The Commonwealth of Massachusetts

In the Year Two Thousand Thirteen

An Act relative to promoting safety by making gas gate boxes easily accessible to gas company service employees and emergency public service personnel.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

1 SECTION 1. Chapter 90 of the General Laws, as appearing in the 2000 Official Edition,
2 is hereby amended by inserting at the end thereof the following:

3 All gas gate boxes that are buried underground on private property or located under a
4 sidewalk, street, road or in any other manner not immediately or easily accessible to gas
5 company employees or emergency public safety personnel shall be replaced by a gas gate box
6 that is easily and immediately accessible. If a gas gate box is not immediately and easily
7 accessible, it must be made so by excavating it if necessary and marking it with a clear and
8 functioning entrance door adequate to allow a gas utility employee or emergency public safety
9 employee access to the gas shutoff control. Only gas company authorized employees and
10 emergency public safety personnel shall have the means to shut off and turn on the gas service
11 via a gas gate box. Any gas company that must excavate or use other means to relocate or make
12 it accessible a gas shutoff may apply for funds under this chapter to pay for said excavation or
13 relocation work. Any chapter 90 funded construction contract to repair streets; roads and
14 sidewalks must include the maintenance and improvement of all gas gate boxes.
