**In the One Hundred and Eighty-Ninth General Court  
(2015-2016)**  
\_\_\_\_\_

An Act to increase parental awareness of opiate abuse risks.

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:*

1           SECTION 1. Section 1L of Chapter 69 of the General Laws, as appearing in the 2012  
2 Official Edition, is hereby amended by inserting after the second paragraph, the following new  
3 paragraph:-  
  
4           Parent education services relative to prevention of substance abuse shall include, but need  
5 not be limited to, awareness programs about the risks for abuse and addiction presented by  
6 certain prescription drugs. The board, in consultation with the department of public health, shall  
7 establish guidelines for topics to be presented through such programs, which shall include  
8 information about: (i) trends in misuse and abuse of prescription drugs by adults and children;  
9 (ii) the risks of developing dependency and addiction; (iii) best practices for the safe storage of  
10 prescription drugs, and disposal of unwanted drugs; (iv) warning signs of a developing addiction  
11 and available resources for education, counseling or treatment for addiction; and (v) other topics  
12 as the board and the department may find to be relevant to help prevent prescription drug misuse.

13 SECTION 2. Chapter 69 of the General Laws is hereby amended by inserting the  
14 following new section:-

15 Section 1P. The department of elementary and secondary education shall adopt  
16 regulations establishing requirements for parents or guardians to attend education programs  
17 about the risks for abuse and addiction presented by certain prescription drugs, as such education  
18 is described in section 1L. Such regulations shall require that, as a condition of a student's  
19 entrance to the seventh grade, the student's parent or guardian shall attend not less than 2 hours  
20 of said education.

21 The regulations shall also require that such parent or guardian education programs be  
22 instructed and attended in person, but shall provide for hardship exemptions due to financial  
23 considerations, travel or mobility restrictions, or other exemptions deemed appropriate by the  
24 department. Parents or guardians requesting such an exemption will do so in writing in a manner  
25 determined by the department. The department shall establish or provide for an alternative  
26 means of delivering the instruction and information to parents or guardians whose exemption  
27 applications are approved, which shall include but need not be limited to online courses and  
28 delivery of informational literature by mail or electronic mail, and a process by which parents or  
29 guardians shall provide evidence to the corresponding school district of their participation and  
30 completion of the requirement of this section through said alternative means.

31 The regulations shall exempt a parent or guardian from participation if the parent or  
32 guardian has participated within the preceding 5 years, or if the parent or guardian presents  
33 evidence of having received similar awareness education within the preceding 5 years through a  
34 community-based health provider or health or safety advocacy organization.

35           The regulations shall exempt a student from the requirements of this section if the student  
36 is an emancipated minor.
