**FISCAL ANALYSIS**

**ASSUMPTION**

**Section 170.231 - Display Learning Material**

Officials from the **Department of Elementary and Secondary Education** and the **Office of the State Courts Administrator** each assume the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

Officials from **Gordon Parks Elementary** stated there would be an impact but did not provide any additional information.

In response to the previous version, officials from **Hazelwood School District** stated it is difficult to assess the additional amount of time that would be required, and the resulting labor costs, to organize all materials in the manner being proposed. The district has approximately 1,200 teachers. Gathering individual lesson plans and then posting them in the manner described would be an enormous task. Additional staff would have to be hired just to coordinate such a requirement.

**Oversight** assumes there would be costs to school districts to collect and display all learning materials and education activities. Oversight assumes there would be costs for staff time and training as well.

Additionally, **Oversight** assumes there could be costs for legal services and attorney's fees if a district violates the provisions of this section.
