(ii) Any owner of residential property located in the commonwealth who is not a

dependent of another taxpayer and who occupies said property as his principal residence, shall be

allowed a credit for expenditures for design and construction expenses for the connection to

newly installed municipal sewage lines. For the purposes of this clause a "newly installed"

sewage line shall mean sewage line installed by municipality in the year 2019 or later. Such

credit under this clause shall be equal to 40 per cent of said expenditure for connection to the

sewage line. Said expenditures shall be the actual cost to the taxpayer or \$25,000, whichever is

less; provided, however, that said credit shall be available to eligible taxpayers beginning in the

tax year in which the repair or replacement of said cesspool or septic system was completed; and

provided, further, that said credit shall not exceed \$4,000 in any tax year and any excess credit

may be applied over the following five subsequent tax years up to an aggregate maximum of \$10,000. The amount of any such credit shall be reduced by an amount equal to the total interest subsidy or grant received from the commonwealth, whether directly or indirectly, toward the cost of said expenditures. The department shall promulgate such rules and regulations as are necessary to administer the credit afforded by this subsection, including, but not limited to, a notification system by the commonwealth to recipients of said interest subsidy or grant of the amount of the total subsidy provided by the commonwealth.
