66 initial credentialing application within a reasonable timeframe. Said report shall include, but not

91 limited to a review of the data elements required to be collected and reviewed pursuant to
92 applicable federal and state regulations as well as national accreditation organization standards.

93 (d) In the event that the carrier determines that there is a need to further review a
94 hospital-based physician's credentials due to quality of care concerns, complaints from insureds,

95 applicable law or other good faith concerns, the carrier may conduct such review as is necessary
96 to make a credentialing or re-credentialing decision.
