SENATE STATE OF MINNESOTA NINETIETH SESSION

RSI/NB

S.F. No. 4086

(SENATE AUTHORS: MARTY, Torres Ray, Hawj, Champion and Dibble)				
DATE	D-PG	OFFICIAL STATUS		
05/16/2018	Introdu	ction and first reading		
	Referre	ed to Energy and Utilities Finance and Policy		

1.1	A bill for an act
1.2	relating to energy; providing for a revenue-neutral assessment on certain emissions;
1.3	providing for rebates; establishing an account; providing for rulemaking; requiring
1.4 1.5	a report; appropriating money; amending Minnesota Statutes 2016, section 216H.10, subdivision 6; proposing coding for new law in Minnesota Statutes, chapter 216H.
1.6	BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MINNESOTA:
1.7	Section 1. [216H.022] CITATION.
1.8	This act may be cited as the "Minnesota Carbon Assessment and Rebate Act."
1.9	Sec. 2. [216H.023] DEFINITIONS.
1.10	Subdivision 1. Scope. The definitions in this section apply to sections 216H.023 to
1.11	<u>216H.028.</u>
1.12	Subd. 2. Assessed fuel. "Assessed fuel" means a fuel that is subject to an assessment
1.13	under section 216H.024.
1.14	Subd. 3. Carbon-based fuel. "Carbon-based fuel" means matter, including but not
1.15	limited to coal, petroleum, natural gas, mixed municipal solid waste, and refuse-derived
1.16	fuel, that emits or is capable of emitting carbon dioxide (CO2) when burned. Carbon-based
1.17	fuel includes any solid, liquid, or gaseous fuel derived from coal, petroleum, natural gas,
1.18	mixed municipal solid waste, and refuse-derived fuel.
1.19	Subd. 4. Carbon dioxide emitted. "Carbon dioxide emitted" means the amount of
1.20	carbon dioxide equivalent emissions associated with an assessed fuel on a life-cycle basis,
1.21	including carbon dioxide emissions from extracting, processing, transporting, storing,

1.22 refining, distributing, and burning the assessed fuel to produce energy. Carbon dioxide

	emitted includes methane emitted during various stages of the life-cycle of natural gas,
6	expressed in terms of its global warming potential.
	Subd. 5. Global warming potential. "Global warming potential" has the meaning give
ir	<u>n section 216H.10.</u>
	Subd. 6. Produced. "Produced" means:
	(1) refined from crude oil at a petroleum refinery; or
	(2) processed from raw natural gas collected at a wellhead.
	Subd. 7. Program year. "Program year" means January 1 through December 31.
	Subd. 8. Use. "Use" means the burning of a fuel to provide energy.
	Sec. 3. [216H.024] ASSESSMENT.
	Subdivision 1. Assessed fuels. (a) Except as provided in paragraph (b), the production
(or distribution for use of carbon-based fuels in this state, including the use of carbon-base
f	fuels in this state and in other states to generate electricity for consumption in this state,
S	subject to a carbon assessment.
	(b) The assessment does not apply to the use of petroleum as a lubricant or a product
(component.
	Subd. 2. Amount of assessment. The assessment in the first program year, beginning
J	anuary 1, 2020, is \$40 per ton of carbon dioxide emitted from the burning of each assessed
1	fuel. The assessment increases in each of the five succeeding program years by \$5 per to
(of carbon dioxide emitted. From the sixth through the 11th program year, the assessment
1	increases each year by \$10 per ton of carbon emitted. Beginning in the 12th program year
2	and continuing thereafter, the assessment increases each year by \$15 per ton of carbon
(emitted.
	Subd. 3. Method of assessment. (a) In consultation with the commissioner of the
]	Pollution Control Agency, the commissioner of revenue must, based on the best availabl
1	nformation:
	(1) estimate the average amount of carbon dioxide emitted by burning a unit of each
ć	assessed fuel;
	(2) multiply the estimate made in clause (1) by the number of units of the assessed fu
	at the point of assessment to determine the number of tons of carbon dioxide that would l
	emitted by the burning of those units; and

assesses th	e fuel based on the a	amount of carbon	dioxide emitted when the	fuel is used, a
credit agai	nst the assessment a	uthorized under th	nis section is allowed in th	ne amount of the
assessmen	t paid to the state wh	here the fuel is pro-	oduced.	
<u>(e) A u</u>	nit of an assessed fu	el must not be ass	essed more than once und	ler this section.
