Abstract: Requires authorization by a legislative health and welfare committee in order for the La. Department of Health to conduct facility need review with respect to healthcare facilities and providers.

<u>Present law</u> requires the La. Department of Health (LDH) to establish a facility need review process for healthcare facilities and providers, as a condition of consideration for licensure, consistent with state licensing regulations and federal Medicaid laws.

<u>Proposed law</u> revises <u>present law</u> to provide that LDH shall implement a facility need review process in accordance with the requirements of <u>present law</u> and <u>proposed law</u>.

<u>Proposed law</u> stipulates that, with the exception of nursing homes, which are subject to a licensure moratorium provided in <u>present law</u>, no healthcare facility or provider shall be subject to facility need review pursuant to <u>present law</u> unless either of the legislative committees on health and welfare has authorized the department to conduct such review with respect to that provider.

<u>Proposed law</u> provides that authorization by a legislative committee for conducting facility need review as required by <u>proposed law</u> may be by favorable vote of a simple majority of the committee's membership at a meeting of the committee.
