A child is the subject of a report of threatened injury when the responsible social services agency receives birth match data under paragraph (q) from the Department of Human Services.

- (q) Upon receiving data under section 144.225, subdivision 2b, contained in a birth record or recognition of parentage identifying a child who is subject to threatened injury under paragraph (p), the Department of Human Services shall send the data to the responsible social services agency. The data is known as "birth match" data. Unless the responsible social services agency has already begun an investigation or assessment of the report due to the birth of the child or execution of the recognition of parentage and the parent's previous history with child protection, the agency shall accept the birth match data as a report under this section. The agency may use either a family assessment or investigation to determine whether the child is safe. All of the provisions of this section apply. If the child is determined to be safe, the agency shall consult with the county attorney to determine the appropriateness of filing a petition alleging the child is in need of protection or services under section 260C.007, subdivision 6, clause (16), in order to deliver needed services. If the child is determined not to be safe, the agency and the county attorney shall take appropriate action as required under section 260C.503, subdivision 2.

The memorandum shall be written in a manner that protects the identity of the reporter and the child and shall not contain the name, or to the extent possible, reveal the identity of the alleged perpetrator or of those interviewed during the investigation. If maltreatment is determined to exist, the commissioner or local welfare agency shall also provide the written memorandum to the parent, guardian, or legal custodian of each child in the facility who had contact with the individual responsible for the maltreatment. When the facility is the responsible party for maltreatment, the commissioner or local welfare agency shall also provide the written memorandum to the parent, guardian, or legal custodian of each child who received services in the population of the facility where the maltreatment occurred.
