicant.

19           (2) If a partnership, the name, residence, and business address of each  
20       partner.

21           (3) If a domestic corporation, the name and business address of the  
22       corporation and the name and residence address of the principal officer of the  
23       corporation. If a corporation other than a domestic corporation, the name and  
24       address of a local agent who shall be authorized to accept service of process and  
25       official notices.

26           (4) The number of years the applicant has engaged in the business of  
27       installing, inspecting, maintaining, or servicing elevators and platform lifts.

1           (5) The approximate number of persons, if any, to be employed by the  
2           elevator contractor applicant and, if applicable, satisfactory evidence that the  
3           employees are covered by workers' compensation insurance.

4           (6) Satisfactory evidence that the applicant is covered by general liability,  
5           personal injury, errors and omissions, and property damage insurance.

6           (7) Such other information as the state fire marshal may require.

7           §1665.12. Qualifications of an elevator contractor

8           A. No elevator contractor license shall be granted to any person, firm, or  
9           corporation which has not proven the required qualifications and abilities.

10          Applicants for an elevator contractor license shall demonstrate one of the following  
11          qualifications:

12           (1) Five years work experience in the elevator industry in construction,  
13           maintenance, and service or repair, as verified by current and previous elevator  
14           contractor licenses to do business.

15           (2) Satisfactory completion of a written examination administered by the  
16           Elevator Safety Review Board on the most recent referenced codes and standards.

17           B. The state fire marshal may enter into reciprocal agreements with other  
18           states for mutual recognition of elevator contractor license holders if the board has  
19           established the criteria for acceptance of such agreements.

20          §1665.13. Qualifications of an elevator mechanic

21           A. No elevator mechanic license shall be granted to any person who has not  
22           proven the required qualifications and abilities. Applicants for an elevator mechanic  
23           license shall demonstrate one of the following qualifications:

24           (1)(a) Documented evidence of not less than five years work experience in  
25           the elevator industry in construction, maintenance, and service or repair, as verified  
26           by current and previous employers and satisfactory completion of a written  
27           examination administered by the Elevator Safety Review Board on the most recent  
28           referenced codes and standards.

1           **(b) However, any person who furnishes the state fire marshal with acceptable**  
2           **proof that he has worked as an elevator construction, maintenance, or repair person**  
3           **for no less than five years immediately prior to January 1, 2014, shall, upon making**  
4           **application for a license and paying the license fee, be entitled to receive a license**  
5           **without an examination. The applicant shall show proof that he has worked without**  
6           **direct and immediate supervision for an elevator contractor licensed to do business**  
7           **in this state. Any person making application after January 1, 2015, shall**  
8           **satisfactorily complete the written examination administered by the board.**

9           **(2) Certificates of completion and successful passage of the elevator**  
10           **mechanic examination of a nationally recognized training program for the elevator**  
11           **industry such as the National Elevator Industry Educational Program or its**  
12           **equivalent, as determined by the Elevator Safety Review Board.**

13           **B. The state fire marshal may enter into reciprocal agreements with other**  
14           **states for mutual recognition of elevator mechanic license holders if the board has**  
15           **established the criteria for acceptance of such agreements.**

16           **§1665.14. Qualifications for an elevator inspector**

17           **No elevator inspector license shall be granted to any person, unless the**  
18           **applicant proves to the satisfaction of the state fire marshal that the applicant meets**  
19           **the current ASME QEI-1, Standards for the Qualifications of Elevator Inspectors.**

20           **§1665.15. Insurance requirements**

21           **A. Elevator contractors and elevator inspectors shall submit to the state fire**  
22           **marshal an insurance policy, or certified copy thereof, issued by an insurance**  
23           **company authorized to do business in the state to provide general liability coverage**  
24           **of at least one million dollars for injury or death of any one person and one million**  
25           **dollars for injury or death of any number of persons in any one occurrence, with the**  
26           **coverage of at least five hundred thousand dollars for property damage in any one**  
27           **occurrence, and the statutory workers compensation insurance coverage. The**  
28           **general liability policy shall have an errors and omissions endorsement.**

1           B. The policies, or duly certified copies thereof, or an appropriate certificate  
2           of insurance shall be delivered to the state fire marshal before or at the time of the  
3           issuance of a license. In the event of any material alteration or cancellation of any  
4           policy, at least ten days notice thereof shall be given to the state fire marshal.

5           §1665.16. Issuance and renewal of licenses; fees; emergency elevator mechanic  
6           license; temporary elevator mechanic license

7           A. Upon approval of an application, the state fire marshal may issue a  
8           license, which shall be renewable annually. The fee for the license or for any  
9           renewal thereafter shall be established by the state fire marshal by rule.

10           B.(1) Whenever an emergency has been declared in the state by the governor  
11           or the board due to a natural disaster, act of God, or work stoppage and the number  
12           of persons in the state holding licenses granted by the state fire marshal is  
13           insufficient to cope with the emergency, all licensed elevator contractors shall  
14           respond as necessary to assure the safety of the public.

15           (2) During a declared emergency, any person certified by a licensed elevator  
16           contractor to have an acceptable combination of documented experience and  
17           education to perform elevator work without direct and immediate supervision shall  
18           seek an emergency elevator mechanic license from the state fire marshal within five  
19           business days after commencing work requiring a license.

20           (3) The state fire marshal may issue emergency elevator mechanic licenses  
21           to persons who are employed by a licensed elevator contractor. The licensed  
22           elevator contractor shall furnish proof of competency as the state fire marshal may  
23           require. Each emergency license shall recite that it is valid for a period of thirty days  
24           from the effective date and for such particular elevators or geographical areas as the  
25           state fire marshal may designate. The emergency license shall entitle the licensee  
26           to the rights and privileges of an elevator mechanic license issued in accordance with  
27           this Part.

28           (4) The state fire marshal shall renew an emergency elevator mechanic  
29           license during a declared emergency.

1           C.(1) A licensed elevator contractor shall notify the board when there are no  
2           licensed elevator mechanics or contractors to perform elevator work. The licensed  
3           elevator contractor may request that the state fire marshal issue temporary elevator  
4           mechanic licenses to persons certified by the licensed elevator contractor to have an  
5           acceptable combination of documented experience and education to perform elevator  
6           work without direct and immediate supervision.

7           (2) Any person certified by a licensed elevator contractor to have an  
8           acceptable combination of documented experience and education to perform elevator  
9           work without direct and immediate supervision shall immediately seek a temporary  
10           elevator mechanic license from the state fire marshal and shall pay such fee as the  
11           state fire marshal shall determine.

12           (3) Each temporary license shall recite that it is valid for a period of thirty  
13           days from the date of issuance and while the licensee is employed by the licensed  
14           elevator contractor that certified the individual as qualified. It shall be renewable as  
15           long as the shortage of license holders continues.

16           §1665.17. Continuing education

17           A.(1) The renewal of all licenses granted pursuant to the provisions of this  
18           Part, except emergency elevator mechanic licenses and temporary elevator mechanic  
19           licenses, shall be conditioned upon the submission of a certificate of completion of  
20           a course designed to ensure the continuing education of licensees on new and  
21           existing provisions of the regulations as adopted by the state fire marshal. The  
22           courses shall be approved by the board. The courses shall consist of not less than  
23           eight hours of instruction that shall be attended and completed within one year  
24           immediately preceding any such license renewal.

25           (2) The courses shall be taught by instructors through continuing education  
26           providers. The courses may include but shall not be limited to association seminars  
27           and labor training programs. The Elevator Safety Review Board shall approve the  
28           continuing education providers. All instructors shall be approved by the board and  
29           shall be exempt from submitting a certificate of completion of a continuing

1 education course upon submission of applications for renewal of their licenses,  
2 provided that such applicants were qualified as instructors at any time during the  
3 year immediately preceding the scheduled date for the renewal.

4 B. Approved training providers shall keep uniform records, for a period of  
5 ten years, of attendance of licensees following a format approved by the board, and  
6 the records shall be available for inspection by the board or the state fire marshal  
7 upon request. Approved training providers shall be responsible for the security of  
8 all attendance records and certificates of completion, provided, however, that  
9 falsifying or knowingly allowing another to falsify such attendance records or  
10 certificates of completion shall constitute grounds for suspension or revocation of the  
11 approval required under this Section.

12 C. A licensee who is unable to complete the continuing education course  
13 required by this Section prior to the expiration of his license due to a temporary  
14 disability may apply for a waiver from the fire marshal. Application for a waiver  
15 shall be made on a form provided by the fire marshal, shall be signed under the  
16 penalty of perjury, and shall be accompanied by a certified statement from a  
17 competent physician attesting to the temporary disability. Upon the termination of  
18 the temporary disability, the licensee shall submit to the fire marshal a certified  
19 statement from the same physician, if practicable, attesting to the termination of the  
20 temporary disability. The state fire marshal may issue a license valid for up to ninety  
21 days so that the licensee may attain the required continuing education requirements  
22 while continuing to practice.

23 §1665.18. Violations; fines

24 A. Upon a finding by the state fire marshal, any person, firm, corporation,  
25 owner, or lessee who violates any of the provisions of this Part shall be fined an  
26 amount not to exceed five thousand dollars.

27 B. Any monies collected from fines issued pursuant to this Section shall be  
28 used exclusively by the office of the state fire marshal, code enforcement and  
29 building safety for the enforcement and administration of the provisions of this Part.

1        §1665.19. Suspension and revocation of licenses; fines

2                A license issued pursuant to this Part may be denied, suspended, revoked, or  
3        refused to be renewed by the state fire marshal, and the state fire marshal may  
4        impose the fine provided for in R.S. 40:1665.18 upon verification, and after notice  
5        and hearing in accordance with the provisions of the Administrative Procedure Act,  
6        that any one or more of the following have occurred:

7                (1) The applicant or licensee submitted any false statement as to material  
8        matter in the application.

9                (2) The applicant or licensee committed fraud, misrepresentation, or bribery  
10       in securing a license.

11               (3) The applicant or licensee failed to notify the state fire marshal and the  
12       owner or lessee of an elevator or related mechanisms of any condition not in  
13       compliance with this Part.

14               (4) The applicant or licensee violated any of the provisions of this Part.

15       §1665.20. Compliance with state uniform construction code

16               It shall be the responsibility of persons, firms, or corporations licensed  
17       pursuant to this Part to ensure that installation, inspection, repair, service, and  
18       maintenance of elevators and devices described in R.S. 40:1665.3 are performed in  
19       compliance with the provisions contained in the state uniform construction code,  
20       R.S. 40:1730.21 et seq., and with generally accepted standards referenced in the  
21       code.

22       §1665.21. Permits

23               A. No conveyance regulated by this Part shall be erected, constructed,  
24       installed, or altered within buildings or structures within the state unless plans, shop  
25       drawings, or both have been submitted to the state fire marshal as required by R.S.  
26       40:1574.

27               B. Nothing in this Part shall prohibit political subdivisions from requiring  
28       local permits for the erection, construction, installation, or alteration of conveyances.

29               C. No permit shall be required for any repairs made to conveyances.

1        §1665.22. New installations; annual inspections and certificates of operation

2            A.(1) All new conveyance installations shall be performed by a person, firm,  
3            or corporation to which a license to install or service conveyances has been issued.  
4            Subsequent to installation, the licensed person, firm, or corporation shall certify  
5            compliance with the applicable Sections of this Part.

6            (2) Prior to any conveyance being used, including those conveyances in one-  
7            or two-family dwellings, the property owner or lessee shall obtain a certificate of  
8            operation from the state fire marshal upon a satisfactory inspection by a person, firm,  
9            or corporation licensed to perform such inspections. It shall be the responsibility of  
10           the licensed elevator contractor to complete and submit original registrations for new  
11           installations.

12           (3) The certificate of operation fee for newly installed platform lifts and  
13           stairway chair lifts for private residences shall be submitted to the state fire marshal  
14           subsequent to an inspection by a licensed third party inspection firm.

15           B. Each conveyance governed by this Part, except those conveyances in one-  
16           or two-family dwellings, shall be inspected on an annual basis, and the fee for a  
17           certificate of operation shall be submitted to the state fire marshal.

18           C. Certificates of operation issued pursuant to this Section are renewable  
19           annually, except for those issued for conveyances in one- or two-family dwellings,  
20           upon certification by a licensed elevator inspector and submission of the certificate  
21           to the state fire marshal. Certificates of operation shall be clearly displayed on or in  
22           each conveyance or in the machine room.

23           D. Certificates of operation for new conveyance installations in one- or two-  
24           family dwellings shall be issued only once and shall not be required to be renewed.  
25           However, the owner of such conveyance may request an inspection once every three  
26           years by the state fire marshal. The state fire marshal shall adopt a nominal fee by  
27           rule, in accordance with the Administrative Procedure Act, to cover the costs of  
28           providing the inspections. The owner may also request an inspection of the  
29           conveyance by a licensed elevator inspector at any time.

1        §1665.23. Enforcement and administration

2            A. The state fire marshal is authorized to develop an enforcement program  
3        to ensure compliance with regulations and requirements referenced in this Part. This  
4        may include but shall not be limited to any of the following:

5            (1) Adopting regulations for identification of property locations which are  
6        subject to the regulations and requirements.

7            (2) Issuing notifications to violating property owners or operator random  
8        onsite inspections and tests on existing installations.

9            (3) Witnessing periodic inspections and testing in order to ensure satisfactory  
10       performance by licensed persons, firms, or corporations.

11          (4) Assisting in the development of public awareness programs.

12          B. The state fire marshal may promulgate and adopt such rules and  
13       regulations, in accordance with the Administrative Procedure Act, as may be  
14       necessary for the proper administration and enforcement of this Part.

15       §1665.24. Liability

16           This Part shall not be construed to relieve or lessen the responsibility or  
17       liability of any person, firm, or corporation owning, operating, controlling,  
18       maintaining, erecting, constructing, installing, altering, inspecting, testing, or  
19       repairing any elevator or other related mechanisms regulated by this Part for  
20       damages to persons or property caused by any defect in such mechanisms. In  
21       addition, the state shall not assume any such liability or responsibility or any liability  
22       to any person for any reason whatsoever by the adoption of this Part or any acts or  
23       omissions arising hereunder.

24       §1665.25. Provisions not retroactive

25           The provisions of this Part are not retroactive unless otherwise stated, and  
26       equipment shall be required to comply with the applicable code at the date of its  
27       installation, or within the period determined by the state fire marshal for compliance  
28       with ASME A17.3, whichever is more stringent. If, upon the inspection of any  
29       device regulated by this Part, the equipment is found to be in dangerous condition

1 or there is an immediate identifiable hazard to those riding or using such equipment,  
2 or if the design or the method of operation in combination with devices used is  
3 considered inherently dangerous in the opinion of the inspector, the inspector shall  
4 notify the owner or lessee and the state fire marshal of the condition. The state fire  
5 marshal shall review the report and, upon determining the validity to the findings,  
6 shall order such alterations or additions as may be deemed necessary to eliminate the  
7 dangerous condition.

8 §1665.26. Inspection, testing, and appeals

9 A.(1) Beginning January 1, 2014, it shall be the responsibility of the owner  
10 of all new and existing conveyances located in any building or structure to have the  
11 conveyance inspected annually, in accordance with ASME A17.1/CSA B44,  
12 category one, by an elevator inspector licensed pursuant to this Part.

13 (2) Notwithstanding the provisions of Paragraph (1) of this Subsection,  
14 owners of conveyances in one- or two-family dwellings shall be required to have any  
15 newly installed conveyances inspected only once. These owners shall not be  
16 required to obtain an annual inspection. Any conveyances installed in one- or two-  
17 family dwellings prior to January 1, 2014, shall not require an inspection.

18 B. Subsequent to inspection, upon receipt of a written order from the state  
19 fire marshal, the licensed elevator inspector shall supply the property owner or lessee  
20 and the state fire marshal with a written inspection report describing any and all  
21 alleged code violations. It shall be the responsibility of the owner or lessee to ensure  
22 code compliance.

23 C.(1) The owner may appeal the findings of the order within three days of  
24 receipt of the notice. The state fire marshal shall, within five days of receipt of the  
25 appeal, review the order and advise the owner or lessee of his decision. The owner  
26 or lessee may, within five days after receipt of notice of the making or affirming of  
27 the order by the state fire marshal, file an application of appeal with the Elevator  
28 Safety Review Board as provided for in R.S. 40:1665.9, in accordance with the

1 regulations promulgated by the board, praying for a review of the order or such other  
2 relief as is provided by law.

3 (2) If the order is not appealable to the board, the owner or lessee may file  
4 his petition with the district court of the district in which the premises or building  
5 affected by the order is located, praying for a review of the order or such other relief  
6 as is provided by law.

7 D. The board shall render its decision within five business days of the review  
8 of the order.

9 E. It shall be the responsibility of the owner of all conveyances to have a  
10 person, firm, or corporation licensed pursuant to this Part to ensure that the required  
11 inspection and test are performed at intervals in compliance with the ASME  
12 A17.1/CSA B44, ASME A18.1, and ASCE 21. However, inspections of  
13 conveyances located in a one- or two-family dwellings shall only be required to be  
14 inspected pursuant to the provisions of Paragraph (2) of Subsection A of this Section.

15 E. All tests shall be performed by a licensed elevator mechanic.  
16 §1665.27. Temporarily dormant elevators, dumbwaiters, and escalators

17 A. Temporarily dormant elevators, dumbwaiters, and escalators shall have  
18 their power supplies disconnected by removing fuses and placing a padlock on the  
19 mainline disconnect switches in the "OFF" positions. The cars shall be parked and  
20 the hoistway doors shall be in the closed and latched position. Wire seals shall be  
21 installed on the mainline disconnect switches by licensed elevator inspectors. These  
22 installations shall not be used again until put in safe running order and in condition  
23 for use.

24 B. Annual inspections by a licensed elevator inspector shall continue for the  
25 duration of the temporarily dormant period.

26 C. "Temporarily dormant" status shall be renewable on an annual basis and  
27 shall not exceed a five-year period. The elevator inspector shall file a report with the  
28 state fire marshal describing the conditions at the time of inspection. The wire seal

1           and padlock shall not be removed for any purpose without permission from the  
2           elevator inspector.

3           D. The provisions of this Section shall not apply to conveyances located in  
4           one- or two-family dwellings.

5           §1665.28. State law, code, or regulation

6           Whenever a provision in this Part is found to be inconsistent with any other  
7           provision of applicable state law, code, or regulation, the other applicable state law  
8           shall prevail. This Part, unless specifically stated otherwise, is not intended to  
9           establish more stringent or more restrictive standards than those standards set forth  
10          in the applicable state law.

11          Section 2. The provisions of this Act shall not become operative until such time as  
12          the state fire marshal adopts by rule, in accordance with the provisions of the Administrative  
13          Procedure Act, fees to be used for the administration of this Act and the operation of the  
14          Elevator Safety Review Board.

Willmott

HB No. 548

**Abstract:** Provides for the licensure and regulation of elevator contractors, inspectors, and mechanics by the state fire marshal; creates the Elevator Safety Review Board; provides for the annual inspection of elevators and other conveyances, except those in one- or two-family dwellings.

The purpose of proposed law is to provide for the safety of conveyance equipment and personnel and to promote public safety awareness.

Proposed law is applicable only to certain equipment including but not limited to elevators, platform lifts, escalators, moving walkways, and dumbwaiters. Proposed law exempts certain personnel and material hoists, manlifts, cranes, conveyors, and other equipment.

Proposed law defines "ASCE 21", "ASME A17.1/CSA B44", "ASME A17.3", "ASME A17.7/CSA B44.7" "ASME A18.1", "automated people mover", "board", "certificate of operation", "conveyance", "elevator", "elevator contractor", "elevator helper", "elevator inspector", "elevator mechanic", "escalator", "existing installation", "license", "licensee", "material alteration", "moving walk", "one or two family dwelling", "person", "repair", and "temporarily dormant elevator, dumbwaiter, or escalator".

Proposed law creates the Elevator Safety Review Board (board), which shall consult with engineering authorities regarding safety codes, advise the state fire marshal relative to the establishment of regulations, hear certain technical appeals, and grant certain exceptions.

Proposed law requires persons engaging in elevator contracting, elevator repair work, and elevator inspecting to obtain licenses from the state fire marshal by Jan. 1, 2014.

Proposed law establishes application procedures for persons wishing to apply for licenses.

Proposed law establishes minimum qualifications for an elevator contractor, which include five years work experience in the elevator industry or satisfactory completion of a written examination.

Proposed law establishes qualifications of applicants for an elevator mechanic license, which include five years work experience and successful passage of a written examination administered by the board or passage of a national exam. However, persons with five years work experience prior to Jan. 1, 2015, shall not be required to take an exam.

Proposed law provides that no inspector license shall be granted unless the person proves that the person meets certain national standards.

Proposed law requires elevator contractors and inspectors to submit proof of liability insurance and workers compensation insurance to the state fire marshal.

Proposed law provides for the renewal of all licenses issued by the board.

Proposed law authorizes an emergency license to be granted in certain circumstances to competent persons working in the elevator mechanic industry. Proposed law also authorizes the issuance of temporary licenses when there are no available licensees to do work.

Proposed law provides for continuing education requirements, which shall be not less than eight hours of approved courses each year. Training providers are required to keep records to be available for inspection by the board.

Proposed law provides for fines for violations of proposed law, which shall not exceed \$5,000, as well as other administrative actions to be imposed on licensees. Monies collected from fines shall be used exclusively for the administration and enforcement of proposed law.

Proposed law provides that it is the responsibility of licensed individuals to ensure that work is performed in compliance with the provisions of the state uniform construction code.

Proposed law prohibits any conveyances regulated by proposed law to be constructed within the state unless plans are submitted to the state fire marshal. Proposed law further requires that all new conveyance installations be performed by licensees and that property owners obtain a certificate of operation from the state fire marshal before operating any new conveyances.

Proposed law authorizes the state fire marshal to develop an enforcement program to ensure compliance with regulations referenced in proposed law. Proposed law also authorizes the state fire marshal to adopt necessary administrative rules to administer proposed law.

Proposed law provides that nothing in proposed law shall be construed to relieve or lessen the liability of any person operating any elevator or other conveyance for damages to person or property caused by defects.

Proposed law provides that the provisions of proposed law are not retroactive, and conveyances shall be required to comply with the applicable code at the date of installation.

Proposed law provides that beginning Jan. 1, 2014, it shall be the responsibility of the owner of all new and existing conveyances to have the conveyance, except those conveyances in one- or two-family dwellings, inspected annually by a licensed inspector. Proposed law further allows the owner to appeal the findings of any order issued by the fire marshal citing code violations.

Proposed law provides that temporarily dormant elevators, dumbwaiters, and escalators shall have their power supplies disconnected and the cars shall be parked. Wire seals shall be installed by licensed elevator inspectors. The conveyances may remain temporarily dormant for up to five years. However, proposed law does not apply to conveyances in one- or two-family dwellings.

Proposed law provides that whenever any provision of proposed law is found to be inconsistent with another provision of applicable state law, the other provision shall prevail. Proposed law is not intended to establish a more restrictive standard.

Provides that the provisions of proposed law shall not become effective until the state fire marshal adopts fees for the administration of proposed law.

(Adds R.S. 40:1665.1-1665.28)
