EFFECTIVE DATE. This section is effective August 1, 2018.

Sec. 5. Minnesota Statutes 2017 Supplement, section 245A.03, subdivision 7, is amended to read:

Subd. 7. **Licensing moratorium.** (a) The commissioner shall not issue an initial license for child foster care licensed under Minnesota Rules, parts 2960.3000 to 2960.3340, or adult foster care licensed under Minnesota Rules, parts 9555.5105 to 9555.6265, under this chapter for a physical location that will not be the primary residence of the license holder for the entire period of licensure. If a license is issued during this moratorium, and the license holder changes the license holder's primary residence away from the physical location of the foster care license, the commissioner shall revoke the license according to section 245A.07. The commissioner shall not issue an initial license for a community residential setting licensed under chapter 245D. When approving an exception under this paragraph, the commissioner shall consider the resource need determination process in paragraph (h), the availability of foster care licensed beds in the geographic area in which the licensee seeks to operate, the results of a person's choices during their annual assessment and service plan review, and the recommendation of the local county board. The determination by the commissioner is final and not subject to appeal. Exceptions to the moratorium include:

(1) foster care settings that are required to be registered under chapter 144D;

(2) foster care licenses replacing foster care licenses in existence on May 15, 2009, or community residential setting licenses replacing adult foster care licenses in existence on December 31, 2013, and determined to be needed by the commissioner under paragraph (b);

(3) new foster care licenses or community residential setting licenses determined to be needed by the commissioner under paragraph (b) for the closure of a nursing facility, ICF/DD, or regional treatment center; restructuring of state-operated services that limits the capacity of state-operated facilities; or allowing movement to the community for people who no longer require the level of care provided in state-operated facilities as provided under section 256B.092, subdivision 13, or 256B.49, subdivision 24;

(4) new foster care licenses or community residential setting licenses determined to be needed by the commissioner under paragraph (b) for persons requiring hospital level care;

(5) new foster care licenses or community residential setting licenses determined to be needed by the commissioner for the transition of people from personal care assistance to the home and community-based services;

(6) new foster care licenses or community residential setting licenses determined to be needed by the commissioner for the transition of people from the residential care waiver services to foster care services. This exception applies only when:

(i) the person's case manager provided the person with information about the choice of service, service provider, and location of service to help the person make an informed choice; and

(ii) the person's foster care services are less than or equal to the cost of the person's services delivered in the residential care waiver service setting as determined by the lead agency; or

(7) new foster care licenses or community residential setting licenses for people receiving services under chapter 245D and residing in an unlicensed setting before May 1, 2017, and for which a license is required. This exception does not apply to people living in their own home. For purposes of this clause, there is a presumption that a foster care or community residential setting license is required for services provided to three or more people in a dwelling unit when the setting is controlled by the provider. A license holder subject to this exception may rebut the presumption that a license is required by seeking a reconsideration of the commissioner's determination. The commissioner's disposition of a request for reconsideration is final and not subject to appeal under chapter 14. The exception is available until June 30, 2018. This exception is available when:

(i) the person's case manager provided the person with information about the choice of service, service provider, and location of service, including in the person's home, to help the person make an informed choice; and

(ii) the person's services provided in the licensed foster care or community residential setting are less than or equal to the cost of the person's services delivered in the unlicensed setting as determined by the lead agency.

(b) The commissioner shall determine the need for newly licensed foster care homes or community residential settings as defined under this subdivision. As part of the determination, the commissioner shall consider the availability of foster care capacity in the area in which

the licensee seeks to operate, and the recommendation of the local county board. The determination by the commissioner must be final. A determination of need is not required for a change in ownership at the same address.

(c) When an adult resident served by the program moves out of a foster home that is not the primary residence of the license holder according to section 256B.49, subdivision 15, paragraph (f), or the adult community residential setting, the county shall immediately inform the Department of Human Services Licensing Division. The department may decrease the statewide licensed capacity for adult foster care settings.

(d) Residential settings that would otherwise be subject to the decreased license capacity established in paragraph (c) shall be exempt if the license holder's beds are occupied by residents whose primary diagnosis is mental illness and the license holder is certified under the requirements in subdivision 6a or section 245D.33.

(e) A resource need determination process, managed at the state level, using the available reports required by section 144A.351, and other data and information shall be used to determine where the reduced capacity determined under section 256B.493 will be implemented. The commissioner shall consult with the stakeholders described in section 144A.351, and employ a variety of methods to improve the state's capacity to meet the informed decisions of those people who want to move out of corporate foster care or community residential settings, long-term service needs within budgetary limits, including seeking proposals from service providers or lead agencies to change service type, capacity, or location to improve services, increase the independence of residents, and better meet needs identified by the long-term services and supports reports and statewide data and information.

(f) At the time of application and reapplication for licensure, the applicant and the license holder that are subject to the moratorium or an exclusion established in paragraph (a) are required to inform the commissioner whether the physical location where the foster care will be provided is or will be the primary residence of the license holder for the entire period of licensure. If the primary residence of the applicant or license holder changes, the applicant or license holder must notify the commissioner immediately. The commissioner shall print on the foster care license certificate whether or not the physical location is the primary residence of the license holder.

(g) License holders of foster care homes identified under paragraph (f) that are not the primary residence of the license holder and that also provide services in the foster care home that are covered by a federally approved home and community-based services waiver, as

authorized under chapter 256S or section ~~256B.0915,~~ 256B.092~~,~~ or 256B.49, must inform the human services licensing division that the license holder provides or intends to provide these waiver-funded services.

(h) The commissioner may adjust capacity to address needs identified in section 144A.351. Under this authority, the commissioner may approve new licensed settings or delicense existing settings. Delicensing of settings will be accomplished through a process identified in section 256B.493. Annually, by August 1, the commissioner shall provide information and data on capacity of licensed long-term services and supports, actions taken under the subdivision to manage statewide long-term services and supports resources, and any recommendations for change to the legislative committees with jurisdiction over the health and human services budget.

(i) The commissioner must notify a license holder when its corporate foster care or community residential setting licensed beds are reduced under this section. The notice of reduction of licensed beds must be in writing and delivered to the license holder by certified mail or personal service. The notice must state why the licensed beds are reduced and must inform the license holder of its right to request reconsideration by the commissioner. The license holder's request for reconsideration must be in writing. If mailed, the request for reconsideration must be postmarked and sent to the commissioner within 20 calendar days after the license holder's receipt of the notice of reduction of licensed beds. If a request for reconsideration is made by personal service, it must be received by the commissioner within 20 calendar days after the license holder's receipt of the notice of reduction of licensed beds.

(j) The commissioner shall not issue an initial license for children's residential treatment services licensed under Minnesota Rules, parts 2960.0580 to 2960.0700, under this chapter for a program that Centers for Medicare and Medicaid Services would consider an institution for mental diseases. Facilities that serve only private pay clients are exempt from the moratorium described in this paragraph. The commissioner has the authority to manage existing statewide capacity for children's residential treatment services subject to the moratorium under this paragraph and may issue an initial license for such facilities if the initial license would not increase the statewide capacity for children's residential treatment services subject to the moratorium under this paragraph.

EFFECTIVE DATE. This section is effective August 1, 2018.

Sec. 6. Minnesota Statutes 2017 Supplement, section 245A.04, subdivision 14, is amended to read:

Subd. 14. **Policies and procedures for program administration required and enforceable.** (a) The license holder shall develop program policies and procedures necessary to maintain compliance with licensing requirements under Minnesota Statutes and Minnesota Rules.

(b) The license holder shall:

(1) provide training to program staff related to their duties in implementing the program's policies and procedures developed under paragraph (a);

(2) document the provision of this training; and

(3) monitor implementation of policies and procedures by program staff.

(c) The license holder shall keep program policies and procedures readily accessible to staff and index the policies and procedures with a table of contents or another method approved by the commissioner.

(d) An adult foster care license holder that provides foster care services to a resident under ~~section 256B.0915~~ chapter 256S must annually provide a copy of the resident termination policy under section 245A.11, subdivision 11, to a resident covered by the policy.

EFFECTIVE DATE. This section is effective August 1, 2018.

Sec. 7. Minnesota Statutes 2016, section 245A.11, subdivision 7a, is amended to read:

Subd. 7a. **Alternate overnight supervision technology; adult foster care and community residential setting licenses.** (a) The commissioner may grant an applicant or license holder an adult foster care or community residential setting license for a residence that does not have a caregiver in the residence during normal sleeping hours as required under Minnesota Rules, part 9555.5105, subpart 37, item B, or section 245D.02, subdivision 33b, but uses monitoring technology to alert the license holder when an incident occurs that may jeopardize the health, safety, or rights of a foster care recipient. The applicant or license holder must comply with all other requirements under Minnesota Rules, parts 9555.5105 to 9555.6265, or applicable requirements under chapter 245D, and the requirements under this subdivision. The license printed by the commissioner must state in bold and large font:

(1) that the facility is under electronic monitoring; and

(2) the telephone number of the county's common entry point for making reports of suspected maltreatment of vulnerable adults under section 626.557, subdivision 9.

(b) Applications for a license under this section must be submitted directly to the Department of Human Services licensing division. The licensing division must immediately notify the county licensing agency. The licensing division must collaborate with the county licensing agency in the review of the application and the licensing of the program.

(c) Before a license is issued by the commissioner, and for the duration of the license, the applicant or license holder must establish, maintain, and document the implementation of written policies and procedures addressing the requirements in paragraphs (d) through (f).

(d) The applicant or license holder must have policies and procedures that:

(1) establish characteristics of target populations that will be admitted into the home, and characteristics of populations that will not be accepted into the home;

(2) explain the discharge process when a resident served by the program requires overnight supervision or other services that cannot be provided by the license holder due to the limited hours that the license holder is on site;

(3) describe the types of events to which the program will respond with a physical presence when those events occur in the home during time when staff are not on site, and how the license holder's response plan meets the requirements in paragraph (e), clause (1) or (2);

(4) establish a process for documenting a review of the implementation and effectiveness of the response protocol for the response required under paragraph (e), clause (1) or (2). The documentation must include:

(i) a description of the triggering incident;

(ii) the date and time of the triggering incident;

(iii) the time of the response or responses under paragraph (e), clause (1) or (2);

(iv) whether the response met the resident's needs;

(v) whether the existing policies and response protocols were followed; and

(vi) whether the existing policies and protocols are adequate or need modification.

When no physical presence response is completed for a three-month period, the license holder's written policies and procedures must require a physical presence response drill to

be conducted for which the effectiveness of the response protocol under paragraph (e), clause (1) or (2), will be reviewed and documented as required under this clause; and

(5) establish that emergency and nonemergency phone numbers are posted in a prominent location in a common area of the home where they can be easily observed by a person responding to an incident who is not otherwise affiliated with the home.

(e) The license holder must document and include in the license application which response alternative under clause (1) or (2) is in place for responding to situations that present a serious risk to the health, safety, or rights of residents served by the program:

(1) response alternative (1) requires only the technology to provide an electronic notification or alert to the license holder that an event is underway that requires a response. Under this alternative, no more than ten minutes will pass before the license holder will be physically present on site to respond to the situation; or

(2) response alternative (2) requires the electronic notification and alert system under alternative (1), but more than ten minutes may pass before the license holder is present on site to respond to the situation. Under alternative (2), all of the following conditions are met:

(i) the license holder has a written description of the interactive technological applications that will assist the license holder in communicating with and assessing the needs related to the care, health, and safety of the foster care recipients. This interactive technology must permit the license holder to remotely assess the well being of the resident served by the program without requiring the initiation of the foster care recipient. Requiring the foster care recipient to initiate a telephone call does not meet this requirement;

(ii) the license holder documents how the remote license holder is qualified and capable of meeting the needs of the foster care recipients and assessing foster care recipients' needs under item (i) during the absence of the license holder on site;

(iii) the license holder maintains written procedures to dispatch emergency response personnel to the site in the event of an identified emergency; and

(iv) each resident's individualized plan of care, coordinated service and support plan under sections 256B.0913, subdivision 8; ~~256B.0915, subdivision 6;~~ 256B.092, subdivision 1b; ~~and~~ 256B.49, subdivision 15; and 256S.10, if required, or individual resident placement agreement under Minnesota Rules, part 9555.5105, subpart 19, if required, identifies the maximum response time, which may be greater than ten minutes, for the license holder to be on site for that resident.

(f) Each resident's placement agreement, individual service agreement, and plan must clearly state that the adult foster care or community residential setting license category is a program without the presence of a caregiver in the residence during normal sleeping hours; the protocols in place for responding to situations that present a serious risk to the health, safety, or rights of residents served by the program under paragraph (e), clause (1) or (2); and a signed informed consent from each resident served by the program or the person's legal representative documenting the person's or legal representative's agreement with placement in the program. If electronic monitoring technology is used in the home, the informed consent form must also explain the following:

(1) how any electronic monitoring is incorporated into the alternative supervision system;

(2) the backup system for any electronic monitoring in times of electrical outages or other equipment malfunctions;

(3) how the caregivers or direct support staff are trained on the use of the technology;

(4) the event types and license holder response times established under paragraph (e);

(5) how the license holder protects each resident's privacy related to electronic monitoring and related to any electronically recorded data generated by the monitoring system. A resident served by the program may not be removed from a program under this subdivision for failure to consent to electronic monitoring. The consent form must explain where and how the electronically recorded data is stored, with whom it will be shared, and how long it is retained; and

(6) the risks and benefits of the alternative overnight supervision system.

The written explanations under clauses (1) to (6) may be accomplished through cross-references to other policies and procedures as long as they are explained to the person giving consent, and the person giving consent is offered a copy.

(g) Nothing in this section requires the applicant or license holder to develop or maintain separate or duplicative policies, procedures, documentation, consent forms, or individual plans that may be required for other licensing standards, if the requirements of this section are incorporated into those documents.

(h) The commissioner may grant variances to the requirements of this section according to section 245A.04, subdivision 9.

(i) For the purposes of paragraphs (d) through (h), "license holder" has the meaning under section 245A.2, subdivision 9, and additionally includes all staff, volunteers, and contractors affiliated with the license holder.

(j) For the purposes of paragraph (e), the terms "assess" and "assessing" mean to remotely determine what action the license holder needs to take to protect the well-being of the foster care recipient.

(k) The commissioner shall evaluate license applications using the requirements in paragraphs (d) to (f). The commissioner shall provide detailed application forms, including a checklist of criteria needed for approval.

(l) To be eligible for a license under paragraph (a), the adult foster care or community residential setting license holder must not have had a conditional license issued under section 245A.06 or any licensing sanction under section 245A.07 during the prior 24 months based on failure to provide adequate supervision, health care services, or resident safety in the adult foster care home or community residential setting.

(m) The commissioner shall review an application for an alternative overnight supervision license within 60 days of receipt of the application. When the commissioner receives an application that is incomplete because the applicant failed to submit required documents or that is substantially deficient because the documents submitted do not meet licensing requirements, the commissioner shall provide the applicant written notice that the application is incomplete or substantially deficient. In the written notice to the applicant, the commissioner shall identify documents that are missing or deficient and give the applicant 45 days to resubmit a second application that is substantially complete. An applicant's failure to submit a substantially complete application after receiving notice from the commissioner is a basis for license denial under section 245A.05. The commissioner shall complete subsequent review within 30 days.

(n) Once the application is considered complete under paragraph (m), the commissioner will approve or deny an application for an alternative overnight supervision license within 60 days.

(o) For the purposes of this subdivision, "supervision" means:

(1) oversight by a caregiver or direct support staff as specified in the individual resident's place agreement or coordinated service and support plan and awareness of the resident's needs and activities; and

(2) the presence of a caregiver or direct support staff in a residence during normal sleeping hours, unless a determination has been made and documented in the individual's coordinated service and support plan that the individual does not require the presence of a caregiver or direct support staff during normal sleeping hours.

EFFECTIVE DATE. This section is effective August 1, 2018.

Sec. 8. Minnesota Statutes 2017 Supplement, section 245A.11, subdivision 9, is amended to read:

Subd. 9. **Adult foster care bedrooms.** (a) A resident receiving services must have a choice of roommate. Each roommate must consent in writing to sharing a bedroom with one another. The license holder is responsible for notifying a resident of the resident's right to request a change of roommate.

(b) The license holder must provide a lock for each resident's bedroom door, unless otherwise indicated for the resident's health, safety, or well-being. A restriction on the use of the lock must be documented and justified in the resident's individual abuse prevention plan required by sections 245A.65, subdivision 2, paragraph (b), and 626.557, subdivision 14. For a resident served under ~~section 256B.0915~~ chapter 256S, the case manager must be part of the interdisciplinary team under section 245A.65, subdivision 2, paragraph (b).

EFFECTIVE DATE. This section is effective August 1, 2018.

Sec. 9. Minnesota Statutes 2017 Supplement, section 245A.11, subdivision 10, is amended to read:

(1) an explanation and copy of the resident's rights specified in paragraph (b);

(2) a written summary of the Vulnerable Adults Protection Act prepared by the department; and

(3) the name, address, and telephone number of the local agency to which a resident or a resident's legal representative may submit an oral or written complaint.

(b) Adult foster care resident rights include the right to:

(1) have daily, private access to and use of a non-coin-operated telephone for local and long-distance telephone calls made collect or paid for by the resident;

(2) receive and send, without interference, uncensored, unopened mail or electronic correspondence or communication;

(3) have use of and free access to common areas in the residence and the freedom to come and go from the residence at will;

(4) have privacy for visits with the resident's spouse, next of kin, legal counsel, religious adviser, or others, according to section 363A.09 of the Human Rights Act, including privacy in the resident's bedroom;

(5) keep, use, and access the resident's personal clothing and possessions as space permits, unless this right infringes on the health, safety, or rights of another resident or household member, including the right to access the resident's personal possessions at any time;

(6) choose the resident's visitors and time of visits and participate in activities of commercial, religious, political, and community groups without interference if the activities do not infringe on the rights of another resident or household member;

(7) if married, privacy for visits by the resident's spouse, and, if both spouses are residents of the adult foster home, the residents have the right to share a bedroom and bed;

(8) privacy, including use of the lock on the resident's bedroom door or unit door. A resident's privacy must be respected by license holders, caregivers, household members, and volunteers by knocking on the door of a resident's bedroom or bathroom and seeking consent before entering, except in an emergency;

(19) assert the resident's rights personally, or have the rights asserted by the resident's family, authorized representative, or legal representative, without retaliation; and

(20) give or withhold written informed consent to participate in any research or experimental treatment.

(c) A restriction of a resident's rights under paragraph (b), clauses (1) to (4), (6), (8), (10), and (11), is allowed only if determined necessary to ensure the health, safety, and well-being of the resident. Any restriction of a resident's right must be documented and justified in the resident's individual abuse prevention plan required by sections 245A.65, subdivision 2, paragraph (b) and 626.557, subdivision 14. For a resident served under ~~section 256B.0915~~ chapter 256S, the case manager must be part of the interdisciplinary team under section 245A.65, subdivision 2, paragraph (b). The restriction must be implemented in the least restrictive manner necessary to protect the resident and provide support to reduce or eliminate the need for the restriction.

(b) The foster care license holder must establish policies and procedures for service termination that promote continuity of care and service coordination with the resident and the case manager and with another licensed caregiver, if any, who also provides support to the resident. The policy must include the requirements specified in paragraphs (c) to (h).

(c) The license holder must allow a resident to remain in the program and cannot terminate services unless:

(1) the termination is necessary for the resident's health, safety, and well-being and the resident's needs cannot be met in the facility;

(2) the safety of the resident or another resident in the program is endangered and positive support strategies were attempted and have not achieved and effectively maintained safety for the resident or another resident in the program;

(3) the health, safety, and well-being of the resident or another resident in the program would otherwise be endangered;

(1) consultation with the resident's interdisciplinary team to identify and resolve issues leading to a notice of service termination; and

(2) a request to the case manager or other professional consultation or intervention services to support the resident in the program. This requirement does not apply to a notice of service termination issued under paragraph (c), clause (4) or (5).

Subdivision 1. **Applicability.** (a) The commissioner shall regulate the provision of home and community-based services to persons with disabilities and persons age 65 and older pursuant to this chapter. The licensing standards in this chapter govern the provision of basic support services and intensive support services.

(b) Basic support services provide the level of assistance, supervision, and care that is necessary to ensure the health and welfare of the person and do not include services that are specifically directed toward the training, treatment, habilitation, or rehabilitation of the person. Basic support services include:

(1) in-home and out-of-home respite care services as defined in section 245A.02, subdivision 15, and under the brain injury, community alternative care, community access for disability inclusion, developmental disability, and elderly waiver plans, excluding out-of-home respite care provided to children in a family child foster care home licensed under Minnesota Rules, parts 2960.3000 to 2960.3100, when the child foster care license holder complies with the requirements under section 245D.06, subdivisions 5, 6, 7, and 8, or successor provisions; and section 245D.061 or successor provisions, which must be stipulated in the statement of intended use required under Minnesota Rules, part 2960.3000, subpart 4;

Subdivision 1. **Prohibited transfers.** (a) Effective for transfers made after August 10, 1993, an institutionalized person, an institutionalized person's spouse, or any person, court, or administrative body with legal authority to act in place of, on behalf of, at the direction of, or upon the request of the institutionalized person or institutionalized person's spouse, may not give away, sell, or dispose of, for less than fair market value, any asset or interest therein, except assets other than the homestead that are excluded under the Supplemental Security Income program, for the purpose of establishing or maintaining medical assistance eligibility. This applies to all transfers, including those made by a community spouse after the month in which the institutionalized spouse is determined eligible for medical assistance. For purposes of determining eligibility for long-term care services, any transfer of such assets within 36 months before or any time after an institutionalized person requests medical assistance payment of long-term care services, or 36 months before or any time after a medical assistance recipient becomes an institutionalized person, for less than fair market value may be considered. Any such transfer is presumed to have been made for the purpose of establishing or maintaining medical assistance eligibility and the institutionalized person is ineligible for long-term care services for the period of time determined under subdivision 2, unless the institutionalized person furnishes convincing evidence to establish that the transaction was exclusively for another purpose, or unless the transfer is permitted under subdivision 3 or 4. In the case of payments from a trust or portions of a trust that are considered transfers of assets under federal law, or in the case of any other disposal of assets made on or after February 8, 2006, any transfers made within 60 months before or any time after an institutionalized person requests medical assistance payment of long-term care services and within 60 months before or any time after a medical assistance recipient becomes an institutionalized person, may be considered.

(b) This section applies to transfers, for less than fair market value, of income or assets, including assets that are considered income in the month received, such as inheritances, court settlements, and retroactive benefit payments or income to which the institutionalized person or the institutionalized person's spouse is entitled but does not receive due to action by the institutionalized person, the institutionalized person's spouse, or any person, court, or administrative body with legal authority to act in place of, on behalf of, at the direction of, or upon the request of the institutionalized person or the institutionalized person's spouse.

(c) This section applies to payments for care or personal services provided by a relative, unless the compensation was stipulated in a notarized, written agreement which was in existence when the service was performed, the care or services directly benefited the person, and the payments made represented reasonable compensation for the care or services provided. A notarized written agreement is not required if payment for the services was made within 60 days after the service was provided.

(d) This section applies to the portion of any asset or interest that an institutionalized person, an institutionalized person's spouse, or any person, court, or administrative body with legal authority to act in place of, on behalf of, at the direction of, or upon the request of the institutionalized person or the institutionalized person's spouse, transfers to any annuity that exceeds the value of the benefit likely to be returned to the institutionalized person or institutionalized person's spouse while alive, based on estimated life expectancy as determined according to the current actuarial tables published by the Office of the Chief Actuary of the Social Security Administration. The commissioner may adopt rules reducing life expectancies based on the need for long-term care. This section applies to an annuity purchased on or after March 1, 2002, that:

(1) is not purchased from an insurance company or financial institution that is subject to licensing or regulation by the Minnesota Department of Commerce or a similar regulatory agency of another state;

(2) does not pay out principal and interest in equal monthly installments; or

(3) does not begin payment at the earliest possible date after annuitization.

(e) Effective for transactions, including the purchase of an annuity, occurring on or after February 8, 2006, by or on behalf of an institutionalized person who has applied for or is receiving long-term care services or the institutionalized person's spouse shall be treated as the disposal of an asset for less than fair market value unless the department is named a preferred remainder beneficiary as described in section 256B.056, subdivision 11. Any subsequent change to the designation of the department as a preferred remainder beneficiary

shall result in the annuity being treated as a disposal of assets for less than fair market value. The amount of such transfer shall be the maximum amount the institutionalized person or the institutionalized person's spouse could receive from the annuity or similar financial instrument. Any change in the amount of the income or principal being withdrawn from the annuity or other similar financial instrument at the time of the most recent disclosure shall be deemed to be a transfer of assets for less than fair market value unless the institutionalized person or the institutionalized person's spouse demonstrates that the transaction was for fair market value. In the event a distribution of income or principal has been improperly distributed or disbursed from an annuity or other retirement planning instrument of an institutionalized person or the institutionalized person's spouse, a cause of action exists against the individual receiving the improper distribution for the cost of medical assistance services provided or the amount of the improper distribution, whichever is less.

(f) Effective for transactions, including the purchase of an annuity, occurring on or after February 8, 2006, by or on behalf of an institutionalized person applying for or receiving long-term care services shall be treated as a disposal of assets for less than fair market value unless it is:

(1) an annuity described in subsection (b) or (q) of section 408 of the Internal Revenue Code of 1986; or

(2) purchased with proceeds from:

(A) an account or trust described in subsection (a), (c), or (p) of section 408 of the Internal Revenue Code;

(3) an annuity that is irrevocable and nonassignable; is actuarially sound as determined in accordance with actuarial publications of the Office of the Chief Actuary of the Social Security Administration; and provides for payments in equal amounts during the term of the annuity, with no deferral and no balloon payments made.

(g) For purposes of this section, long-term care services include services in a nursing facility, services that are eligible for payment according to section 256B.0625, subdivision 2, because they are provided in a swing bed, intermediate care facility for persons with developmental disabilities, and home and community-based services provided pursuant to ~~sections 256B.0915,~~ chapter 256S and sections 256B.092~~,~~ and 256B.49. For purposes of

this subdivision and subdivisions 2, 3, and 4, "institutionalized person" includes a person who is an inpatient in a nursing facility or in a swing bed, or intermediate care facility for persons with developmental disabilities or who is receiving home and community-based services under ~~sections 256B.0915,~~ chapter 256S and sections 256B.092~~,~~ and 256B.49.

(h) This section applies to funds used to purchase a promissory note, loan, or mortgage unless the note, loan, or mortgage:

(1) has a repayment term that is actuarially sound;

(2) provides for payments to be made in equal amounts during the term of the loan, with no deferral and no balloon payments made; and

(3) prohibits the cancellation of the balance upon the death of the lender.

In the case of a promissory note, loan, or mortgage that does not meet an exception in clauses (1) to (3), the value of such note, loan, or mortgage shall be the outstanding balance due as of the date of the institutionalized person's request for medical assistance payment of long-term care services.

Subd. 3a. **Assessment and support planning.** (a) Persons requesting assessment, services planning, or other assistance intended to support community-based living, including persons who need assessment in order to determine waiver or alternative care program eligibility, must be visited by a long-term care consultation team within 20 calendar days after the date on which an assessment was requested or recommended. Upon statewide implementation of subdivisions 2b, 2c, and 5, this requirement also applies to an assessment of a person requesting personal care assistance services and home care nursing. The commissioner shall provide at least a 90-day notice to lead agencies prior to the effective date of this requirement. Face-to-face assessments must be conducted according to paragraphs (b) to (i).

(b) Upon implementation of subdivisions 2b, 2c, and 5, lead agencies shall use certified assessors to conduct the assessment. For a person with complex health care needs, a public health or registered nurse from the team must be consulted.

(c) The MnCHOICES assessment provided by the commissioner to lead agencies must be used to complete a comprehensive, person-centered assessment. The assessment must include the health, psychological, functional, environmental, and social needs of the individual necessary to develop a community support plan that meets the individual's needs and preferences.

(d) The assessment must be conducted in a face-to-face interview with the person being assessed and the person's legal representative. At the request of the person, other individuals may participate in the assessment to provide information on the needs, strengths, and preferences of the person necessary to develop a community support plan that ensures the person's health and safety. Except for legal representatives or family members invited by the person, persons participating in the assessment may not be a provider of service or have any financial interest in the provision of services. For persons who are to be assessed for elderly waiver customized living or adult day services under ~~section 256B.0915~~ chapter 256S, with the permission of the person being assessed or the person's designated or legal representative, the client's current or proposed provider of services may submit a copy of the provider's nursing assessment or written report outlining its recommendations regarding the client's care needs. The person conducting the assessment must notify the provider of

the date by which this information is to be submitted. This information shall be provided to the person conducting the assessment prior to the assessment. For a person who is to be assessed for waiver services under section 256B.092 or 256B.49, with the permission of the person being assessed or the person's designated legal representative, the person's current provider of services may submit a written report outlining recommendations regarding the person's care needs prepared by a direct service employee with at least 20 hours of service to that client. The person conducting the assessment or reassessment must notify the provider of the date by which this information is to be submitted. This information shall be provided to the person conducting the assessment and the person or the person's legal representative, and must be considered prior to the finalization of the assessment or reassessment.

(e) The person or the person's legal representative must be provided with a written community support plan within 40 calendar days of the assessment visit, regardless of whether the individual is eligible for Minnesota health care programs.

(f) For a person being assessed for elderly waiver services under ~~section 256B.0915~~ chapter 256S, a provider who submitted information under paragraph (d) shall receive the final written community support plan when available and the Residential Services Workbook.

(g) The written community support plan must include:

(4) referral information; and

(5) informal caregiver supports, if applicable.

For a person determined eligible for state plan home care under subdivision 1a, paragraph (b), clause (1), the person or person's representative must also receive a copy of the home care service plan developed by the certified assessor.

(h) A person may request assistance in identifying community supports without participating in a complete assessment. Upon a request for assistance identifying community support, the person must be transferred or referred to long-term care options counseling services available under sections 256.975, subdivision 7, and 256.01, subdivision 24, for telephone assistance and follow up.

(i) The person has the right to make the final decision between institutional placement and community placement after the recommendations have been provided, except as provided in section 256.975, subdivision 7a, paragraph (d).

(j) The lead agency must give the person receiving assessment or support planning, or the person's legal representative, materials, and forms supplied by the commissioner containing the following information:

(1) written recommendations for community-based services and consumer-directed options;

(2) documentation that the most cost-effective alternatives available were offered to the individual. For purposes of this clause, "cost-effective" means community services and living arrangements that cost the same as or less than institutional care. For an individual found to meet eligibility criteria for home and community-based service programs under ~~section 256B.0915~~ chapter 256S or section 256B.49, "cost-effectiveness" has the meaning found in the federally approved waiver plan for each program;

(3) the need for and purpose of preadmission screening conducted by long-term care options counselors according to section 256.975, subdivisions 7a to 7c, if the person selects nursing facility placement. (k) Face-to-face assessment completed as part of eligibility determination for the alternative care, elderly waiver, community access for disability inclusion, community alternative care, and brain injury waiver programs under chapter 256S and sections 256B.0913~~, 256B.0915,~~ and 256B.49 is valid to establish service eligibility for no more than 60 calendar days after the date of assessment.

(l) The effective eligibility start date for programs in paragraph (k) can never be prior to the date of assessment. If an assessment was completed more than 60 days before the effective waiver or alternative care program eligibility start date, assessment and support plan information must be updated and documented in the department's Medicaid Management Information System (MMIS). Notwithstanding retroactive medical assistance coverage of state plan services, the effective date of eligibility for programs included in paragraph (k) cannot be prior to the date the most recent updated assessment is completed.

(m) If an eligibility update is completed within 90 days of the previous face-to-face assessment and documented in the department's Medicaid Management Information System (MMIS), the effective date of eligibility for programs included in paragraph (k) is the date of the previous face-to-face assessment when all other eligibility requirements are met.

(n) At the time of reassessment, the certified assessor shall assess each person receiving waiver services currently residing in a community residential setting, or licensed adult foster care home that is not the primary residence of the license holder, or in which the license holder is not the primary caregiver, to determine if that person would prefer to be served in a community-living setting as defined in section 256B.49, subdivision 23. The certified assessor shall offer the person, through a person-centered planning process, the option to receive alternative housing and service options.

EFFECTIVE DATE. This section is effective August 1, 2018.

(1) the person is a citizen of the United States or a United States national;

(2) the person has been determined by a community assessment under section 256B.0911 to be a person who would require the level of care provided in a nursing facility, as determined under section 256B.0911, subdivision 4e, but for the provision of services under the alternative care program;

(3) the person is age 65 or older;

(4) the person would be eligible for medical assistance within 135 days of admission to a nursing facility;

(5) the person is not ineligible for the payment of long-term care services by the medical assistance program due to an asset transfer penalty under section 256B.0595 or equity interest in the home exceeding $500,000 as stated in section 256B.056;

(6) the person needs long-term care services that are not funded through other state or federal funding, or other health insurance or other third-party insurance such as long-term care insurance;

(7) except for individuals described in clause (8), the monthly cost of the alternative care services funded by the program for this person does not exceed 75 percent of the monthly limit described under section ~~256B.0915, subdivision 3a~~ 256S.18. This monthly limit does not prohibit the alternative care client from payment for additional services, but in no case may the cost of additional services purchased under this section exceed the difference between the client's monthly service limit defined under section ~~256B.0915, subdivision 3~~ 256S.04, and the alternative care program monthly service limit defined in this paragraph. If care-related supplies and equipment or environmental modifications and adaptations are or will be purchased for an alternative care services recipient, the costs may be prorated on a monthly basis for up to 12 consecutive months beginning with the month of purchase. If the monthly cost of a recipient's other alternative care services exceeds the monthly limit established in this paragraph, the annual cost of the alternative care services shall be determined. In this event, the annual cost of alternative care services shall not exceed 12 times the monthly limit described in this paragraph;

(8) for individuals assigned a case mix classification A as described under section ~~256B.0915, subdivision 3a, paragraph (a)~~ 256S.18, with (i) no dependencies in activities of daily living, or (ii) up to two dependencies in bathing, dressing, grooming, walking, and eating when the dependency score in eating is three or greater as determined by an assessment performed under section 256B.0911, the monthly cost of alternative care services funded by the program cannot exceed $593 per month for all new participants enrolled in the

program on or after July 1, 2011. This monthly limit shall be applied to all other participants who meet this criteria at reassessment. This monthly limit shall be increased annually as described in section ~~256B.0915, subdivision 3a, paragraphs (a) and (e)~~ 256S.18. This monthly limit does not prohibit the alternative care client from payment for additional services, but in no case may the cost of additional services purchased exceed the difference between the client's monthly service limit defined in this clause and the limit described in clause (7) for case mix classification A; and

(9) the person is making timely payments of the assessed monthly fee.

A person is ineligible if payment of the fee is over 60 days past due, unless the person agrees to:

(i) the appointment of a representative payee;

(ii) automatic payment from a financial account;

(iii) the establishment of greater family involvement in the financial management of payments; or

(iv) another method acceptable to the lead agency to ensure prompt fee payments.

The lead agency may extend the client's eligibility as necessary while making arrangements to facilitate payment of past-due amounts and future premium payments. Following disenrollment due to nonpayment of a monthly fee, eligibility shall not be reinstated for a period of 30 days.

(b) Alternative care funding under this subdivision is not available for a person who is a medical assistance recipient or who would be eligible for medical assistance without a spenddown or waiver obligation. A person whose initial application for medical assistance and the elderly waiver program is being processed may be served under the alternative care program for a period up to 60 days. If the individual is found to be eligible for medical assistance, medical assistance must be billed for services payable under the federally approved elderly waiver plan and delivered from the date the individual was found eligible for the federally approved elderly waiver plan. Notwithstanding this provision, alternative care funds may not be used to pay for any service the cost of which: (i) is payable by medical assistance; (ii) is used by a recipient to meet a waiver obligation; or (iii) is used to pay a medical assistance income spenddown for a person who is eligible to participate in the federally approved elderly waiver program under the special income standard provision.

(c) Alternative care funding is not available for a person who resides in a licensed nursing home, certified boarding care home, hospital, or intermediate care facility, except for case

management services which are provided in support of the discharge planning process for a nursing home resident or certified boarding care home resident to assist with a relocation process to a community-based setting.

(d) Alternative care funding is not available for a person whose income is greater than the maintenance needs allowance under section ~~256B.0915, subdivision 1d~~ 256S.05, but equal to or less than 120 percent of the federal poverty guideline effective July 1 in the fiscal year for which alternative care eligibility is determined, who would be eligible for the elderly waiver with a waiver obligation.

The lead agency shall

be held harmless for damages or injuries sustained through the use of volunteers under this subdivision including workers' compensation liability. The case manager shall provide documentation in each individual's plan and, if requested, to the commissioner that the most cost-effective alternatives available have been offered to the individual and that the individual was free to choose among available qualified providers, both public and private, including qualified case management or service coordination providers other than those employed by any county; however, the county or tribe maintains responsibility for prior authorizing services in accordance with statutory and administrative requirements. The case manager must give the individual a ten-day written notice of any denial, termination, or reduction of alternative care services.

(4) the capacity to document and maintain individual case records under state and federal requirements; and

(5) the lead agency may allow a case manager employed by the lead agency to delegate certain aspects of the case management activity to another individual employed by the lead agency provided there is oversight of the individual by the case manager. The case manager may not delegate those aspects which require professional judgment including assessments, reassessments, and coordinated service and support plan development. Lead agencies include counties, health plans, and federally recognized tribes who authorize services under this section.

(b) A health plan shall provide or arrange to provide elderly waiver case management services in subdivision 1a, paragraph (g), in accordance with contract requirements established by the commissioner related to provider standards and qualifications.

Subd. 1d. **Posteligibility treatment of income and resources for elderly waiver.** Notwithstanding the provisions of section 256B.056, the commissioner shall make the following amendment to the medical assistance elderly waiver program effective July 1, 1999, or upon federal approval, whichever is later.

A recipient's maintenance needs will be an amount equal to the Minnesota supplemental aid equivalent rate as defined in section 256I.03, subdivision 5, plus the medical assistance personal needs allowance as defined in section 256B.35, subdivision 1, paragraph (a), when applying posteligibility treatment of income rules to the gross income of elderly waiver recipients, except for individuals whose income is in excess of the special income standard according to Code of Federal Regulations, title 42, section 435.236. Recipient maintenance needs shall be adjusted under this provision each July 1.

Subd. 2. **Spousal impoverishment policies.** The commissioner shall apply the spousal impoverishment criteria as authorized under United States Code, title 42, section 1396r-5, and as implemented in sections 256B.0575, 256B.058, and 256B.059, except that individuals with income at or below the special income standard according to Code of Federal Regulations, title 42, section 435.236, receive the maintenance needs amount in subdivision 1d.

Subd. 3. **Limits of cases.** The number of medical assistance waiver recipients that a lead agency may serve must be allocated according to the number of medical assistance waiver cases open on July 1 of each fiscal year. Additional recipients may be served with the approval of the commissioner.

Subd. 3a. **Elderly waiver cost limits.** (a) Effective on the first day of the state fiscal year in which the resident assessment system as described in section 256B.438 for nursing home rate determination is implemented and the first day of each subsequent state fiscal year, the monthly limit for the cost of waivered services to an individual elderly waiver client shall be the monthly limit of the case mix resident class to which the waiver client would be assigned under Minnesota Rules, parts 9549.0051 to 9549.0059, in effect on the last day of the previous state fiscal year, adjusted by any legislatively adopted home and community-based services percentage rate adjustment.

(b) The monthly limit for the cost of waivered services under paragraph (a) to an individual elderly waiver client assigned to a case mix classification A with:

(1) no dependencies in activities of daily living; or

(2) up to two dependencies in bathing, dressing, grooming, walking, and eating when the dependency score in eating is three or greater as determined by an assessment performed

under section 256B.0911 shall be $1,750 per month effective on July 1, 2011, for all new participants enrolled in the program on or after July 1, 2011. This monthly limit shall be applied to all other participants who meet this criteria at reassessment. This monthly limit shall be increased annually as described in paragraphs (a) and (e).

(c) If extended medical supplies and equipment or environmental modifications are or will be purchased for an elderly waiver client, the costs may be prorated for up to 12 consecutive months beginning with the month of purchase. If the monthly cost of a recipient's waivered services exceeds the monthly limit established in paragraph (a), (b), (d), or (e), the annual cost of all waivered services shall be determined. In this event, the annual cost of all waivered services shall not exceed 12 times the monthly limit of waivered services as described in paragraph (a), (b), (d), or (e).

(d) Effective July 1, 2013, the monthly cost limit of waiver services, including any necessary home care services described in section 256B.0651, subdivision 2, for individuals who meet the criteria as ventilator-dependent given in section 256B.0651, subdivision 1, paragraph (g), shall be the average of the monthly medical assistance amount established for home care services as described in section 256B.0652, subdivision 7, and the annual average contracted amount established by the commissioner for nursing facility services for ventilator-dependent individuals. This monthly limit shall be increased annually as described in paragraphs (a) and (e).

(e) Effective July 1, 2016, and each July 1 thereafter, the monthly cost limits for elderly waiver services in effect on the previous June 30 shall be increased by the difference between any legislatively adopted home and community-based provider rate increases effective on July 1 or since the previous July 1 and the average statewide percentage increase in nursing facility operating payment rates under sections 256B.431, 256B.434, and 256B.441, effective the previous January 1. This paragraph shall only apply if the average statewide percentage increase in nursing facility operating payment rates is greater than any legislatively adopted home and community-based provider rate increases effective on July 1, or occurring since the previous July 1.

Subd. 3b. **Cost limits for elderly waiver applicants who reside in a nursing facility.** (a) For a person who is a nursing facility resident at the time of requesting a determination of eligibility for elderly waivered services, a monthly conversion budget limit for the cost of elderly waivered services may be requested. The monthly conversion budget limit for the cost of elderly waiver services shall be the resident class assigned under Minnesota Rules, parts 9549.0050 to 9549.0059, for that resident in the nursing facility where the resident currently resides until July 1 of the state fiscal year in which the resident assessment

system as described in section 256B.438 for nursing home rate determination is implemented. Effective on July 1 of the state fiscal year in which the resident assessment system as described in section 256B.438 for nursing home rate determination is implemented, the monthly conversion budget limit for the cost of elderly waiver services shall be based on the per diem nursing facility rate as determined by the resident assessment system as described in section 256B.438 for residents in the nursing facility where the elderly waiver applicant currently resides. The monthly conversion budget limit shall be calculated by multiplying the per diem by 365, divided by 12, and reduced by the recipient's maintenance needs allowance as described in subdivision 1d. The initially approved monthly conversion budget limit shall be adjusted annually as described in subdivision 3a, paragraph (a). The limit under this subdivision only applies to persons discharged from a nursing facility after a minimum 30-day stay and found eligible for waivered services on or after July 1, 1997. For conversions from the nursing home to the elderly waiver with consumer directed community support services, the nursing facility per diem used to calculate the monthly conversion budget limit must be reduced by a percentage equal to the percentage difference between the consumer directed services budget limit that would be assigned according to the federally approved waiver plan and the corresponding community case mix cap, but not to exceed 50 percent.

(b) The following costs must be included in determining the total monthly costs for the waiver client:

(1) cost of all waivered services, including specialized supplies and equipment and environmental accessibility adaptations; and

(2) cost of skilled nursing, home health aide, and personal care services reimbursable by medical assistance.

Subd. 3c. **Service approval provisions.** Medical assistance funding for skilled nursing services, home care nursing, home health aide, and personal care services for waiver recipients must be approved by the case manager and included in the coordinated service and support plan.

Subd. 3d. **Adult foster care rate.** The adult foster care rate shall not include room and board. The elderly waiver payment for the foster care service in combination with the payment for all other elderly waiver services, including case management, must not exceed the limit specified in subdivision 3a, paragraph (a).

Subd. 3e. **Customized living service rate.** (a) Payment for customized living services shall be a monthly rate authorized by the lead agency within the parameters established by

the commissioner. The payment agreement must delineate the amount of each component service included in the recipient's customized living service plan. The lead agency, with input from the provider of customized living services, shall ensure that there is a documented need within the parameters established by the commissioner for all component customized living services authorized.

(b) The payment rate must be based on the amount of component services to be provided utilizing component rates established by the commissioner. Counties and tribes shall use tools issued by the commissioner to develop and document customized living service plans and rates.

(c) Component service rates must not exceed payment rates for comparable elderly waiver or medical assistance services and must reflect economies of scale. Customized living services must not include rent or raw food costs.

(d) With the exception of individuals described in subdivision 3a, paragraph (b), the individualized monthly authorized payment for the customized living service plan shall not exceed 50 percent of the greater of either the statewide or any of the geographic groups' weighted average monthly nursing facility rate of the case mix resident class to which the elderly waiver eligible client would be assigned under Minnesota Rules, parts 9549.0051 to 9549.0059, less the maintenance needs allowance as described in subdivision 1d, paragraph (a). Effective on July 1 of the state fiscal year in which the resident assessment system as described in section 256B.438 for nursing home rate determination is implemented and July 1 of each subsequent state fiscal year, the individualized monthly authorized payment for the services described in this clause shall not exceed the limit which was in effect on June 30 of the previous state fiscal year updated annually based on legislatively adopted changes to all service rate maximums for home and community-based service providers.

(e) Effective July 1, 2011, the individualized monthly payment for the customized living service plan for individuals described in subdivision 3a, paragraph (b), must be the monthly authorized payment limit for customized living for individuals classified as case mix A, reduced by 25 percent. This rate limit must be applied to all new participants enrolled in the program on or after July 1, 2011, who meet the criteria described in subdivision 3a, paragraph (b). This monthly limit also applies to all other participants who meet the criteria described in subdivision 3a, paragraph (b), at reassessment.

(f) Customized living services are delivered by a provider licensed by the Department of Health as a class A or class F home care provider and provided in a building that is

registered as a housing with services establishment under chapter 144D. Licensed home care providers are subject to section 256B.0651, subdivision 14.

(g) A provider may not bill or otherwise charge an elderly waiver participant or their family for additional units of any allowable component service beyond those available under the service rate limits described in paragraph (d), nor for additional units of any allowable component service beyond those approved in the service plan by the lead agency.

(h) Effective July 1, 2016, and each July 1 thereafter, individualized service rate limits for customized living services under this subdivision shall be increased by the difference between any legislatively adopted home and community-based provider rate increases effective on July 1 or since the previous July 1 and the average statewide percentage increase in nursing facility operating payment rates under sections 256B.431, 256B.434, and 256B.441, effective the previous January 1. This paragraph shall only apply if the average statewide percentage increase in nursing facility operating payment rates is greater than any legislatively adopted home and community-based provider rate increases effective on July 1, or occurring since the previous July 1.

Subd. 3f. **Payments for services; expenditure forecasts.** (a) Lead agencies shall authorize payments for services in accordance with the payment rates and limits published annually by the commissioner.

(b) Reimbursement for the medical assistance recipients under the approved waiver shall be made from the medical assistance account through the invoice processing procedures of the department's Medicaid Management Information System (MMIS), only with the approval of the client's case manager. The budget for the state share of the Medicaid expenditures shall be forecasted with the medical assistance budget, and shall be consistent with the approved waiver.

Subd. 3g. **Service rate limits; state assumption of costs.** (a) To improve access to community services and eliminate payment disparities between the alternative care program and the elderly waiver, the commissioner shall establish statewide service rate limits and eliminate lead agency-specific service rate limits.

(b) Effective July 1, 2001, for statewide service rate limits, except those described or defined in subdivisions 3d, 3e, and 3h, the statewide service rate limit for each service shall be the greater of the alternative care statewide rate or the elderly waiver statewide rate.

Subd. 3h. **Service rate limits; 24-hour customized living services.** (a) The payment rate for 24-hour customized living services is a monthly rate authorized by the lead agency within the parameters established by the commissioner of human services. The payment

agreement must delineate the amount of each component service included in each recipient's customized living service plan. The lead agency, with input from the provider of customized living services, shall ensure that there is a documented need within the parameters established by the commissioner for all component customized living services authorized. The lead agency shall not authorize 24-hour customized living services unless there is a documented need for 24-hour supervision.

(b) For purposes of this section, "24-hour supervision" means that the recipient requires assistance due to needs related to one or more of the following:

(1) intermittent assistance with toileting, positioning, or transferring;

(2) cognitive or behavioral issues;

(3) a medical condition that requires clinical monitoring; or

(4) for all new participants enrolled in the program on or after July 1, 2011, and all other participants at their first reassessment after July 1, 2011, dependency in at least three of the following activities of daily living as determined by assessment under section 256B.0911: bathing; dressing; grooming; walking; or eating when the dependency score in eating is three or greater; and needs medication management and at least 50 hours of service per month. The lead agency shall ensure that the frequency and mode of supervision of the recipient and the qualifications of staff providing supervision are described and meet the needs of the recipient.

(c) The payment rate for 24-hour customized living services must be based on the amount of component services to be provided utilizing component rates established by the commissioner. Counties and tribes will use tools issued by the commissioner to develop and document customized living plans and authorize rates.

(d) Component service rates must not exceed payment rates for comparable elderly waiver or medical assistance services and must reflect economies of scale.

(e) The individually authorized 24-hour customized living payments, in combination with the payment for other elderly waiver services, including case management, must not exceed the recipient's community budget cap specified in subdivision 3a. Customized living services must not include rent or raw food costs.

(f) The individually authorized 24-hour customized living payment rates shall not exceed the 95 percentile of statewide monthly authorizations for 24-hour customized living services in effect and in the Medicaid management information systems on March 31, 2009, for each case mix resident class under Minnesota Rules, parts 9549.0051 to 9549.0059, to which

elderly waiver service clients are assigned. When there are fewer than 50 authorizations in effect in the case mix resident class, the commissioner shall multiply the calculated service payment rate maximum for the A classification by the standard weight for that classification under Minnesota Rules, parts 9549.0051 to 9549.0059, to determine the applicable payment rate maximum. Service payment rate maximums shall be updated annually based on legislatively adopted changes to all service rates for home and community-based service providers.

(g) Notwithstanding the requirements of paragraphs (d) and (f), the commissioner may establish alternative payment rate systems for 24-hour customized living services in housing with services establishments which are freestanding buildings with a capacity of 16 or fewer, by applying a single hourly rate for covered component services provided in either:

(1) licensed corporate adult foster homes; or

(2) specialized dementia care units which meet the requirements of section 144D.065 and in which:

(i) each resident is offered the option of having their own apartment; or

(ii) the units are licensed as board and lodge establishments with maximum capacity of eight residents, and which meet the requirements of Minnesota Rules, part 9555.6205, subparts 1, 2, 3, and 4, item A.

(h) Twenty-four-hour customized living services are delivered by a provider licensed by the Department of Health as a class A or class F home care provider and provided in a building that is registered as a housing with services establishment under chapter 144D. Licensed home care providers are subject to section 256B.0651, subdivision 14.

(i) A provider may not bill or otherwise charge an elderly waiver participant or their family for additional units of any allowable component service beyond those available under the service rate limits described in paragraph (e), nor for additional units of any allowable component service beyond those approved in the service plan by the lead agency.

(j) Effective July 1, 2016, and each July 1 thereafter, individualized service rate limits for 24-hour customized living services under this subdivision shall be increased by the difference between any legislatively adopted home and community-based provider rate increases effective on July 1 or since the previous July 1 and the average statewide percentage increase in nursing facility operating payment rates under sections 256B.431, 256B.434, and 256B.441, effective the previous January 1. This paragraph shall only apply if the average statewide percentage increase in nursing facility operating payment rates is greater

than any legislatively adopted home and community-based provider rate increases effective on July 1, or occurring since the previous July 1.

Subd. 3i. **Rate reduction for customized living and 24-hour customized living services.** (a) Effective July 1, 2010, the commissioner shall reduce service component rates and service rate limits for customized living services and 24-hour customized living services, from the rates in effect on June 30, 2010, by five percent.

(b) To implement the rate reductions in this subdivision, capitation rates paid by the commissioner to managed care organizations under section 256B.69 shall reflect a ten percent reduction for the specified services for the period January 1, 2011, to June 30, 2011, and a five percent reduction for those services on and after July 1, 2011.

Subd. 3j. **Individual community living support.** Upon federal approval, there is established a new service called individual community living support (ICLS) that is available on the elderly waiver. ICLS providers may not be the landlord of recipients, nor have any interest in the recipient's housing. ICLS must be delivered in a single-family home or apartment where the service recipient or their family owns or rents, as demonstrated by a lease agreement, and maintains control over the individual unit. Case managers or care coordinators must develop individual ICLS plans in consultation with the client using a tool developed by the commissioner. The commissioner shall establish payment rates and mechanisms to align payments with the type and amount of service provided, assure statewide uniformity for payment rates, and assure cost-effectiveness. Licensing standards for ICLS shall be reviewed jointly by the Departments of Health and Human Services to avoid conflict with provider regulatory standards pursuant to section 144A.43 and chapter 245D.

Subd. 4. **Termination notice.** The case manager must give the individual a ten-day written notice of any denial, reduction, or termination of waivered services.

Subd. 5. **Assessments and reassessments for waiver clients.** (a) Each client shall receive an initial assessment of strengths, informal supports, and need for services in accordance with section 256B.0911, subdivisions 3, 3a, and 3b. A reassessment of a client served under the elderly waiver must be conducted at least every 12 months and at other times when the case manager determines that there has been significant change in the client's functioning. This may include instances where the client is discharged from the hospital. There must be a determination that the client requires nursing facility level of care as defined in section 256B.0911, subdivision 4e, at initial and subsequent assessments to initiate and maintain participation in the waiver program.

(b) Regardless of other assessments identified in section 144.0724, subdivision 4, as appropriate to determine nursing facility level of care for purposes of medical assistance payment for nursing facility services, only face-to-face assessments conducted according to section 256B.0911, subdivisions 3a and 3b, that result in a nursing facility level of care determination will be accepted for purposes of initial and ongoing access to waiver service payment.

Subd. 6. **Implementation of coordinated service and support plan.** (a) Each elderly waiver client shall be provided a copy of a written coordinated service and support plan which:

(1) is developed and signed by the recipient within ten working days after the case manager receives the assessment information and written community support plan as described in section 256B.0911, subdivision 3a, from the certified assessor;

(2) includes the person's need for service and identification of service needs that will be or that are met by the person's relatives, friends, and others, as well as community services used by the general public;

(3) reasonably ensures the health and welfare of the recipient;

(4) identifies the person's preferences for services as stated by the person or the person's legal guardian or conservator;

(5) reflects the person's informed choice between institutional and community-based services, as well as choice of services, supports, and providers, including available case manager providers;

(6) identifies long-range and short-range goals for the person;

(7) identifies specific services and the amount, frequency, duration, and cost of the services to be provided to the person based on assessed needs, preferences, and available resources;

(8) includes information about the right to appeal decisions under section 256.045; and

(9) includes the authorized annual and estimated monthly amounts for the services.

(b) In developing the coordinated service and support plan, the case manager should also include the use of volunteers, religious organizations, social clubs, and civic and service organizations to support the individual in the community. The lead agency must be held harmless for damages or injuries sustained through the use of volunteers and agencies under this paragraph, including workers' compensation liability.

Subd. 7. **Prepaid elderly waiver services.** An individual for whom a prepaid health plan is liable for nursing home services or elderly waiver services according to section 256B.69, subdivision 6a, is not eligible to also receive county-administered elderly waiver services.

Subd. 8. **Services and supports.** (a) Services and supports shall meet the requirements set out in United States Code, title 42, section 1396n.

(b) Services and supports shall promote consumer choice and be arranged and provided consistent with individualized, written care plans.

(c) The state of Minnesota, county, managed care organization, or tribal government under contract to administer the elderly waiver shall not be liable for damages, injuries, or liabilities sustained through the purchase of direct supports or goods by the person, the person's family, or the authorized representatives with funds received through consumer-directed community support services under the federally approved waiver plan. Liabilities include, but are not limited to, workers' compensation liability, the Federal Insurance Contributions Act (FICA), or the Federal Unemployment Tax Act (FUTA).

Subd. 9. **Tribal management of elderly waiver.** Notwithstanding contrary provisions of this section, or those in other state laws or rules, the commissioner may develop a model for tribal management of the elderly waiver program and implement this model through a contract between the state and any of the state's federally recognized tribal governments. The model shall include the provision of tribal waiver case management, assessment for personal care assistance, and administrative requirements otherwise carried out by lead agencies but shall not include tribal financial eligibility determination for medical assistance.

Subd. 10. **Waiver payment rates; managed care organizations.** The commissioner shall adjust the elderly waiver capitation payment rates for managed care organizations paid under section 256B.69, subdivisions 6b and 23, to reflect the maximum service rate limits for customized living services and 24-hour customized living services under subdivisions 3e and 3h. Medical assistance rates paid to customized living providers by managed care organizations under this section shall not exceed the maximum service rate limits and component rates as determined by the commissioner under subdivisions 3e and 3h.

256B.0915 MEDICAID WAIVER FOR ELDERLY SERVICES.

Subdivision 1. **Authority.** The commissioner is authorized to apply for a home and community-based services waiver for the elderly, authorized under section 1915(c) of the Social Security Act, in order to obtain federal financial participation to expand the availability of services for persons who are eligible for medical assistance. The commissioner may apply for additional waivers or pursue other federal financial participation which is advantageous to the state for funding home care services for the frail elderly who are eligible for medical assistance. The provision of waivered services to elderly and disabled medical assistance recipients must comply with the criteria for service definitions and provider standards approved in the waiver.

Subd. 1a. **Elderly waiver case management services.** (a) Except as provided to individuals under prepaid medical assistance programs as described in paragraph (h), case management services under the home and community-based services waiver for elderly individuals are available from providers meeting qualification requirements and the standards specified in subdivision 1b. Eligible recipients may choose any qualified provider of case management services.

(b) Case management services assist individuals who receive waiver services in gaining access to needed waiver and other state plan services and assist individuals in appeals under section 256.045, as well as needed medical, social, educational, and other services regardless of the funding source for the services to which access is gained. Case managers shall collaborate with consumers, families, legal representatives, and relevant medical experts and service providers in the development and periodic review of the coordinated service and support plan.

(c) A case aide shall provide assistance to the case manager in carrying out administrative activities of the case management function. The case aide may not assume responsibilities that require professional judgment including assessments, reassessments, and care plan development. The case manager is responsible for providing oversight of the case aide.

(d) Case managers shall be responsible for ongoing monitoring of the provision of services included in the individual's plan of care. Case managers shall initiate the process of reassessment of the individual's coordinated service and support plan and review the plan at intervals specified in the federally approved waiver plan.

(e) The county of service or tribe must provide access to and arrange for case management services. County of service has the meaning given it in Minnesota Rules, part 9505.0015, subpart 11.

(f) Except as described in paragraph (h), case management services must be provided by a public or private agency that is enrolled as a medical assistance provider determined by the commissioner to meet all of the requirements in subdivision 1b. Case management services must not be provided to a recipient by a private agency that has a financial interest in the provision of any other services included in the recipient's coordinated service and support plan. For purposes of this section, "private agency" means any agency that is not identified as a lead agency under section 256B.0911, subdivision 1a, paragraph (e).

(g) Case management service activities provided to or arranged for a person include:

(1) development of the coordinated service and support plan under subdivision 6;

(2) informing the individual or the individual's legal guardian or conservator of service options, and options for case management services and providers;

(3) consulting with relevant medical experts or service providers;

(4) assisting the person in the identification of potential providers;

(5) assisting the person to access services;

(6) coordination of services; and

(7) evaluation and monitoring of the services identified in the plan, which must incorporate at least one annual face-to-face visit by the case manager with each person.

(h) Notwithstanding any requirements in this section, for individuals enrolled in prepaid medical assistance programs under section 256B.69, subdivisions 6b and 23, the health plan shall provide or arrange to provide elderly waiver case management services in paragraph (g), in accordance with contract requirements established by the commissioner.

Subd. 1b. **Provider qualifications and standards.** (a) The commissioner must enroll qualified providers of case management services under the home and community-based waiver for the elderly under section 1915(c) of the Social Security Act. The enrollment process shall ensure the provider's ability to meet the qualification requirements and standards in this subdivision and other federal and state requirements of this service. A case management provider is an enrolled medical assistance provider who is determined by the commissioner to have all of the following characteristics:

(1) the demonstrated capacity and experience to provide the components of case management to coordinate and link community resources needed by the eligible population;

(2) administrative capacity and experience in serving the target population for whom it will provide services and in ensuring quality of services under state and federal requirements;

(3) a financial management system that provides accurate documentation of services and costs under state and federal requirements;

(4) the capacity to document and maintain individual case records under state and federal requirements; and

(5) the lead agency may allow a case manager employed by the lead agency to delegate certain aspects of the case management activity to another individual employed by the lead agency provided there is oversight of the individual by the case manager. The case manager may not delegate those aspects which require professional judgment including assessments, reassessments, and coordinated service and support plan development. Lead agencies include counties, health plans, and federally recognized tribes who authorize services under this section.

(b) A health plan shall provide or arrange to provide elderly waiver case management services in subdivision 1a, paragraph (g), in accordance with contract requirements established by the commissioner related to provider standards and qualifications.

Subd. 1d. **Posteligibility treatment of income and resources for elderly waiver.** Notwithstanding the provisions of section 256B.056, the commissioner shall make the following amendment to the medical assistance elderly waiver program effective July 1, 1999, or upon federal approval, whichever is later.

A recipient's maintenance needs will be an amount equal to the Minnesota supplemental aid equivalent rate as defined in section 256I.03, subdivision 5, plus the medical assistance personal needs allowance as defined in section 256B.35, subdivision 1, paragraph (a), when applying posteligibility treatment of income rules to the gross income of elderly waiver recipients, except for individuals whose income is in excess of the special income standard according to Code of Federal Regulations, title 42, section 435.236. Recipient maintenance needs shall be adjusted under this provision each July 1.

Subd. 2. **Spousal impoverishment policies.** The commissioner shall apply the spousal impoverishment criteria as authorized under United States Code, title 42, section 1396r-5, and as implemented in sections 256B.0575, 256B.058, and 256B.059, except that individuals with income at or below the special income standard according to Code of Federal Regulations, title 42, section 435.236, receive the maintenance needs amount in subdivision 1d.

Subd. 3. **Limits of cases.** The number of medical assistance waiver recipients that a lead agency may serve must be allocated according to the number of medical assistance waiver cases open on July 1 of each fiscal year. Additional recipients may be served with the approval of the commissioner.

Subd. 3a. **Elderly waiver cost limits.** (a) Effective on the first day of the state fiscal year in which the resident assessment system as described in section 256B.438 for nursing home rate determination is implemented and the first day of each subsequent state fiscal year, the monthly limit for the cost of waivered services to an individual elderly waiver client shall be the monthly limit of the case mix resident class to which the waiver client would be assigned under Minnesota Rules, parts 9549.0051 to 9549.0059, in effect on the last day of the previous state fiscal year, adjusted by any legislatively adopted home and community-based services percentage rate adjustment.

(b) The monthly limit for the cost of waivered services under paragraph (a) to an individual elderly waiver client assigned to a case mix classification A with:

(1) no dependencies in activities of daily living; or

(2) up to two dependencies in bathing, dressing, grooming, walking, and eating when the dependency score in eating is three or greater as determined by an assessment performed under

section 256B.0911 shall be $1,750 per month effective on July 1, 2011, for all new participants enrolled in the program on or after July 1, 2011. This monthly limit shall be applied to all other participants who meet this criteria at reassessment. This monthly limit shall be increased annually as described in paragraphs (a) and (e).

(c) If extended medical supplies and equipment or environmental modifications are or will be purchased for an elderly waiver client, the costs may be prorated for up to 12 consecutive months beginning with the month of purchase. If the monthly cost of a recipient's waivered services exceeds the monthly limit established in paragraph (a), (b), (d), or (e), the annual cost of all waivered services shall be determined. In this event, the annual cost of all waivered services shall not exceed 12 times the monthly limit of waivered services as described in paragraph (a), (b), (d), or (e).

(d) Effective July 1, 2013, the monthly cost limit of waiver services, including any necessary home care services described in section 256B.0651, subdivision 2, for individuals who meet the criteria as ventilator-dependent given in section 256B.0651, subdivision 1, paragraph (g), shall be the average of the monthly medical assistance amount established for home care services as described in section 256B.0652, subdivision 7, and the annual average contracted amount established by the commissioner for nursing facility services for ventilator-dependent individuals. This monthly limit shall be increased annually as described in paragraphs (a) and (e).

(e) Effective July 1, 2016, and each July 1 thereafter, the monthly cost limits for elderly waiver services in effect on the previous June 30 shall be increased by the difference between any legislatively adopted home and community-based provider rate increases effective on July 1 or since the previous July 1 and the average statewide percentage increase in nursing facility operating payment rates under sections 256B.431, 256B.434, and 256B.441, effective the previous January 1. This paragraph shall only apply if the average statewide percentage increase in nursing facility operating payment rates is greater than any legislatively adopted home and community-based provider rate increases effective on July 1, or occurring since the previous July 1.

Subd. 3b. **Cost limits for elderly waiver applicants who reside in a nursing facility.** (a) For a person who is a nursing facility resident at the time of requesting a determination of eligibility for elderly waivered services, a monthly conversion budget limit for the cost of elderly waivered services may be requested. The monthly conversion budget limit for the cost of elderly waiver services shall be the resident class assigned under Minnesota Rules, parts 9549.0050 to 9549.0059, for that resident in the nursing facility where the resident currently resides until July 1 of the state fiscal year in which the resident assessment system as described in section 256B.438 for nursing home rate determination is implemented. Effective on July 1 of the state fiscal year in which the resident assessment system as described in section 256B.438 for nursing home rate determination is implemented, the monthly conversion budget limit for the cost of elderly waiver services shall be based on the per diem nursing facility rate as determined by the resident assessment system as described in section 256B.438 for residents in the nursing facility where the elderly waiver applicant currently resides. The monthly conversion budget limit shall be calculated by multiplying the per diem by 365, divided by 12, and reduced by the recipient's maintenance needs allowance as described in subdivision 1d. The initially approved monthly conversion budget limit shall be adjusted annually as described in subdivision 3a, paragraph (a). The limit under this subdivision only applies to persons discharged from a nursing facility after a minimum 30-day stay and found eligible for waivered services on or after July 1, 1997. For conversions from the nursing home to the elderly waiver with consumer directed community support services, the nursing facility per diem used to calculate the monthly conversion budget limit must be reduced by a percentage equal to the percentage difference between the consumer directed services budget limit that would be assigned according to the federally approved waiver plan and the corresponding community case mix cap, but not to exceed 50 percent.

(b) The following costs must be included in determining the total monthly costs for the waiver client:

(1) cost of all waivered services, including specialized supplies and equipment and environmental accessibility adaptations; and

(2) cost of skilled nursing, home health aide, and personal care services reimbursable by medical assistance.

Subd. 3c. **Service approval provisions.** Medical assistance funding for skilled nursing services, home care nursing, home health aide, and personal care services for waiver recipients must be approved by the case manager and included in the coordinated service and support plan.

Subd. 3d. **Adult foster care rate.** The adult foster care rate shall not include room and board. The elderly waiver payment for the foster care service in combination with the payment for all other elderly waiver services, including case management, must not exceed the limit specified in subdivision 3a, paragraph (a).

Subd. 3e. **Customized living service rate.** (a) Payment for customized living services shall be a monthly rate authorized by the lead agency within the parameters established by the commissioner. The payment agreement must delineate the amount of each component service included in the recipient's customized living service plan. The lead agency, with input from the provider of customized living services, shall ensure that there is a documented need within the parameters established by the commissioner for all component customized living services authorized.

(b) The payment rate must be based on the amount of component services to be provided utilizing component rates established by the commissioner. Counties and tribes shall use tools issued by the commissioner to develop and document customized living service plans and rates.

(c) Component service rates must not exceed payment rates for comparable elderly waiver or medical assistance services and must reflect economies of scale. Customized living services must not include rent or raw food costs.

(d) With the exception of individuals described in subdivision 3a, paragraph (b), the individualized monthly authorized payment for the customized living service plan shall not exceed 50 percent of the greater of either the statewide or any of the geographic groups' weighted average monthly nursing facility rate of the case mix resident class to which the elderly waiver eligible client would be assigned under Minnesota Rules, parts 9549.0051 to 9549.0059, less the maintenance needs allowance as described in subdivision 1d, paragraph (a). Effective on July 1 of the state fiscal year in which the resident assessment system as described in section 256B.438 for nursing home rate determination is implemented and July 1 of each subsequent state fiscal year, the individualized monthly authorized payment for the services described in this clause shall not exceed the limit which was in effect on June 30 of the previous state fiscal year updated annually based on legislatively adopted changes to all service rate maximums for home and community-based service providers.

(e) Effective July 1, 2011, the individualized monthly payment for the customized living service plan for individuals described in subdivision 3a, paragraph (b), must be the monthly authorized payment limit for customized living for individuals classified as case mix A, reduced by 25 percent. This rate limit must be applied to all new participants enrolled in the program on or after July 1, 2011, who meet the criteria described in subdivision 3a, paragraph (b). This monthly limit also applies to all other participants who meet the criteria described in subdivision 3a, paragraph (b), at reassessment.

(f) Customized living services are delivered by a provider licensed by the Department of Health as a class A or class F home care provider and provided in a building that is registered as a housing with services establishment under chapter 144D. Licensed home care providers are subject to section 256B.0651, subdivision 14.

(g) A provider may not bill or otherwise charge an elderly waiver participant or their family for additional units of any allowable component service beyond those available under the service rate limits described in paragraph (d), nor for additional units of any allowable component service beyond those approved in the service plan by the lead agency.

(h) Effective July 1, 2016, and each July 1 thereafter, individualized service rate limits for customized living services under this subdivision shall be increased by the difference between any legislatively adopted home and community-based provider rate increases effective on July 1 or since the previous July 1 and the average statewide percentage increase in nursing facility operating payment rates under sections 256B.431, 256B.434, and 256B.441, effective the previous January 1. This paragraph shall only apply if the average statewide percentage increase in nursing facility operating payment rates is greater than any legislatively adopted home and community-based provider rate increases effective on July 1, or occurring since the previous July 1.

Subd. 3f. **Payments for services; expenditure forecasts.** (a) Lead agencies shall authorize payments for services in accordance with the payment rates and limits published annually by the commissioner.

(b) Reimbursement for the medical assistance recipients under the approved waiver shall be made from the medical assistance account through the invoice processing procedures of the department's Medicaid Management Information System (MMIS), only with the approval of the

client's case manager. The budget for the state share of the Medicaid expenditures shall be forecasted with the medical assistance budget, and shall be consistent with the approved waiver.

Subd. 3g. **Service rate limits; state assumption of costs.** (a) To improve access to community services and eliminate payment disparities between the alternative care program and the elderly waiver, the commissioner shall establish statewide service rate limits and eliminate lead agency-specific service rate limits.

(b) Effective July 1, 2001, for statewide service rate limits, except those described or defined in subdivisions 3d, 3e, and 3h, the statewide service rate limit for each service shall be the greater of the alternative care statewide rate or the elderly waiver statewide rate.

Subd. 3h. **Service rate limits; 24-hour customized living services.** (a) The payment rate for 24-hour customized living services is a monthly rate authorized by the lead agency within the parameters established by the commissioner of human services. The payment agreement must delineate the amount of each component service included in each recipient's customized living service plan. The lead agency, with input from the provider of customized living services, shall ensure that there is a documented need within the parameters established by the commissioner for all component customized living services authorized. The lead agency shall not authorize 24-hour customized living services unless there is a documented need for 24-hour supervision.

(b) For purposes of this section, "24-hour supervision" means that the recipient requires assistance due to needs related to one or more of the following:

(1) intermittent assistance with toileting, positioning, or transferring;

(2) cognitive or behavioral issues;

(3) a medical condition that requires clinical monitoring; or

(4) for all new participants enrolled in the program on or after July 1, 2011, and all other participants at their first reassessment after July 1, 2011, dependency in at least three of the following activities of daily living as determined by assessment under section 256B.0911: bathing; dressing; grooming; walking; or eating when the dependency score in eating is three or greater; and needs medication management and at least 50 hours of service per month. The lead agency shall ensure that the frequency and mode of supervision of the recipient and the qualifications of staff providing supervision are described and meet the needs of the recipient.

(c) The payment rate for 24-hour customized living services must be based on the amount of component services to be provided utilizing component rates established by the commissioner. Counties and tribes will use tools issued by the commissioner to develop and document customized living plans and authorize rates.

(d) Component service rates must not exceed payment rates for comparable elderly waiver or medical assistance services and must reflect economies of scale.

(e) The individually authorized 24-hour customized living payments, in combination with the payment for other elderly waiver services, including case management, must not exceed the recipient's community budget cap specified in subdivision 3a. Customized living services must not include rent or raw food costs.

(f) The individually authorized 24-hour customized living payment rates shall not exceed the 95 percentile of statewide monthly authorizations for 24-hour customized living services in effect and in the Medicaid management information systems on March 31, 2009, for each case mix resident class under Minnesota Rules, parts 9549.0051 to 9549.0059, to which elderly waiver service clients are assigned. When there are fewer than 50 authorizations in effect in the case mix resident class, the commissioner shall multiply the calculated service payment rate maximum for the A classification by the standard weight for that classification under Minnesota Rules, parts 9549.0051 to 9549.0059, to determine the applicable payment rate maximum. Service payment rate maximums shall be updated annually based on legislatively adopted changes to all service rates for home and community-based service providers.

(g) Notwithstanding the requirements of paragraphs (d) and (f), the commissioner may establish alternative payment rate systems for 24-hour customized living services in housing with services establishments which are freestanding buildings with a capacity of 16 or fewer, by applying a single hourly rate for covered component services provided in either:

(1) licensed corporate adult foster homes; or

(2) specialized dementia care units which meet the requirements of section 144D.065 and in which:

(i) each resident is offered the option of having their own apartment; or

(ii) the units are licensed as board and lodge establishments with maximum capacity of eight residents, and which meet the requirements of Minnesota Rules, part 9555.6205, subparts 1, 2, 3, and 4, item A.

(h) Twenty-four-hour customized living services are delivered by a provider licensed by the Department of Health as a class A or class F home care provider and provided in a building that is registered as a housing with services establishment under chapter 144D. Licensed home care providers are subject to section 256B.0651, subdivision 14.

(i) A provider may not bill or otherwise charge an elderly waiver participant or their family for additional units of any allowable component service beyond those available under the service rate limits described in paragraph (e), nor for additional units of any allowable component service beyond those approved in the service plan by the lead agency.

(j) Effective July 1, 2016, and each July 1 thereafter, individualized service rate limits for 24-hour customized living services under this subdivision shall be increased by the difference between any legislatively adopted home and community-based provider rate increases effective on July 1 or since the previous July 1 and the average statewide percentage increase in nursing facility operating payment rates under sections 256B.431, 256B.434, and 256B.441, effective the previous January 1. This paragraph shall only apply if the average statewide percentage increase in nursing facility operating payment rates is greater than any legislatively adopted home and community-based provider rate increases effective on July 1, or occurring since the previous July 1.

Subd. 3i. **Rate reduction for customized living and 24-hour customized living services.** (a) Effective July 1, 2010, the commissioner shall reduce service component rates and service rate limits for customized living services and 24-hour customized living services, from the rates in effect on June 30, 2010, by five percent.

(b) To implement the rate reductions in this subdivision, capitation rates paid by the commissioner to managed care organizations under section 256B.69 shall reflect a ten percent reduction for the specified services for the period January 1, 2011, to June 30, 2011, and a five percent reduction for those services on and after July 1, 2011.

Subd. 3j. **Individual community living support.** Upon federal approval, there is established a new service called individual community living support (ICLS) that is available on the elderly waiver. ICLS providers may not be the landlord of recipients, nor have any interest in the recipient's housing. ICLS must be delivered in a single-family home or apartment where the service recipient or their family owns or rents, as demonstrated by a lease agreement, and maintains control over the individual unit. Case managers or care coordinators must develop individual ICLS plans in consultation with the client using a tool developed by the commissioner. The commissioner shall establish payment rates and mechanisms to align payments with the type and amount of service provided, assure statewide uniformity for payment rates, and assure cost-effectiveness. Licensing standards for ICLS shall be reviewed jointly by the Departments of Health and Human Services to avoid conflict with provider regulatory standards pursuant to section 144A.43 and chapter 245D.

Subd. 4. **Termination notice.** The case manager must give the individual a ten-day written notice of any denial, reduction, or termination of waivered services.

Subd. 5. **Assessments and reassessments for waiver clients.** (a) Each client shall receive an initial assessment of strengths, informal supports, and need for services in accordance with section 256B.0911, subdivisions 3, 3a, and 3b. A reassessment of a client served under the elderly waiver must be conducted at least every 12 months and at other times when the case manager determines that there has been significant change in the client's functioning. This may include instances where the client is discharged from the hospital. There must be a determination that the client requires nursing facility level of care as defined in section 256B.0911, subdivision 4e, at initial and subsequent assessments to initiate and maintain participation in the waiver program.

(b) Regardless of other assessments identified in section 144.0724, subdivision 4, as appropriate to determine nursing facility level of care for purposes of medical assistance payment for nursing facility services, only face-to-face assessments conducted according to section 256B.0911, subdivisions 3a and 3b, that result in a nursing facility level of care determination will be accepted for purposes of initial and ongoing access to waiver service payment.

Subd. 6. **Implementation of coordinated service and support plan.** (a) Each elderly waiver client shall be provided a copy of a written coordinated service and support plan which:

(1) is developed and signed by the recipient within ten working days after the case manager receives the assessment information and written community support plan as described in section 256B.0911, subdivision 3a, from the certified assessor;

(2) includes the person's need for service and identification of service needs that will be or that are met by the person's relatives, friends, and others, as well as community services used by the general public;

(3) reasonably ensures the health and welfare of the recipient;

(4) identifies the person's preferences for services as stated by the person or the person's legal guardian or conservator;

(5) reflects the person's informed choice between institutional and community-based services, as well as choice of services, supports, and providers, including available case manager providers;

(6) identifies long-range and short-range goals for the person;

(7) identifies specific services and the amount, frequency, duration, and cost of the services to be provided to the person based on assessed needs, preferences, and available resources;

(8) includes information about the right to appeal decisions under section 256.045; and

(9) includes the authorized annual and estimated monthly amounts for the services.

(b) In developing the coordinated service and support plan, the case manager should also include the use of volunteers, religious organizations, social clubs, and civic and service organizations to support the individual in the community. The lead agency must be held harmless for damages or injuries sustained through the use of volunteers and agencies under this paragraph, including workers' compensation liability.

Subd. 7. **Prepaid elderly waiver services.** An individual for whom a prepaid health plan is liable for nursing home services or elderly waiver services according to section 256B.69, subdivision 6a, is not eligible to also receive county-administered elderly waiver services.

Subd. 8. **Services and supports.** (a) Services and supports shall meet the requirements set out in United States Code, title 42, section 1396n.

(b) Services and supports shall promote consumer choice and be arranged and provided consistent with individualized, written care plans.

(c) The state of Minnesota, county, managed care organization, or tribal government under contract to administer the elderly waiver shall not be liable for damages, injuries, or liabilities sustained through the purchase of direct supports or goods by the person, the person's family, or the authorized representatives with funds received through consumer-directed community support services under the federally approved waiver plan. Liabilities include, but are not limited to, workers' compensation liability, the Federal Insurance Contributions Act (FICA), or the Federal Unemployment Tax Act (FUTA).

Subd. 9. **Tribal management of elderly waiver.** Notwithstanding contrary provisions of this section, or those in other state laws or rules, the commissioner may develop a model for tribal management of the elderly waiver program and implement this model through a contract between the state and any of the state's federally recognized tribal governments. The model shall include the provision of tribal waiver case management, assessment for personal care assistance, and administrative requirements otherwise carried out by lead agencies but shall not include tribal financial eligibility determination for medical assistance.

Subd. 10. **Waiver payment rates; managed care organizations.** The commissioner shall adjust the elderly waiver capitation payment rates for managed care organizations paid under section 256B.69, subdivisions 6b and 23, to reflect the maximum service rate limits for customized living services and 24-hour customized living services under subdivisions 3e and 3h. Medical assistance rates paid to customized living providers by managed care organizations under this section shall not exceed the maximum service rate limits and component rates as determined by the commissioner under subdivisions 3e and 3h.
