64 Charter schools operating on August 27, 2012, shall have until August 28, 2015, to meet the requirements of this subsection.

- 2. Proposed charters shall be subject to the following requirements:
- (1) A charter shall be submitted to the sponsor, and follow the sponsor's policies and procedures for review and granting of a charter approval, and be approved by the state board of education by January thirty-first prior to the school year of the proposed opening date of the charter school;
- (2) A charter may be approved when the sponsor determines that the requirements of this section are met, determines that the applicant is sufficiently qualified to operate a charter school, and that the proposed charter is consistent with the sponsor's charter sponsorship goals and capacity. The sponsor's decision of approval or denial shall be made within ninety days of the filing of the proposed charter;
- (3) If the charter is denied, the proposed sponsor shall notify the applicant in writing as to the reasons for its denial and forward a copy to the state board of education within five business days following the denial;
- (4) If a proposed charter is denied by a sponsor, the proposed charter may be submitted to the state board of education, along with the sponsor's written reasons for its denial. If the state board determines that the applicant meets the requirements of this section, that the applicant is sufficiently qualified to operate the charter school, and that granting a charter to the applicant would be likely to provide educational benefit to the children of the district, the state board may grant a charter and act as sponsor of the charter school. The state board shall review the proposed charter and make a determination of whether to deny or grant the proposed charter within sixty days of receipt of the proposed charter, provided that any charter to be considered by the state board of education under this subdivision shall be submitted no later than March first prior to the school year in which the charter school intends to begin operations. The state board of education shall notify the applicant in writing as the reasons for its denial, if applicable; and
- (5) The sponsor of a charter school shall give priority to charter school applicants that propose a school oriented to high-risk students and to the reentry of dropouts into the school system. If a sponsor grants three or more charters, at least one-third of the charters granted by the sponsor shall be to schools that actively recruit dropouts or high-risk students as their student body and address the needs of dropouts or high-risk students through their proposed mission, curriculum, teaching methods, and services. For purposes of this subsection, a "high-risk" student is one who is at least one year behind in satisfactory completion of course work or obtaining high school credits for graduation, has dropped out of school, is at risk of dropping out of school, needs drug and alcohol treatment, has severe behavioral problems, has been suspended from school three or more times, has a history of severe truancy, is a pregnant or parenting teen,

has been referred for enrollment by the judicial system, is exiting incarceration, is a refugee, is homeless or has been homeless sometime within the preceding six months, has been referred by an area school district for enrollment in an alternative program, or qualifies as high risk under department of elementary and secondary education guidelines. Dropout shall be defined through the guidelines of the school core data report. The provisions of this subsection do not apply to charters sponsored by the state board of education.

- 3. If a charter is approved by a sponsor, the charter application shall be submitted to the state board of education, along with a statement of finding by the sponsor that the application meets the requirements of sections 160.400 to 160.425 and section 167.349 and a monitoring plan under which the charter sponsor shall evaluate the academic performance, including annual performance reports, of students enrolled in the charter school. The state board of education shall approve or deny a charter application within sixty days of receipt of the application. The state board of education may deny a charter on grounds that the application fails to meet the requirements of sections 160.400 to 160.425 and section 167.349 or that a charter sponsor previously failed to meet the statutory responsibilities of a charter sponsor. Any denial of a charter application made by the state board of education shall be in writing and shall identify the specific failures of the application to meet the requirements of sections 160.400 to 160.425 and section 167.349, and the written denial shall be provided within ten business days to the sponsor.
 - 4. A charter school shall, as provided in its charter:
- (1) Be nonsectarian in its programs, admission policies, employment practices, and all other operations;
- (2) Comply with laws and regulations of the state, county, or city relating to health, safety, and state minimum educational standards, as specified by the state board of education, including the requirements relating to student discipline under sections 160.261, 167.161, 167.164, and 167.171, notification of criminal conduct to law enforcement authorities under sections 167.115 to 167.117, academic assessment under section 160.518, transmittal of school records under section 167.020, the minimum amount of school time required under section 171.031, and the employee criminal history background check and the family care safety registry check under section 168.133;
- (3) Except as provided in sections 160.400 to 160.425 and as specifically provided in other sections, be exempt from all laws and rules relating to schools, governing boards and school districts;
- (4) Be financially accountable, use practices consistent with the Missouri financial accounting manual, provide for an annual audit by a certified public accountant, publish audit reports and annual financial reports as provided in chapter 165, provided that the annual financial report may be published on the department of elementary and secondary education's internet

website in addition to other publishing requirements, and provide liability insurance to indemnify the school, its board, staff and teachers against tort claims. A charter school that receives local educational agency status under subsection 6 of this section shall meet the requirements imposed by the Elementary and Secondary Education Act for audits of such agencies and comply with all federal audit requirements for charters with local educational agency status. For purposes of an audit by petition under section 29.230, a charter school shall be treated as a political subdivision on the same terms and conditions as the school district in which it is located. For the purposes of securing such insurance, a charter school shall be eligible for the Missouri public entity risk management fund pursuant to section 537.700. A charter school that incurs debt shall include a repayment plan in its financial plan;

- (5) Provide a comprehensive program of instruction for at least one grade or age group from early childhood through grade twelve, as specified in its charter;
- (6) (a) Design a method to measure pupil progress toward the pupil academic standards adopted by the state board of education pursuant to section 160.514, establish baseline student performance in accordance with the performance contract during the first year of operation, collect student performance data as defined by the annual performance report throughout the duration of the charter to annually monitor student academic performance, and to the extent applicable based upon grade levels offered by the charter school, participate in the statewide system of assessments, comprised of the essential skills tests and the nationally standardized norm-referenced achievement tests, as designated by the state board pursuant to section 160.518, complete and distribute an annual report card as prescribed in section 160.522, which shall also include a statement that background checks have been completed on the charter school's board members, and report to its sponsor, the local school district, and the state board of education as to its teaching methods and any educational innovations and the results thereof. No charter school shall be considered in the Missouri school improvement program review of the district in which it is located for the resource or process standards of the program.
- (b) For proposed high-risk or alternative charter schools, sponsors shall approve performance measures based on mission, curriculum, teaching methods, and services. Sponsors shall also approve comprehensive academic and behavioral measures to determine whether students are meeting performance standards on a different time frame as specified in that school's charter. Student performance shall be assessed comprehensively to determine whether a high-risk or alternative charter school has documented adequate student progress. Student performance shall be based on sponsor-approved comprehensive measures as well as standardized public school measures. Annual presentation of charter school report card data to the department of elementary and secondary education, the state board, and the public shall include comprehensive measures of student progress.

- (c) Nothing in this subdivision shall be construed as permitting a charter school to be held to lower performance standards than other public schools within a district; however, the charter of a charter school may permit students to meet performance standards on a different time frame as specified in its charter. The performance standards for alternative and special purpose charter schools that target high-risk students as defined in subdivision (5) of subsection 2 of this section shall be based on measures defined in the school's performance contract with its sponsors;
 - (7) Comply with all applicable federal and state laws and regulations regarding students with disabilities, including sections 162.670 to 162.710, the Individuals with Disabilities Education Act (20 U.S.C. Section 1400) and Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. Section 794) or successor legislation;
- 183 (8) Provide along with any request for review by the state board of education the following:
 - (a) Documentation that the applicant has provided a copy of the application to the school board of the district in which the charter school is to be located, except in those circumstances where the school district is the sponsor of the charter school; and
 - (b) A statement outlining the reasons for approval or denial by the sponsor, specifically addressing the requirements of sections 160.400 to 160.425 and 167.349.
 - 5. (1) Proposed or existing high-risk or alternative charter schools may include alternative arrangements for students to obtain credit for satisfying graduation requirements in the school's charter application and charter. Alternative arrangements may include, but not be limited to, credit for off-campus instruction, embedded credit, work experience through an internship arranged through the school, and independent studies. When the state board of education approves the charter, any such alternative arrangements shall be approved at such time.
 - (2) The department of elementary and secondary education shall conduct a study of any charter school granted alternative arrangements for students to obtain credit under this subsection after three years of operation to assess student performance, graduation rates, educational outcomes, and entry into the workforce or higher education.
 - 6. The charter of a charter school may be amended at the request of the governing body of the charter school and on the approval of the sponsor. The sponsor and the governing board and staff of the charter school shall jointly review the school's performance, management and operations during the first year of operation and then every other year after the most recent review or at any point where the operation or management of the charter school is changed or transferred to another entity, either public or private. The governing board of a charter school may amend the charter, if the sponsor approves such amendment, or the sponsor and the governing board may reach an agreement in writing to reflect the charter school's decision to

In such case the sponsor shall give the department of elementary and secondary education written notice no later than March first of any year, with the agreement to become effective July first. The department may waive the March first notice date in its discretion. The department shall identify and furnish a list of its regulations that pertain to local educational agencies to such schools within thirty days of receiving such notice.

- 7. Sponsors shall annually review the charter school's compliance with statutory standards including:
 - (1) Participation in the statewide system of assessments, as designated by the state board of education under section 160.518;
- 217 (2) Assurances for the completion and distribution of an annual report card as prescribed 218 in section 160.522;

 - 8. (1) (a) A sponsor's policies shall give schools clear, adequate, evidence-based, and timely notice of contract violations or performance deficiencies and mandate intervention based upon findings of the state board of education of the following:
 - a. The charter school provides a high school program which fails to maintain a graduation rate of at least seventy percent in three of the last four school years unless the school has dropout recovery as its mission;
 - b. The charter school's annual performance report results are below the district's annual performance report results based on the performance standards that are applicable to the grade level configuration of both the charter school and the district in which the charter school is located in three of the last four school years; and
 - c. The charter school is identified as a persistently lowest achieving school by the department of elementary and secondary education.
 - (b) A sponsor shall have a policy to revoke a charter during the charter term if there is:
 - a. Clear evidence of underperformance as demonstrated in the charter school's annual performance report in three of the last four school years; or
 - b. A violation of the law or the public trust that imperils students or public funds.
 - (c) A sponsor shall revoke a charter or take other appropriate remedial action, which may include placing the charter school on probationary status for no more than twenty-four months, provided that no more than one designation of probationary status shall be allowed for the duration of the charter contract, at any time if the charter school commits a serious breach of one

or more provisions of its charter or on any of the following grounds: failure to meet the performance contract as set forth in its charter, failure to meet generally accepted standards of fiscal management, failure to provide information necessary to confirm compliance with all provisions of the charter and sections 160.400 to 160.425 and 167.349 within forty-five days following receipt of written notice requesting such information, or violation of law.

- (2) The sponsor may place the charter school on probationary status to allow the implementation of a remedial plan, which may require a change of methodology, a change in leadership, or both, after which, if such plan is unsuccessful, the charter may be revoked.
- (3) At least sixty days before acting to revoke a charter, the sponsor shall notify the governing board of the charter school of the proposed action in writing. The notice shall state the grounds for the proposed action. The school's governing board may request in writing a hearing before the sponsor within two weeks of receiving the notice.

Child care benefits provided under the hand-up program shall continue to be paid for as under the existing state child care assistance program.
- 5. After the first year of the program, or sooner if feasible, the cost of administering the program shall be paid out of the premiums received. Any premiums collected exceeding the cost of administering the program shall, if required by federal law, be shared with the federal government and the state general revenue fund in the same proportion that the federal government shares in the cost of funding the child care assistance program with the state.
- 6. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated under this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028.
