# HOUSE . . . . . . . . . . . . . . . . No. 852

# The Commonwealth of Massachusetts

#### PRESENTED BY:

#### Martha M. Walz

To the Honorable Senate and House of Representatives of the Commonwealth of Massachusetts in General Court assembled:

The undersigned legislators and/or citizens respectfully petition for the passage of the accompanying bill:

An Act to protect groundwater levels.

#### PETITION OF:

NAME:	DISTRICT/ADDRESS:
Martha M. Walz	8th Suffolk
Byron Rushing	9th Suffolk
Michael J. Moran	18th Suffolk

# The Commonwealth of Massachusetts

In the Year Two Thousand and Nine

## AN ACT TO PROTECT GROUNDWATER LEVELS.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

- 1 SECTION 1. Section 2 of chapter 21A of the General Laws, as appearing in the 2006 Official
- 2 Edition, is hereby amended by inserting after clause (30) the following:
- 3 (31) participate in a City/State Groundwater Working Group as described in a memorandum of
- 4 understanding, as it may be amended from time to time, entered into as of the fifteenth day of
- 5 September 2005 by the office, certain state authorities, the city of Boston, certain city of Boston
- 6 agencies and commissions, and the Boston Groundwater Trust.
- SECTION 2. Section 8 of chapter 21A of the General Laws is hereby amended by inserting, after
   the first paragraph, the following paragraph:
- 9 The department of environmental protection shall be vested with all the powers and duties which
- 10 relate to groundwater supply and groundwater protection necessary to implement the provisions
- 11 of chapter 21 O, including the promulgation of all necessary and appropriate regulations. The
- 12 department of environmental protection shall, in its sole discretion, charge an existing bureau
- 13 with responsibility to implement the provisions of chapter 21 O or create a new bureau for that
- 14 purpose.
- 15 SECTION 3. Massachusetts Groundwater Protection Act
- 16 The General Laws are hereby amended by inserting after chapter 21 N the following chapter:

### 17 CHAPTER 21 O

- 18 MASSACHUSETTS GROUNDWATER PROTECTION ACT.
- (a) <u>Short Title</u>. This chapter shall be known and may be cited as the "Massachusetts
   Groundwater Protection Act".

21 22	(b) <u>Purpose</u> . The purpose of the Massachusetts Groundwater Protection Act is to protect structures supported by wooden pilings from damage due to lowered groundwater.
23 24	(c) <u>Definitions</u> . As used in this chapter, the following words shall, unless the context clearly indicates otherwise, have the following meanings:
25	"Act", the Massachusetts Groundwater Protection Act.
26 27	"Basement", an enclosed structure underneath a building, the floor of which is, in whole or in part, below the adjacent ground surface.
28 29	"Board", the Groundwater Protection Board established pursuant to subsection (j) of this chapter.
30 31	"Bureau Representative", an official from the Department charged with investigating potential causes of groundwater drawdown problem upon petition to the Board.
32 33 34 35	"City/State Groundwater Working Group", the state and other authorities, agencies, and departments that are signatories to the Memorandum of Understanding dated September 15, 2005, and who have been active participants in the quarterly meetings held subsequently, and also including subsequent signatories.
36 37	"Covered Community", shall have the meaning set forth in section (e)(1) of this chapter.
38	"Department", the Department of Environmental Protection.
39 40	"Groundwater", all water beneath the surface of the ground, whether wholly or partly within the commonwealth.
41 42	"Impacted Area", an area within a Covered Community where buildings or other structures are known or suspected to be supported by wooden pilings.
43 44	"Infrastructure Owner or Operator", any person who owns, operates or maintains Underground Infrastructure located within the commonwealth.
45 46 47 48	"Local Agency", the entity within a Covered Community designated to carry out the applicable provisions of this chapter, including any department, board, commission, division, authority, or other entity within a city or town, or any agency or political subdivision thereof.
49 50	"Monitoring Well", an excavation, pipe, or underground structure designed and installed for the purpose of measuring groundwater levels.
51 52	"Other Building Owner", any person who owns a building within the commonwealth and is not classified as a "Residential Building Owner" as defined by this chapter.

53 54	"Owner or Operator", any Residential Building Owner, Other Building Owner, or Underground Infrastructure Owner or Operator.				
55 56	"Person", any agency or political subdivision of government, any public or private corporation or authority, any natural person, individual, trust, firm, joint stock				
57 58	company, partnership, association or other entity, and any officer, employee, or agent of such person.				
59 60	"Residential Building Owner", any person who owns a residential dwelling. A condominium association shall be considered a Residential Building Owner for the				
61	purpose of this chapter.				
62 63 64	"Recharge" or "Recharging", the replacement of groundwater through the use of a Recharge Well or other underground structure or system designed, constructed, and installed for the purpose of conveying water into the ground.				
65	"Recharge Well", an excavation, perforated pipe, or porous underground structure,				
66 67	such as a drywell or leaching pit, trench, or gallery, designed and installed for the purpose of Recharging groundwater.				
68	"State Agency/Agencies", entities or instrumentalities of state government, including				
69 70	but not limited to all departments, boards, commissions, divisions, authorities, or other such organizations established by the Commonwealth.				
71 72	"Sump Pump", a mechanism that discharges local groundwater to a sewer or other conveyance.				
73	"Underground Infrastructure", any subsurface installation other than a Residential				
74 75	Building or Other Building, such as piping and conduits, tunnels, depressed roadways, railways, walkways, and Basements, including those owned, operated or				
76	maintained by public entities or private parties.				
77 78	"Wooden pilings", tree trunks or other wooden supports driven into soil to provide a base upon which buildings or other structures are constructed.				
79 (	d) Powers and Duties of the Department.				
80	(1) Within 90 days from the effective date of this chapter, the Department shall				
81 82	develop and implement a plan for the staffing, equipping and funding of its program under this chapter.				
83	(2) The Department shall develop and adopt regulations to effectively plan and				
84	manage groundwater and for the administration of this chapter as necessary				
85 86	and proper to ensure an adequate supply of groundwater for the purpose of sustaining and protecting existing and new structures supported by wooden				
87	pilings within the commonwealth.				

88 89 90 91 92 93 94 95		(i) Such regulations shall be designed to protect the natural supply of groundwater and maintain stable groundwater levels to protect structures that now depend on sufficient groundwater levels for structural support; to assure comprehensive and systematic planning and management of water withdrawals impacting groundwater levels in Impacted Areas throughout the commonwealth; and to remedy damage resulting from exposure caused by lowered groundwater to buildings and other structures supported by wooden pilings.
96 97 98		<ul> <li>(ii) The Department shall establish a mechanism for monitoring groundwater levels impacted by leaking Underground Infrastructure, Basements, and other sources of groundwater drawdown.</li> </ul>
99 100 101 102	(3)	The Department shall promulgate final regulations within 180 days of the effective date of this chapter establishing the criteria, standards and procedures to be followed in making the applicability determinations consistent with the provisions of subsection (e)(1).
103 104 105	(4)	Within 180 days of the effective date of this chapter, the Department shall adopt, and thereafter from time to time may amend, standards and regulations on the enforcement of the provisions of this chapter.
106 107 108 109 110 111 112 113 114	(5)	The Department shall have the authority to require State Agencies and Local Agencies to: provide requested information from building permits and other historical records, in consultation with local transportation departments, historical research organizations, and historical preservation groups; conduct field monitoring, testing and inspections in order to identify reporting limits; administer and enforce the Department's regulations adopted pursuant to this chapter; report instances of noncompliance; and assess and collect permit fees, and fines for noncompliance and nonpayment of fees and permit fees authorized by this chapter.
115 116 117 118 119 120	(6)	The Department shall coordinate with and provide oversight of Local Agencies to effectuate the obligations imposed upon Local Agencies under this Act, and shall monitor Local Agencies' compliance with all applicable provisions, including oversight of Local Agencies and their responsibilities under this chapter to regulate the use of sump pumps and the administration of construction permits involving groundwater removal.
121 122 123 124 125	(7)	As may be necessary from time to time to carry out the purposes of this chapter, the Department may acquire real property, or any interest therein, by purchase, gift or lease, or by eminent domain under the provisions of chapter seventy-nine, and may conduct construction for the purpose of Recharging local groundwater.
126 127	(8)	The Department shall coordinate with and oversee the establishment by Local Agencies of fees that shall be imposed upon any Person who pumps or

128 129 130		otherwise removes groundwater within a Covered Community in connection with activities including, but not limited to, construction, excavation, renovation, operation or other groundwater removal.		
131 132 133 134 135 136 137 138 139 140	(9)	The Department shall promulgate regulations governing the issuance of groundwater removal permits for any construction, excavation, renovation, operation or other groundwater removal activities being conducted within an Impacted Area. Said regulations shall set forth the criteria, standards and procedures for issuing groundwater removal permits and shall establish a schedule for groundwater removal fees. Upon the effective date of the Department's regulations, no groundwater shall be removed from any groundwater source within an Impacted Area a groundwater removal permit obtained from the Department. Said regulations shall further provide, at a minimum, that:		
141 142 143		(i)	The permitting program established shall be administered by the Local Agency designated by each Covered Community pursuant to subsection (e) of this chapter;	
144 145 146 147 148 149 150 151 152		(ii)	Any Person who pumps or otherwise removes groundwater in connection with any construction, excavation, renovation, operational, or other activities within the boundaries of an Impacted Area shall be subject to the permitting program; the failure of any Person who is subject to the permitting program to comply with the requirement to obtain a permit shall subject said Person to enforcement pursuant to subsection (e)(5); each Local Agency shall provide notice to all property owners within Impacted Areas of the measures they will need to undertake to comply;	
153 154 155		(iii)	Each permit issued pursuant to this subsection shall require as a condition to the permit the Recharge of groundwater being removed to the maximum extent feasible;	
156 157 158 159 160		(iv)	Each permit holder shall pay a groundwater removal fee established by the applicable Local Agency; in the event that groundwater is directed into a local Recharge Well, groundwater removal fees shall not be assessed or collected, but said Person shall remain subject to the permitting program and the requirement to obtain a permit; and	
161 162 163 164		(v)	The uniform system of groundwater removal fees established by the Department pursuant to this section shall be linearly proportional to the volumes of groundwater removed, which shall be monitored and recorded using a utility meter.	
165 166	(10)		epartment is empowered to require from time to time reports, studies, halyses by Local Authorities on whether this Act should be amended to	

167 168			ss other means of maintaining groundwater sufficiency, including, but nited to, Recharge from sidewalks, parking areas, and roof drains.
169 170	(11)	The D hereir	Department shall establish and administer various funds as set forth
171 172		(i)	The Department is hereby authorized to establish a Groundwater Protection Fund.
173 174		(ii)	The Department is hereby authorized to establish a Groundwater Protection Loan Fund.
175 176 177		(iii)	The Department is hereby authorized to establish a Groundwater Protection Remedial Fund, which shall have a funding source separate from and independent of the Groundwater Protection Fund.
178 179		(iv)	All fees, fines, and other monies collected pursuant to this chapter shall be placed into the Groundwater Protection Fund.
180 181 182 183 184 185 186 187 188		(v)	Within 180 days from the effective date of this chapter, the Department shall establish rules for disbursement of the funds from the Groundwater Protection Fund, which shall include provisions for the periodic disbursement in equal portions to: (i) the Department for its administrative costs in carrying out the provisions of this chapter; (ii) Local Agencies within Covered Communities for carrying out their administrative and enforcement responsibilities pursuant to the provisions of this chapter; and (iii) the Groundwater Protection Loan Fund.
189 190 191 192 193		(vi)	Within 180 days from the effective date of this chapter, the Department shall develop rules for the disbursement of low-cost loans from the Groundwater Protection Loan Fund to private property owners which apply for such monies to install a Recharge Well (or wells).
194 195 196		(vii)	Within 180 days from the effective date of this chapter, the Department shall promulgate regulations for the funding and administration of the Groundwater Protection Remedial Fund.
197	(e) <u>Dutie</u>	s and O	bligations of Covered Communities.
198	(1)	Appli	cability
199 200 201 202		(i)	The requirements of this section shall apply to all cities and towns that determine, consistent with the provisions of this chapter, that buildings or other structures located within their duly constituted boundaries are supported by wooden pilings that are structurally dependent on

203 204			coverage by groundwater. These cities and towns shall be designated as Covered Communities.
205 206 207 208		(ii)	All cities and towns shall make the applicability determination required under this subsection and report to the Department within one year of the effective date of this chapter. Such determination shall be made by majority vote of the city council or town meeting.
209 210 211 212 213 214 215		(iii)	Any legal resident of said city or town shall have the right to petition the Groundwater Protection Board for review of the applicability determination made by a city or town pursuant to the provisions of this section if such city or town determined that buildings or other structures located within its duly constituted boundaries are not supported by wooden pilings that are structurally dependent on coverage by groundwater
216 217 218		(iv)	A Local Agency within each Covered Community shall be charged with the responsibility of complying with the applicable requirements of this chapter.
219 220 221 222		(v)	The permitting program shall provide for an exception for emergency water removal, including the use of sump pumps, caused by extreme weather events. A permit shall not be required and fees shall not apply for fourteen days following the extreme weather event.
223	(2)	Impac	eted Areas
223 224 225 226 227	(2)	Impac (i)	
224 225 226	(2)	-	Each Covered Community shall identify Impacted Areas where buildings or other structures are known or suspected to be supported by wooden pilings and are therefore potentially subject to damage due
224 225 226 227 228 229 230	(2)	(i)	<ul> <li>Each Covered Community shall identify Impacted Areas where buildings or other structures are known or suspected to be supported by wooden pilings and are therefore potentially subject to damage due to lowered groundwater.</li> <li>Each Covered Community shall monitor the local levels of groundwater in Impacted Areas. Monitoring may be accomplished using new or existing Monitoring Wells or other techniques to monitor</li> </ul>
224 225 226 227 228 229 230 231 232	(2)	(i) (ii) (iii) Certificertifi	<ul> <li>Each Covered Community shall identify Impacted Areas where buildings or other structures are known or suspected to be supported by wooden pilings and are therefore potentially subject to damage due to lowered groundwater.</li> <li>Each Covered Community shall monitor the local levels of groundwater in Impacted Areas. Monitoring may be accomplished using new or existing Monitoring Wells or other techniques to monitor local levels of groundwater.</li> <li>Each Covered Community shall publish and update at least quarter-annually a map showing groundwater levels in Impacted Areas.</li> <li>ication Program. Each Covered Community shall keep a record of the cations to be made by property owners at the time of sale of each rty sold within the boundaries of an Impacted Area as required by</li> </ul>

241 242 243 244 245 246		(5)	pursua ordina Buildin Underg	ement. Each Covered Community is hereby authorized to collect fees nt to this chapter, and is hereby authorized to adopt bylaws or nces providing for enforcement and penalties against Residential ng Owners, Other Building Owners, and Owners and Operators of ground Infrastructure that are consistent with the Department's tions issued pursuant to this chapter.
247	(f)	<u>Sump</u>	Pump R	Removal Program.
248 249 250 251		(1)	require Impact	e months from the effective date of this chapter, the following ements shall apply to all Residential Building Owners within an ted Area and shall be met prior to the closing of a sale of any parcel of ty located within the boundaries of an Impacted Area.
252 253 254 255 256 257 258 259 260 261 262 263 264 265 266 267 268			(i)	Each Residential Building Owner within an Impacted Area shall ascertain whether a sump pump is present on such property. In the event that no sump pump exists, the owner shall certify that fact according to the procedures set forth below. In the event that a sump pump does exist, the property shall be subject to a groundwater removal fee, unless said owner has permanently disconnected the sump pump from the sewer or other conveyance and re-directed the flow to a Recharge Well, or taken other measures to eliminate the need for a sump pump. If the sump pump has not been disconnected, said owner must install a utility meter to monitor and record the volume of groundwater removed, and said owner must pay the groundwater removal fee established pursuant to section (d). The owner shall certify that (i) the sump pump has been permanently disconnected or (ii) said owner has installed a utility meter and made application to the Local Agency subjecting the property to payment of groundwater removal fees. The owner shall sign and record the certification document at the Registry of Deeds.
269 270			(ii)	The owner shall submit a copy of the registered certification document to the Department and the Local Agency.
271 272 273			(iii)	This subsection shall be implemented and administered by the Local Agency designated by each Covered Community pursuant to this chapter.
274 275 276		(2)		llowing requirements shall apply to all Other Building Owners and to ructure Owners and Operators controlling property within an Impacted
277 278 279 280			(i)	Twelve months from the effective date of this chapter, all such owners or operators must ascertain whether groundwater is being removed from their property. In the event that groundwater is not being removed, the owner shall certify that fact according to the procedures

281 282 283 284			set forth below. In the event that groundwater is being removed, the property shall achieve full compliance with subsections (ii) and (iii) below within 12 months of the date of the effective date of this chapter;
285 286 287 288 289 290 291 292 293 294 295 296 297 298		(ii)	Within 12 months of the effective date of this chapter, all such owners or operators must either: (1) have permanently disconnected their sump pumps or other groundwater conveyances from the sewer or other pipes or conduits that transport groundwater off their property; (2) have installed a utility meter (or meters) to monitor and record the volumes pumped and pay fees in accordance with the fee schedule established pursuant to this chapter; or (3) have installed and connected the sump pumps or other conveyances to a groundwater Recharge Well (or wells) of sufficient capacity to return the anticipated volume of pumped (or otherwise removed) groundwater to below the ground surface of potentially impacted property. Groundwater removal fees shall not be charged for groundwater pumped or otherwise removed from the property if the water is discharged into a Recharge Well (or wells) heretofore or thereafter;
299 300 301 302 303 304 305 306		(iii)	The owner shall certify that: (i) any and all sump pumps or other groundwater conveyances have been disconnected; (ii) said owner or operator has installed a utility meter (or meters) and has applied to the Local Agency for a groundwater removal permit; or (iii) a groundwater Recharge Well (or wells) of sufficient capacity has been installed and connected to all sump pumps or other groundwater conveyances. The owner shall sign and record said certification document at the Registry of Deeds.
307 308 309		(iv)	This subsection shall be implemented and administered by the Local Agency designated by each Covered Community pursuant to this chapter.
310	(g) Duties	s of Owr	ners and Operators of Underground Infrastructure to Inspect and Repair.
311 312 313 314 315 316	(1)	Infrast freque Depart Under	nfrastructure Owner or Operator shall inspect their Underground ructure within all Impacted Areas for leaks or discharge no less ntly than every five years. Said Owner or Operator shall report to the ment the results of that inspection and the condition of that ground Infrastructure within 30 days of each inspection using a form to ablished by the Department.
<ul><li>317</li><li>318</li><li>319</li><li>320</li><li>321</li></ul>	(2)	commo ground monito	nfrastructure Owner or Operator within an Impacted Area shall ence and diligently pursue the necessary repairs to any existing lwater leaks within 45 days of discovery; and continuously thereafter or, repair, and maintain all Underground Infrastructure owned or ed within an Impacted Area in accordance with this Act. The

- 322Department may issue extensions to Infrastructure Owners or Operators upon323a showing of good cause.
- Infrastructure Owners or Operators shall pay any fines and penalties imposed
   by the Department wherever said Owner or Operator fails to timely comply
   with the inspection, reporting, and repair provisions in this subsection.
- (h) <u>Enforcement.</u> The Department may issue such orders as may be reasonably necessary
   to aid in the enforcement of the provisions of this chapter. The orders shall include,
   but shall not be limited to, orders requiring property Owners or Operators to cease
   any activity which is in violation of the provisions of this chapter and the standards
   and regulations established pursuant thereto.
- Penalties. If the Department finds that any Owner or Operator is not in 332 (1)compliance with any order issued pursuant to this section, it shall assess a 333 civil administrative penalty on such Owner or Operator. In determining the 334 amount of the civil penalty, the Department shall consider the willfulness of 335 336 the violation, its effect on the groundwater levels, the cost of restoration and repair of properties damaged by the violation, the cost to adequately Recharge 337 groundwater levels, and the cost to the commonwealth of enforcing the 338 provisions of this chapter against such Owner or Operator. 339
- 340 (2)Injunction. In addition to collecting any civil penalties recoverable pursuant to this chapter, or in the event that money damages are inadequate, the 341 Department may request the attorney general to bring an action in the superior 342 court to restrain, prevent or enjoin any conduct by any Owner or Operator that 343 is prohibited by this chapter, or to compel action to comply immediately and 344 fully with any order issued by the Department. Except in cases of emergency 345 where a court has determined that immediate abatement of the unlawful 346 conduct is required to protect the public or private interest, the court may in its 347 discretion fix a reasonable time during which the Owner or Operator 348 responsible for the unlawful conduct shall abate and correct the violation. The 349 expense of the proceeding shall be recoverable from the violator in such 350 351 manner as may now or hereafter be provided by law.
- Knowing Violation. It shall be unlawful for any Owner or Operator to (3) 352 353 knowingly: (i) violate or assist in the violation of any of the provisions of this chapter or of any rules and regulations adopted hereunder; (ii) fail to comply 354 with any order issued by the Department; or (iii) upon receipt of an order 355 pursuant to this section, continue to construct or modify any underground 356 structure in Impacted Areas. Any Owner or Operator who engages in such 357 knowing unlawful conduct shall, for each separate offense, pay a fine of not 358 less than \$1,000 dollars, nor more than \$10,000 dollars or shall be subject to a 359 civil penalty not to exceed \$25,000 dollars per day for each day such offense 360 occurs or continues, in addition to any costs to remedy harm caused. Each 361 day of violation of any provision of this chapter or of any regulation adopted 362 or order issued hereunder shall constitute a separate offense. 363

364	(i)	<u>Access</u> . For the purpose of determining compliance with this chapter or any
365		regulations adopted thereunder, the duly authorized agents and employees of the
366		Department and Local Agencies may at all reasonable times, upon obtaining a court
367		order allowing the Department access or upon obtaining the voluntary consent of the
368		Residential Building Owner, Other Building Owner, and Infrastructure Owner or
369		Operator, enter and examine any Building or Underground Infrastructure potentially
370		causing groundwater removal. The owner or operator with the authority or control
371		over the Building or Underground Infrastructure, upon presentation of proper
372		identification and purpose for inspection by the agents or employees of the Local
373		Agency or Department, shall give such agents and employees free and unrestricted
374		entry and access. Such agents and employees are authorized to conduct any
375		inspection, monitoring or sampling necessary for the administration or enforcement
376		of this chapter. Notwithstanding the foregoing, when there is an actual or threatened
377		risk to the integrity of nearby surface or subsurface structures, the Local Agency and
378		Department is authorized to enter and examine any Building or Underground
379		Infrastructure as necessary for the administration or enforcement of this chapter. In
380		such cases, the Local Agency and Department is authorized to seek immediate
381		injunctive action from a court of competent jurisdiction to halt any activity
382		imminently jeopardizing the structural integrity of the Building or Underground
383		Infrastructure itself, or nearby surface or subsurface structures.
384	(j)	Groundwater Protection Board.
385		(1) Within 180 days from the effective date of this chapter, the Department shall
386		create a Groundwater Protection Board within the Department to be charged
387		with the authority to resolve disputes arising from any alleged damage caused
388		by lowered groundwater levels in Covered Communities. The Department
389		shall establish rules and procedures to assist the Board in administering its
390		authority, including procedures for conducting adjudicatory proceedings, rules
391		and procedures governing notice, pleadings, motions, discovery, intervention
392		and participation, hearings, enforcement orders, penalties, rulings, and
393		appeals.
394		(2) The Board shall consist of 15 members, a majority of whom must have
395		expertise in civil or geotechnical engineering, architecture, or prior experience
396		in studies or investigations concerning groundwater and wooden pilings. Five
397		members of the Board shall be appointed by the governor, five shall be
398		appointed by the speaker of the house of representatives, and five shall be
399		appointed by the president of the senate. Each member shall serve for a term
400		of three years. Members may be reappointed for additional terms without
401		limitation.
402		(3) Any Person who owns property supported by wooden pilings in an Impacted
403		Area shall have the right to petition the Board for a determination of
404		responsibility and an apportionment of liability, provided that said Person
405		produces evidence of damage due to the alleged drawdown, including the
405		level at which the allegedly damaged wooden piles were cut off when first
400		iever at which the anegetity damaged wooden pries were cut off when first

407 408 409 410 411		pursus incons withir	led. In the event that a city or town, in carrying out its obligations ant to this chapter, makes an applicability determination that is sistent with the criteria set forth in this Act, any Person owning property a said city or town shall have the right to petition the Groundwater ction Board for review of the applicability determination.	
412 413	(4)	Upon being petitioned, the Board shall conduct an adjudicatory proceeding pursuant to the regulations promulgated by the Department under this section.		
414 415 416 417 418 419 420	(5)	The Board shall determine the legal rights, duties, and privileges of the parties to the adjudicatory proceeding, by considering the following factors: (i) risk to human health, the environment, or public safety; (ii) risks to the structural integrity of residential, commercial, or publicly owned structures; (iii) severity of the drawdown; and (iv) other factors deemed relevant by the Board or the Department or the Local Agency and as set forth and explained in the regulations to be developed pursuant to this section.		
421	(6)	In rev	iewing a petition brought under this section, the Board shall:	
422 423 424		(i)	Appoint a Hearing Officer and Bureau Representative to investigate and identify Owners and Operators of Underground Infrastructure that may be liable for contributing to the groundwater drawdown problem;	
425 426 427		(ii)	Direct the Hearing Officer and Bureau Representative to provide adequate public notice as may be required by law and to notify all interested parties that a hearing will take place; and	
428 429 430		(iii)	Conduct a hearing and issue a ruling on the determination of responsibility among Owners and Operators of Basements and Underground Infrastructure causing groundwater removal.	
431	(7)	The B	soard shall further have the power to:	
432 433 434 435		(i)	Issue enforcement orders to any Owners or Operators determined to be liable under this chapter to require repairs to the Basement or Underground Infrastructure and the initiation of short-term and long- term remediation measures;	
436		(ii)	Issue civil penalties consistent with this chapter;	
437 438 439 440 441		(iii)	In the case of continued noncompliance with an enforcement order issued by the Board or the Department, the Department is authorized to perform necessary repairs to the Underground Infrastructure and seek reimbursement for the full cost of those repairs from the responsible Owner or Operator;	
442 443		(iv)	Institute actions to recover all costs incurred by the Department under this section from any Owner or Operator liable under this chapter;	

444		(v)	Require the payment of damages to injured parties; and
445		(vi)	In the case of an Owner's or Operator's knowing or intentional
446			violation of the provisions of this Act, to bring an action in the
447			Superior Court for the county in which the alleged violation occurred
448			for the assessment of civil penalties pursuant to this chapter.
449	(8)	Exce	pt as otherwise provided in this subsection, all Owners or Operators
450		deter	mined by the Board to be contributing to or to have contributed to the
451		remo	val of groundwater in an Impacted Area shall be jointly and severally
452		liable	e, except as provided in subsections $(j)(9)$ and $(j)(10)$ ,
453		(i)	To the Department for all costs incurred in bringing the Owner or
454			Operator into compliance with the requirements of this chapter; and
455		(ii)	To any Person who owns property supported by wooden pilings for
456			damage to said Person's real property incurred or suffered as a result of
457			such removal of groundwater in an Impacted Area.
458	(9)	Any	Owner or Operator determined to be liable for any costs or damages
459		pursu	ant to this subsection who establishes by a preponderance of the
460		evide	nce that only a portion of such costs or damages is attributable to leaking
461		Baser	ment(s) and Underground Infrastructure within that Owner's or
462		Opera	ator's authority or control, shall be required to pay only for such portion.
463		(i)	The limitation of natural Recharge by human intervention such as
464			paving and roofing shall not be considered an attributable cause of
465			groundwater removal, pursuant to this subsection.
466	(10)	There	e shall be no liability under this subsection for an Owner or Operator
467		other	wise liable who can establish by a preponderance of the evidence that the
468		draw	down was caused by (i) an act of God or (ii) an act of war.
469	(11)	Nothi	ing in this chapter shall preclude citizens of the commonwealth or the
470		attorr	ney general of the commonwealth from bringing a civil action in Superior
471		Court	t to enforce any provisions of this chapter.
472	(12)	In iss	uing determinations of liability within five years of the effective date of
473	~ /		hapter, any damages determined by the Board pursuant to this section
474			be awarded from the Groundwater Protection Remedial Fund.
475	(13)	In rec	cognition of the good faith endeavors of the City/State Groundwater
476			ing Group and its members, the liability provisions of this section will
477			ne effective against the members of the City/State Groundwater Working
478			p five years after the effective date of this chapter.

479	(k) <u>Miscellaneous</u> .	
480 481	(1)	All reports submitted to the Department pursuant to this chapter shall be available to and accessible by the public.
482 483 484 485 486	(2)	The Department shall accept and make available and accessible to the public, in addition to the required reports, any information or data submitted by Infrastructure Owners and Operators, Other Building Owners, and Residential Building Owners regarding leaks or other conditions on their property that may be contributing to groundwater drawdown.
487 488 489 490	(3)	Nothing in this chapter shall bar any rights of Other Building Owners or Residential Building Owners to recover damages that are available under existing law, including the common law of negligence, nuisance, and property.

491 SECTION 4. Section 6 of Chapter 62 of the General Laws, as so appearing, is hereby amended492 by adding the following subsection:

(p) Any owner of residential property located in the commonwealth who is not a dependent of 493 494 another taxpayer and who occupies said property as his principal residence, shall be allowed a 495 credit equal to 40 per cent of the expenditures for the repair of a private sewer lateral, the installation of an groundwater recharge system, or the inspection or repair of wood pilings used 496 497 to support the foundation of the property that may be or have been damaged due to groundwater depletion. Said expenditures shall be the actual cost to the taxpayer or \$15,000, whichever is 498 499 less; provided, however, that said credit shall be available to eligible taxpayers beginning in the tax year in which the work was completed; and provided, further, that said credit shall not exceed 500 501 \$1,500 in any tax year and any excess credit may be applied over the following five subsequent tax years up to an aggregate maximum of \$6,000. The amount of any such credit shall be 502 503 reduced by an amount equal to the total grant or subsidy received from any governmental entity, whether directly or indirectly, toward the cost of said expenditures. The Department of Revenue 504 505 shall promulgate such rules and regulations as are necessary to administer the credit afforded by 506 this subsection, and shall consult with the Department of Environmental Protection in developing 507 such rules, regulations, including defining eligible projects and costs, for said tax credit.

508 SECTION 5. Notwithstanding any general or special law to the contrary, the secretary of the 509 executive office of energy and environmental affairs, in cooperation with other state and federal 510 agencies, shall prepare a preliminary map of tidelands and landlocked tidelands as both are 511 defined in section 1 of chapter 91 and great ponds. The department of environmental protection and the department of fish and game and other applicable state agencies shall provide 512 513 information to the secretary in the preparation of the preliminary map. The preliminary map shall depict, where feasible (1) the boundaries of properties lying within and abutting tidelands, 514 515 landlocked tidelands and great ponds and (2) which tidelands are private tidelands and which are

516 Commonwealth tidelands as both are defined in section 1 of chapter 91.

- 517 The secretary shall file a report wit the clerks of the senate and house of representatives who
- shall forward the same to the joint committee on environment, natural resources and agriculture
- on or before December 31, 2010. The report shall include the preliminary map of tidelands,
- 520 landlocked tidelands and great ponds and shall detail the necessary resources and timeframe
- 521 needed to produce a final certified map that shall be filed with applicable registries of deeds.
