

## **130th MAINE LEGISLATURE**

## **SECOND REGULAR SESSION-2022**

**Legislative Document** 

No. 1970

H.P. 1465

House of Representatives, February 10, 2022

An Act To Implement Agency Recommendations Relating to Sea Level Rise and Climate Resilience Provided Pursuant to Resolve 2021, Chapter 67

Reported by Representative TUCKER of Brunswick for the Joint Standing Committee on Environment and Natural Resources pursuant to Resolve 2021, chapter 67.

Reference to the Committee on Environment and Natural Resources suggested and ordered printed pursuant to Joint Rule 218.

R(+ B. Hunt

ROBERT B. HUNT Clerk

1	Be it enacted by the People of the State of Maine as follows:
2	PART A
3 4	Sec. A-1. 12 MRSA §685-B, sub-§1-A, ¶A, as amended by PL 2001, c. 402, §4, is repealed and the following enacted in its place:
5 6 7	A. A permit is not required for the repair and maintenance of an existing road culvert or for the replacement of an existing road culvert, including ancillary culverting activities such as excavation and filling, as long as:
8	(1) Erosion control measures are taken to prevent sedimentation of the water;
9	(2) The road culvert does not block passage for fish in flowing water; and
10	(3) For replacements of existing road culverts crossing flowing water:
11 12	(a) The replacement culvert is designed, installed and maintained to match the natural grade of the channel bed of the water to avoid drops or perching; and
13 14 15 16	(b) As site conditions allow, culverts that are not open bottomed are embedded in the channel bed of the water a minimum of one foot or at least 25% of the culvert or other structure's diameter, whichever is greater, except that a culvert does not have to be embedded more than 2 feet.
17 18 19 20	For purposes of this paragraph, "repair and maintenance" includes, but is not limited to, the riprapping of side slopes or culvert ends; removing debris and blockages within the culvert structure and at its inlet and outlet; and installing or replacing culvert ends if less than 50% of the culvert structure is being replaced;
21 22	Sec. A-2. 30-A MRSA §4301, sub-§4-A, as enacted by PL 2001, c. 578, §2, is amended to read:
23 24 25 26 27 28 29 30	<b>4-A. Critical rural area.</b> "Critical rural area" means a rural area that is specifically identified and designated by a municipality's or multimunicipal region's comprehensive plan as deserving maximum protection from development to preserve natural resources and related economic activities that may include, but are not limited to, significant farmland, forest land or mineral resources; high-value wildlife or fisheries habitat; scenic areas; public water supplies; scarce or especially vulnerable natural resources; <u>flood buffer areas and flood-prone areas;</u> and open lands functionally necessary to support a vibrant rural economy.
31	Sec. A-3. 30-A MRSA §4301, sub-§8-A is enacted to read:
32 33	<b>8-A. Local climate action plan.</b> "Local climate action plan" means a planning and decision-making document adopted by a municipality or multimunicipal region that:
34	A. Includes compiled information regarding climate and health risks;
35 36 37 38	B. Includes an evaluation of options for addressing climate and health risks by individuals, committees or offices in local or regional government that are responsible for planning, implementing and monitoring activities that reduce climate risk and improve health and community capacity to manage crises; and

1 2 3	C. Is produced using community dialogue and participation in a manner that ensures the input and needs of the community's most vulnerable citizens are elevated and prioritized.
4 5	Sec. A-4. 30-A MRSA §4301, sub-§14-B, as enacted by PL 2001, c. 578, §6, is amended to read:
6 7 8 9 10 11	<b>14-B. Rural area.</b> "Rural area" means a geographic area that is identified and designated in a municipality's or multimunicipal region's comprehensive plan as an area that is deserving of some level of regulatory protection from unrestricted development for purposes that may include, but are not limited to, supporting agriculture, forestry, mining, open space, <u>erosion mitigation, water retention</u> , wildlife habitat, fisheries habitat and scenic lands, and away from which most development projected over 10 years is diverted.
12 13	<b>Sec. A-5. 30-A MRSA §4326, sub-§1, ¶J,</b> as enacted by PL 1989, c. 104, Pt. A, §45 and Pt. C, §10, is amended to read:
14	J. Land use information describing current and projected development patterns; and
15 16	<b>Sec. A-6. 30-A MRSA §4326, sub-§1, ¶K,</b> as enacted by PL 1989, c. 104, Pt. A, §45 and Pt. C, §10, is amended to read:
17 18 19	K. An assessment of capital facilities and public services necessary to support growth and development and to protect the environment and health, safety and welfare of the public and the costs of those facilities and services-; and
20	Sec. A-7. 30-A MRSA §4326, sub-§1, ¶L is enacted to read:
21 22 23	L. For a municipality or multimunicipal region that has adopted a local climate action plan, a climate vulnerability assessment specific to the municipality or multimunicipal region prepared by the municipality or multimunicipal region.
24	Sec. A-8. 30-A MRSA §4326, sub-§4-B is enacted to read:
25 26 27 28 29 30	<b>4-B.</b> Addressing climate risks. A municipality or multimunicipal region may include in its comprehensive plan projections regarding risks posed by climate change as identified in its climate vulnerability assessment prepared pursuant to subsection 1, paragraph L and the potential effects of those risks on buildings, transportation infrastructure, sewage treatment facilities and other relevant municipal, multimunicipal or privately held infrastructure or property and may develop a coordinated plan for addressing those risks.
31 32	Sec. A-9. 30-A MRSA §4346, 2nd ¶, as amended by PL 2011, c. 655, Pt. JJ, §20 and affected by §41, is further amended to read:
33 34 35 36 37 38 39 40 41 42	The department may enter into financial assistance grants only to the extent that funds are available. In making grants, the department shall consider the need for planning in a municipality or multimunicipal region, the proximity of the municipality or multimunicipal region to other areas that are conducting or have completed the planning process and the economic and geographic role of the municipality or multimunicipal region within a regional context. The department shall give priority in making grants to any municipality or multimunicipal region that has adopted a local climate action plan and, if the municipality or multimunicipal region has adopted a comprehensive plan or growth management program, prepared a climate vulnerability assessment pursuant to section 4326, subsection 1, paragraph L.

grants, as long as the criteria support the goal of encouraging and facilitating the adoption 1 2 and implementation of local and multimunicipal growth management programs consistent 3 with the procedures, goals and guidelines established in this subchapter. In order to maximize the availability of the technical and financial assistance program to all 4 municipalities, multimunicipal regions and regional councils, financial assistance programs 5 administered competitively under this article are exempt from rules adopted by the 6 Department of Administrative and Financial Services pursuant to Title 5, section 1825-C 7 for use in the purchase of services and the awarding of grants and contracts. The 8 department shall publish a program statement describing its grant program and advertising 9 its availability to eligible applicants. 10

## PART B

- Sec. B-1. 38 MRSA §484, sub-§3, ¶I is enacted to read: 13 I. In determining whether a developer has made adequate provision for fitting the development harmoniously into the existing natural environment, the department may 14 15 consider the effect of at least 1.5 feet of relative sea level rise by 2050 and 4 feet of
- relative sea level rise by 2100 as specified by the department by rule adopted pursuant 16 to section 489-E. 17 Sec. B-2. 38 MRSA §1310-N, sub-§2-F, ¶C, as repealed and replaced by PL 18
- 19 1993, c. 680, Pt. A, §37, is amended to read:

20 C. The applicant has made adequate provision for fitting the proposed solid waste facility harmoniously into the existing natural environment and the proposed solid 21 22 waste facility will not unreasonably adversely affect existing uses, scenic character, air 23 quality, water quality or other natural resources in the municipality or in neighboring 24 municipalities. In determining whether an applicant has made adequate provision for 25 fitting the proposed solid waste facility harmoniously into the existing natural environment, the department may consider the effect of at least 1.5 feet of relative sea 26 level rise by 2050 and 4 feet of relative sea level rise by 2100 as specified by the 27 28 department by rule. Rules adopted by the department pursuant to this paragraph are 29 routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

30

## SUMMARY

31 This bill, which is reported out by the Joint Standing Committee on Environment and 32 Natural Resources pursuant to Resolve 2021, chapter 67, section 1, implements agency 33 recommendations resulting from a review by multiple agencies of their respective laws and 34 rules to determine changes necessary to incorporate into those laws and rules sea level rise 35 projections and measures designed to enhance community resilience to flooding and other 36 climate impacts.

37 Part A of the bill implements the recommendations of the Department of Agriculture, 38 Conservation and Forestry. It amends the requirements of the Maine Land Use Planning 39 Commission permit exception for the repair and maintenance or replacement of existing 40 road culverts to incorporate similar requirements for such activities imposed under the 41 Natural Resources Protection Act. It amends the laws governing municipal planning and land use regulation to define "local climate action plan"; to incorporate such plans into a 42 municipality's or multimunicipal region's growth management program through the 43

1 preparation of a climate vulnerability assessment and by addressing in its program the 2 climate risks identified in such assessments; and to require that the department's technical 3 and financial assistance program for the implementation of growth management programs 4 provide priority in the making of grants under the technical and financial assistance 5 program to municipalities and multimunicipal regions that have adopted local climate 6 action plans and prepared climate vulnerability assessments.

7 Part B of the bill implements the recommendations of the Department of 8 Environmental Protection. It amends the site location of development laws to authorize 9 the department to consider the effects of sea level rise in determining whether a developer 10 has made adequate provision for fitting a proposed development harmoniously into the existing natural environment. It amends solid waste facility siting laws to authorize the 11 department to consider the effects of sea level rise in determining whether an applicant for 12 13 a solid waste facility license has made adequate provision for fitting a proposed facility harmoniously into the existing natural environment. 14

The committee has not taken a position on the substance of the bill and by reporting this bill out, the committee is not suggesting and does not intend to suggest that it agrees or disagrees with any aspect of this bill. The committee is reporting the bill out for the sole purpose of obtaining a printed bill that can be referred to the committee for a public hearing and subsequent committee action in the normal course.
