AN ACT

To amend and reenact R.S. 36:4(B)(1)(a), to enact Part VIII of Chapter 2 of Title 49 of the Louisiana Revised Statutes of 1950, to be comprised of R.S. 49:220.41 through 220.45, and to repeal R.S. 38:90.2 and 90.5, relative to the Louisiana Watershed Initiative; to provide for purpose; to create the Watershed Management Council within the office of the governor; to require the council to make recommendations; to provide for membership of the council; to provide relative to compensation; to provide for powers, duties, and authority of the council; to provide for regional watershed coalitions; to provide for rules and regulations; to provide for terms and definitions; to provide for public notice; to provide with respect to funding mechanisms and allocations; and to provide for related matters.

Be it enacted by the Legislature of Louisiana:

Section 1. R.S. 36:4(B)(1)(a) is hereby amended and reenacted to read as follows:

§4. Structure of executive branch of state government

\* \* \*

B. The office of the governor shall be in the executive branch of state government.

1 (1) The following agencies and their powers, duties, functions, and  
2 responsibilities are hereby transferred to the office of the governor:

3 (a) Division of administration (Subtitle I of Title 39 of the Louisiana Revised  
4 Statutes of 1950 generally, including but not limited to R.S. 39:1 et seq., 11 et seq.,  
5 15.1 et seq., 21 et seq., 51 et seq., 71 et seq., 87.1 et seq., 88.1 et seq., 101 et seq.,  
6 140 et seq., 171 et seq., 196 et seq., 231 et seq., 251 et seq., 321 et seq., 333 et seq.,  
7 360 et seq., and 367; and also R.S. 39:1410, 1481 et seq., 1527 et seq., 1551 et seq.,  
8 1751 et seq., 1761 et seq., 1796 et seq., 2001 et seq., and 2171 et seq.; R.S.  
9 40:1237.2; R.S. 41:1 et seq., R.S. 42:801 et seq. and 1261 et seq.; R.S. 43:1,31, 33,  
10 and 81- 90; R.S. 47:35; and R.S. 49:141, 205, **220.41 et seq.**, 661 et seq., 954.1, and  
11 981 et seq.).

12 \* \* \*

13 Section 2. Part VIII of Chapter 2 of Title 49 of the Louisiana Revised Statutes of  
14 1950, comprised of R.S. 49:220.41 through 220.45, is hereby enacted to read as follows:

15 **PART VIII. LOUISIANA WATERSHED INITIATIVE**

16 **§220.41. Louisiana Watershed Initiative; purpose**

17 **A. The state of Louisiana recognizes that Louisiana's abundant water**  
18 **resources can often endanger communities and that water does not follow**  
19 **political boundaries, but rather responds to geological, bathymetrical, and**  
20 **hydrological boundaries.**

21 **B. The purpose of this Part is to establish the Watershed Management**  
22 **Council to develop, implement, and manage the Louisiana Watershed Initiative,**  
23 **a statewide, comprehensive watershed planning process that fosters the**  
24 **collaborative management of Louisiana's flood risks by local, state, and regional**  
25 **governmental entities.**

26 **C. The legislature hereby finds that:**

27 **(1) Louisiana communities are hydraulically and hydrologically**  
28 **connected within the bounds of a watershed, and decisions made in one portion**  
29 **of a watershed may impact floodplains in other portions of the same watershed.**

1           (2) Flooding after a rain event is not only related to the amount and  
2           intensity of rainfall received, but is also closely tied to land use, as well as policy  
3           and infrastructure decisions.

4           (3) Floodplains are impacted by actions and decisions made by a wide  
5           variety of people, laws, and regulatory bodies, including private landowners,  
6           municipalities, parish leaders, zoning laws, building codes, regulations, and  
7           federal requirements.

8           (4) Existing practices across varying levels of government do not  
9           currently provide for the comprehensive floodplain management that is  
10          necessary to properly address drainage issues as land is developed.

11          (5) The increasing frequency and extent of flood events demands  
12          heightened levels of coordination, information sharing, and response among  
13          state agencies and local and regional stakeholders in order to more closely align  
14          resources and programs designed to protect communities from flooding and  
15          manage floodplains and watersheds effectively.

16          D. The legislature further finds that cooperative endeavors and  
17          coordination amongst local governments, parish governments, and political  
18          subdivisions within a watershed region boundary, in furtherance of the goals of  
19          the Watershed Initiative as provided in this Part, constitute a public purpose as  
20          contemplated by Article VII, Section 14(C) of the Constitution of Louisiana.

21          E. It is the purpose and intent of the legislature, through the creation of  
22          the Watershed Management Council to improve the way residents and  
23          governments understand, address, and respond to flood risks; to organize a  
24          structure for making changes and improvements on a watershed scale; and to  
25          develop modeling, planning, and data tools that inform and support more  
26          effective watershed-based floodplain management.

27          §220.42. Definitions

28          As used in this Part, the following terms shall have the meanings  
29          ascribed to them unless the context clearly indicates otherwise:

1                   (1) "Council" means the Watershed Management Council.

2                   (2) "Floodplain" means any area of land within a watershed that is  
3 susceptible to inundation by floodwaters from any source.

4                   (3) "Watershed" means a geographic area within the boundary of a  
5 drainage divide that drains all of its streams and rainfall into a common outlet.

6 §220.43. Watershed Management Council; creation; membership

7                   A. There is hereby created within the division of administration the  
8 Watershed Management Council.

9                   B. The council shall be composed of the following members:

10                   (1) The commissioner of administration or his designee, who shall serve  
11 as chairman.

12                   (2) A member appointed by the speaker of the House of Representatives  
13 from the membership of the House Committee on Transportation, Highways,  
14 and Public Works.

15                   (3) A member appointed by the president of the Senate from the  
16 membership of the Senate Committee on Transportation, Highways, and Public  
17 Works.

18                   (4) The secretary of the Department of Transportation and Development  
19 or his designee.

20                   (5) The chairman of the Coastal Protection and Restoration Authority  
21 or his designee.

22                   (6) The executive director of the Louisiana office of community  
23 development or his designee.

24                   (7) The director of the Governor's Office of Homeland Security and  
25 Emergency Preparedness or his designee.

26                   (8) The secretary of the Department of Wildlife and Fisheries or his  
27 designee.

28                   (9) The secretary of the Department of Environmental Quality or his  
29 designee.

1                   (10) The secretary of the Department of Natural Resources or his  
2 designee.

3                   (11) The commissioner of agriculture and forestry or his designee.

4                   (12) A member appointed by the president of the Association of Levee  
5 Boards of Louisiana from the membership of the association.

6                   (13) The chairman of the State Soil and Water Conservation Commission  
7 or his designee.

8                   (14) The executive director of the Police Jury Association of Louisiana  
9 or his designee.

10                  (15) The executive director of the Louisiana Municipal Association or his  
11 designee.

12                  C. A majority of the members shall constitute a quorum. Members of the  
13 council shall not be compensated for their services but may seek travel  
14 reimbursement from their respective agencies in accordance with the agency's  
15 travel reimbursement guidelines.

16                  §220.44. Watershed Management Council; powers and duties; authority

17                  A. The Watershed Management Council shall have the following powers  
18 and duties:

19                  (1) Develop, implement, and manage the Louisiana Watershed Initiative  
20 to foster the collaborative management of Louisiana's flood risks by local, state,  
21 and regional governmental entities.

22                  (2) Promote a unified effort, built on scientific and engineering  
23 principles, to address flooding issues across the state.

24                  (3) Achieve consistency in project planning and modeling activities  
25 across the Louisiana Watershed Initiative.

26                  (4) Identify and work with or seek input from additional local, state, and  
27 federal agencies, and other stakeholders including but not limited to nonprofit  
28 research institutions, university research institutions, drainage or levee boards,  
29 and other local districts, and private sector companies.

1           **(5) Expand, develop, and use in-state skill, knowledge, technology, and**  
2           **talent to develop and implement the program promoting Louisiana resources**  
3           **through collaboration, communication, and cooperation among governmental,**  
4           **nongovernmental, for-profit, nonprofit, and university entities.**

5           **(6) Increase state and local resilience to flooding by working to improve**  
6           **response to flooding and reduce the instances, damage, and amount of time**  
7           **needed to recover from flooding.**

8           **(7) Create a path for the state and its various jurisdictions and political**  
9           **subdivisions to coordinate at a statewide and watershed level plan to maximize**  
10           **flood risk reduction in coordination with the natural and beneficial functions**  
11           **of the watershed and its floodplains, and to consistently manage floodplains**  
12           **using contextually appropriate best practices.**

13           **(8) Work with the interdependencies of our communities, infrastructure,**  
14           **political jurisdictions, and the natural environment to increase Louisiana's**  
15           **resilience and its ability to adapt and thrive.**

16           **(9) Promote actions, including legislative, administrative, and regulatory,**  
17           **where appropriate, to enhance watershed and floodplain management in**  
18           **Louisiana.**

19           **(10) Identify, prioritize, acquire, and establish funding mechanisms to**  
20           **enhance and further efforts associated with the Louisiana Watershed Initiative.**

21           **(11) Facilitate watershed-based floodplain management by working to**  
22           **create watershed-bounded entities across the state.**

23           **(12) Develop an approach to watershed-based floodplain management**  
24           **that is recognized as a model for others nationally and internationally.**

25           **(13) Create, update, review, and revise a statewide watershed plan in a**  
26           **manner that is consistent with applicable federal laws and regulations and with**  
27           **the comprehensive master coastal protection plan as defined by R.S. 49:214.2.**

28           **(14) Establish and provide assistance to temporary regional steering**  
29           **committees within each watershed region boundary to provide input in the**

1 development and implementation of long-term regional watershed  
2 organizational structures, watershed management strategies, and the  
3 implementation of projects, programs, and policies emanating from strategic  
4 efforts.

5 (15) Approve, upon the recommendation of regional steering committees,  
6 regional watershed coalitions formed among parishes, political subdivisions,  
7 and municipal governments within a designated watershed region to coordinate  
8 the development of watershed management plans and to aid in administering  
9 the implementation of projects, programs, and policies emanating from those  
10 planning efforts. This authority shall be exercised consistent with R.S.  
11 49:220.45.

12 (16) Allocate funds to regional watershed coalitions, should sufficient  
13 funds become available through either state, federal, or private sources.

14 (17) Promulgate rules and regulations necessary to implement the  
15 provisions of this Part.

16 B. Nothing in this Chapter shall interfere with the statutorily-granted  
17 authority of any state agency or local government.

18 §220.45. Regional watershed coalitions; creation; powers and duties

19 A. In order to foster regionally led watershed-based floodplain  
20 management, the Watershed Management Council may approve permanent  
21 regional watershed coalitions from the recommendations submitted by regional  
22 steering committees within watershed regions.

23 B. The council shall consider the approval of regional watershed  
24 coalitions in a manner consistent with the following procedure:

25 (1) The regional steering committee shall submit a written  
26 recommendation that includes the proposed membership and structure of the  
27 regional watershed coalition that provides the most effective framework for a  
28 designated watershed to meet the goals and objectives of the Louisiana  
29 Watershed Initiative.

1           **(2) The council shall hold a public hearing for consideration of the**  
2           **recommendation after publishing a public notice of intention to create a**  
3           **regional watershed coalition three times in the official journal of the state and**  
4           **the official journal of each parish contained within the designated watershed**  
5           **regional boundary. The publications shall be not less than fifteen days prior to**  
6           **the date of the public hearing.**

7           **(3) Thirty days after holding the public hearing and considering any**  
8           **public comments received, the council may either approve the recommendation**  
9           **to create the regional watershed coalition or return the recommendation to the**  
10           **regional steering committee for further consideration if the council determines**  
11           **either of the following:**

12           **(a) The recommendation needs to address the public comments received.**  
13           **When considering comments related to the creation of a particular regional**  
14           **watershed coalition, comments from individuals and entities located within the**  
15           **particular watershed region shall be given greater weight than those from**  
16           **outside of the region.**

17           **(b) The recommendation is inconsistent with the purpose of this Part and**  
18           **with requirements imposed by federal or state funding agreements.**

19           **(4) The council shall foster collaboration amongst approved regional**  
20           **watershed coalitions by convening meetings to resolve disputes and issuing**  
21           **recommendations for actions that prioritize the goals and objectives of this Part.**

22           **C. Approved regional watershed coalitions shall constitute a political**  
23           **subdivision of the state of Louisiana and shall be subject to the Open Meetings**  
24           **Law pursuant to R.S. 42:11 et seq., and the Public Records Law pursuant to**  
25           **R.S. 42:1 et seq.**

26           **D. Regional watershed coalitions may:**

27           **(1) Develop regional watershed management plans and facilitate regional**  
28           **watershed floodplain management using members' best practices in**  
29           **consultation with the Watershed Management Council and its member's**

1           agencies.

2                   (2) Receive funds as authorized by the legislature, the executive branch,  
 3           the federal government, or through other public or private sources provided  
 4           that those funds are spent in accordance with the goals and objectives of the  
 5           statewide watershed plan.

6                   (3) Provide technical assistance, development guidance, and support to  
 7           local entities in watershed management and flood risk reduction.

8                   (4) Provide public outreach and education to residents and local leaders  
 9           to support long-term capacity building on watershed management and flood  
 10          risk reduction, including technical support of best practices for land use,  
 11          development, and building codes.

12                  (5) Enter into cooperative endeavor agreements with the council to  
 13          provide organizational and technical support in furtherance of this Part.

14                  (6) Facilitate meetings of local entities to support and advance land use  
 15          and development practices and water management projects that reduce flood  
 16          risks without causing undue harm to neighboring jurisdictions or regions.

17                  (7) Propose, support, and review projects that reduce flood risks without  
 18          causing undue harm to neighboring jurisdictions or regions.

19          Section 3. R.S. 38:90.2 and 90.5 are hereby repealed.

SB 42 Engrossed

DIGEST  
2023 Regular Session

Fred Mills

Proposed law establishes the Watershed Management Council to develop, implement, and manage the Louisiana Watershed Initiative that is a statewide, comprehensive watershed planning process, which fosters the collaborative management of flood risks by local, state, and regional governmental entities.

Proposed law provides for legislative intent, purpose, and findings.

Proposed law creates the Watershed Management Council within the division of administration that consists of the following members:

- (1) The commissioner of administration or his designee, who serves as the chairman.

- (2) A member appointed by the speaker of the House of Representatives from the membership of the House Committee on Transportation, Highways, and Public Works.
- (3) A member appointed by the president of the Senate from the membership of the Senate Committee on Transportation, Highways, and Public Works.
- (4) The secretary of the Department of Transportation and Development or his designee.
- (5) The chairman of the Coastal Protection and Restoration Authority or his designee.
- (6) The executive director of the Louisiana office of community development or his designee.
- (7) The director of the Governor's Office of Homeland Security and Emergency Preparedness or his designee.
- (8) The secretary of the Department of Wildlife and Fisheries or his designee.
- (9) The secretary of the Department of Environmental Quality or his designee.
- (10) The secretary of the Department of Natural Resources or his designee.
- (11) The commissioner of agriculture and forestry or his designee.
- (12) A member appointed by the president of the Association of Levee Boards of Louisiana from the membership of the association.
- (13) The chairman of the State Soil and Water Conservation Commission or his designee.
- (14) The executive director of the Police Jury Association of Louisiana or his designee.
- (15) The executive director of the Louisiana Municipal Association or his designee.

Proposed law provides for the powers and duties of the council that include developing, implementing, and managing the Louisiana Watershed Initiative and associated actions that encourage collaboration on an interconnected statewide and watershed basis. Proposed law further authorizes the council to create, update, and revise a statewide watershed plan, establish temporary regional steering committees, approve permanent regional watershed coalitions, allocate funds to these coalitions, and promulgate rules and regulations to implement proposed law.

Proposed law provides that nothing in proposed law shall interfere with the statutorily-granted authority of any state agency or local government.

Proposed law provides for the approval of regional watershed coalitions by the council based upon the recommendation of a regional steering committee, a publicly noticed public hearing, and public comments.

Proposed law provides approved regional watershed coalitions are political subdivisions of the state and are subject to the Open Meetings Law and the Public Records Law.

Proposed law authorizes regional watershed coalitions to develop regional watershed management plans, facilitate watershed management, receive funds, provide assistance to local entities, conduct outreach and education, enter cooperative endeavor agreements, facilitate meetings of local entities, and propose flood risk reduction projects.

Present law creates the Floodplain Evaluation and Management Commission to revise the flood information database. Present law provides for the methodology for evaluating flood-control projects. Proposed law repeals present law.

Effective August 1, 2023.

(Amends R.S. 36:4(B)(1)(a); adds R.S. 49:220.41- 220.45; repeals R.S. 38:90.2 and 90.5)

Summary of Amendments Adopted by Senate

Committee Amendments Proposed by Senate Committee on Transportation, Highways, and Public Works to the original bill

1. Removes provisions relative to staffing.
2. Makes technical changes.
