Thompson HB No. 573

**Abstract:** Changes the criteria of "permanently incapable of taking care of their persons" for the purposes of forced heirship <u>from</u> having a condition that may render the descendent incapable <u>to</u> having a condition that will, more probably than not, render him incapable.

<u>Present law</u> provides that forced heirs included descendants of the first degree who are 23 years of age or younger at the time of the decedent's death and descendants of the first degree of any age who are permanently incapable of taking care of their persons because of a mental incapacity or physical infirmity. <u>Present law</u> further defines a descendant who is "permanently incapable of taking care of their persons or administering their estates at the time of the death of the decedent" as one who has an inherited, incurable disease or condition that may render them incapable of caring for their person or administering their estate in the future.

<u>Proposed law</u> retains <u>present law</u> but changes the criteria of permanently incapable <u>from</u> a condition that may render the descendent incapable <u>to</u> one that will, more probably than not, render him incapable.

(Amends C.C. Art. 1493(E))

## Summary of Amendments Adopted by House

Committee Amendments Proposed by <u>House Committee on Civil Law and Procedure</u> to the <u>original</u> bill.

1. Changed criteria of being permanently incapable <u>from</u> having a condition that has permanently rendered them incapable of caring for themselves <u>to</u> a condition that will, more probably than not, render them incapable.
