8 **18. Participation in a state-designated statewide health information exchange.**

9 The following provisions apply to participation in a state-designated statewide health
10 information exchange.

11 A. A health care practitioner may not deny a patient health care treatment and a
12 health insurer may not deny a patient a health insurance benefit based solely on the
13 provider's or patient's decision not to participate in a state-designated statewide health
14 information exchange. Except when otherwise required by federal law, a payor of
15 health care benefits may not require participation in a state-designated statewide
16 health information exchange as a condition of participating in the payor's provider
17 network.

18 B. Recovery for professional negligence is not allowed against any health care
19 practitioner or health care facility on the grounds of a health care practitioner's or a
20 health care facility's nonparticipation in a state-designated statewide health
21 information exchange arising out of or in connection with the provision of or failure
22 to provide health care services. In any civil action for professional negligence or in
23 any proceeding related to such a civil action or in any arbitration, proof of a health
24 care practitioner's, a health care facility's or a patient's participation or
25 nonparticipation in a state-designated statewide health information exchange is
26 inadmissible as evidence of liability or nonliability arising out of or in connection
27 with the provision of or failure to provide health care services. This paragraph does
28 not prohibit recovery or the admission of evidence of reliance on information in a
29 state-designated statewide electronic health information exchange when there was
30 participation by both the patient and the patient's health care practitioner.

31 C. A state-designated statewide health information exchange to which health care
32 information is disclosed under this section shall provide an individual protection
33 mechanism by which an individual may opt out from participation to prohibit the
34 state-designated statewide health information exchange from disclosing the
35 individual's health care information to a health care practitioner or health care facility.

36 D. At point of initial contact, a health care practitioner, health care facility or other
37 entity participating in a state-designated statewide health information exchange shall
38 provide to each patient, on a separate form, at minimum:

39 (1) Information about the state-designated statewide health information
40 exchange, including a description of benefits and risks of participation in the
41 state-designated statewide health information exchange;

1 (2) A description of how and where to obtain more information about or contact
2 the state-designated statewide health information exchange;

3 (3) An opportunity for the patient to decline participation in the state-designated
4 statewide health information exchange; and

5 (4) A declaration that a health care practitioner, health care facility or other
6 entity may not deny a patient health care treatment based solely on the provider's
7 or patient's decision not to participate in a state-designated statewide health
8 information exchange.

9 The state-designated statewide health information exchange shall develop the form
10 for use under this paragraph, with input from consumers and providers. The form
11 must be approved by the office of the state coordinator for health information
12 technology within the Governor's office of health policy and finance.

13 E. A health care practitioner, health care facility or other entity participating in a
14 state-designated statewide health information exchange shall communicate to the
15 exchange the decision of each patient who has declined participation and shall do so
16 within a reasonable time frame, but not more than 2 business days following the
17 receipt of a signed form, as described in paragraph D, from the patient, or shall
18 establish a mechanism by which the patient may decline participation in the
19 state-designated statewide health information exchange at no cost to the patient.

20 F. A state-designated statewide health information exchange shall process the
21 request of a patient who has decided not to participate in the state-designated
22 statewide health information exchange within 2 business days of receiving the
23 patient's decision to decline, unless additional time is needed to verify the identity of
24 the patient. A signed authorization from the patient is required before a patient is
25 newly entered or reentered into the system if the patient chooses to begin
26 participation at a later date.

27 Except as otherwise required by applicable law, regulation or rule or state or federal
28 contract, or when the state-designated statewide health information exchange is
29 acting as the agent of a health care practitioner, health care facility or other entity, the
30 state-designated statewide health information exchange shall remove health
31 information of individuals who have declined participation in the exchange. In no
32 event may health information retained in the state-designated statewide health
33 information exchange as set forth in this paragraph be made available to health care
34 practitioners, health care facilities or other entities except as otherwise required by
35 applicable law, regulation or rule or state or federal contract, or when the health care
36 practitioner, health care facility or other entity is the originator of the information.

37 G. A state-designated statewide health information exchange shall establish a secure
38 website accessible to patients. This website must:

39 (1) Permit a patient to request a report of who has accessed that patient's records
40 and when the access occurred. This report must be delivered to the patient within
41 2 business days upon verification of the patient's identity by the state-designated
42 statewide health information exchange;

1 (2) Provide a mechanism for a patient to decline participation in the
2 state-designated statewide health information exchange; and

3 (3) Provide a mechanism for the patient to consent to participation in the
4 state-designated statewide health information exchange if the patient had
5 previously declined participation.

6 H. A state-designated statewide health information exchange shall establish for
7 patients an alternate procedure to that provided for in paragraph F that does not
8 require Internet access. A health care practitioner, health care facility or other entity
9 participating in the state-designated statewide health information exchange shall
10 provide information about this alternate procedure to all patients. The information
11 must be included on the form identified in paragraph D.

12 I. A state-designated statewide health information exchange shall maintain records
13 regarding all disclosures of health care information by and through the
14 state-designated statewide health information exchange, including the requesting
15 party and the dates and times of the requests and disclosures.

16 J. A state-designated statewide health information exchange may not charge a patient
17 or an authorized representative of a patient any fee for access or communication as
18 provided in this subsection.

19 K. Notwithstanding any provision of this subsection to the contrary, a health care
20 practitioner, health care facility or other entity shall provide the form and
21 communication required by paragraphs D and F to all existing patients following the
22 effective date of this subsection.

23 L. A state-designated statewide health information exchange shall meet or exceed all
24 applicable federal laws and regulations pertaining to privacy, security and breach
25 notification regarding personally identifiable protected health information, as defined
26 in 45 Code of Federal Regulations, Part 160. If a breach occurs, the state-designated
27 statewide health information exchange shall arrange with its participants for
28 notification of each individual whose protected health information has been, or is
29 reasonably believed by the exchange to have been, breached. For purposes of this
30 paragraph, "breach" has the same meaning as in 45 Code of Federal Regulations, Part
31 164, as amended.

32 M. The state-designated statewide health information exchange shall develop a
33 quality management plan, including auditing mechanisms, in consultation with the
34 office of the state coordinator for health information technology within the
35 department, who shall review the plan and results.

36 **Sec. A-22. 22 MRSA §2425, sub-§5**, as amended by PL 2011, c. 383, §2 and c.

39 identification cards to registered patients, to registered primary caregivers and to staff of
40 hospice providers and nursing facilities designated by registered patients as primary
41 caregivers within 5 days of approving an application or renewal under this section.
42 Registry identification cards expire one year after the date of issuance except that the date
43 of issuance and expiration date of a registered primary caregiver's registry identification

1 card must be the same as the issuance and expiration dates on the patient's registry
2 identification card. Registry identification cards must contain:

3 A. The name of the cardholder;

4 C. The date of issuance and expiration date of the registry identification card;

5 D. A random identification number that is unique to the cardholder; and

6 F. A clear designation showing whether the cardholder is allowed under this chapter

9 and c. 407, Pt. B, §27, is repealed and the following enacted in its place:

10 G. Records maintained by the department pursuant to this chapter that identify
11 applicants for a registry identification card, registered patients, registered primary
12 caregivers and registered patients' physicians are confidential and may not be
13 disclosed except as provided in this subsection and as follows:

14 (1) To department employees who are responsible for carrying out this chapter;
