

HB 271 -- LOCAL GOVERNMENT EXPENDITURE DATABASE

SPONSOR: Wiemann

This bill establishes the "Missouri Local Government Expenditure Database", to be maintained by the Office of Administration. For each fiscal year beginning after December 31, 2022, the database must include extensive information about a given municipality's or county's expenditures and the vendors to whom payments were made. The database must be accessible by the public without charge and have multiple ways to search and filter the information.

A municipality or county may voluntarily participate in the database, or may be required to participate if a petition process used by its residents is used to require participation as specified in the bill. A link to the database on a municipal or county website is required.

The Office of Administration may stipulate a format for information and will provide a template for municipalities and counties to use in sending information. Other duties and responsibilities of the Office of Administration regarding the database are detailed in the bill. Financial reimbursement to municipalities and counties for costs associated with the database is authorized.

This bill is the same as HB 1933 (2020).
