

2016 Second Extraordinary Session

HOUSE RESOLUTION NO. 18

BY REPRESENTATIVE HUNTER

HOSPITALS: Expresses support for the public-private partnerships through which the safety net hospitals of this state are operated

1 A RESOLUTION

2 To express support for the public-private partnerships through which Louisiana's safety net
3 hospitals are operated, and through which vital healthcare services are delivered
4 throughout this state.

5 WHEREAS, a sudden reduction in federal funding for the Louisiana Medicaid
6 program was included in a sweeping transportation bill passed by the United States Congress
7 and signed into law on July 6, 2012, and resulted in a net decrease of over eight hundred fifty
8 million dollars in the Medicaid budget of this state in state fiscal year 2012-2013; and

9 WHEREAS, pursuant to this dramatic cut to Medicaid funding, the Department of
10 Health and Hospitals (now named the Louisiana Department of Health) addressed the
11 shortfall by eliminating funding for state hospitals operated by the Board of Supervisors of
12 Louisiana State University and Agricultural and Mechanical College (LSU); and

13 WHEREAS, the state has developed public-private partnerships since 2012 for the
14 delivery of health services at LSU hospital facilities which are now operated by private
15 healthcare enterprises, with the terms and conditions for such service delivery set forth in
16 cooperative endeavor agreements among the state and private providers; and

17 WHEREAS, a major aim of the public-private partnerships is to ensure multiple
18 points of community access and the delivery of cost-effective medical care for all Louisiana
19 citizens; and

1 WHEREAS, private providers that broaden access, choice, and cost-effective care
2 in a community are the ideal partners for these former charity hospitals in their mission of
3 serving the healthcare needs of the people of this state; and

4 WHEREAS, the availability of multiple healthcare providers in a community drives
5 down healthcare costs, increases choices among patients for care, and improves the quality
6 of care and health outcomes; and

7 WHEREAS, in terms of fiscal and public health policy, it is in the best interest of this
8 state to continue or initiate public-private hospital partnerships which enhance access to
9 consumer-centered health care and cost-effective health services delivery.

10 THEREFORE, BE IT RESOLVED that the House of Representatives of the
11 Legislature of Louisiana does hereby express support for the public-private partnerships
12 through which Louisiana's safety net hospitals are operated, and through which vital
13 healthcare services are delivered throughout this state.

14 BE IT FURTHER RESOLVED that the House of Representatives of the Legislature
15 of Louisiana does hereby declare that the best interests of this state are served through
16 partnerships for operation of Louisiana's safety net hospitals with partners that increase the
17 number and availability of healthcare providers in a given community or market.

18 BE IT FURTHER RESOLVED that a copy of this Resolution be transmitted to the
19 chancellor of the Louisiana State University Health Sciences Center at New Orleans, the
20 chancellor of the Louisiana State University Health Sciences Center at Shreveport, the
21 secretary of the Louisiana Department of Health, and the commissioner of administration.
