146 amount in proportion to length of time of the short-year health plan divided by twelve months.

147 (9) No policy may require any waiting period if the eligible individual has not had any
148 creditable coverage for the 18 months prior to the effective date of coverage. Notwithstanding

149 paragraph (3), an eligible individual who does not meet the requirements of paragraphs (2) and
150 (4) may seek an enrollment waiver to permit enrollment not during a mandatory open enrollment
151 period. Enrollment waivers shall be administered and granted by the office of patient protection

159 of the connector authority.

161 health benefit plan outside of the annual open enrollment period if the office determines that:

163 connector authority; and

165 connector authority; or

169 event and applied after the expiration of the applicable time limit and the delay in application
170 was unintentional or by no fault of the person; or

172 which the individual was eligible.

183 month following enrollment.

185 based on a determination that the applicant: (1) is not considered to have met the standard as an
186 eligible individual; or (2) the applicant is not considered to be exempt from being restricted to
187 applying for coverage during required open enrollment periods, the carrier must provide
188 electronic or written notice of the denial to the applicant no later than 5 days after receipt of an
189 application that specifies: (a) the specific reason or reasons the applicant's enrollment was
190 denied; (b) the right of the applicant to enroll during the next specified open enrollment period;
