25.28 for a total of 60 minutes of treatment services over the time period, and must document the
25.29 reason for providing services cumulatively in the client's record. The program may offer
25.30 additional levels of service when deemed clinically necessary.

26.4 the client must reach to complete treatment and have services terminated;

26.5 (2) treatment plans for a client in a taper or detox status must include goals the client
26.6 must reach to complete treatment and have services terminated;

26.7 (3) for the initial ten weeks after admission for all new admissions, readmissions, and
26.8 transfers, ~~progress notes~~ a weekly treatment plan review must be entered in a client's file at
26.9 ~~least weekly and be recorded in each of the six dimensions upon the development of the~~
26.10 ~~treatment plan and thereafter~~ documented upon the completion of the treatment plan. Prior
26.11 to the completion of the treatment plan, all services must be documented according to section
26.12 245G.06, subdivision 3. Subsequently, the counselor must document ~~progress~~ treatment
26.13 plan reviews in the six dimensions at least once monthly after the initial ten weeks or, when
26.14 clinical need warrants, more frequently; ~~and.~~

26.15 ~~(4) upon the development of the treatment plan and thereafter, treatment plan reviews~~
26.16 ~~must occur weekly, or after each treatment service, whichever is less frequent, for the first~~
26.17 ~~ten weeks after the treatment plan is developed. Following the first ten weeks of treatment~~
26.18 ~~plan reviews, reviews may occur monthly, unless the client's needs warrant more frequent~~
26.19 ~~revisions or documentation.~~

26.20 Sec. 31. Minnesota Statutes 2018, section 245G.22, subdivision 16, is amended to read:

26.21 Subd. 16. **Prescription monitoring program.** (a) The program must develop and

26.24 include how the program meets the requirements in paragraph (b).

26.25 (b) ~~If~~ When a medication used for the treatment of substance use disorder is administered
26.26 or dispensed to a client, the license holder ~~shall be~~ is subject to the following requirements:

26.27 (1) upon admission to ~~a methadone clinic outpatient~~ an opioid treatment program, a
26.28 client must be notified in writing that the commissioner of human services and the medical
26.29 director must monitor the PMP to review the prescribed controlled drugs a client received;

26.30 (2) the medical director or the medical director's delegate must review the data from the
26.31 PMP described in section 152.126 before the client is ordered any controlled substance, as
26.32 defined under section 152.126, subdivision 1, paragraph (c), including medications used

27.1 for the treatment of opioid addiction, and the medical director's or the medical director's
27.2 delegate's subsequent reviews of the PMP data must occur at least every 90 days;

27.3 (3) a copy of the PMP data reviewed must be maintained in the client's file along with
27.4 the licensed practitioner's decision for frequency of ongoing PMP checks;

27.5 (4) when the PMP data contains a recent history of multiple prescribers or multiple
27.6 prescriptions for controlled substances, the physician's review of the data and subsequent
27.7 actions must be documented in the client's file within 72 hours and must contain the medical
27.8 director's determination of whether or not the prescriptions place the client at risk of harm
27.9 and the actions to be taken in response to the PMP findings. The provider must conduct
27.10 subsequent reviews of the PMP on a monthly basis; and

27.11 (5) if at any time the ~~medical director~~ licensed practitioner believes the use of the
27.12 controlled substances places the client at risk of harm, the program must seek the client's
27.13 consent to discuss the client's opioid treatment with other prescribers and must seek the
27.14 client's consent for the other prescriber to disclose to the opioid treatment program's medical
27.15 director the client's condition that formed the basis of the other prescriptions. If the
27.16 information is not obtained within seven days, the medical director must document whether
27.17 or not changes to the client's medication dose or number of unsupervised use doses are
27.18 necessary until the information is obtained.

27.19 (c) The commissioner shall collaborate with the Minnesota Board of Pharmacy to develop
27.20 and implement an electronic system for the commissioner to routinely access the PMP data
27.21 to determine whether any client enrolled in an opioid addiction treatment program licensed
27.22 according to this section was prescribed or dispensed a controlled substance in addition to
27.23 that administered or dispensed by the opioid addiction treatment program. When the
27.24 commissioner determines there have been multiple prescribers or multiple prescriptions of
27.25 controlled substances for a client, the commissioner shall:

27.26 (1) inform the medical director of the opioid treatment program only that the
27.27 commissioner determined the existence of multiple prescribers or multiple prescriptions of
27.28 controlled substances; and

27.29 (2) direct the medical director of the opioid treatment program to access the data directly,
27.30 review the effect of the multiple prescribers or multiple prescriptions, and document the
27.31 review.

27.32 (d) If determined necessary, the commissioner shall seek a federal waiver of, or exception
27.33 to, any applicable provision of Code of Federal Regulations, title 42, section 2.34 (c), before
27.34 implementing this subdivision.

28.6 section 245G.22, subdivisions 6 and 7. Unsupervised use of medication used for the treatment
28.7 of opioid use disorder for days that the program is closed for business, including, but not
28.8 limited to, Sundays and state and federal holidays ~~as required under subdivision 6, paragraph~~
28.9 ~~(a), clause (1),~~ must meet the requirements under section 245G.22, subdivisions 6 and 7.

28.10 (c) The license holder must maintain a policy and procedure that includes specific
28.11 measures to reduce the possibility of diversion. The policy and procedure must:

28.12 (1) specifically identify and define the responsibilities of the medical and administrative
28.13 staff for performing diversion control measures; and

28.14 (2) include a process for contacting no less than five percent of clients who have
28.15 unsupervised use of medication, excluding clients approved solely under subdivision 6,
28.16 paragraph (a), ~~clause (1),~~ to require clients to physically return to the program each month.
28.17 The system must require clients to return to the program within a stipulated time frame and
28.18 turn in all unused medication containers related to opioid use disorder treatment. The license
28.19 holder must document all related contacts on a central log and the outcome of the contact
28.20 for each client in the client's record. The medical director must be informed of each outcome
28.21 that results in a situation in which a possible diversion issue was identified.

28.22 (d) Medication used for the treatment of opioid use disorder must be ordered,
28.23 administered, and dispensed according to applicable state and federal regulations and the
28.24 standards set by applicable accreditation entities. If a medication order requires assessment
28.25 by the person administering or dispensing the medication to determine the amount to be
28.26 administered or dispensed, the assessment must be completed by an individual whose
28.27 professional scope of practice permits an assessment. For the purposes of enforcement of
28.28 this paragraph, the commissioner has the authority to monitor the person administering or
28.29 dispensing the medication for compliance with state and federal regulations and the relevant
28.30 standards of the license holder's accreditation agency and may issue licensing actions
28.31 according to sections 245A.05, 245A.06, and 245A.07, based on the commissioner's
