FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Commerce and Insurance** (which includes the Public Service Commission and the Office of Public Council) assume the proposal will have no fiscal impact on their organization. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note.

Oversight assumes this proposal could impact the Grain Belt Express project in northern Missouri. According to a report by the Public Service Commission (File No. EM-2019-0150), the Grain Belt Express Project line is “sited to traverse Buchanan, Clinton Caldwell, Carroll, Chariton, Randolph, Monroe and Ralls Counties, Missouri. The Grain Belt Express Project covers approximately 780 miles, and the project will primarily use a pole design which has a smaller footprint than traditional alternating current transmission lines. The structures will occupy ten acres for the entire state of Missouri.” The Joint Application of Invenenergy Transmission LLC, Invenenergy Investment Company LLC, Grain Belt Express Clean Line LLC and Grain Belt Express Holding LLC for an Order Approving the Acquisition by Invenenergy Transmission LLC of Grain Belt Express Clean Line LLC was approved by the PSC effective June 30, 2019.

Oversight notes that while there may be no direct impact to the state or local governments as a result of this proposal, modifying provisions relating to the construct, maintain and own facilities for utility purposes could have an indirect impact on current and future utility projects.
