An Act to establish safe staffing levels at skilled nursing facilities.

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:*

1           Section 1. The Department of Public Health shall establish minimum staffing  
2 requirements at Skilled Nursing Care Facilities and for all level I, II and III long-term care  
3 facilities (as defined at 105 CMR 150.001). Working with 1199SEIU and other appropriate  
4 stakeholders, the Department shall develop amendments to the existing Nursing Services  
5 regulations (105 CMR 150.007) that ensure these facilities employ an adequate number of  
6 nurses, certified nurse assistants, and other staff to both meet all patient needs and ensure that  
7 sufficient staff is working at any given time to safely meet those needs. Said amended  
8 regulations shall include specific standards and direct-care staff-to-patient ratios to ensure  
9 consistent delivery of quality care in a safe and sanitary facility. The Department shall issue  
10 public recommendations on these issues no later than six months following final passage of this  
11 Act.
