HEALTH DEPARTMENT. Creates the Louisiana Community Health Worker Workforce Study Committee.

A CONCURRENT RESOLUTION

To create the Louisiana Community Health Worker Workforce Study Committee to study and provide recommendations to the secretary of the Louisiana Department of Health relative to supporting and expanding the community health worker workforce in Louisiana.

WHEREAS, community health workers (CHW) are an emerging group of healthcare professionals who, according to the American Public Health Association (APHA), serve as frontline public health workers who are trusted members of their community with a unique understanding of the needs of the community they serve. A CHW also builds individual and community capacity by increasing health knowledge and self-sufficiency through a range of activities such as outreach, community education, informal counseling, social support, and advocacy; and

WHEREAS, it has been demonstrated that CHWs can improve health outcomes, reduce costs of healthcare, and address social determinants of health by collaborating with healthcare, public health, and social services systems; and
