point c	of assessment to determine the number of tons of carbon dioxide that would be emitted
by the	burning of those units; and
<u>(3)</u>	multiply the result of clause (2) by the applicable rate per ton of carbon dioxide
emitte	d specified under subdivision 2.
<u>(b)</u>	For electricity generated in another state and imported under contract by a utility for

used to	o generate the electricity purchased under the contract.
<u>(c)</u>	For electricity generated in another state and purchased by a utility in the wholesale
electri	city markets operated by the Midcontinent Independent System Operator for
onsui	mption in Minnesota, the commissioner must estimate the amount in paragraph (a),

electri	city by all generators who are members of the Midcontinent Independent System
Opera	tor.
<u>(d)</u>	For a blend of assessed and nonassessed fuels produced or blended in another state
or use	e in this state, the commissioner must calculate the assessment based on the volume
of the	assessed fuel in the blended fuel.

 - Subd. 3. **Notice of proposed property taxes.** (a) The county auditor shall prepare and the county treasurer shall deliver after November 10 and on or before November 24 each year, by first class mail to each taxpayer at the address listed on the county's current year's assessment roll, a notice of proposed property taxes. Upon written request by the taxpayer, the treasurer may send the notice in electronic form or by electronic mail instead of on paper or by ordinary mail.
- (b) The commissioner of revenue shall prescribe the form of the notice.
 - (c) The notice must inform taxpayers that it contains the amount of property taxes each taxing authority proposes to collect for taxes payable the following year. In the case of a town, or in the case of the state general tax, the final tax amount will be its proposed tax. The notice must clearly state for each city that has a population over 500, county, school district, regional library authority established under section 134.201, and metropolitan taxing districts as defined in paragraph (i), the time and place of a meeting for each taxing authority in which the budget and levy will be discussed and public input allowed, prior to the final budget and levy determination. authority, the authority may inform the county of the lack of a public telephone number and the county shall not list a telephone number for that taxing authority.

- (d) The notice must state for each parcel:
- (1) the market value of the property as determined under section 273.11, and used for computing property taxes payable in the following year and for taxes payable in the current year as each appears in the records of the county assessor on November 1 of the current year; and, in the case of residential property, whether the property is classified as homestead or nonhomestead. The notice must clearly inform taxpayers of the years to which the market values apply and that the values are final values;
- (2) the items listed below, shown separately by county, city or town, and state general tax, agricultural homestead credit under section 273.1384, school building bond agricultural credit under section 273.1387, cover and tillage agricultural credit under section 273.1388, voter approved school levy, other local school levy, and the sum of the special taxing districts, and as a total of all taxing authorities:
 - (i) the actual tax for taxes payable in the current year; and
- (ii) the proposed tax amount.
 - If the county levy under clause (2) includes an amount for a lake improvement district as defined under sections 103B.501 to 103B.581, the amount attributable for that purpose must be separately stated from the remaining county levy amount.

In the case of a town or the state general tax, the final tax shall also be its proposed tax unless the town changes its levy at a special town meeting under section 365.52. If a school district has certified under section 126C.17, subdivision 9, that a referendum will be held in the school district at the November general election, the county auditor must note next to the school district's proposed amount that a referendum is pending and that, if approved by the voters, the tax amount may be higher than shown on the notice. In the case of the city of Minneapolis, the levy for Minneapolis Park and Recreation shall be listed separately from the remaining amount of the city's levy. In the case of the city of St. Paul, the levy for the St. Paul Library Agency must be listed separately from the remaining amount of the city's levy. In the case of Ramsey County, any amount levied under section 134.07 may be listed separately from the remaining amount of the county's levy. In the case of a parcel where tax increment or the fiscal disparities areawide tax under chapter 276A or 473F applies, the proposed tax levy on the captured value or the proposed tax levy on the tax capacity subject to the areawide tax must each be stated separately and not included in the sum of the special taxing districts; and

(3) the increase or decrease between the total taxes payable in the current year and the total proposed taxes, expressed as a percentage.

For purposes of this section, the amount of the tax on homesteads qualifying under the senior citizens' property tax deferral program under chapter 290B is the total amount of property tax before subtraction of the deferred property tax amount.

- (e) The notice must clearly state that the proposed or final taxes do not include the following:

Sec. 14. Minnesota Statutes 2020, section 276.04, subdivision 2, is amended to read:

Subd. 2. Contents of tax statements. (a) The treasurer shall provide for the printing of the tax statements. The commissioner of revenue shall prescribe the form of the property tax statement and its contents. The tax statement must not state or imply that property tax credits are paid by the state of Minnesota. The statement must contain a tabulated statement of the dollar amount due to each taxing authority and the amount of the state tax from the parcel of real property for which a particular tax statement is prepared. The dollar amounts attributable to the county, the state tax, the voter approved school tax, the other local school tax, the township or municipality, and the total of the metropolitan special taxing districts as defined in section 275.065, subdivision 3, paragraph (i), must be separately stated. The amounts due all other special taxing districts, if any, may be aggregated except that any levies made by the regional rail authorities in the county of Anoka, Carver, Dakota, Hennepin, Ramsey, Scott, or Washington under chapter 398A shall be listed on a separate line directly under the appropriate county's levy. If the county levy under this paragraph includes an amount for a lake improvement district as defined under sections 103B.501 to 103B.581, the amount attributable for that purpose must be separately stated from the remaining county levy amount. In the case of Ramsey County, if the county levy under this paragraph includes an amount for public library service under section 134.07, the amount attributable for that purpose may be separated from the remaining county levy amount. The amount of the tax on homesteads qualifying under the senior citizens' property tax deferral program under chapter 290B is the total amount of property tax before subtraction of the deferred property tax amount. The amount of the tax on contamination value imposed under sections 270.91 to 270.98, if any, must also be separately stated. The dollar amounts, including the dollar amount of any special assessments, may be rounded to the nearest even whole dollar. For purposes of this section whole odd-numbered dollars may be adjusted to the next higher even-numbered dollar. The amount of market value excluded under section 273.11, subdivision 16, if any, must also be listed on the tax statement.

- (b) The property tax statements for manufactured homes and sectional structures taxed as personal property shall contain the same information that is required on the tax statements for real property.
- (c) Real and personal property tax statements must contain the following information in the order given in this paragraph. The information must contain the current year tax information in the right column with the corresponding information for the previous year in a column on the left:
 - (1) the property's estimated market value under section 273.11, subdivision 1;

Sec. 14. 18

(2) the property's homestead market value exclusion under section 273.13, subdivision 19.1 35; 19.2 (3) the property's taxable market value under section 272.03, subdivision 15; 19.3 (4) the property's gross tax, before credits; 19.4 19.5 (5) for agricultural properties, the credits under sections 273.1384 and, 273.1387, and 273.1388; 19.6 19.7 (6) any credits received under sections 273.119; 273.1234 or 273.1235; 273.135; 273.1391; 273.1398, subdivision 4; 469.171; and 473H.10, except that the amount of credit 19.8 received under section 273.135 must be separately stated and identified as "taconite tax 19.9 relief"; and 19.10 (7) the net tax payable in the manner required in paragraph (a). 19.11 (d) If the county uses envelopes for mailing property tax statements and if the county 19.12 agrees, a taxing district may include a notice with the property tax statement notifying 19.13 taxpayers when the taxing district will begin its budget deliberations for the current year, 19.14 and encouraging taxpayers to attend the hearings. If the county allows notices to be included 19.15 in the envelope containing the property tax statement, and if more than one taxing district 19.16 relative to a given property decides to include a notice with the tax statement, the county 19.17 treasurer or auditor must coordinate the process and may combine the information on a 19.18 single announcement. 19.19 **EFFECTIVE DATE.** This section is effective beginning with taxes payable in 2023. 19.20 Sec. 15.
