

COMMITTEE ON LEGISLATIVE RESEARCH
OVERSIGHT DIVISION

FISCAL NOTE

L.R. No.: 4311S.01I
 Bill No.: SB 745
 Subject: Employment Security
 Type: Original
 Date: January 9, 2024

Bill Summary: This proposal modifies the duration of unemployment benefits based on the unemployment rate.

FISCAL SUMMARY

ESTIMATED NET EFFECT ON GENERAL REVENUE FUND			
FUND AFFECTED	FY 2025	FY 2026	FY 2027
General Revenue Fund*	More or Less \$313,665	More or Less \$627,329	More or Less \$627,329
Total Estimated Net Effect on General Revenue	More or Less \$313,665	More or Less \$627,329	More or Less \$627,329

*Oversight notes changes to Section 288.060 from HB 150 (2015 – Governor’s veto was overridden) were declared unconstitutional; therefore, the current maximum number of weeks eligible for benefits is still 20 weeks. This proposal reinstates these changes, resulting in potential savings from the potential reduction in the maximum number weeks unemployment benefits may be paid.

ESTIMATED NET EFFECT ON OTHER STATE FUNDS			
FUND AFFECTED	FY 2025	FY 2026	FY 2027
Other State Funds*	More or Less \$163,732	More or Less \$327,463	More or Less \$327,463
Total Estimated Net Effect on <u>Other</u> State Funds	More or Less \$163,732	More or Less \$327,463	More or Less \$327,463

Numbers within parentheses: () indicate costs or losses.

*Oversight notes changes to Section 288.060 from HB 150 (2015 – Governor’s veto was overridden) were declared unconstitutional; therefore, the current maximum number of weeks eligible for benefits is still 20 weeks. This proposal reinstates these changes, resulting in potential savings from the potential reduction in the maximum number weeks unemployment benefits may be paid.

ESTIMATED NET EFFECT ON FEDERAL FUNDS			
FUND AFFECTED	FY 2025	FY 2026	FY 2027
Unemployment Insurance Trust Fund*	More than or Less than \$18,895,031	More than or Less than \$37,790,062	More than or Less than \$37,790,062
Other Federal Funds	More or Less than \$99,936	More or Less than \$199,872	More or Less than \$199,872
UI Admin. Trust Fund	(\$186,156)	\$0	\$0
Total Estimated Net Effect on <u>All</u> Federal Funds	More than or Less than \$18,808,811	More than or Less than \$37,989,934	More than or Less than \$37,989,934

*Oversight notes changes to Section 288.060 from HB 150 (2015 – Governor’s veto was overridden) were declared unconstitutional; therefore, the current maximum number of weeks eligible for benefits is still 20 weeks. This proposal reinstates these changes, resulting in potential savings from the potential reduction in the maximum number weeks unemployment benefits may be paid.

ESTIMATED NET EFFECT ON FULL TIME EQUIVALENT (FTE)			
FUND AFFECTED	FY 2025	FY 2026	FY 2027
Total Estimated Net Effect on FTE	0	0	0

- Estimated Net Effect (expenditures or reduced revenues) expected to exceed \$250,000 in any of the three fiscal years after implementation of the act or at full implementation of the act.
- Estimated Net Effect (savings or increased revenues) expected to exceed \$250,000 in any of the three fiscal years after implementation of the act or at full implementation of the act.

ESTIMATED NET EFFECT ON LOCAL FUNDS			
FUND AFFECTED	FY 2025	FY 2026	FY 2027
Local Government	\$0	\$0	\$0

FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Labor and Industrial Relations (DOLIR)** note:

Division of Employment Security (DES)

Section 288.060 is amended to remove the current language used to determine unemployment benefit duration and indexes the maximum number of weeks of unemployment benefits that are payable to the average statewide unemployment rate.

The unemployment rate used to determine the number of weeks available on the claim would be the statewide rate published by the United States Department of Labor, Bureau of Labor Statistics, on the date that the initial claim is filed. DES assumes the effective date of a claim will be the effective date of a claimant’s benefit year.

DES estimates eligible claimants receiving from \$0 (no change) to \$79.2 million less in regular unemployment insurance (UI) benefits if the indexing method is implemented. This chart, based on the current claims level, estimates a yearly decrease in benefits paid for each week reduction in the duration of unemployment benefits:

If Unemployment Rate Is	# Regular UI Weeks Reduced	Maximum Duration for Regular UI	Estimated Regular UI Benefits NOT Paid to Eligible Recipients (Trust Fund)	Incremental Difference For Additional Week
>9.0%	0 weeks (no change)	20 weeks		
8.6% - 9.0%	1 week	19 weeks	\$4,644,324	\$4,644,324
8.1% - 8.5%	2 weeks	18 weeks	\$9,792,894	\$5,148,570
7.6% - 8.0%	3 weeks	17 weeks	\$15,185,195	\$5,392,301
7.1% - 7.5%	4 weeks	16 weeks	\$21,092,027	\$5,906,832
6.6% - 7.0%	5 weeks	15 weeks	\$27,394,388	\$6,302,360
6.1% - 6.5%	6 weeks	14 weeks	\$34,227,013	\$6,832,625
5.6% - 6.0%	7 weeks	13 weeks	\$41,427,871	\$7,200,858
5.1% - 5.5%	8 weeks	12 weeks	\$48,974,573	\$7,546,702
4.6% - 5.0%	9 weeks	11 weeks	\$56,535,413	\$7,560,840
4.1% - 4.5%	10 weeks	10 weeks	\$64,096,253	\$7,560,840

3.6% - 4.0%	11 weeks	9 weeks	\$71,657,093	\$7,560,840
3.5%	12 weeks	8 weeks	\$79,217,933	\$7,560,840

If the number of individuals receiving benefits increases or decreases from current claim levels, the estimated amount of UI benefits not paid from the trust fund would also increase or decrease accordingly.

Officials from the DOLIR also assume a one-time cost (FY 2025) for all ITSD adjustment to the UIneract software that restructure, analyze, design, develop, test, implement, and allows for an ongoing support at \$117.76 per hour (project total of 1,587.60 hrs.) in total cost of \$186,956 in FY 2025 to Federal Administrative Fund. Therefore, **Oversight** will reflect the cost for all necessary upgrades to UI Administrative Trust Fund in FY 2025.

Oversight notes that according to the U.S. Department of Labor, Missouri's average seasonally adjusted unemployment rate for the time period of October to December 2018 was 3.1%. Additionally the Missouri seasonally adjusted unemployment rate for October to December 2019 was 3.1%. **Oversight** will not show an average unemployment rate for FY 2020 due to the COVID-19 fluctuation in unemployment rates and as a potential outlier.

Oversight notes there is a change in the fiscal note if compared to similar legislation, HB 1409 from 2018. According to DOLIR the assumption was made that the amount of funding is based on the number of weeks paid which was incorrect, in fact the Federal funding for administration of the Unemployment Compensation Program is based on the number of initial claims processed, which they believe did not change the impact of the proposal. Therefore, **Oversight** will not reflect any additional reduction to the Unemployment Compensation Administration Fund.

Oversight notes that the average duration of unemployment claims in last three years was 13.6 weeks rounded to nearest tenth.

Year	Quarter	Average Duration of Unemployment Past 12 Months.
2018	1	12.3
2018	2	12.1
2018	3	12.2
2018	4	12.3
2019	1	12.5
2019	2	12.8
2019	3	12.8
2019	4	12.9
2020	1	10.9
2020	2	10.7
2020	3	13.3
2020	4	13.9
2021	1	14.7
2021	2	20.9
2021	3	16.4
2021	4	15
2022	1	14.1
2022	2	15.6
2022	3	12.9
Average		13.59

Source: https://oui.doleta.gov/unemploy/data_summary/DataSummTable.asp

Oversight will note that U.S. DOL shows an average unemployment insurance rate in Missouri was 1.9% from 2018 to 2020 with 30% of total unemployed workers claiming maximum of 20 weeks at any time. (Source: <https://oui.doleta.gov/unemploy/claims.asp>) Since the actual average duration of unemployment payments in Missouri between 2018 and 2021 was 14 weeks (rounded); however, excluding 2020 to 2021 due to COVID shows average of 12.3 weeks (see above chart), and the current unemployment rate in Missouri is 2.7 % (<https://meric.mo.gov/missouri-monthly-jobs-report>) the claims would be limited to 8 weeks under the proposal.

Therefore, **Oversight** will reflect a savings to the Unemployment Trust Fund of DOLIR’s estimate of weekly incremental savings between weeks 12 and 8 [(\$7,546,702) + (\$7,560,840 x 4)] = \$37,790,062).

Officials from the **Office of Administration (OA)** note:

Per section 288.060.5, the duration of benefits payable to any insured worker during any benefit year shall be limited to eight weeks if unemployment rate is at or below 3 ½%.

Currently the duration of benefits payable to any insured worker during any benefit year is limited to thirteen weeks if the average unemployment rate is below 6%. This fiscal note would decrease this to eight weeks if the rate is below 3 1/2 %.

The number of OA state employees who drew unemployment benefits in FY23 was 1,106. The maximum unemployment benefits paid are \$320 per week. Assuming all employees will draw the maximum 5 weeks less than in FY23, the maximum savings to the State would be \$1.8 million. However, the unemployment benefit and weeks drawn varies by individual, therefore the savings will range from zero to \$1.8 million.

The total was allocated between General Revenue, Federal and Other based on Office of Administrations Unemployment Payment Data for FY23.

Oversight notes the U.S. Department of Labor shows the average weekly benefits from 2016 to 2019 was \$261 per week and average exhaustion of 12.3 week as shown in table below:

Table 1. Unemployment Data

State	Year	Quarter	Average Duration Past 12 Months	Insured Unemployment Rate	Average Weekly Benefits	Average Weekly Wage
			Weeks	(%)	\$	\$
MO	2016	1	NA	1.40	NA	\$867
MO	2016	2	12.6	0.80	\$253.0	\$872
MO	2016	3	12.4	1.00	\$249.8	\$883

MO	2016	4	12.0	0.90	\$249.6	\$879
MO	2017	1	11.9	1.20	\$262.3	\$892
MO	2017	2	12.1	0.90	\$261.3	\$898
MO	2017	3	12.1	0.90	\$259.5	\$896
MO	2017	4	12.1	0.90	\$253.6	\$903
MO	2018	1	12.3	1.10	\$268.6	\$910
MO	2018	2	12.1	0.80	\$268.0	\$920

			12.3		\$260.7	

Source: [Dept. Labor Data 2016-2020 here](#)

Oversight notes that not all unemployed workers who file for benefit use maximum benefits given. Additionally, Oversight did not use any data points published between 2020 and 2021 because, with the COVID – 19 pandemic the numbers would be unrealistically high.

Oversight notes that officials from the OA provided information that not all unemployment benefits paid in were paid from the General Revenue Fund, but instead using some Federal and Other State funds to fulfill the obligation.

Therefore, **Oversight** will reflect savings in amount of \$1,154,664 (\$261 x 4 weeks x 1,106 displaced (unemployed) workers with impact that could be less than or exceed \$627,329 in General Revenue Fund (54.33%), \$199,872 in Federal Funds (17.31%) and \$327,463 in an Other State Funds (28.36%) on the fiscal note.

Official from the **Department of Natural Resources (DOC)** defer to the OA for the potential fiscal impact of this proposal.

Officials from the **Missouri Department of Transportation**, the **Department of Natural Resources**, the **Missouri Department of Conservation**, the **Missouri Department of**

Transportation each assume the proposal will have no fiscal impact on their organization. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for above agencies.

Officials from the **Missouri University System** and **Northwest Missouri State University** both assume the proposal will have no fiscal impact on their organization. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note.

Officials from the **City of Kansas City** assume this legislation could have a positive fiscal impact on Kansas City in an indeterminate amount.

Officials from the **University of Central Missouri (UCM)** assume the proposal will have an indeterminate impact on their organization; however, did not provide any additional specifics.

Oversight notes the above organizations have stated the proposal would have a direct fiscal impact on their organizations. The threshold balance of the Trust Fund is required to be met to trigger a discount for employers. Oversight notes the state government and larger municipal governments would not be impacted; however, smaller municipalities may be impacted (an increase in the threshold balance required to receive the discount may reduce the discounts received by smaller political subdivisions).

Oversight notes that reduction in collections of unemployment could modify the balance levels in the Unemployment Compensation Trust Fund at which employer contribution rates would be changed. Therefore, the proposed language would potentially allow a higher balance to be accumulated in the fund.

Oversight assumes the Board of Unemployment Fund Financing would have the option to issue debt instruments in place of federal loans. Oversight notes the debt instruments may have a higher interest rate than the federal loans, but Missouri employers could potentially avoid the reduction in state tax credit on federal unemployment taxes if federal loans are paid off with state financing instruments. This would tend to offset the additional interest cost of the state financing instruments.

However, for purpose of this fiscal note, **Oversight** will note zero impact due to the fluctuation of tax rate and collection potential at this time, as this represent indirect impact to the local governments and businesses in the fiscal note.

The changes to Section 280.060 are effective January 1, 2025. Therefore, **Oversight** will reflect six months of impact in FY 2025.

<u>FISCAL IMPACT – State Government</u>	FY 2025 (6 Mo.)	FY 2026	FY 2027
GENERAL REVENUE FUND			
<u>Savings – OA – Section 288.060 - 8 week unemployment State Employees (p.6)</u>	More or Less <u>\$313,665</u>	More or Less <u>\$627,329</u>	More or Less <u>\$627,329</u>

FISCAL IMPACT – Small Business

Changes to Missouri's unemployment insurance laws have the potential to increase or decrease the amount of unemployment taxes small businesses pay depending on the state's average unemployment rate.

FISCAL DESCRIPTION

Under current law, the maximum duration for an individual to receive unemployment benefits is 20 weeks. This act modifies the duration an individual can receive such benefits by basing it on the Missouri average unemployment rate, as follows:

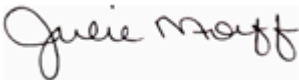

- 20 weeks if the Missouri unemployment rate is higher than nine percent;
- 19 weeks if the Missouri unemployment rate is higher than 8.5% but no higher than 9%;
- 18 weeks if the Missouri unemployment rate is higher than 8% but no higher than 8.5%;
- 17 weeks if the Missouri unemployment rate is higher than 7.5% but no higher than 8%;
- 16 weeks if the Missouri unemployment rate is higher than 7% but no higher than 7.5%;
- 15 weeks if the Missouri unemployment rate is higher than 6.5% but no higher than 7%;
- 14 weeks if the Missouri unemployment rate is higher than 6% but no higher than 6.5%;
- 13 weeks if the Missouri unemployment rate is higher than 5.5% but no higher than 6%;
- 12 weeks if the Missouri unemployment rate is higher than 5% but no higher than 5.5%;
- 11 weeks if the Missouri unemployment rate is higher than 4.5% but no higher than 5%;
- 10 weeks if the Missouri unemployment rate is higher than 4% but no higher than 4.5%;
- 9 weeks if the Missouri unemployment rate is higher than 3.5% but no higher than 4%; and
- 8 weeks if the Missouri unemployment rate is at or below 3.5%.

These provisions take effect beginning January 1, 2025.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
