Analysis

**Current Law:** The State sales and use tax is imposed on cellular telephone or other mobile telecommunications services; "900," "976," "915," and other "900"-type telecommunications services; custom calling services provided in connection with basic telephone service; and telephone answering services.

**Background:** The sales and use tax is the State’s second largest source of general fund revenue, accounting for approximately \$4.9 billion in fiscal 2019 and \$5.0 billion in fiscal 2020, according to the December 2018 revenue forecast. **Exhibit 1** shows the sales and use tax rates in surrounding states and the District of Columbia.

**State Revenues:** General fund revenues may decrease to the extent that businesses that are currently collecting and remitting sales taxes for telephone answering services that are determined to be nontaxable by the bill. The number of businesses to which this may apply, the types of services that may be performed, and the amount of the resulting revenue decrease cannot be reliably estimated.

**State Expenditures:** The Comptroller’s Office will incur a one-time expenditure increase of \$81,300 in fiscal 2019 to notify the approximately 130,000 sales and use tax account holders of the sales tax change.
