□ HOUSE  
□ , NO. 630 OF 2011-2012.]

**The Commonwealth of Massachusetts**

**In the Year Two Thousand Thirteen**

An Act relative to the labeling of food.

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:*

1 SECTION 1. Section 1 of chapter 94 of the General Laws, as appearing in the 2010  
2 Official Edition, is hereby amended by inserting after the definition of “Food” the following  
3 new definition:-

4 “Genetically engineered material”, any material derived in whole or in part from  
5 processes, as identified by the national organic program of the U.S. department of agriculture,  
6 used to modify genetically organisms or influence their growth and development by means that  
7 are not possible under natural conditions or processes. Such methods include cell fusion,  
8 microencapsulation and macroencapsulation, and recombinant DNA technology (including gene  
9 deletion, gene doubling, introducing a foreign gene, and changing the positions of genes when  
10 achieved by recombinant DNA technology). Such methods do not include the use of traditional  
11 breeding, conjugation, fermentation, hybridization, in vitro fertilization, or tissue culture.  
12 Material grown from genetically engineered seed and genetically engineered plant parts shall be  
13 considered genetically engineered material.

14 SECTION 2. Said chapter 94 is hereby amended by adding after section 184E the  
15 following new section:-

16 Section 184F. The Genetically Engineered Food Right to Know Act

17 Upon each package or receptacle holding any proprietary or patent food preparation  
18 containing genetically engineered material, there shall be a label upon which shall be printed, in  
19 plain english, in type not smaller than sixteen point (Columbian) capitals:-

20 “Genetically engineered”

21 Also upon each package, appearing in type not smaller than eight point (brevier)  
22 capitals:-

23 “This product contains a genetically engineered material, or was produced with a  
24 genetically engineered material.”

25 If the size of the package or receptacle will not permit the use of such type, as determined  
26 by the manufacturer, and subject to the approval of the director of standards of the division of  
27 standards, the size thereof may be reduced proportionately. Whoever manufactures, sells or  
28 offers for sale any food preparation in violation of this section shall be punished by a fine of not  
29 less than five nor more than one hundred dollars; but no dealer or retailer shall be held liable or  
30 be prosecuted under this section if the article is marked as it was when purchased by him and he  
31 can establish a guaranty signed by the wholesaler, jobber or manufacturer, residing in this  
32 commonwealth, from whom he purchases such article, to the effect that the same is correctly  
33 marked as required by this section, designating it, unless said dealer or retailer had reason to  
34 believe such guaranty was provided in violation of this section. Such guaranty, to afford  
35 protection, shall contain the names and addresses of the parties making the sale of such articles  
36 to such dealer.

37 SECTION 3. The director of standards may promulgate regulations regarding the  
38 implementation and enforcement of section 184F of chapter 94 of the General Laws.

39 SECTION 4. This act shall take effect July 1, 2015.
