97 inspection that complies with the requirements of 310 C.M.R. 15.302 and 15.303 has occurred
98 within the previous five years, or the previous seven years if the system has been pumped out by

146 applicable federal, state and local statutes, regulations and bylaws. For the purposes of this
147 paragraph, an inspection need not include an evaluation of infiltration and inflow, unless there is
148 observable sanitary sewer overflow or other reasonable evidence that infiltration or inflow
149 exists..

150 (c) If a manufactured housing community is unable to provide certification to a board of

152 or otherwise non-functional water, sewage disposal, or sewer infrastructure and facilities, the
153 board of health may, at its discretion, issue a conditional license for a term of up to one year if it
154 reasonably determines that (i) the lack of compliance with said paragraphs presents no
155 immediate threat to the health, safety, or welfare of the manufactured housing community
156 residents, and (ii) the applicant has taken or plans to take substantial steps to make repairs and
157 improvements to bring the system or systems into compliance to meet the certification

162 extend the conditional license for a term of up to one additional year, provided that a board of
163 health may not issue a conditional license for a total of more than two years. The board of health
164 may rescind any conditional license if it determines that the operator of the community has not
165 complied in full with the terms of its work and financing plans. Nothing in this subsection shall
166 be construed as requiring a board of health to issue a conditional license.

168 council action, and in a town with no town meeting by town council action, by adoption of
169 appropriate by-laws and ordinances to set such fees, the fee for each original or renewal
170 license for a manufactured housing community shall be ten dollars for each lot in the community,
171 whether occupied or vacant, of which eighty percent shall be deposited into the Manufactured
172 Housing Fund established in section 2CCCC of chapter twenty-nine, and twenty percent of the
173 licensing fees shall be deposited into the general fund of the municipality pursuant to section
174 fifty three of chapter forty four. Such board of health shall at once notify the department of
175 environmental protection of the granting or renewal of such a license for a manufactured housing
176 community, and said department shall have jurisdiction to inspect the premises so licensed to
177 determine that the sources of public water supply and the works for the disposition of the sewage
178 of such premises are sanitary and in compliance with all applicable state statutes and department
179 regulations. If upon inspection of any manufactured housing community the department finds
180 the sources of public water supply to be polluted or otherwise not in compliance with all
181 applicable state statutes and regulations, or finds the works for the disposition of the sewage to
182 be unsanitary or otherwise not in compliance with all applicable state statutes and regulations, or
183 finds both systems are not in compliance with said statutes and regulations, said department shall
184 forthwith notify such board of health and such licensee to that effect by registered mail and said
185 board of health shall forthwith prohibit the use of any public water supply found by said
186 department to be polluted. Unless such licensee shall, within thirty days following the giving of
187 such notice, correct the conditions at such premises to the satisfaction of both said department
188 and such board of health, the license so granted shall be suspended or revoked by such board of
189 health. Any license so suspended or revoked may be reinstated by such board of health when the

190 conditions at such premises, as to sources of public water supply and works for the disposition of
191 sewage, are satisfactory to said department and such board of health. The board of health of a
192 city or town may adopt, and from time to time alter or amend, rules and regulations to enforce
193 this section in such city or town.

194 (e) No licensing or inspection fees incurred under this section shall be passed on, directly
195 or indirectly, through a rent increase or otherwise, to any tenant, resident or occupant of the
196 community. Any improvements or repairs that address substandard, degraded, or otherwise
197 non-functional water or sewer infrastructure and facilities discovered or observed during
198 inspections conducted pursuant to paragraphs (iv) through (viii) of subsection (b) shall not be
199 construed as licensing or inspection fees, and may be passed onto residents as capital

201 said costs are otherwise met.
