An Act expanding access to the certified nurses’ aides certification process.

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:*

1 SECTION 1. Section 72W of chapter 111 of the General Laws is hereby amended by  
2 inserting after the sixth paragraph the following paragraphs:-

3 A nurses’ aide who receives their training and works or expects to work in a facility  
4 whose resident population includes substantial numbers of non-English speaking residents shall  
5 be offered the option to take the nurses’ aide certification exam in a language other than English,  
6 including, but not limited to, Portuguese, Haitian Creole, Spanish and Chinese; provided,  
7 however, that the department shall determine which additional languages the exam shall be  
8 offered in.

9 The department, in consultation with an advisory group of certified nurses’ aides,  
10 including nurses’ aides who are immigrants, and representatives of employers of nurses’ aides  
11 selected by the commissioner, shall review the nurses’ aide certification exam to ensure it is  
12 valid, appropriate, suitable and consistent with the current standards for nurses’ aides. The

13 department shall remove any question from the exam that is ambiguous, unlikely to be  
14 understood, or which does not align with the standards of the department, including material in  
15 textbooks approved by the department. In developing the exam, the department shall make  
16 efforts to align the exam with best practices, including the national reporting system. The  
17 department shall make available a practice test to assist in the preparation for those planning to  
18 take the test. If commercially available tests do not meet the standards of this section, the  
19 department shall create its own test consistent with this section. The practice test and all training  
20 materials for the test shall be provided in multiple languages, including, but not limited to,  
21 English, Portuguese, Haitian Creole, Spanish and Chinese.

22           The department or its contractor shall provide score reports to students who do not pass  
23 the knowledge component of the exam. The report shall specify questions answered incorrectly  
24 and list topics requiring further study.

25           Nurses' aide students who satisfactorily pass the clinical component of the certification  
26 exam shall be permitted to work as a nurses' aid for no more than 6 months. The student shall  
27 take the knowledge component of the exam during the 6 months following passing of the clinical  
28 component of the exam. Students who do not satisfactorily pass the clinical component within 6  
29 months shall not be permitted to work as a nurses' aid.

30           SECTION 2. Section 1 shall take effect no later than 180 days after the effective date of  
31 this act.
