16A.93 MINNESOTA PAY-FOR-PERFORMANCE ACT.

Sections 16A.93 to 16A.96 may be cited as the "Minnesota Pay-for-Performance Act of 2011."

16A.94 PAY-FOR-PERFORMANCE PROGRAM.

Subdivision 1. **Pilot program established.** The commissioner shall implement a pilot program to demonstrate the feasibility and desirability of using state appropriation bonds to pay for certain services based on performance and outcomes for the people served.

Subd. 2. **Oversight committee.** (a) The commissioner shall appoint an oversight committee to:

- (1) identify criteria to select one or more services to be included in the pilot program;
- (2) identify the conditions of performance and desired outcomes for the people served by each service selected;
- (3) identify criteria to evaluate whether a service has met the performance conditions; and
- (4) provide any other advice or assistance requested by the commissioner.

(b) The oversight committee must include the commissioners of the Departments of Human Services, Employment and Economic Development, and Administration, or their designees; a representative of a nonprofit organization with experience in performance contracting; and any other person or organization that the commissioner determines would be of assistance in developing and implementing the pilot program.

Subd. 3. **Contracts.** The commissioner and the commissioner of the agency with a service to be provided through the pilot program may enter into a pay-for-performance contract with a provider that meets the criteria identified by the oversight committee. The contract must specify the service to be provided, the time frame in which it is to be provided, the outcome required for payment, and any other terms deemed necessary or convenient for implementation of the pilot program. The commissioner shall pay a provider that has met the terms and conditions of a contract with money appropriated to the commissioner from the special appropriation bond proceeds account established in section 16A.96. At a minimum, before the commissioner pays a provider, the commissioner must determine that the provider has met the return on investment criteria in subdivision 4.

Subd. 4. **Return on investment calculation.** The commissioner, in consultation with the oversight committee, must establish the method and data required for calculating the state's return on investment. The data at a minimum must include:

- (1) state income taxes and any other revenues collected in the year after the service was provided that would not have been collected without the service; and
- (2) costs avoided by the state by providing the service.

Prior to entering into a contract under subdivision 3, the commissioner in consultation with the oversight committee must determine that the services provided under the contract will yield a positive return on investment for the state that will cover the estimated state costs in financing and administering the pilot program through documented increased state tax revenue or cost avoidance.

Subd. 5. **Report to governor and legislature.** The commissioner must report to the governor and legislative committees with jurisdiction over capital investment, finance, and ways and means, and the services included in the pilot program, by January 15 of each year following a year in which the pilot program is operating. The report must describe and discuss the criteria for selection and evaluation of services to be provided through the program, the net benefits to the state of the program, the state's return on investment, the cost of the services provided by other means in the most recent past, the time frame for payment for the services, and the timing and costs for sale and issuance of the bonds authorized in section 16A.96.

16A.96 MINNESOTA PAY-FOR-PERFORMANCE PROGRAM; APPROPRIATION BONDS.

Subdivision 1. **Definitions.** (a) The definitions in this subdivision apply to this section.

(b) "Appropriation bond" means a bond, note, or other similar instrument of the state payable during a biennium from one or more of the following sources:

- (1) money appropriated by law in any biennium for debt service due with respect to obligations described in subdivision 2, paragraph (b);

APPENDIX
Repealed Minnesota Statutes: H0670-4

(2) proceeds of the sale of obligations described in subdivision 2, paragraph (b);

(3) payments received for that purpose under agreements and ancillary arrangements described in subdivision 2, paragraph (d); and

(4) investment earnings on amounts in clauses (1) to (3).

(c) "Debt service" means the amount payable in any biennium of principal, premium, if any, and interest on appropriation bonds.

Subd. 2. **Authority.** (a) Subject to the limitations of this subdivision, the commissioner of management and budget may sell and issue appropriation bonds of the state under this section for the purposes of the Minnesota pay-for-performance program established in sections 16A.93 to 16A.96. Proceeds of the bonds must be credited to a special appropriation bond proceeds account in the state treasury. Net income from investment of the proceeds, as estimated by the commissioner, must be credited to the special appropriation bond proceeds account.

(b) Appropriation bonds may be sold and issued in amounts that, in the opinion of the commissioner, are necessary to provide sufficient funds for achieving the purposes authorized as provided under paragraph (a), and pay debt service, pay costs of issuance, make deposits to reserve funds, pay the costs of credit enhancement, or make payments under other agreements entered into under paragraph (d); provided, however, that bonds issued and unpaid shall not exceed \$10,000,000 in principal amount, excluding refunding bonds sold and issued under subdivision 4. The commissioner may sell and issue bonds only in an amount that the commissioner determines will result in principal and interest payments less than the amount of savings to be generated through pay-for-performance contracts under section 16A.94. For programs achieving savings under a pay-for-performance contract, the commissioner must reduce general fund appropriations by at least the amount of principal and interest payments on bonds issued under this section.

(c) Appropriation bonds may be issued in one or more series on the terms and conditions the commissioner determines to be in the best interests of the state, but the term on any series of bonds may not exceed 20 years.

(d) At the time of, or in anticipation of, issuing the appropriation bonds, and at any time thereafter, so long as the appropriation bonds are outstanding, the commissioner may enter into agreements and ancillary arrangements relating to the appropriation bonds, including but not limited to trust indentures, liquidity facilities, remarketing or dealer agreements, letter of credit agreements, insurance policies, guaranty agreements, reimbursement agreements, indexing agreements, or interest exchange agreements. Any payments made or received according to the agreement or ancillary arrangement shall be made from or deposited as provided in the agreement or ancillary arrangement. The determination of the commissioner included in an interest exchange agreement that the agreement relates to an appropriation bond shall be conclusive.

Subd. 3. **Form; procedure.** (a) Appropriation bonds may be issued in the form of bonds, notes, or other similar instruments, and in the manner provided in section 16A.672. In the event that any provision of section 16A.672 conflicts with this section, this section shall control.

(b) Every appropriation bond shall include a conspicuous statement of the limitation established in subdivision 6.

(c) Appropriation bonds may be sold at either public or private sale upon such terms as the commissioner shall determine are not inconsistent with this section and may be sold at any price or percentage of par value. Any bid received may be rejected.

(d) Appropriation bonds may bear interest at a fixed or variable rate.

Subd. 4. **Refunding bonds.** The commissioner from time to time may issue appropriation bonds for the purpose of refunding any appropriation bonds then outstanding, including the payment of any redemption premiums on the bonds, any interest accrued or to accrue to the redemption date, and costs related to the issuance and sale of the refunding bonds. The proceeds of any refunding bonds may, in the discretion of the commissioner, be applied to the purchase or payment at maturity of the appropriation bonds to be refunded, to the redemption of the outstanding bonds on any redemption date, or to pay interest on the refunding bonds and may, pending application, be placed in escrow to be applied to the purchase, payment, retirement, or redemption. Any escrowed proceeds, pending such use, may be invested and reinvested in obligations that are authorized investments under section 11A.24. The income earned or realized on the investment may also be applied to the payment of the bonds to be refunded or interest or premiums on the refunded bonds, or to pay interest on the refunding bonds. After the terms of the escrow have been fully satisfied, any balance

of the proceeds and any investment income may be returned to the general fund or, if applicable, the appropriation bond proceeds account for use in any lawful manner. All refunding bonds issued under this subdivision must be prepared, executed, delivered, and secured by appropriations in the same manner as the bonds to be refunded.

Subd. 5. **Appropriation bonds as legal investments.** Any of the following entities may legally invest any sinking funds, money, or other funds belonging to them or under their control in any appropriation bonds issued under this section:

(1) the state, the investment board, public officers, municipal corporations, political subdivisions, and public bodies;

(2) banks and bankers, savings and loan associations, credit unions, trust companies, savings banks and institutions, investment companies, insurance companies, insurance associations, and other persons carrying on a banking or insurance business; and

(3) personal representatives, guardians, trustees, and other fiduciaries.

Subd. 6. **No full faith and credit; state not required to make appropriations.** The appropriation bonds are not public debt of the state, and the full faith, credit, and taxing powers of the state are not pledged to the payment of the appropriation bonds or to any payment that the state agrees to make under this section. Appropriation bonds shall not be obligations paid directly, in whole or in part, from a tax of statewide application on any class of property, income, transaction, or privilege. Appropriation bonds shall be payable in each fiscal year only from amounts that the legislature may appropriate for debt service for any fiscal year, provided that nothing in this section shall be construed to require the state to appropriate funds sufficient to make debt service payments with respect to the bonds in any fiscal year.

Subd. 7. **Appropriation of proceeds.** The proceeds of appropriation bonds and interest credited to the special appropriation bond proceeds account are appropriated to the commissioner for payment of contract obligations under the pay-for-performance program, as permitted by state and federal law, reasonable administrative costs of the program that are directly attributable to the program, issuance costs, and nonsalary expenses incurred in conjunction with the sale of the appropriation bonds.

Subd. 8. **Appropriation for debt service.** The amount needed to pay principal and interest on appropriation bonds issued under this section is appropriated each year to the commissioner from the general fund subject to the repeal, unallotment under section 16A.152, or cancellation otherwise pursuant to subdivision 6.

Subd. 9. **Administrative costs.** The commissioner may accept donations from private sources to defray administrative costs under this section. Amounts received are appropriated to the commissioner.

Subd. 10. **Validation.** (a) Appropriation bonds issued under this section may be validated in the manner provided by this subdivision. If comparable appropriation bonds are judicially determined to be valid, nothing in this subdivision shall be construed to prevent sale or delivery of any appropriation bonds or notes after entry of a judgment of validation by the Minnesota Supreme Court as provided in this subdivision with respect to the appropriation bonds authorized under this section.

(b) Any appropriation bonds issued under this section that are validated shall be validated in the manner provided by this subdivision.

(c) The Minnesota Supreme Court shall have original jurisdiction to determine the validation of appropriation bonds and all matters connected with the issuance of the bonds.

(d) The commissioner may determine the commissioner's authority to issue appropriation bonds and the legality of all proceedings in connection with issuing bonds. For this purpose, a complaint shall be filed by the commissioner in the Minnesota Supreme Court against the state and the taxpayers and citizens.

(e) As a condition precedent to filing of a complaint for the validation of appropriation bonds, the commissioner shall take action providing for the issuance of appropriation bonds in accordance with law.

(f) The complaint shall set out the state's authority to issue appropriation bonds, the action or proceeding authorizing the issue and its adoption, all other essential proceedings had or taken in

APPENDIX
Repealed Minnesota Statutes: H0670-4

connection with issuing bonds, the amount of the appropriation bonds to be issued and the maximum interest they are to bear, and all other pertinent matters.

(g) The Minnesota Supreme Court shall issue an order directed against the state and taxpayers, citizens, and others having or claiming any right, title, or interest affected by the issuance of appropriation bonds, or to be affected by the bonds, allowing all persons, in general terms and without naming them, and the state through its attorney general to appear before the Minnesota Supreme Court at a designated time and place and show why the complaint should not be granted and the proceedings and appropriation bonds validated. A copy of the complaint and order shall be served on the attorney general at least 20 days before the time fixed for hearing. The attorney general shall examine the complaint, and, if it appears or there is reason to believe that it is defective, insufficient, or untrue, or if in the opinion of the attorney general the issuance of the appropriation bonds in question has not been duly authorized, defense shall be made by the attorney general as the attorney general deems appropriate.

(h) Before the date set for hearing, as directed by the Minnesota Supreme Court, either the clerk of the Minnesota Appellate Courts or the commissioner shall publish a copy of the order in a legal newspaper of general circulation in Ramsey County and the state, at least once each week for two consecutive weeks, commencing with the first publication, which shall not be less than 20 days before the date set for hearing. By this publication, all taxpayers, citizens, and others having or claiming any right, title, or interest in the state, are made parties defendant to the action and the Minnesota Supreme Court has jurisdiction of them to the same extent as if named as defendants in the complaint and personally served with process.

(i) Any taxpayer, citizen, or person interested may become a party to the action by moving against or pleading to the complaint at or before the time set for hearing. The Minnesota Supreme Court shall determine all questions of law and fact and make orders that will enable it to properly try and determine the action and render a final judgment within 30 days of the hearing with the least possible delay.

(j) If the judgment validates appropriation bonds, the judgment is forever conclusive as to all matters adjudicated and as against all parties affected and all others having or claiming any right, title, or interest affected by the issuance of appropriation bonds, or to be affected in any way by issuing the bonds, and the validity of appropriation bonds or of any revenues pledged for the payment of the bonds, or of the proceedings authorizing the issuance of the bonds, including any remedies provided for their collection, shall never be called in question in any court by any person or party.

(k)(1) Appropriation bonds, when validated under this section, shall have stamped or written on the bonds, by the proper officers of the state issuing them, a statement in substantially the following form: "This bond is one of a series of appropriation bonds, which were validated by judgment of the Supreme Court of the State of Minnesota, rendered on, (year)".

(2) A certified copy of the judgment or decree shall be received as evidence in any court in this state.
