

1 that the board formulate and make timely revision of a master plan for postsecondary  
2 education; and

3 WHEREAS, the Board of Regents, through the development and implementation of  
4 the Master Plan for Postsecondary Education: 2011, adopted several broad goals, one of  
5 which is to achieve greater accountability, efficiency, and effectiveness in the postsecondary  
6 education system; and

7 WHEREAS, one objective related to this goal, according to the fourth annual review  
8 of the master plan, which the Board of Regents published in August of 2015, is to review  
9 academic programs and eliminate, as appropriate, programs that are low-performing or  
10 duplicative; and

11 WHEREAS, in light of the drastic reduction in the state's share of funding for public  
12 postsecondary education institutions, this objective needs much more emphasis, and the  
13 public postsecondary education management boards must focus more actively on evaluating  
14 whether the continuation of certain programs is justified; and

15 WHEREAS, programs that produce few graduates and those that are considered  
16 marginal to or clearly outside the role of the institution should face elimination or  
17 consolidation with other programs, even if it means reaching outside traditional boundaries  
18 between institutions and developing innovative ways for institutions to share resources and  
19 staff; and

20 WHEREAS, institutions must be better enabled to work within a cohesive regional  
21 framework that makes the most of scarce resources in a manner that considers the special  
22 features of each institution and benefits the institutions and the students and communities  
23 they exist to serve; and

24 WHEREAS, it is in the best interest of the state and its citizens, and thus incumbent  
25 on the Board of Regents, to streamline program offerings, departments, and staff at  
26 Louisiana's public postsecondary education institutions in order to ensure that the long-term  
27 viability of the state's postsecondary education institutions is sustained and that limited  
28 resources are used more effectively and efficiently; and

29 WHEREAS, the Preamble of Article VIII of the Constitution of Louisiana provides  
30 that it is the goal of the public educational system to provide learning environments and

1 experiences, at all stages of human development, that are humane, just, and designed to  
2 promote excellence in order that every individual may be afforded an equal opportunity to  
3 develop to his full potential; and

4 WHEREAS, in order to fulfill the state's constitutional duty of affording every  
5 student an equal opportunity to develop to his full potential, it is imperative that the Board  
6 of Regents strive to meet its master plan's goal of achieving greater accountability,  
7 efficiency, and effectiveness in the postsecondary education system and report publicly  
8 relative to its progress with regard to this crucial endeavor.

9 THEREFORE, BE IT RESOLVED that the Legislature of Louisiana does hereby  
10 direct the Board of Regents to submit to the commissioner of administration and the  
11 legislature, by April 15, 2016, a report that outlines the initiatives that the board, in  
12 consultation with the public postsecondary education management boards, will take to  
13 ensure greater accountability, efficiency, and effectiveness in the public postsecondary  
14 education system for the 2016-2017 Fiscal Year and beyond.

15 BE IT FURTHER RESOLVED that such report shall include but not be limited to  
16 an examination of the following:

17 (1) Eliminating or consolidating certain programs that do not have proven efficacy,  
18 departments that are unnecessary in furtherance of the master plan, and, where possible,  
19 reducing the number of administrative staff, which has grown in greater proportion than  
20 enrollment at many institutions.

21 (2) Recognizing and utilizing the unique attributes of each institution and funding  
22 it in accordance with its mission and the costs associated with its programs.

23 (3) Making optimal use of all available fiscal, academic, and physical resources  
24 through cooperation among institutions to achieve all synergies and efficiencies possible.

25 (4) Maximizing the opportunity of all students to successfully and efficiently pursue  
26 their academic goals while holding students, faculty, and staff accountable for their  
27 respective roles in postsecondary education.

28 BE IT FURTHER RESOLVED that a suitable copy of this Resolution be transmitted  
29 to the chairman of the Board of Regents, the commissioner of higher education, and the  
30 president of each public postsecondary education management board.
