7 SUMMARY

This bill provides an income tax credit for certain eligible expenditures incurred by a family caregiver for the care and support of an eligible family member 18 years of age or older. Eligible expenditures include the improvement of or alteration to the caregiver's primary residence to permit the eligible family member to remain mobile, safe and independent in the home and community; the caregiver's purchase or lease of equipment necessary to assist the eligible family member in carrying out one or more activities of daily living; and costs incurred to assist the caregiver to provide care to an eligible family member, such as expenditures related to hiring a home care aide, respite care, adult day care and transportation and for technology to assist the family caregiver to care for the eligible family member.

To be eligible for the tax credit, a family caregiver claiming the credit must have a federal adjusted gross income of less than \$75,000 if the family caregiver is filing as a single individual or as a married person filing separately and \$150,000 if the family caregiver is filing as a head of household or is filing a married joint return.

The amount of the credit is equal to the eligible expenditures incurred by the eligible caregiver during the taxable year up to a maximum of \$2,500.
