(2)(a) Notwithstanding any other provision of this constitution to the contrary, adjustments to any constitutionally protected or mandated allocations or appropriations, and transfer of monies associated with such adjustments, are authorized when state general fund allocations or appropriations have been reduced in an aggregate amount equal to at least seven-tenths of one percent of the total of such allocations and appropriations for a fiscal year **or when there is a decrease in recurring federal financial participation in state assistance expenditures for nondiscretionary state general fund expenditures**. Such adjustments may not exceed five percent of the total appropriation or allocation from a fund for the fiscal year. For purposes of this Subsubparagraph, reductions to expenditures required by Article VIII, Section 13(B) of this constitution shall not exceed one percent and such reductions shall not be applicable to instructional activities included within the meaning of instruction pursuant to the Minimum Foundation Program formula. Notwithstanding any other provisions of this constitution to the contrary, monies transferred as a result of such budget adjustments are deemed available for appropriation and expenditure in the year of the transfer from one fund to another, but in no event shall the aggregate amount of any transfers exceed the amount of the deficit.

(b) Notwithstanding any other provision of this constitution to the contrary, for the purposes of the budget estimate and enactment of the budget for the next fiscal year, when the official forecast of recurring revenues for the next fiscal year is at least one percent less than the official forecast for the current fiscal year **or when there is a decrease in recurring federal financial participation in state assistance expenditures for nondiscretionary state general fund expenditures**, the following procedure may be employed to avoid a budget deficit in the next fiscal year. An amount not to exceed five percent of the total appropriations or allocations for the current fiscal year from any fund established by law or this constitution shall be available for expenditure in the next fiscal year for a purpose other than as

1 specifically provided by law or this constitution. For the purposes of this
2 Subsubparagraph, an amount not to exceed one percent of the current fiscal year
3 appropriation for expenditures required by Article VIII, Section 13(B) of this
4 constitution shall be available for expenditures for other purposes in the next fiscal
5 year. Notwithstanding any other provisions of this constitution to the contrary,
6 monies made available as authorized under this Subsubparagraph may be transferred
7 to a fund for which revenues have been forecast to be less than the revenues in the
8 current fiscal year for such fund. Monies transferred as a result of the budget actions
9 authorized by this Subsubparagraph are deemed available for appropriation and
10 expenditure, but in no event shall the aggregate amount of any such transfers exceed
11 the amount of the difference between the official forecast for the current fiscal year
12 and the next fiscal year.

Present constitution authorizes the legislature to establish a procedure to determine a projected deficit and a method for adjusting appropriations to eliminate the deficit.

Present constitution authorizes the governor, with legislative approval, to reduce up to five percent of appropriations or allocations from the state general fund and dedicated funds in any fiscal year in which a deficit is projected and reductions of at least seven-tenths of one percent in appropriations from the state general fund have already occurred. Further provides that such reductions to the Minimum Foundation Program (MFP) shall be limited to one percent and shall not be applicable to instructional activities.

Present constitution authorizes the legislature to reduce the monies appropriated or allocated for mandatory expenditures or allocations by up to five percent, making those funds available for other, nonmandatory expenditures if the official revenue forecast for the next year is at least one percent less than for the current year.

Proposed constitutional amendment retains present constitution and authorizes the reduction of monies appropriated or allocated for mandatory expenditures or allocations, making those funds available for other, nonmandatory expenditures when there is a decrease in recurring federal financial participation in state assistance expenditures for nondiscretionary state general fund expenditures.
