236 approved by the commission is unacceptable or incomplete, the commission may provide  
237 consultation on the criteria that have not been met and may allow an additional time period, not  
238 more than 30 calendar days, for resubmission; provided, however, that all aspects of the

240 the commission shall not require specific elements for approval.

241 (3) Upon approval of the proposed readmissions performance improvement plan, the

1676 if applicable, a specialty organization subcontracted by a health maintenance organization to  
1677 manage behavioral health services, shall disclose the methodology used for a provider's tier  
1678 placement, including: (i) the criteria, measures, data sources and provider-specific information  
1679 used in determining the provider's quality score; (ii) how the provider's quality performance  
1680 compares to other in-network providers; and (iii) the data used in calculating the provider's cost-  
1681 efficiency. A carrier may require a network provider to hold information received under this  
1682 section confidential.

1683 Section 34. (a) For the purposes of this section, "telemedicine" shall mean the use of  
1684 interactive audio, video or other electronic media for a diagnosis, consultation or treatment of a  
1685 patient's physical, oral or mental health; provided, however, that "telemedicine" shall not include  
1686 audio-only telephone, facsimile machine, online questionnaire, texting or text-only e-mail.

1687 (b) A contract between a member and a health maintenance organization shall not decline  
1688 to provide coverage for health care services solely on the basis that those services were delivered  
1689 by way of telemedicine by a contracted health care provider. Health care services delivered by  
1690 way of telemedicine shall be covered to the same extent as if they were provided by way of in-  
1691 person consultation or in-person delivery.

1692 (c) A carrier may undertake utilization review, including preauthorization, to determine  
1693 the appropriateness of telemedicine as a means of delivering a health care service, provided that  
1694 the determinations shall be made as if the service was delivered in person. A carrier is not  
1695 required to reimburse a health care provider for a health care service that is not a covered benefit  
1696 under the plan nor reimburse a health care provider not contracted under the plan. A contract  
1697 that provides coverage for telemedicine services may contain a provision for a deductible,  
1698 copayment or coinsurance requirement for a health care service provided through telemedicine as  
1699 long as the deductible, copayment or coinsurance does not exceed the deductible, copayment or  
1700 coinsurance applicable to an in-person consultation or in-person delivery of services. Coverage  
1701 that reimburses a provider with a global payment, as defined in section 1 of chapter 6D, shall  
1702 account for the provision of telemedicine services in setting that global payment amount.

1703 (d) A health care provider shall not be required to document a barrier to an in-person  
1704 visit, nor shall the type of setting where telemedicine is provided be limited for health care  
1705 services provided through telemedicine.

1706 (e) Health care services provided by telemedicine shall conform to the standards of care  
1707 applicable to the telemedicine provider's profession. Such services shall also conform to  
1708 applicable federal and state health information privacy and security standards as well as  
1709 standards for informed consent.

1710 Section 35. A health maintenance organization organized under this chapter shall use the  
1711 standard quality measure set established by the secretary of health and human services pursuant  
1712 to section 16AA of chapter 6A as follows: (i) a health maintenance organization shall use the  
1713 measures designated by the secretary as core measures in any contract with a health care

1714 provider, provider organization or accountable care organization that incorporates quality  
1715 measures into payment terms; (ii) a health maintenance organization may use the measures  
1716 designated by the secretary as non-core measures in any contract with a health care provider,  
1717 provider organization or accountable care organization that incorporates quality measures into  
1718 payment terms and shall not use any measures not designated as non-core measures; (iii) a health  
1719 maintenance organization shall only use the measures in the aligned measure set established by  
1720 the secretary to assign health care providers, accountable care organizations or provider  
1721 organizations to tiers in the design of any health maintenance contract.

1722 SECTION 101. Chapter 176I of the General Laws is hereby amended by adding the  
1723 following 2 sections:-

1724 Section 13. (a) For the purposes of this section, “telemedicine” shall mean the use of  
1725 interactive audio, video or other electronic media for a diagnosis, consultation or treatment of a  
1726 patient's physical, oral or mental health; provided, however, that “telemedicine” shall not include  
1727 audio-only telephone, facsimile machine, online questionnaire, texting or text-only e-mail.

1728 (b) A preferred provider contract between a covered person and an organization shall not  
1729 decline to provide coverage for health care services solely on the basis that those services were  
1730 delivered by way of telemedicine by a contracted health care provider. Health care services  
1731 delivered by way of telemedicine shall be covered to the same extent as if they were provided by  
1732 way of in-person consultation or in-person delivery.

1733 (c) An organization may undertake utilization review, including preauthorization, to  
1734 determine the appropriateness of telemedicine as a means of delivering a health care service,  
1735 provided that the determinations shall be made in the same manner as those regarding the same

1736 service when it is delivered in person. An organization is not required to reimburse a health care  
1737 provider for a health care service that is not a covered benefit under the plan nor reimburse a  
1738 health care provider not contracted under the plan.

1739 A preferred provider contract that provides coverage for telemedicine services may  
1740 contain a provision for a deductible, copayment or coinsurance requirement for a health care  
1741 service provided through telemedicine as long as the deductible, copayment or coinsurance does  
1742 not exceed the deductible, copayment or coinsurance applicable to an in-person consultation or  
1743 in-person delivery of services. Coverage that reimburses a provider with a global payment, as  
1744 defined in section 1 of chapter 6D, shall account for the provision of telemedicine services in  
1745 setting that global payment amount.

1746 (d) A health care provider shall not be required to document a barrier to an in-person  
1747 visit, nor shall the type of setting where telemedicine is provided be limited for health care  
1748 services provided through telemedicine.

1749 (e) Health care services provided by telemedicine shall conform to the standards of care  
1750 applicable to the telemedicine provider's profession. Such services shall also conform to  
1751 applicable federal and state health information privacy and security standards as well as  
1752 standards for informed consent.

1753 Section 14. An organization shall use the standard quality measure set established by the  
1754 secretary of health and human services pursuant to section 16AA of chapter 6A as follows: (i) an  
1755 organization shall use the measures designated by the secretary as core measures in any contract  
1756 with a health care provider, provider organization or accountable care organization that  
1757 incorporates quality measures into payment terms; (ii) an organization may use the measures

1758 designated by the secretary as non-core measures in any contract with a health care provider,  
1759 provider organization or accountable care organization that incorporates quality measures into  
1760 payment terms and shall not use any measures not designated as non-core measures; (iii) an  
1761 organization shall only use the measures in the aligned measure set established by the secretary  
1762 to assign health care providers, accountable care organizations or provider organizations to tiers  
1763 in the design of a health benefit plan.

1764 SECTION 102. Chapter 176J of the General Laws is hereby amended by striking out  
1765 section 11, as appearing in the 2016 Official Edition, and inserting in place thereof the following  
1766 section:-

1767 Section 11. (a) For the purposes of this section, the following words shall have the  
1768 following meanings unless the context clearly requires otherwise:

1769 “High-value health care services”, a set of services that yield improved management of  
1770 chronic conditions or meaningfully reduce the occurrence of high-cost care episodes related to  
1771 the underlying condition that the service is meant to treat, as identified by the division of  
1772 insurance, in consultation with the health policy commission and the center for health  
1773 information and analysis;

1774 “Shoppable health care services”, a set of services deemed sufficiently substitutable  
1775 across providers for which there is adequate information on cost and quality to inform a patient’s  
1776 decision on where to obtain those health care services as identified by the division of insurance  
1777 in consultation with the health policy commission and the center for health information and  
1778 analysis.

1779 (b) A carrier that offers a health benefit plan that provides or arranges for the delivery of  
1780 health care services through a closed network of health care providers and, as of the close of any  
1781 preceding calendar year, has a combined total of not less than 5,000 eligible individuals, eligible  
1782 employees and eligible dependents who are enrolled in health benefit plans sold, issued,  
1783 delivered, made effective or renewed to qualified small businesses or eligible individuals shall  
1784 offer to all eligible individuals and small businesses in not less than 2 geographic areas at least 1  
1785 of the following plans:

1786 (i) a plan with a reduced or selective network of providers;

1787 (ii) a plan in which providers are tiered and member cost-sharing is based on the tier  
1788 placement of the provider that includes a base premium discount of not less than 19 per cent;

1789 (iii) a plan in which an enrollee's premium varies based on the primary care provider  
1790 selected at the time of enrollment;

1791 (iv) a plan in which a separate cost-sharing differential is applied to shoppable health care  
1792 services among the network of providers; or

1793 (v) a plan in which there is a separate reduced or eliminated cost-sharing differential for  
1794 high value health care services relative to other services covered by the plan.

1795 (c) Annually, the commissioner shall determine the base premium rate discount compared  
1796 to the base premium of the carrier's most actuarially-similar plan with the carrier's non-selective  
1797 or non-tiered network of providers under clauses (i) and (ii) of subsection (b). The savings may  
1798 be achieved by means including, but not limited to: (i) the exclusion of providers with similar or  
1799 lower quality based on the standard quality measure set with higher health status adjusted total

1800 medical expenses or relative prices, as determined pursuant to the methodology under section 52  
1801 of chapter 288 of the Acts of 2010; or (ii) increased member cost-sharing for members who  
1802 utilize providers for non-emergency services with similar or lower quality based on the standard  
1803 quality measure set and with higher health status adjusted total medical expenses or relative  
1804 prices, as determined pursuant to the methodology under said section 52 of chapter 288 of the  
1805 Acts of 2010.

1806           The commissioner may apply waivers to the base premium rate discount determined by  
1807 the commissioner under this section to carriers that receive not less than 80 per cent of their  
1808 incomes from government programs or that have service areas that do not include an area within  
1809 the boundaries of the abolished counties of Suffolk or Middlesex and that were first admitted to  
1810 do business by the division of insurance not later than January 1, 1986 as health maintenance  
1811 organizations under chapter 176G.

1812           (d) The commissioner shall require a plan under paragraph (iii) of subsection (b) to have  
1813 at least 1 tier that provides the base premium rate discount. A carrier may include a provider in a  
1814 plan under paragraph (iii) of subsection (b) only if a provider receives reasonable information on  
1815 plan performance from the carrier pursuant to the plan.

1816           (e) A tiered network plan shall only include variations in member cost-sharing among  
1817 provider tiers that are reasonable in relation to the premium charged and shall ensure adequate  
1818 access to covered services. Carriers shall tier providers based on quality performance as  
1819 measured by the standard quality measure set and by cost performance as measured by health  
1820 status adjusted total medical expenses and relative prices. If applicable quality measures are not

1821 available, tiering may be based solely on health status adjusted total medical expenses or relative  
1822 prices or both.

1823           The commissioner shall promulgate regulations requiring the uniform reporting of tiering  
1824 information by carriers. The regulations shall include, but not be limited to, a requirement that a  
1825 carrier that is implementing a tiered network plan or is modifying the tiering methodology for an  
1826 existing tiered network plan shall report a detailed description of the methodology used for the  
1827 tiering of providers to the commissioner not less than 90 days before the effective date of the  
1828 plan or modification. The description shall include, but not be limited to: (i) the statistical basis  
1829 for tiering; (ii) a list of providers to be tiered at each member cost-sharing level; (iii) a  
1830 description of how the methodology and resulting tiers shall be communicated to each network  
1831 provider, eligible individuals and small groups; (iv) a description of the appeals process a  
1832 provider may pursue to challenge the assigned tier level; and (v) the utilization of a variable  
1833 premium amount based on tier designation for the primary care provider selected by the member,  
1834 if any.

1835           (f) The commissioner shall determine network adequacy: (i) for a tiered network plan  
1836 based on the availability of sufficient network providers in the carrier's overall network of  
1837 providers; and (ii) for a selective network plan based on the availability of sufficient network  
1838 providers in the carrier's selective network.

1839           In determining network adequacy under this section, the commissioner may consider  
1840 factors including the location of providers participating in the plan and employers or members  
1841 that enroll in the plan, the range of services provided by providers in the plan and plan benefits

1842 that recognize and provide for extraordinary medical needs of members that may not be  
1843 adequately dealt with by the providers within the plan network.

1844 (g) A carrier may reclassify provider tiers and determine provider participation in  
1845 selective and tiered plans not more than once per calendar year; provided, however, that a carrier  
1846 may reclassify a provider from a higher cost tier to a lower cost tier or add a provider to a  
1847 selective network at any time. If a carrier reclassifies provider tiers or providers participating in a  
1848 selective plan during the course of an account year, the carrier shall provide notice to affected  
1849 members of the account that shall include information regarding the plan changes not less than  
1850 30 days before the changes are to take effect. A carrier shall provide information on the carrier's  
1851 website about any tiered or selective plan including, but not limited to, the providers  
1852 participating in the plan, the selection criteria for those providers and, where applicable, the tier  
1853 in which each provider is classified.

1854 (h) The commissioner shall review plans under clauses (iv) and (v) of subsection (b) in a  
1855 manner consistent with other products offered in the commonwealth. The commissioner may  
1856 disapprove a plan established pursuant to clause (iv) or (v) of subsection (b) if it determines that  
1857 the carrier-differentiated cost-sharing obligations are solely based on the provider. There shall be  
1858 a rebuttable presumption that a plan has violated this subsection if the cost-sharing obligation for  
1859 the services provided by a provider, including a health care facility, accountable care  
1860 organization, patient-centered medical home or provider organization, is the same cost-sharing  
1861 obligation without regard for the types of services provided pursuant to clause (iv) or (v).

1862 When reviewing a plan established pursuant to clauses (iv) and (v) of subsection (b), the  
1863 commissioner shall ensure that the plan promotes: (i) the avoidance of consumer confusion; (ii)

1864 the minimization of administrative burdens on payers and providers in implementing the plan;  
1865 and (iii) allowing for patients to receive services in appropriate locations.

1866 (i) The commissioner shall make publicly available on the commissioner's website: (i) a  
1867 description of each plan offered under this section, including a list of providers or services by tier  
1868 or a list of providers included in a selective network plan; (ii) membership trends for each plan  
1869 offered under this section; (iii) the extent to which plans offered under this section have reduced  
1870 health care costs for patients and employers; and (iv) the effect of plans offered under this  
1871 section on provider mix and other factors impacting overall state health care costs. The  
1872 commissioner shall ensure that the information is updated not less than annually.

1873 Nothing in this section shall exempt an insurance carrier or product from state and federal  
1874 mental health parity and addiction equity laws, including those codified at 42 U.S. Code §  
1875 300gg-26, and regulations implemented pursuant to section 8K of chapter 26. Nothing in this  
1876 section shall create a lesser standard of scrutiny for parity compliance for any reduced, tiered or  
1877 discounted plan established pursuant to this section.

1878 SECTION 103. Said chapter 176J is hereby further amended by adding the following  
1879 section:-

1880 Section 18. Upon request by a network provider, a carrier and, if applicable, a specialty  
1881 organization subcontracted by a carrier to manage behavioral health services, shall disclose the  
1882 methodology used for a provider's tier placement, including: (i) the criteria, measures, data  
1883 sources and provider-specific information used in determining the provider's quality score; (ii)  
1884 how the provider's quality performance compares to other in-network providers; and (iii) the data

1885 used in calculating the provider's cost-efficiency. A carrier may require a network provider to  
1886 hold information received under this section confidential.

1891 network health care provider for the reimbursement of health care services delivered by that  
1892 health care provider to the insured.

1894 amended by inserting after the definition of “Network” the following 3 definitions:-

1896 section 16A of chapter 6D and used to determine the rate of payment to a health care provider for  
1897 the provision of emergency health care services to an insured when the health care provider is  
1898 not in the carrier’s network.

1899 “Noncontracted commercial rate for nonemergency services”, the amount set pursuant to  
1900 section 16A of chapter 6D and used to determine the rate of payment to a health care provider for

1902 is not in the carrier’s network.

1904 condition other than an emergency medical condition.

1905 SECTION 106. Clause (a) of section 7 of said chapter 176O, as so appearing, is hereby  
1906 amended by striking out clause (1) and inserting in place thereof the following clause:-

1908 location, along with a summary on its internet website for each provider that shall include: (i) the  
1909 method used to compensate or reimburse the provider, including details of measures and  
1910 compensation percentages tied to any incentive plan or pay for performance provision; (ii) the  
1911 provider price relativity, as reported under section 10 of chapter 12C ; (iii) the provider's health  
1912 status adjusted total medical expenses, as defined in and reported under said section 10 of said  
1913 chapter 12C; and (iv) current measures of the provider's quality using the measures established  
1914 by the secretary of health and human services pursuant to section 16AA of chapter 6A; provided,  
1915 however, that if any specific provider or type of provider requested by an insured is not available  
1916 in the network or is not a covered benefit, the information shall be provided in an easily  
1917 obtainable manner; provided further, that the carrier shall prominently promote providers based  
1918 on quality performance as measured by the measures established by the secretary of health and  
1919 human services pursuant to said section 16AA of said chapter 6A and cost performance as  
1920 measured by health status adjusted total medical expenses and relative prices.

1921 SECTION 107. Section 9A of said chapter 176O, as so appearing, is hereby amended by  
1922 inserting after the word "approval", in line 15, the following words:- unless the provider is

1930 conform to the uniform methodology for a provider’s tier designation developed pursuant to  
1931 section 20A of chapter 12C.

1932 SECTION 110. Said chapter 176O is hereby further amended by adding the following 3  
1933 sections:-

2354 reduction of readmission rates, as measured by the health policy commission in consultation with  
2355 the center for health information and analysis, between those rates observed in the year 2017 and  
2356 those rates observed in the year 2020.

2357 SECTION 124. Notwithstanding any general or special law to the contrary, the health  
2358 policy commission shall identify health care trailblazers under section 19 of chapter 6D of the

2361 emergency services for patients who are deemed high utilizers of emergency departments; or (ii)  
2362 established an employer-sponsored insurance plan in which an employer shares an increased  
2363 percentage of an employee's premium or cost sharing for employees who receive a lower salary

2380 rates within the optional expanded plan and the MassHealth program under said section 9A of  
2381 said chapter 118E or otherwise may be applied to the sustainability of the MassHealth program.

2382         An individual eligible for MassHealth under said section 9A of said chapter 118E shall
