## COMMITTEE ON LEGISLATIVE RESEARCH OVERSIGHT DIVISION

### FISCAL NOTE

L.R. No.: 1660H.02C Bill No.: HCS for HB 734 Subject: Utilities Type: Original Date: April 6, 2021

Bill Summary: This proposal modifies provisions relating to electrical corporations.

# FISCAL SUMMARY

| ESTIMATED NET EFFECT ON GENERAL REVENUE FUND                                    |                   |                   |                   |
|---|-------------------|-------------------|-------------------|
| FUND AFFECTED   | FY 2022           | FY 2023           | FY 2024           |
| General Revenue   | Unknown to (Could | Unknown to (Could | Unknown to (Could |
| Fund*   | exceed \$100,000) | exceed \$100,000) | exceed \$100,000) |
| <b>Total Estimated Net</b>  |                   |                   |                   |
| Effect on General   | Unknown to (Could | Unknown to (Could | Unknown to (Could |
| Revenue   | exceed \$100,000) | exceed \$100,000) | exceed \$100,000) |
| Oversight assumes the net fiscal impact would not reach the \$250,000 threshold |                   |                   |                   |

\*Oversight assumes the net fiscal impact would not reach the \$250,000 threshold.

| ESTIMATED NET EFFECT ON OTHER STATE FUNDS |                   |                   |                   |
|---|-------------------|-------------------|-------------------|
| FUND AFFECTED                             | FY 2022           | FY 2023           | FY 2024           |
| Public Service                            | \$0 to (\$41,030) | \$0 to (\$49,718) | \$0 to (\$50,205) |
| Commission Fund                           |                   |                   |                   |
| (607)                                     |                   |                   |                   |
| Other State Funds                         | \$0 or Unknown to | \$0 or Unknown to | \$0 or Unknown to |
|   | (Unknown)         | (Unknown)         | (Unknown)         |
| Colleges and                              | \$0 or Unknown to | \$0 or Unknown to | \$0 or Unknown to |

L.R. No. 1660H.02C Bill No. HCS for HB 734 Page **3** of **8** April 6, 2021

### FISCAL ANALYSIS

#### **ASSUMPTION**

Officials from the **Department of Commerce and Insurance - Public Service Commission** (**PSC**) assume this act could result in cases before the PSC that would be comparable to financing cases of other types. Examples of recently completed financing cases incurred costs to the PSC at a rate of up to \$20,000 per case. This legislation, if enacted, is anticipated to result in up to two cases each year (\$41,030).

Additionally, Section 393.1700.2(4)(2) states that certain Commission costs associated with approval of and issuance of Securitized Utility Tariff bonds, namely consulting costs, are to be recovered through the bond proceeds. The costs associated with specialty consulting services are accordingly not included in the cost estimates to the PSC of up to \$40,000 a year.

The legislation also contains various provisions that are not directly related to the Securitized Utility Tariff bond issuance process, and generally are not contained with similar bond issuance legislation enacted in other jurisdictions. These provisions include:

- 1) A requirement that the PSC "pre-approve" the prudence of certain renewable energy resources intended to replace retired coal generation facilities;
- 2) A requirement that the PSC approved "deferral accounting" for costs associated with retired coal facilities and replacement renewable resources;
- 3) A requirement that the PSC allow the recovery in rates of a "profit margin" for any purchased power agreements entered into by the electrical corporation to replace retired coal generation resources; and -
- 4) Allowing the utility to request the approval of certain ratemaking "principles" and treatment regarding the remaining undepreciated value of coal generating resources still in service.

The PSC is funded by an assessment on Commission regulated public utilities pursuant to Section 386.370 RSMo, and not by any state general revenue appropriations. Depending on the cumulative effect of PSC-impacting legislation passed in the current legislative session and the increased costs associated with that legislation to the PSC, the PSC may need to request an increase in our appropriation authority and/or FTE allocation as appropriate through the budget process.

The PSC estimates an additional .50 FTE at a cost of \$41,030 in FY 2022, \$49,718 in FY 2023 and \$50,205 in FY 2024 to provide for the implementation of the changes in this proposal.

KC:LR:OD

L.R. No. 1660H.02C Bill No. HCS for HB 734 Page **4** of **8** April 6, 2021

**Oversight** assumes Department of Commerce and Insurance - Public Service Commission could absorb some of the additional duties without adding an .50 FTE; It is unknown how many utility companies will apply to the Public Service Commission for a financing order authorization therefore, Oversight will range the cost from \$0 (FTE can be absorbed and/or no companies apply) to the estimated provided by PSC (FTE is not absorbed) to the Public Service Commission Fund.

**Oversight** notes the Public Service Commission Fund had a balance of \$6,710,395 as of January 31, 2021.

Officials from the **Department of Commerce and Insurance – Office of Public Council (OPC)** state that the OPC does not have the current staffing and resources to represent the public in the Public Service Commission bond financing cases that would be authorized by this legislation. Retaining an outside bond financing consultant in this area could require at least \$100,000 or more from general revenue before the Office of the Public Counsel could adequately represent and protect the public.

**Oversight** does not have any information to the contrary. Therefore, Oversight will reflect cost estimate provided by OPC.

In response to a previous version, officials from the **Office of Administration - Facilities Management Design and Construction** assumed this legislation provides for the use of ratepayer-backed bond financing by Missouri electric companies, a lower-cost financing option than financing typically used by electric companies. The intent of the legislation is to reduce Missouri electricity bills by reducing electric company financing costs. However, the financing costs (principal and interest payments, etc.) of ratepayer-backed bond financing are passed on to ratepayers and are "non-bypassable". This legislation has an unknown fiscal impact to FMDC in that it is uncertain and impossible to predict the level of net fiscal impact incurred by FMDC by the net effect of the increased cost of financing costs paid by FMDC versus the possible cost avoidance of a reduction in electricity rates paid by FMDC.

Since it is unknown how many utility companies will apply to the Public Service Commission for a financing order authorizing the issuance of MO-EBRA bonds (if any), **Oversight** will reflect a range from \$0 (no change in utility rates) to an unknown cost (less than \$250,000) to the General Revenue Fund, Other State Funds, colleges and universities, and to political subdivisions.

Officials from the **Joint Committee on Administrative Rules** assume this proposal is not anticipated to cause a fiscal impact beyond its current appropriation.

Officials from the **Office of the Secretary of State** notes many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The Secretary of State's office is provided with core funding to handle a

L.R. No. 1660H.02C Bill No. HCS for HB 734 Page **5** of **8** April 6, 2021

certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to Secretary of State's office for Administrative Rules is less than \$5,000. The Secretary of State's office recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, they also recognize that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what their office can sustain with their core budget. Therefore, they reserve the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Officials from the **Department of Natural Resources**, the **Missouri Department of Conservation**, the **Missouri Department of Transportation** and the **State Tax Commission** each assume the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

In response to a previous version, officials from the Attorney General's Office, the City of O'Fallon and the St. Louis Budget Division each assumed the proposal will have no fiscal impact on their organizations. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for those agencies.

**Oversight** only reflects the responses that we have received from state agencies and political subdivisions; however, other counties were requested to respond to this proposed legislation but did not. A general listing of political subdivisions included in our database is available upon request.

# FISCAL IMPACT – Small Business

Small businesses could have an increase/decrease in utility cost as a result of this proposal.

L.R. No. 1660H.02C Bill No. HCS for HB 734 Page **8** of **8** April 6, 2021

#### FISCAL DESCRIPTION

This proposal creates provisions allowing electrical corporations to issue bonds to finance energy transition costs.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
