The Commonwealth of Massachusetts

In the Year Two Thousand Eleven

An Act relative to energy efficiency in affordable housing.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

1 SECTION 1. The department of energy resources, in consultation with the department of
2 housing and community development, shall establish a program to assist owners of multifamily
3 low and moderate income rental housing with the purchase of energy efficient items for
4 residential building modifications. For the purposes of this program, energy efficient items shall
5 include home insulation; new window installation; advanced programmable thermostats; micro-
6 combined heat and power systems; fuel efficient furnaces, boilers or controls; solar or fuel
7 efficient domestic hot water systems; materials for insulation or sealing of a duct, attic,
8 basement, rim joint or wall; pipe insulation for heating systems; or other items for use in a
9 residential dwelling that reduce energy consumption.

10 In establishing the program, the department shall develop a list of qualified state or federally
11 chartered banking institutions or credit unions that do business in the commonwealth and that are
12 governed by chapter 167 or 171 of the General Laws as participatory lending institutions. For the
13 purposes of this section, a qualified lending institution shall include a lending institution that is
14 certified by the executive office of energy and environmental affairs and which shall offer zero
15 and low interest loans for the purpose of enhancing the energy efficiency of a residential building
16 or multiple dwellings and shall include the Massachusetts Housing Finance Agency and the
17 Massachusetts Housing Partnership. The program shall be funded pursuant to section 19 of
18 chapter 25 of the General Laws. Not less than \$4 million shall be made available annually to
19 assist participating financial institutions in offering these loan products by or through interest
20 rate write downs or other credit enhancement features.

21 The department of energy resources, in consultation with the department of housing and
22 community development, shall establish the rules and guidelines to carry out the purposes of this
23 section, including, but not limited to, establishing applicant criteria, application forms and
24 procedures, energy efficiency product requirements and lending institution tracking and
25 reporting requirements. The department shall submit a report detailing the rules and guidelines
26 and the program results to the joint committee on telecommunications, utilities and energy and
27 the joint committee on housing no less than every two years.

28 SECTION 2. For a program to be administered by the Massachusetts Housing Finance Agency
29 to be known as the Housing Efficiency and Affordability Program to provide grants, low interest
30 loans, credit enhancements, no interest loans, or other financial assistance for the purchase of
31 energy efficient items in new low and moderate income housing sponsored by for-profit and non-
32 profit organizations; provided that said applicants demonstrate that the building design

33 incorporates energy conservation measures that exceed those required by the state building code
34 by at least fifteen per cent or are otherwise designed to comply with energy star standards;
35 provided further that said applicants demonstrate that installation of the energy efficiency
36 measures reduced the energy consumption in said housing; provided further that not more than
37 two per cent of total funding may be expended to cover the actual costs of administering the
38 program; provided further that the Massachusetts Technology Collaborative shall provide
39 \$5,000,000 to match the amount appropriated herein with funds from the Massachusetts
40 Renewable Energy Trust established pursuant to section E of chapter 40J of the general
41 laws.....\$5,000,000
