obligation bond proceeds. The report must also include information on agencies' compliance with the commissioner's policies governing the use of general obligation bond proceeds to pay staff costs and any changes to the commissioner's policies.

Sec. 2. **[115B.245] STATEWIDE DRINKING WATER CONTAMINATION  
MITIGATION PROGRAM.**

**Subdivision 1. Program established.** The commissioner may design and construct, or may make grants to eligible grantees as provided under this section to design and construct, projects to provide safe drinking water, due to contamination of drinking water by hazardous substances, through projects such as treatment systems, new drinking water wells, sealing contaminated wells, and connecting to alternative drinking water sources. The criteria for selecting projects must follow the criteria and rules established under section 115B.17.

**Subd. 2. Definitions.** (a) For purposes of this section, the following terms have the meanings given.

**(b) "Eligible grantee" means:**

**(1) for projects funded from the statewide drinking water contamination mitigation account in the bond proceeds fund, a city, county, school district, joint powers board, or other political subdivision of the state; and**

**(2) for projects funded from the statewide drinking water contamination mitigation account in the general fund, any person.**

**(d) "Public infrastructure projects" means improvements made to publicly owned infrastructure such as water main installation, public water system improvements, treatment systems, and associated improvements.**

**Subd. 3. Accounts.** (a) A statewide drinking water contamination mitigation account is established in the bond proceeds fund. The account consists of state bond proceeds appropriated to the commissioner for this purpose. Money in the account may only be expended to acquire land or an interest in land and predesign, design, construct, and improve public infrastructure projects that further the purposes of this section. Notwithstanding section 115B.17, subdivision 6 or 16, any money recovered in a civil action for a project

21.1 financed with bonds under this section shall be transferred to the commissioner of  
21.2 management and budget and applied toward principal and interest on outstanding bonds.

21.3 (b) A statewide drinking water contamination mitigation account is established in the

21.11 (1) application requirements;

21.12 (2) criteria for the ranking of projects in order of priority based on factors including the  
21.13 type of project and the degree of environmental impact, and scenic and wild river standards;  
21.14 and

21.15 (3) criteria for determining essential project components.

21.16 (b) Notwithstanding any provision in Minnesota Rules, chapter 7077, to the contrary,  
21.17 for purposes of Minnesota Rules, parts 7077.0117, 7077.0118, and 7077.0119, the  
21.18 commissioner must assign 40 points if a municipality is proposing a project to address  
21.19 emerging contaminants, as defined by the United States Environmental Protection Agency.  
21.20 This paragraph expires June 30, 2030.

21.21 Sec. 4. Minnesota Statutes 2024, section 446A.07, subdivision 8, is amended to read:

21.28 (2) to guarantee or purchase insurance for local obligations to improve credit market  
21.29 access or reduce interest rates;

22.7 (5) to earn interest on fund accounts; and

22.8 (6) to pay the reasonable costs incurred by the authority and the Pollution Control Agency  
22.9 of administering the fund and conducting activities required under the Federal Water Pollution  
22.10 Control Act, including water quality management planning under section 205(j) of the act  
22.11 and water quality standards continuing planning under section 303(e) of the act;

22.12 (b) The clean water revolving fund may be used to provide additional subsidization as  
22.13 permitted under the Federal Water Pollution Control Act and other federal laws to provide  
22.14 principal forgiveness or grants:

22.15 ~~(7) to provide principal forgiveness or grants to the extent permitted under the Federal~~  
22.16 ~~Water Pollution Control Act and other federal law, (1) based on the affordability criteria~~  
22.17 ~~and requirements established for the wastewater water infrastructure funding program under~~  
22.18 ~~section 446A.072; and~~

22.19 ~~(8) to provide loans, principal forgiveness, or grants to the extent permitted under the~~  
22.20 ~~Federal Water Pollution Control Act and other federal law (2) for 25 percent of project costs~~  
22.21 ~~up to a maximum of \$1,000,000 for projects to address green infrastructure, water or energy~~  
22.22 ~~efficiency improvements, or other environmentally innovative activities; and~~

22.23 (3) for 50 percent of project costs up to a maximum of \$3,000,000 for projects that  
22.24 address emerging contaminants as defined by the United States Environmental Protection  
22.25 Agency.

22.26 ~~(b) Amounts spent under paragraph (a), clause (6), may not exceed the amount allowed~~  
22.27 ~~under the Federal Water Pollution Control Act.~~

22.28 ~~(c) Principal forgiveness or grants provided under paragraph (a), clause (8), may not~~  
22.29 ~~exceed 25 percent of the eligible project costs as determined by the Pollution Control Agency~~  
22.30 ~~for project components directly related to green infrastructure, water or energy efficiency~~  
22.31 ~~improvements, or other environmentally innovative activities, up to a maximum of~~  
22.32 ~~\$1,000,000.~~

23.1 Sec. 5. Minnesota Statutes 2024, section 446A.072, subdivision 5a, is amended to read:

23.2 Subd. 5a. **Type and amount of assistance.** (a) For a governmental unit receiving grant  
23.3 funding from the USDA/RECD, the authority may provide assistance in the form of a grant  
23.4 of up to 65 percent of the eligible grant need determined by USDA/RECD. A governmental  
23.5 unit may not receive a grant under this paragraph for more than ~~\$5,000,000~~ \$10,000,000  
23.6 per project or \$20,000 per existing connection, whichever is less, unless specifically approved  
23.7 by law.

23.8 (b) For a governmental unit receiving a loan from the clean water revolving fund under  
23.9 section 446A.07, the authority may provide assistance under this section in the form of a  
23.10 grant if the average annual residential wastewater system cost after completion of the project  
23.11 would otherwise exceed 1.4 percent of the median household income of the project service  
23.12 area. In determining whether the average annual residential wastewater system cost would  
23.13 exceed 1.4 percent, the authority must consider the total costs associated with building,  
23.14 operating, and maintaining the wastewater system, including existing wastewater debt  
23.15 service, debt service on the eligible project cost, and operation and maintenance costs. Debt  
23.16 service costs for the proposed project are calculated based on the maximum loan term  
23.17 permitted for the clean water revolving fund loan under section 446A.07, subdivision 7.  
23.18 The amount of the grant is equal to 80 percent of the amount needed to reduce the average  
23.19 annual residential wastewater system cost to 1.4 percent of median household income in  
23.20 the project service area, to a maximum of ~~\$5,000,000~~ \$10,000,000 per project or \$20,000  
23.21 per existing connection, whichever is less, unless specifically approved by law. The eligible  
23.22 project cost is determined by multiplying the total project costs minus any other grants by  
23.23 the essential project component percentage calculated under subdivision 3, paragraph (c),  
23.24 clause (1). In no case may the amount of the grant exceed 80 percent of the eligible project  
23.25 cost.

23.26 (c) For a governmental unit receiving a loan from the drinking water revolving fund  
23.27 under section 446A.081, the authority may provide assistance under this section in the form  
23.28 of a grant if the average annual residential drinking water system cost after completion of  
23.29 the project would otherwise exceed 1.2 percent of the median household income of the  
23.30 project service area. In determining whether the average annual residential drinking water  
23.31 system cost would exceed 1.2 percent, the authority must consider the total costs associated  
23.32 with building, operating, and maintaining the drinking water system, including existing  
23.33 drinking water debt service, debt service on the eligible project cost, and operation and  
23.34 maintenance costs. Debt service costs for the proposed project are calculated based on the  
23.35 maximum loan term permitted for the drinking water revolving fund loan under section

446A.081, subdivision 8, paragraph (c). The amount of the grant is equal to 80 percent of the amount needed to reduce the average annual residential drinking water system cost to 1.2 percent of median household income in the project service area, to a maximum of ~~\$5,000,000~~ \$10,000,000 per project or \$20,000 per existing connection, whichever is less, unless specifically approved by law. The eligible project cost is determined by multiplying the total project costs minus any other grants by the essential project component percentage calculated under subdivision 3, paragraph (c), clause (1). In no case may the amount of the grant exceed 80 percent of the eligible project cost.

(d) Notwithstanding the limits in paragraphs (a), (b), and (c), for a governmental unit receiving supplemental assistance under this section after January 1, 2002, if the authority determines that the governmental unit's construction and installation costs are significantly increased due to geological conditions of crystalline bedrock or karst areas and discharge limits that are more stringent than secondary treatment, the maximum award under this section shall not be more than \$25,000 per existing connection.

Sec. 6. Minnesota Statutes 2024, section 446A.073, subdivision 1, as amended by Laws 2025, chapter 20, section 266, is amended to read:

Subdivision 1. **Program established.** When money is appropriated for grants under this program, the authority shall award grants up to a maximum of ~~\$7,000,000~~ \$12,000,000 to governmental units to cover 80 percent of the cost of water infrastructure projects made necessary by:

(1) a wasteload reduction prescribed under a total maximum daily load plan required by section 303(d) of the federal Clean Water Act, United States Code, title 33, section 1313(d);

(2) a phosphorus concentration or mass limit which requires discharging one milligram per liter or less at permitted design flow which is incorporated into a permit issued by the Pollution Control Agency;

(3) any other water quality-based effluent limit established under section 115.03, subdivision 1, paragraph (a), clause (5), item (viii), and incorporated into a permit issued by the Pollution Control Agency that exceeds secondary treatment limits; or

(4) a total nitrogen concentration or mass limit that requires discharging ten milligrams per liter or less at permitted design flow.

28.2       **INFRASTRUCTURE GRANT PROGRAM.**

28.3       Subdivision 1. **Grant program established.** The agency may make grants to counties  
28.4       and cities to provide up to 50 percent of the capital costs of housing infrastructure necessary  
28.5       for an eligible cooperative manufactured housing development project. The agency shall  
28.6       prioritize a grant award after determining that nonstate resources are committed to complete  
28.7       the project. The nonstate contribution may be either cash or in kind. In-kind contributions  
28.8       may include the value of the site, whether the site is prepared before or after the law  
28.9       appropriating money for the grant is enacted.

28.10      Subd. 2. **Definition.** For purposes of this section, "housing infrastructure" means publicly  
28.11      owned physical infrastructure necessary to support cooperative manufactured housing

28.20      county or city may include in its application a resolution of the county or city council  
28.21      certifying that the required nonstate match is available. The agency must evaluate complete  
28.22      applications for funding for eligible projects to determine that:

28.23      (1) the project is necessary to increase sites available for housing development that will  
28.24      provide adequate housing stock for the current or future workforce; and

28.25      (2) the increase in workforce housing will result in substantial public and private capital  
28.26      investment in the county or city in which the project would be located.

28.27      (b) The determination of whether to make a grant for a site is within the discretion of  
28.28      the agency, subject to this section. The agency's decisions and application of the criteria are  
28.29      not subject to judicial review, except for abuse of discretion.

28.30      Subd. 5. **Maximum grant amount.** A county or city may receive no more than \$60,000  
28.31      per manufactured housing lot.

29.2 Sec. 21. **LEGISLATIVE OFFICE FACILITIES.**

29.3 (a) The commissioner of administration may enter into a long-term lease-purchase  
29.4 agreement for a term of up to 25 years, to predesign, design, construct, and equip offices,  
29.5 hearing rooms, and parking facilities for legislative and other functions. The facility must  
29.6 be located on the block bounded by Sherburne Avenue on the north, Park Street on the west,  
29.7 University Avenue on the south, and North Capitol Boulevard on the east. The legislative  
29.8 office facility must provide office accommodations for all senators and senate staff who do  
29.9 not have offices in the Capitol building and on-site parking facilities for all members and  
29.10 staff and disabled visitors to senate offices. A parking structure may also be built on the  
29.11 state-owned land located in the block bounded by Sherburne Avenue on the north, Park  
29.12 Street on the east, University Avenue on the south, and Rice Street on the west. The  
29.13 commissioner of management and budget may issue lease revenue bonds or certificates of  
29.14 participation associated with the lease-purchase agreement. The lease-purchase agreements  
29.15 must not be terminated, except for nonappropriation of money. The lease-purchase  
29.16 agreements must provide the state with a unilateral right to purchase the leased premises at  
29.17 specified times for specified amounts. The lease-purchase agreements are exempt from  
29.18 Minnesota Statutes, section 16B.24, subdivisions 6 and 6a.

29.19 (b) The facilities under the lease-purchase agreement are exempt from the design  
29.20 competition requirement under Minnesota Statutes, section 15B.10. Notwithstanding anything  
29.21 to the contrary under Minnesota Statutes, sections 16C.32 and 16C.33, if the commissioner  
29.22 of administration elects to use a design-build delivery method to design and construct one  
29.23 or more facilities under this appropriation, the Capitol Area Architectural and Planning  
29.24 Board, in cooperation with the commissioner, shall create a selection committee to act as  
29.25 the board under Minnesota Statutes, sections 16C.32 and 16C.33, for the design and  
29.26 construction of the facilities. Notwithstanding Minnesota Statutes, section 16B.33, if the  
29.27 commissioner elects to contract with a primary designer to design one or more facilities  
29.28 under this appropriation, the Capitol Area Architectural and Planning Board, in cooperation  
29.29 with the commissioner, shall create a selection committee to conduct the selection process  
29.30 in accordance with standards under Minnesota Statutes, chapters 15B, 16B, and 16C. A  
29.31 selection committee created under this section must contain no more than seven members,  
29.32 including at least three representatives designated by the senate Committee on Rules and  
29.33 Administration and three representatives designated by the speaker of the house.

(c) Notwithstanding any provision to the contrary in Minnesota Statutes, sections 16C.32 and 16C.33, if the commissioner of administration elects to use a design-build delivery method to design, construct, and equip one or more facilities and associated infrastructure to provide audio and video broadcast services for the Capitol building, State Office Building, and a new legislative office building, if applicable, the commissioner shall create a selection committee to act as the board under Minnesota Statutes, sections 16C.32 and 16C.33, to design, build, and equip the facilities. The selected design-builder may self-perform trade work or name an audio and video subcontractor as a member of the design-builder's team. If an audio and video subcontractor is named as a member of the design-builder's team, the design-builder is not required to competitively bid the trade work. Notwithstanding Minnesota Statutes, section 16C.33, subdivision 5, paragraph (b), after obtaining and evaluating qualifications from each design-builder, in accordance with the weighted criteria and subcriteria and procedures provided in the request for qualifications, the selection committee shall select a short list of up to five proposals. If the commissioner does not receive any proposals, the commissioner may either:

(1) solicit new proposals;

(2) revise the request for qualifications and thereafter solicit new proposals using the revised request for qualifications; or

(3) request selection of a primary designer under Minnesota Statutes, section 16B.33, 16C.08, or 16C.095, and proceed with competitive bidding pursuant to Minnesota Statutes, sections 16C.25 to 16C.29.

(d) The commissioner of administration may enter into a ground lease for state-owned property in the capitol area in conjunction with the execution of a lease-purchase agreement entered into under this section for any improvements constructed on that site. Notwithstanding the requirements of Minnesota Statutes, section 16A.695, subdivision 2, paragraph (b), the ground lease must be for a term equal to the term of the lease-purchase agreement, and must include an option to purchase the land at its then fair market value, if the improvements are not purchased by the state at the end of the term of the lease-purchase agreement, or at any earlier time that the lease-purchase agreement is terminated.

(e) The commissioner of administration must not prepare final plans and specifications for any construction authorized under this section until the program plan and cost estimates for all elements necessary to complete the project have been approved by the senate Committee on Rules and Administration.

(f) \$3,000,000 is appropriated in fiscal year 2014 from the general fund to the commissioner of administration for predesign and design of facilities authorized under paragraph (a). This appropriation is available for expenditure the day following final enactment and until June 30, 2015.

(g) The commissioner of administration may reserve a portion of money from appropriations for office space costs of the legislature to fund future repairs for facilities constructed under the authority provided in this section. Money reserved under this paragraph must be credited to a segregated account for each building in the special revenue fund and is appropriated to the commissioner to make the repairs. When the state acquires title to a building with an account established under this paragraph, the account for that building must be abolished and the balance remaining in the account must be transferred to the appropriate asset preservation and replacement account.

(h) Certificates of participation or lease revenue bonds issued by the commissioner of management and budget may be issued by public or private sale and in one or more series on the terms and conditions the commissioner of management and budget determines to be in the best interests of the state, shall be dated and bear interest at a fixed or variable rate, may be includable in or excludable from the gross income of the owners for federal income tax purposes, and may be sold at any price or percentage of par value. Any bid received may be rejected.

(i) At the time of, or in anticipation of, issuing the lease revenue bonds or certificates of participation, and at any time thereafter, so long as the bonds or certificates are outstanding, the commissioner of management and budget may enter into agreements and ancillary arrangements relating to the bonds or certificates, including but not limited to trust indentures, grant agreements, lease or use agreements, operating agreements, management agreements, liquidity facilities, remarketing or dealer agreements, letter of credit agreements, insurance policies, guaranty agreements, reimbursement agreements, indexing agreements, or interest exchange agreements. Any payments made or received according to the agreement or ancillary arrangement shall be made from or deposited as provided in the agreement or ancillary arrangement. The determination of the commissioner of management and budget included in an interest exchange agreement that the agreement relates to a certificate or bond shall be conclusive.

(j) The commissioner of management and budget may enter into written agreements or contracts relating to the continuing disclosure of information necessary to comply with or facilitate the issuance of the lease-purchase agreement and the related lease revenue bonds or certificates of participation in accordance with federal securities laws, rules, and

32.1 regulations, including Securities and Exchange Commission rules and regulations in Code  
32.2 of Federal Regulations, title 17, section 240.15c 2-12. An agreement may be in the form of  
32.3 covenants with purchasers and holders of certificates or bonds set forth in the order or  
32.4 resolution authorizing the issuance of the certificates or bonds or in a separate document  
32.5 authorized by the order or resolution.

32.6 (k) The commissioner of administration from time to time may enter into a new  
32.7 lease-purchase agreement and the commissioner of management and budget may issue and  
32.8 sell lease revenue bonds or certificates of participation for the purpose of refunding any  
32.9 lease-purchase agreement authorized under this section and related lease revenue bonds or  
32.10 certificates of participation then outstanding, including the payment of any redemption  
32.11 premiums, any interest accrued or that is to accrue to the redemption date, and costs related  
32.12 to the issuance and sale of such refunding bonds or certificates. The proceeds of any refunding  
32.13 bonds or certificates may, in the discretion of the commissioner of management and budget,  
32.14 be applied to the purchase or payment at maturity of the bonds or certificates to be refunded,  
32.15 to the redemption of the outstanding lease-purchase agreements and bonds or certificates  
32.16 on any redemption date, or to pay interest on the refunding lease-purchase agreements and  
32.17 bonds or certificates and may, pending such application, be placed in escrow to be applied  
32.18 to such purchase, payment, retirement, or redemption. Any escrowed proceeds, pending  
32.19 such use, may be invested and reinvested in obligations that are authorized investments  
32.20 under Minnesota Statutes, section 11A.24. The income earned or realized on any authorized  
32.21 investment may also be applied to the payment of the lease-purchase agreements and bonds  
32.22 or certificates to be refunded, to interest or premiums on the refunded bonds or certificates,  
32.23 or to pay interest on the refunding lease-purchase agreements and bonds or certificates.  
32.24 After the terms of the escrow have been fully satisfied, any balance of proceeds and any  
32.25 investment income may be returned to the general fund for use in a lawful manner. All  
32.26 refunding lease-purchase agreements and bonds or certificates issued under the provisions  
32.27 of this section must be prepared, executed, delivered, and secured by appropriations in the  
32.28 same manner as the lease-purchase agreements and bonds or certificates to be refunded.

32.29 (l) The waiver of immunity by the state provided for by Minnesota Statutes, section  
32.30 3.751, subdivision 1, shall be applicable to lease revenue bonds or certificates of participation  
32.31 issued under this section and any ancillary contracts to which the commissioner is a party.

**16A.662 INFRASTRUCTURE DEVELOPMENT BONDS.**

Subdivision 1. **Infrastructure development fund.** The infrastructure development fund is created as an account in the state treasury. The commissioner of management and budget shall credit to the fund income from the sources provided by law. The commissioner of management and budget shall from time to time certify to the State Board of Investment the assets of the fund not currently needed. The amount certified must be invested by the State Board of Investment subject to section 11A.24. Investment income and investment losses attributable to investment of fund assets must be credited to or borne by the fund.

Subd. 2. **Bonds authorized.** When authorized by law enacted in accordance with the constitution, article XI, sections 5 and 7, the commissioner may by order sell and issue bonds of the state evidencing public debt incurred for any purpose stated in the law. The bonds are general obligations of the state, and the full faith and credit of the state are pledged for their payment.

Subd. 3. **Manner of issuance; maturities.** The bonds must be issued and sold in accordance with section 16A.641. Sections 16A.672 and 16A.675 apply to the bonds.

Subd. 4. **Debt service account; appropriation of debt service account money.** There is established within the state bond fund a separate and special account designated as the infrastructure development bond debt service account. The money on hand in the debt service account must be used solely for the payment of the principal of and interest on bonds issued under Laws 1990, chapter 610, article 1, section 30, subdivision 2, and is appropriated for this purpose. This appropriation does not cancel as long as any of the bonds remain outstanding.

Subd. 5. **Assessment to higher education systems.** (a) In order to reduce the amount otherwise required to be transferred to the state bond fund with respect to bonds heretofore or hereafter issued under Laws 1990, chapter 610, article 1, section 30, subdivision 2, the commissioner of management and budget shall assess each higher education system for one-third the amount that would otherwise need to be transferred with respect to those bonds sold to finance capital improvement projects at institutions under the control of the system; provided that, to the extent that the amount to be transferred is for payment of principal and interest on bonds sold to finance life safety improvements, the commissioner must not assess the higher education systems for the transfer.

(b) After each sale of the bonds, the commissioner of management and budget shall notify the Board of Trustees of the Minnesota State Colleges and Universities and the regents of the University of Minnesota of the amounts for which each system is responsible for each year for the life of the bonds. The amounts payable each year are reduced by one-third of the net income from investment of those bond proceeds that must be allocated among the systems in proportion to the amount of principal and interest otherwise required to be paid by each. Each higher education system shall pay its annual share of debt service payments to the commissioner of management and budget by December 1 each year. If a higher education system fails to make a payment when due, the commissioner of management and budget shall reduce allotments for appropriations from the general fund otherwise payable to the system to cover the amount of the missed debt service payment. The commissioner of management and budget shall credit the payments received from the higher education systems to the infrastructure development bond debt service account in the state bond fund each December 1 before the transfer is made under subdivision 4.

Subd. 6. **Appropriation from general fund.** There is annually appropriated from the general fund for transfer to the infrastructure development bond debt service account the amount that, added to the amount in the infrastructure development bond debt service account on December 1 each year, after giving effect to subdivisions 4 and 5, is equal to the full amount of principal and interest to come due on all bonds to and including July 1 in the second ensuing year.

Subd. 7. **Constitutional tax levy.** Under the constitution, article XI, section 7, the state auditor must levy each year on all taxable property within the state a tax sufficient, with the amount then on hand in the infrastructure development bond debt service account, to pay all principal and interest on the bonds due and to become due to and including July 1 in the second ensuing year. The tax is not subject to limit as to rate or amount. However, the amount of money appropriated from other sources as provided in subdivisions 4, 5, and 6, and actually received and on hand before the levy in any year, reduces the amount of the tax otherwise required to be levied. The proceeds of the tax must be credited to the infrastructure development bond debt service account.

Subd. 8. **Application and appropriation of proceeds.** The proceeds of the bonds must be deposited and spent as provided in this subdivision and are appropriated for those purposes. Any accrued interest and any premium received on the sale of the bonds must be credited to the infrastructure development bond debt service account. Except as otherwise required by law, the

APPENDIX  
Repealed Minnesota Statutes: 25-05718

balance of the bond proceeds shall be credited to the infrastructure development fund and spent for the purposes specified in the law authorizing the issuance of the bonds. So much of the proceeds as is necessary must be used to pay costs incurred in issuing and selling the bonds.

**116J.417 GREATER MINNESOTA CHILD CARE FACILITY CAPITAL GRANT PROGRAM.**

Subd. 9. **Cancellation of grant; return of money.** If the commissioner determines that a grantee is unable to proceed with an approved project or has not expended or obligated the grant money within five years of entering into the grant agreement with the commissioner, the commissioner shall cancel the grant and the money is available for the commissioner to make other grants under this section. Money made available to the commissioner from a canceled grant is subject to cancellation under section 16A.642 as if it had been appropriated to the program in the year in which the grant is canceled.
